Park Road Widening.
Ex. Cad. Lot 112.
Western.

Area required, Mow 0.242.

Cadastral Lot 112, Western, is situated at the S. E. corner of Park Road and Avenue Road, and is a compact well-developed Chinese property built some 6 years ago.

The schedule widening of the Park and Avenue Roads at this point will cause very considerable damage to the owner who will experience a loss out of proportion to the assessed value of the land surrendered. This is essentially a case where compensation should be based on the actual loss in income plus reconstruction costs, which I estimate as under:—

	Per mcon.
Complete loss of 4 shops-rent	$ 96
Loss of part of 3 room shop with a consequent loss of rent of	$ 30
Loss of part of Kitchens of 4 hongs say	$ 10
Gross loss of Rent ..	$ 136
	$ 136
Outgoing will only be reduced in respect to the 4 shops ..	$ 20
Net Loss of Rent	$ 116

at Ex. 73—Tls. 1,020 per annum.

Tls. 1,020 capitalized at 7 per cent.	₹14,570
Add temporary loss of rent during alterations on 3 room shop and hongs	270
	₹14,840
Add 10 per cent. for compulsory surrender	1,484
	₹16,324
Add reconstruction costs Rebuilding 3 room shop ₹3,000	
Back wall of hongs .. 1,000	4,000
Total compensation payable	₹20,324

P. Peebles.

Council Chamber,
Shanghai, February 17, 1925.

Gentlemen,—I am directed to acknowledge receipt of your letter of January 19, to the Commissioner of Public Works, submitting a claim of Tls. 20,324 for surrender of an area of Mow 0.242, required from Cadastral Lot 112 for the scheduled widening of Avenue Road.

In reply thereto, I am directed to observe that your contention that the surrender will involve the property in "a loss out of all proportion to the assessed value of the land surrendered" would appear to be hardly correct, inasmuch as the lot will suffer no loss in frontage, and, as far as development is concerned, the shape of the lot will be improved by the projected road widening. I am also directed to state that the amount claimed as permanent annual loss of rental is considered excessive, and to offer compensation for surrender of the scheduled area in the sum of Tls. 9,591, calculated as follows:—

Loss in annual value

Estimated permanent gross annual loss	$ 760
Outgoings 25 per cent.	190
	$ 570
Exchange .73	₹ 416
Capitalized at 8 per cent. ..	₹ 5,201
Add 10 per cent.	520
Reinstatement.	
Setting back wall of hongs	600
Erecting three-roomed shop	3,000
Temporary Loss of Rent	270
	₹ 9,591

I shall, therefore, be obliged if you will inform me whether this offer is acceptable.

I am, Gentlemen,
Your obedient servant,
E. S. B. Rowe,
Secretary.

Messrs. Platt & Co.

Council Chamber,
Shanghai, June 15, 1925.

Gentlemen,—With reference to my letter of February 17 last, I shall be obliged if you will kindly inform me whether you are prepared to accept the offer contained therein, Tls. 9,591 for the area of Mow 0.242 required from Cadastral Lot 112 for the widening of Avenue Road.

Messrs. Platt & Co.

Shanghai, June 19, 1925.

Dear Sir,—With reference to your letter of June 15, we regret that, owing to the present trouble, our client, Mr. Wong Teh Kee, has either been unable, or has declined, to give us instructions as to whether your offer of Tls. 9,591 is to be accepted or not.

Shanghai, August 13, 1925.

Dear Sir,—Our client, Mr. Wong Teh Kee, has been instructing Mr. Peebles with regard to valuation of the area required by you, and as Mr. Peebles is now away he is unable to give us instructions as to whether your offer of Tls. 9,591 is to be accepted or not.

Yours faithfully,
Platt & Co.

E. S. B. Rowe, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 15, 1926.

Gentlemen,—I am directed to refer to the Council's letter of February 17, 1925, relative to the area of Mow 0.242 required from Cadastral Lot 112, for the scheduled widening of Avenue and Park Roads, and to inform you that in view of certain recommendations by the Traffic Commission, Park Road was subsequently scheduled to 50 feet and the area required from Cadastral Lot 112 consequently increased to Mow 0.432. Accordingly, I am directed to offer compensation in the sum of Tls. 18,987 for the area of Mow 0.432 involved, calculated as follows:—

	Tls.
Net annual loss capitalized at 7 per cent.	14,534
Plus 10 per cent. for compulsory surrender	1,453
	Tls. 15,987
Estimated cost of erecting new shop on N. W. corner and remodelling shops on S. W. corner	3,000
	Tls. 18,987

As the Council desires to proceed with this widening without further delay, I shall be obliged if you will kindly inform me at your early convenience whether this offer is

acceptable, failing which the matter will be referred for decision to the Land Commission.

I am, Gentlemen,
Your obedient servant,
J. M. McKee,
Deputy Secretary.

Messrs. Platt & Co.

Shanghai, July 6, 1926.

Dear Sir,—Referring to your letter to us of June 15, regarding the widening of Park and Avenue Roads, ex Cadastral Lot 112 West, we beg to inform you that our client cannot accept the offer contained therein, and we enclose herewith a copy estimate by Mr. H. M. Cumine and the total amount therein mentioned is our client's claim for compensation in this matter.

Yours faithfully,
Platt & Co.

The Secretary,
Municipal Council.

Tls.	29,856.24
Plus 10 per cent. for Compulsory surrender	2,985.62
Tls.	32,841.86
Add Cost of Rebuilding, Alteration and Remodelling	6,500.00
Total Compensation payable ..... Tls.	39,341.86

Council Chamber,
Shanghai, July 19, 1926.

Gentlemen,—I am directed to acknowledge receipt of your letter of July 6, together with a copy estimate by Messrs. H. M. Cumine & Co. Ld. relative to the area required from Cadastral Lot 112 for the widening of Park and Avenue Roads.

In reply thereto, I am directed to state that the Council's offer of Tls. 18,987 was calculated on the basis that the buildings on the two small areas hatched blue on the plan already in your possession would be allowed to encroach over the scheduled line until rebuilding takes place; inadvertently this was not made clear in the Council's letter of June 15. In the circumstances it is considered that Messrs. Cumine & Co., Ltd., should in this respect be able to make some reduction in their estimate.

Further the surrender of the scheduled area will involve the demolition of certain shops, but Messrs. Cumine & Co. Ld., have claimed the full value of such shops based on the existing rents. The Council, however, only wishes to acquire the scheduled area, and cannot pay compensation on that area which will be retained and redeveloped by the owner.

I have also to point out that the usual deduction for annual outgoings is 25 per cent. of the gross rentals. Furthermore your claim for temporary loss of rent is apparently calculated on the assumption that no income will be received from any houses on this lot during the rebuilding to the new road line, whereas houses K-47-48-49-50 and L-103 will be unaffected by rebuilding operations, also I have further to point out that, no deduction appears to have been made in this case, for annual outgoings.

With regard to the 10 per cent. allowed by you for compulsory purchase, this should not be added to the temporary loss of rent, since this is merely an out-of-pocket expense and involves no capital loss.

In view of the foregoing, I should be glad if you would kindly submit an amended claim for compensation at your early convenience.

I am, Gentlemen,
Your obedient Servant,
S. M. Edwards,
Acting Secretary.

Messrs. Platt & Co.

Council Chamber,
Shanghai, November 1, 1926.

Gentlemen,—I am directed to refer again to the Council's letter of July 19, on the subject of the area required from Cadastral Lot 112, for the scheduled widening of Avenue and Park Roads, and to request that you will be so good as to favour me with a reply thereto at your earliest convenience, as the matter has now been outstanding for some considerable time.

I am, Gentlemen,
Your obedient Servant,
S. M. Edwards,
Secretary.

Messrs. Platt & Co.

Shanghai, November 22, 1926.

Dear Sir,—With reference to your letter of November 1, we beg to inform you that our client, Mr. Wong Teh Kee, has again consulted Mr. Cumine with regard to his claim for compensation for the surrender of a portion of Cadastral Lot 112 and has instructed us to again submit for your consideration the estimate for compensation which we forwarded to you on July 6 last. He considers that the amount claimed therein is fair and reasonable and cannot see his way to accept any reduction.

If the Municipal Council reject the figures in the copy estimate enclosed herewith, the matter will have to be referred to the Land Commissioners for their decision.

Yours faithfully,
Platt & Co.

S. M. Edwards, Esq.,
Secretary,
Municipal Council.

Re: Widening of Park Road and Avenue Road. Ex Cadastral Lot 112. Western District. Area required—Mow 0.432.

The above lot is known as B. C. Lot No. 1484.

I have seen the Report made by Mr. Philip Peebles and dated January 16, 1925; and in regard to his opinion that the compensation payable for the exquisition of an area of Mow 0.242 (the original area required by the Municipal Council) was Tls. 20,324.—I fully endorse the same.

With reference to the Council's letter dated June 16, 1926, a larger area had been scheduled than it was originally intended, being Mow 0.432. This larger area renders what is left in the houses perfectly unalterable unless 3 of the unaffected houses in the rear be included in the alteration.

	Per moon
Complete loss of 4 shops. Rent	$86.00
Loss of major portion of 3 roomed shop	86.00
Loss of part of kitchens of 4 hongs say	10.00

Tls.	32,841.86
Add Cost of Rebuilding, Alteration and Remodelling	6,500.00
Total Compensation payable ..... Tls.	39,341.86

Council Chamber,
Shanghai, December 8, 1926.

Gentlemen,—I am directed to acknowledge receipt of your letter of November 22, in connexion with the area required from Cadastral Lot 112 for the scheduled widening of Park and Avenue Roads.

In reply thereto, I am directed to state that as the rents of the buildings on the property have now been raised, and the gross annual loss consequent on the surrender will be increased, the Council is now willing to offer compensation in the sum of Tls. 20,762 calculated as follows:—

	Tls.
Net annual loss capitalized at 7 per cent.	15,768
Plus 10 per cent. for compulsory surrender	1,577
Rebuilding allowance	3,000
Add. Two areas hatched blue on plan, Mow 0.023 at assessed value of Tls. 16,500 per Mow plus 10 per cent.	417
Total	Tls. 20,762

In view of the statement contained in the last paragraph of your letter under reply, I am directed to inform you that it is inferred that this increased offer will not prove acceptable, and in the circumstances, I am directed to state that, in the absence of your acceptance thereof within fourteen days from date, the case will be referred for settlement to the Land Commission.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Messrs. PLATT & Co.

Shanghai, December 21, 1926.

DEAR SIR,—In reply to your letter of December 8, we beg to inform you that our client cannot accept the offer contained therein, and still adheres to his claim of Tls. 39,341.86.

The widening, which is proposed, will involve a total redevelopment of the lot, and if you cannot agree to our client's figure, the case will have to be referred for settlement to the Land Commission in accordance with the last paragraph in your letter.

Yours faithfully,
PLATT & Co.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Land Commission.

Proceedings before, and Award of, the Land Commissioners in Case No. 169, heard on December 2 and December 8, 1926:—

CASE No. 169.

Szechuen Road Widening.—Lessee's claim in connection with Cad. Lot No. 86—C. E. Shepherd—heard in the Council Chamber on Thursday, December 2, 1926, at 4 p.m. and adjourned to Wednesday, December 8, 1926, at 2.30 p.m.

PROCEEDINGS.

The Council is represented by Mr. G. H. Wright, their Legal Adviser, Mr. S. M. Edwards, Secretary of the Shanghai Municipal Council, being in attendance.

Mr. R. G. McDonald appears for the Lessee of the premises, Mr. C. E. Shepherd, supported by Mr. S. H. Lewis.

At the outset a point of procedure is raised by Mr. McDonald who expresses the opinion that the Plaintiff should open any case, to which Mr. Wright demurs, but even though Mr. McDonald cannot cite a concrete instance wherein his contention is corroborated, insofar as the Land Commission is concerned, the Commissioners give the requisite permission for Mr. Shepherd's Legal Adviser to open.

The case concerns the amount, if any, to be paid to a Lessee of a property, the Landlords having been separately compensated by the Shanghai Municipal Council in respect of an area to be excised from their Cadastral Lot.

At this Sitting, the Commissioners hear Mr. McDonald, who calls his Client Mr. Shepherd, examines him and who is, in turn, cross-examined by Mr. Wright.

The proceedings are reported verbatim and copies handed to both parties.

The hearing is adjourned at 6.50 p.m.

At 2.30 p.m., on December 8, 1926, the cross-examination of Mr. Shepherd is continued by Mr. Wright after which his client is re-examined by Mr. McDonald.

Then followed the examination by Mr. McDonald, cross-examination by Mr. Wright, and re-examination of Mr. E. F. Hardman, Partner in Messrs. Lowe, Bingham & Matthews, Chartered Accountants, following which Mr. J. A. Turner, Partner in Messrs. Seth, Mancell & McLure, Chartered Accountants, is called and examined by Mr. McDonald, thereby concluding the Plaintiff's case.

Mr. Wright, for the Council, calls Mr. R. E. Scatchard, examines him, he is cross-examined by Mr. McDonald, whereupon Mr. Wright addresses the Commissioners on behalf of the Council and Mr. McDonald for his Client, during which questions are put by the Chairman of the Commission on various points at issue.

The proceedings terminated at 6 p.m., the Chairman of the Land Commission intimating that the decision of the Commissioners would be notified to both parties in due course.

The proceedings are again reported verbatim and copies handed to both parties.

After considering the Case from all of the many aspects as presented, the Commissioners on this the 24th day of December, 1926 decide as follows:—

In this case heard on December 2 and December 8, 1926, Mr. C. E. Shepherd claims the sum of Mexican Dollars 142,871 as compensation for the compulsory surrender of a portion of the premises Nos. 73 and 73A Szechuen Road, of which he is the Lessee, for the widening of the Szechuen Road, and states that he is making no claim against the Landlord; it is, in fact, a case of valuing the Lessee's interest.

The Case is of great importance as it affects all leased property in the Settlement *vis-a-vis* the Council's powers for the compulsory acquisition of Land.

The Articles of Agreement between the Landlord and the Lessee dated February 6, 1925, contain no reference to any proposed road widening.

From the evidence before the Commissioners it appears that although the Claimant was aware of a possible road widening, he was not advised of any definite date on which such widening would be put into force, and as this surrender was first scheduled in 1922, three years before the Lease was signed, the Lessee had reasonable grounds for presuming that there might be still further delay possibly even until the termination of his lease in December 1930.

Under the Land Clauses Consolidation Act 1845—Section 120—Tenants to be Compensated—Every Lessee shall be entitled to receive from the promoters of the undertaking, compensation for the damage done to him in his tenancy by reason of the severance of the lands required from those not required or otherwise by reason of the execution of the works.

It is clear therefore that the Lessee's claim is against the acquiring body, in this Case the Municipal Council of Shanghai, and not against the Landlord.

The principle on which the Commissioners have acted is that the Landlord in this case has only a reversionary interest in the property and therefore the full compensation payable for the surrender should be apportioned between the Land Owner, who has been compensated, and the Lessee in accordance with the value of their respective interests in the property. For this reason the Commissioners are of the opinion that it would have been advisable for the claims of both the Landlord and the Lessee to have been adjusted at the same time.

The Net Annual Profits of the business as given in evidence are not disputed.

The Commissioners attach great importance to the evidence which shows that the Lessee is prohibited by the Landlord from altering the unsurrendered portion of his premises to make them suitable for the carrying on of his business, and hence is compelled to seek other premises at a reasonable rent, a by no means easy task owing to the nature of his business, and the award is based on the evidence that he is forced to vacate the unsurrendered portion of his present premises.

The Civil War in China.

An interchange of correspondence, in the terms set forth below, has taken place between the Commissioner for Foreign Affairs, the Senior Consul *ad interim*, and the Council with regard to the suppression in the Settlement of baseless war rumours regarding the civil war in China:—

Senior Consulate,
Shanghai, November 28, 1926.

SIR,—I have the honour to inform you that I am in receipt of a communication from the Commissioner for Foreign Affairs in which he asks that the Settlement authorities should take all possible steps to suppress the dissemination of baseless war rumours within the Settlement.

The Commissioner states that there is a number of newspapers and news agencies in the Settlement which frequently publish such misleading war news as seriously to affect the public order. A considerable amount of untrue war news is also said to be spread by handbills which are sold or distributed by hawkers in the streets and Mr. Hsu Yuan requests that strict instructions be given to the Shanghai Municipal Police to take drastic action to deal with such newspapers and publications as contain war news calculated to disturb the public mind.

I should be grateful if you would inform me of what steps have been or will be taken in this connection in order that I may reply to the Commissioner.

I have the honour to be,
Sir,
Your obedient servant,
N. AALL,
Consul-General for Norway and Senior Consul ad interim.

S. FESSENDEN, Esq.,
Chairman,
Municipal Council.

Council Chamber,
Shanghai, November 30, 1926.

SIR,—I have the honour to acknowledge receipt of your letter of November 28, informing the Council that you are in receipt of a communication from the Commissioner for Foreign Affairs, in which he asks that the Settlement authorities should take all possible steps to suppress the dissemination of baseless war rumours within the Settlement.

In reply, I have the honour to inform you that the matter is receiving attention, and that a further communication on this subject will be addressed to you in due course.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

N. AALL, Esq.,
Consul-General for Norway
and Senior Consul *ad interim.*

Council Chamber,
Shanghai, December 30, 1926.

SIR,—I have the honour to acknowledge receipt of your letter of November 28, informing the Council that you are in receipt of a communication from the Commissioner for Foreign Affairs requesting that all possible steps be taken to suppress the dissemination of baseless war rumours within the Settlement.

In reply thereto, I have the honour to state that the Settlement Police have instructions to exercise unceasing vigilance with a view to the prevention of war rumours calculated to disturb the public peace and the circulation of objectionable propaganda relating to the civil war now in progress in China, and to inform you that suitable action has been taken by the Police whenever such appeared to have been justified. The problem, however, is beset with great difficulty owing to the absence in the Settlement of suitable regulations governing published matter, which often renders it impossible to discover the offending parties and makes the circulation of objectionable literature without disclosure of the names and addresses of the responsible persons a matter of comparative ease.

In conclusion, I have the honour to assure you that there will be no relaxation of Police restrictive measures to the end desired and to state that the enforcement of any additional precautions conforming to existing laws and regulations, as recommended by the Chinese Authorities, will be readily considered by the Council.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

Motor Omnibus Services.

Further correspondence, in continuation of that which appeared in the Municipal Gazette of November 26, 1926, relative to the use of the Northern side of Avenue Edward VII and Avenue Foch by the French Tramway Company for the purpose of operating an omnibus service thereon, and to the fees chargeable therefor, is published for information:—

Cie. Francaise de Tramways et d'Eclairage Electriques de Shanghai,

Shanghai, December 18, 1926.

SIR,—In accordance with the terms of your letter of November 15 last, whereby the Council authorised the operation of our omnibuses on the North side of Avenues Edouard VII and Foch, we have to pay the same fees as those of the China General Omnibus Company, *viz.* per quarter:

a fixed route mileage fee of Tls. 125 per mile;
a licence fee per omnibus of Tls. 50 (half-rate).

In view of the fact that the roads in question are equally divided between the International and French Concessions, we understand that the fixed route mileage fee payable to the Shanghai Municipal Council will be only half of Tls. 125—Tls. 62.50 per quarter, which is the rate paid, as far as we know, by the China General Omnibus Company to each of the two Municipalities concerned. We shall appreciate your confirmation of this point.

On the other hand, the payment of a fixed route mileage fee per mile appears to us objectionable on the ground that it imposes on the Company concerned a fixed charge irrespective of the intensity of traffic on the road, whereas the amount of wear sustained by the road, and the consequent cost of maintenance, depends essentially on the weight and number of vehicles operating.

If these two factors are taken into account, so as to make the fee as proportionate as possible to the damage caused to the road, it would appear preferable to calculate such fee in accordance with the weight of each vehicle multiplied by the number of miles traversed, thus replacing the fixed route mileage fee by a variable fee per ton-mile.

We shall be obliged if you will let us know whether the Council is disposed to consider a revision of the present regulations in this way, in which case we are prepared to supply you with all the information you may require as to the weight and frequency of operation of our omnibuses.

Yours faithfully,
R. MONSERAN,
Manager.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, December 30, 1926.

SIR,—I am directed to acknowledge receipt of your letter of December 18, relative to the operation of your Company's omnibuses along the Northern side of Avenue Edward VII and Avenue Foch, between Yates Road and the Bund, within the limits of the International Settlement.

In reply, I am directed to express regret that the route mileage fee payable to this Council in respect of your omnibuses was erroneously stated to be Tls. 125

per mile and to inform you that the fee properly payable for a one-way service along this route is Tls. 50 per mile, which is the same as that paid in respect of the omnibuses operated on this route by the China General Omnibus Company.

Regarding your observations to the effect that the taxation of omnibuses on a route mileage basis works inequitably, I am directed to inform you that the Council at present has under consideration a revision of the basis upon which omnibuses are taxed, and to state that the system of taxation finally decided upon will be applied to all omnibuses operating in the International Settlement. As stated in my letter of November 15, no departure from the present system of taxation can, however, be permitted until after the next Annual Meeting of Ratepayers.

I am, Sir,
Your obedient servant,
J. M. McKee,
Deputy Secretary.

Shanghai, December 31, 1926.

Sir,—We have to acknowledge receipt of your letter No. 1689 of the 30th inst. in regard to the circulation of our Company's omnibuses along the Northern side of Avenue Edward VII and Avenue Foch.

We thank you for informing us that the route mileage fee payable by our Company to the Shanghai Municipal Council will be Tls. 50.00 per quarter and per mile, and not Tls. 125.00 as mentioned in your letter of November 15, 1926.

We have also taken note that the Council is at present considering a new basis for the taxation of omnibuses, and that the system which is finally decided upon will be applie to all omnibuses operating in the International Settlement.

Yours faithfully,
R. Monseran,
Manager.

New Omnibus Route in Eastern District:—In terms of the following correspondence, permission has been granted to the China General Omnibus Company, Ltd., to inaugurate a service along Muirhead and Ward Roads, from Wayside Piece to Lay Road, subject to the proviso that it be discontinued, if necessary, upon receipt of two weeks' notice from the Council.

The China General Omnibus Co., Ltd.

Shanghai, November 23, 1926.

Sir,—We have received a number of applications from the public for the provision of a Bus service on Ward Road, and we are prepared to inaugurate a trial service for a period, if our proposal is approved by the Council.

We attach hereto a sketch showing the route which we propose to develop. This new route will receive the Route Number Six.

The service will commence at Wayside and proceed *via* Muirhead and Ward Roads to Ying Hsiang Kong Village and return.

Trusting to receive the Council's approval to our proposal at their early convenience in order that arrangements may be at once made to start the new route.

Council Chamber,
Shanghai, December 1, 1926.

Gentlemen,—I am directed to acknowledge receipt of your letter of November 23, requesting permission to inaugurate a trial service of omnibuses on a new route, proposed to be known as Route No. 6, from the junction of Yangtszepoo and Wayside Roads along Muirhead and Ward Roads to Ying Hsiang Kong Village.

In reply thereto, I am directed to state that the suitability of the proposed route, which is mostly over a waterbound macadam road, is considered doubtful, having regard to the present heavy type of omnibus operated; and to inform you that, prior to consideration of your application, the Council desires information as to how the omnibuses for this new route are to be provided, and whether they are to be equipped with pneumatic tyres. I am also directed to add that permission cannot be granted to operate the proposed service East of Lay Road, in view of the unsuitability of the roadway for omnibus traffic.

I am, Gentlemen,
Your obedient servant,
J. M. McKee,
Deputy Secretary.

The China General Omnibus Co., Ltd.

Shanghai, December 23, 1926.

Sir,—We have for acknowledgment your letter of December 1, and we note that the suitability of the proposed route is doubtful as the Buses will operate over a waterbound macadam road.

In reply to the Council's enquiries, we beg to advise that we propose to operate only two vehicles of our ordinary type at present on this road as a trial to determine whether the reputed demand for transportation is justified.

We would point out that we have made an investigation of the lorry traffic on this road and find that during a period of 11½ hours *viz.* from 7.30 a.m. to 8.00 p.m. 87 lorries passed along Ward Road.

The total number of journeys made by our Buses in both directions will be about an average of 100/120 trips per day and it was our intention to equip these buses with semi-pneumatic or cushion tyres but recent experiments with this type of tyre have proved their unsuitability.

We would suggest that we be permitted to operate for a trial period of three months. As soon as we receive the pneumatic tyres on order and have made a successful trial thereof, we shall order further supplies especially for this route if desired, but we do not wish to hold up operation on Ward Road if this can be avoided.

The routes at present in operation absorb 41 buses, we count on having four under overhaul and repair, the remainder of our fleet being held in reserve. The two buses required for the Ward Road route would be drawn from this reserve.

Junior Golf Club.

Extension of Clubhouse.—Permission has been granted to the Shanghai Junior Golf Club to enlarge its premises at Hongkew Park in terms of the appended correspondence:—

The Shanghai Junior Golf Club,
Shanghai, December 17, 1926.

DEAR SIR,—The Committee and Members of the Shanghai Junior Golf Club respectfully ask permission to be allowed to enlarge their premises at Hongkew Park. There is a space of some 50-ft. by 30-ft. which is not used at all on the South side of the Club which could be utilised without inconveniencing the public.

The Club is in a position to put up a building in accordance with the Council's wishes. The present membership is over 300 and the accommodation very limited. The majority of the members are Ratepayers and live in the Northern area and they would greatly appreciate a Club House large enough to meet their requirements.

Should the Council view this scheme favourably, representatives of the Club Committee will be pleased to confer with the Council's architects and submit plans for their approval.

Thanking you for an early reply,
Yours faithfully,
S. BARTON,
Hon. President.

Shanghai, December 31, 1926.

DEAR SIR,—I take this opportunity at the close of the year to extend to you the sincere thanks of Door of Hope and Children's Refuge Committee for the Grants-in-aid which you have kindly given us.

Mr. L. F. Patstone, on the invitation of the Council, has accepted a seat on the Land Commission as the Council's nominee, for the Municipal year 1927/1928.

Municipal Properties.

Town Hall and Market Site.—As the present Town Hall site is considered unsuitable for the purposes for which it is at present used, the Council has for some time past been considering the advisability of selling this property; accordingly, it was decided to accept the offer of the Asia Realty Co., acting on behalf of their clients The China Co., Ltd., to purchase Cadastral Lot 631, on which the Town Hall and Market stand, exclusive of the portions required for road purposes, for a sum of Tls. 1,180,000 for the area of Mow 6.482.

Excerpts from Minutes.

At the meeting of the Foreign Education Committee held on Thursday, December 23, 1926, at 4.30 p.m., there are present:—Mr. A. D. Bell, *Chairman*, Mrs. A. D. Bowman, Mr. J. S. S. Cooper, Mrs. O. M. Green and Mr. R. F. C. Master

The Minutes of the last meeting are confirmed and signed.

Thomas Hanbury School for Boys —Holiday Charges.—The recommendation of the Headmaster that the scale of fees for boarders in operation during summer holidays be also imposed in respect of the other holidays when the school is closed for a period of not less than seven days, is unanimously endorsed. It is recommended that this ruling be also applicable to the Thomas Hanbury School for Girls.

BUDGET 1927.

Extraordinary Expenditure.

Consideration is given to the Estimates of Extraordinary Expenditure and in accordance with the usual procedure, the items are divided into three classes as follows:

"A" Those which the Council has already approved or are regarded as urgent.

"B" Those considered necessary and desirable to be carried out if funds permit.

"C" Those for which, having regard to financial and other considerations, members recommend that no appropriation be made during the current year.

LAND.

Public School for Girls—Yuyuen Road.—An appropriation of Tls. 1,700 for raising and turfing the playground extension which cannot be utilised until this work is carried out, is endorsed and marked "A."

Thomas Hanbury School for Girls.—An appropriation of Tls. 44,000 being balance of cost required to complete the purchase of this site is also endorsed and marked "A."

BUILDINGS.

Public School for Boys.—An appropriation of Tls. 1,500, being balance of cost for the erection of a Watchman's house, which work is already in hand, is marked "A," as is also an appropriation of Tls. 3,000 to provide modern latrines in the compound.

Public School for Girls—Yuyuen Road.—Appropriations of Tls. 1,500 and Tls. 100 respectively to provide a Girl Guides' playroom, and greenhouses are marked "C."

Junior Boys School—Western District.—Pending further consideration as to the erection of a new building, a nominal appropriation of Tls. 100 for this purpose and a nominal appropriation for the provision of a Play Shed and Lavatory are also marked "C."

ORDINARY EXPENDITURE.

Public School for Boys.—The Deputy Treasurer reports that the estimates as submitted show an increase of approximately Tls. 12,000 over last year's provision. Provision is made for the appointment of one additional Assistant Master for a period of nine months, for scale increases in respect of three Assistant Masters and for the temporary engagement of two Assistant Masters during the absence on leave of two of the permanent staff. The Deputy Treasurer's suggestion is endorsed that the provision made for the half time services of a woodwork Instructor be modified so as to provide for a third of his services only, since it is proposed that this employe's time should be divided equally between the Public and Thomas Hanbury Schools for Boys and the Polytechnic School for Chinese. Some discussion takes place regarding maintenance of the ratio of teachers to pupils laid down by the Council and also the stipulated ratio of receipts to expenditure in the course of which the Headmaster assures the Committee of his endeavour, so far as possible, to meet

the Council's requirements in this matter.

The various appropriations under Stock and Stores totalling Tls. 1,650, are then examined and endorsed.

Thomas Hanbury School for Boys.—The Deputy Treasurer and Comptroller reports that having regard to the fact that this school is of a semi-charitable nature, the ratio of receipts to expenditure can be regarded as satisfactory, and that the provisional estimates submitted follow closely the lines of the preceding years. Under *Chinese Pay*, it is noted that provision is made for the promotion of an employe to First Class Clerk, and after hearing the Headmaster, members agree that the duties undertaken by this employe justify the promotion and increased pay as recommended.

The appropriations under Stock and Stores are then examined, and subject to deletion of the provision of $200 for the purchase of an adding machine and reduction to $200 of the appropriation for the purchase of two carpets, the appropriations as submitted are endorsed.

Public School for Girls.—The Deputy Treasurer states that the estimates as submitted can be regarded as satisfactory, and that the ratio of pupils to teachers and percentage of receipts to expenditure laid down by the Council have been maintained.

With regard to the appropriation for laboratory apparatus, the Deputy Treasurer undertakes to discuss this matter with the Headmistress, with a view to the appropriation of Tls. 1,700 being reduced. He will also confer with the Headmistress as to the possibility of obtaining increased revenue from pupils in respect of the sale of text books, having regard to the depreciated rate of exchange; and the question of spreading over a number of years the provision of desks, chairs, etc. recommended by the Headmistress, will also be considered.

Thomas Hanbury School for Girls.—Members are informed that the estimated expenditure for this school is less than that estimated for 1926, and, taking into consideration the semi-charitable nature of the school, the Deputy Treasurer is of the opinion that the ratio of expenditure to receipts and the number of the teaching staff to the pupils may be regarded as satisfactory.

The various items under Stock and Stores are then examined in detail, and are endorsed.

Subject to the above observations and comments and to adjustment by the Treasurer and Comptroller as usual, the Estimates of the four schools for 1927 are then formally endorsed.

The meeting adjourns at 6 p.m.

At the meeting of the Health Committee held on Wednesday, January 5, 1927, at 4.30 p.m., there are present:—Mr. J. J. Paterson, *Chairman*, Drs. E. L. Marsh and F. M. Neild.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 6 p.m.

Serious Crime.—This includes the attempted murder of a Chinese Constable who was fired at by an armed man in the West Hongkew District on December 1; the murder of a Chinese female whose dead body bearing wounds on the face and head was found in a pool of water in the Yangtszepoo District on December 12; the murder of a Chinese girl who was shot dead by armed robbers at her home in the Sinza District on December 12; the murder of a Chinese Constable who was shot whilst on duty in the Wayside District on December 18 and relieved of his pistol; the murder of a Chinese boatman who was stabbed at a house in the Hongkew District on December

18 during a quarrel with another Chinese, and the murder of a Chinese female who was shot dead by a Chinese male on December 23 at a house on Burkill Road during a dispute over another female.

In the first mentioned case one man was arrested and sentenced to ten years' imprisonment. Two men arrested in the fourth case were under remand at the end of the month. One man arrested in the fifth mentioned case was acquitted, but on a lesser charge was sentenced to imprisonment.

One man wanted in connexion with the attempted murder of a Chinese who was shot at in the Louza District on June 5, was arrested on December 16. The accused was sentenced to imprisonment.

Robbery.—Fifty-two reports of armed robbery from premises and eleven on the highway were received during the month. Six cases of attempted armed robbery were also reported. Shots were fired by the robbers in seven instances resulting in a Chinese female being killed and another wounded.

In connexion with the above and reports of armed robberies occurring prior to December 1, twenty-five persons, nine of whom were in possession of loaded firearms, were arrested. Seven were sentenced to death, two were sentenced to imprisonment, one committed suicide and the remaining fifteen are on remand. Of eighteen men on remand at the end of November, ten were dealt with. Six were sentenced to imprisonment and the charges against four were dismissed. The remaining eight are still on remand. Five persons, three of whom were in possession of firearms, were arrested for being members or associates of armed robber gangs. Three were sentenced to imprisonment, one was expelled and one is under remand. Eight men were arrested and handed over to the French Police in connexion with armed robberies which occurred in the French Concession. Two men were apprehended for armed robberies in territory under Chinese jurisdiction and handed over to the authorities concerned.

Six robberies, in which no arms were used, were also reported. In connexion with one of these cases, two persons were arrested and sentenced to imprisonment.

Property Stolen.—610 reports made under this heading during the month represent an estimated loss of $171,131 and include 38 cases of burglary, 10 of house-breaking, 12 of godown-breaking and 21 of shop and office-breaking. Successful investigation was made in 167 cases, resulting in the recovery of property valued at $29,666, in addition to which recoveries to the extent of $22,207 were made in connexion with reports received prior to December 1. In addition successful results were obtained in 122 cases reported as having occurred outside Settlement limits and in 53 where the property was reported as lost.

Trafficking in Firearms.—Four foreigners and four Chinese were arrested during the month for trafficking in firearms when eighteen pistols and revolvers and about two thousand rounds of ammunition were seized. Three of the accused were sentenced to imprisonment, three were handed to their Naval Authorities for trial, one was cautioned and one is under remand. Two Chinese were arrested for being in possession of firearms for an unlawful purpose and sentenced to imprisonment.

Crime beyond Settlement Limits.—Twelve cases of robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In two instances the inmates of houses plundered succumbed to bullet wounds received at the hands of robbers.

Military Situation.—The territory adjoining the Shanghai-Hangchow and Shanghai-Nanking Railways as well as the lines were at the end of December in possession of Marshal Sun Chuan-fang's forces. Although the fighting had not at that time extended to these areas, its adverse effects upon trade and commerce were being manifested in various ways in the Settlement. The sailing of ships belonging to the China Merchants Steam Navigation Company was completely suspended. Steam launches which ply between Shanghai and various places in Chekiang and the interior of Kiangsu, were unable to adhere to their normal schedules, and had ceased to visit places where the military were active. The freight and passenger train services on the Shanghai-Hangchow-Nanking Railway were also curtailed. The Shanghai-Hangchow traffic line was moreover completely stopped on December 15 and 16 in consequence of the line being cut at two points between Shienchiao and Shuchung. The damage was undoubtedly done by sympathizers of the South who in that vicinity included several regiments of Chekiang provincial troops who had abandoned their allegiance to Marshal Sun Chuan-fang. The civil war was further reflected in the arrival of large numbers of refugees from the disturbed areas, and the presence in adjoining territory of some military deserters. In the course of the capture in Chapei of one of them, who was armed with a machine gun, several soldiers and civilians were wounded.

Agitation against Chinese Authorities.—Local sympathizers of the Southern Party continued their campaign against Marshal Sun Chuan-fang and the Fengtien army during the month. At meetings held openly by members of the Three Provinces (Kiangsu, Chekiang and Anhui) Society and secretly by labourers, resolutions calculated to further the movement were passed, and these, together with other matter hostile to the Northern Generals, were disseminated by means of circulars and the Chinese Press. The motions adopted by the labourites in advocating the demand for the independence of the three provinces went to the extent of recommending a general strike, refusal to pay taxes and resistance by armed force. No attempt was however made to give effect to these proposals, and a general relaxation of the subversive activities was noticeable towards the end of the month after orders for the arrest of the principal offenders had been issued by Sun Chuan-fang.

Anti-Christian Propaganda.—Orders given by Marshal Sun that meetings be prohibited resulted in the abandonment of preparations which communists and others had made to hold demonstrations outside churches and to convene anti-Christian meetings on Christmas Day, although a small number of extremists created some disturbance outside a Christian church on North Szechuen Road Extension.

Anti-Foreign Agitation.—The outstanding feature of the anti-foreign campaign during December was the utter disregard for the truth displayed by the propagandists and their readiness to ascribe magnanimous action to base motives. Although they failed to quote evidence in support of these charges, they accused Great Britain of lending money and selling arms to the Northern militarists, but did not criticise nations which, not being bound by the Arms Embargo Agreement, have sold munitions in large quantities to Chinese militarists throughout the year. The Christian missionaries, who make large contributions in service and money annually to the welfare of the Chinese people, were denounced as base instruments of imperialism. Some Japanese, who were also arranging to spend sums of money for the cause of education and science, were condemned as promoters of imperialism. Thus it is clear that the extremists are intent upon opposing all activities, however meritorious, which have the effect of promoting friendship between foreigners and Chinese. There is every reason to believe that their plans for the furtherance of this campaign include schemes to cause disturbances at Sino-foreign gatherings.

Communist Activities.—Apart from participating in the movements against Christianity and foreigners generally, the Communists were untiring during the month in their efforts to promote labour unrest and hostility to the Chinese authorities. They advocated a general strike to enforce the demand for the conversion of Shanghai into a Special Administrative Area. They argued that the strike would bring the workers increased wages and supply an opportunity to revenge the death of the comrades Liu Hua and Tao Ching-hsien. They also told the labourers that the strike would be bound to succeed as financial and other support would be forthcoming from the Southern Government which, they claimed, was ever ready to befriend the working classes. On the other hand the Communist leaders represented Sun Chuan-fang as an enemy of the proletariat and advocated that a corps be formed to start guerilla warfare and an insurrection against him in

Shanghai. Evidence that steps were being taken to give effect to this proposal was manifest in the drilling of workmen in Chapei during the month and the discovery of documents proving the existence of a secret army. The determination of the workers to further their aims by violent methods was moreover demonstrated on December 11 when three hundred of their number broke open the offices of the General Labour Union, which had been sealed by the Chinese Authorities, and tied up an armed Chinese Constable posted there on guard.

Strikes.—There were during the month fourteen strikes, in addition to one which started in the previous month. Six of the new disputes were due to economic discontent, five were the result of internal friction, whilst the remaining three were declared by the workers to show sympathy for colleagues. These disputes affected 19,946 employes and resulted in the loss of 89,266 working days. The strikes were accompanied by considerable lawlessness. Missiles thrown on December 6 by a number of strikers from the Kung Dah Cotton Mill, 40 Yangtszepoo Road, at a motor bus occupied by the Japanese staff of that concern, damaged the windscreens and slightly injured one of the Japanese. An assault committed three days later upon a Chinese, who was escorting some female workers from their quarters to the mill, was also of a serious nature. Employes of the French Tramway Company on strike threatened to use forcible measures in order to prevent cars belonging to the Shanghai Electric Construction Company on circular routes from entering the French Concession. Efforts by pawnshop assistants to extend a strike by means of propaganda and intimidation resulted in the arrest of nine of them on North Thibet Road on December 25. At the Mixed Court on December 28 some of these were sentenced to terms of imprisonment and others were fined.

Rice.—The average price of Chinese rice during the month was $16.57 per picul as compared with $16.51 in the previous month. According to information from a fairly reliable source, there were in Shanghai at the end of the month no less than 1,600,000 bags of rice which at the normal rate of consumption would last the population of Shanghai for 100 days. While rice is not likely to be seriously affected for the present, there is danger that the depreciation of the exchange value of the tael will cause an increase in the price of flour which is used extensively as a diet by Chinese belonging to the Northern provinces.

Agitation against issue of notes in fractions of a dollar.—In an effort to find a solution of the subsidiary money problem, the Bank of China and the Bank of Communications during the month issued notes of denominations of 10, 20 and 50 cents respectively. The exchange shopkeepers however are complaining that the notes are sure to be counterfeited as they are badly printed on indifferent paper, and on this pretext refuse to accept them at their face value. A fear that the circulation of the new notes may deprive exchange shopkeepers of the profits resulting from fluctuations in the value of subsidiary coins probably constitutes the real basis of the objection to the new notes.

Opium.—According to statistics given by a delegate to the Conference of Narcotic Drugs held in Shanghai during the month, the amount of opium smuggled into China was increased from 25 tons in 1923 to 20 tons in 1925. This statistician also declared that the recrudescence of the opium business in China was due to many persons of low standing having attained political and military power.

Traffic.—Court proceedings were instituted in 393 (53 foreigners and 340 Chinese) of 1367 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

CASE No. 170.

Chinchow Road Extension.—Cadastral Lot 6530, Eastern district, heard in the Council Chamber on Thursday, January 13, 1927, at 4 p.m.

PROCEEDINGS.

The beneficial owner is represented by the registered owner, Mr. P. Tilley; Mr. S. M. Edwards, Secretary, supported by Mr. C. Harpur, Commissioner of Public Works, appearing for the Council.

Mr. Tilley informs the Commissioners that out of a total area of Mow 2.784, the Council took possession of Mow 0.126 about a year ago in order to make up the extension of the Chinchow Road, and although the beneficial owner is given access on to a 50 feet Municipal Road, he does not consider that the benefit so derived warrants a free surrender, in view of the fact that had a 30 feet road been made, presuming the centre of the road had remained as is now shown, the owner would not have to sacrifice any part of this lot.

It is further pointed out that in August last year, the Council acquired land in the vicinity and paid compensation at the rate of Tls. 2,500 per mow for unregistered land, whereas in the present case the Council claim a free surrender of part of a lot on which Municipal taxes have been paid for the past 9 years.

The owner has refused an offer for the whole lot in question at the rate of $4,000 per mow and is of the opinion that he will soon be able to obtain Tls. 4,000 per mow; this being the case he claims on the basis of Tls. 3,500, considering that figure to be a fair market value, therefore claims in the sum of Tls. 441.00.

Mr. Edwards states that the case is one wherein the Council requires the free surrender of an area of Mow 0.126 from Cad. Lot 6530, for the scheduled extension of Chinchow Road.

Land Regulation VI A. states that the Land Commissioners, in determining the compensation to be paid, should take into account the increase or decrease in value of the remainder of the property. In the present case, previous to the formation of the road, the only access to this property was by a narrow Chinese path about 5-ft. wide and it is, therefore, considered that the construction of a 50-ft. Municipal road will be of such obvious betterment to the Lot as to justify the surrender of the scheduled area without compensation. The present assessed value of the Lot is Tls. 1,200 per mow, which for the total area of Mow 2.784 gives Tls. 3,341. The net area after the surrender of Mow 0.126 will be Mow 2.658; to give the same total value of Tls. 3,341, the assessment would have to be increased to Tls. 1,257 per mow or an increase of only Tls. 57 per mow. The Council is of opinion that there is little doubt that the construction of this 50-ft. road will increase the value of the land considerably more than Tls. 57 per mow, and it is, therefore, considered that the Council's demand for a free surrender is incontestable.

He quotes precedents, namely, Land Commission cases 52, 73, 106, 124, 137, and dwells on the circumstances of Case No. 158, Haichow and Sungfow Roads.

As to the Council entering into possession of this land some months ago, this was necessitated by the laying of the underground electric cable.

In England, where an owner is desirous of developing his land, he must surrender the necessary road land free and in addition make up his roads to a required standard and then request that the roads be taken over by the Authorities, whereas in Shanghai in cases as this one, the Council only ask for a free surrender and bears the whole cost of road construction.

In this connection, he states that the fees payable by the Council in respect of this hearing would have exceeded the compensation originally claimed by the owner, Tls. 200, as set forth in Mr. Tilley's letter of April 29, 1926, and the Council has only referred the case to the Commissioners on the question of principle. The betterment in this case is, however, so obvious that the Council consider it unnecessary to labour this point further, and therefore asks for an award in accordance with the precedent.

Both parties having retired, the Commissioners decide as follows:—

AWARD.

The benefit accruing to the Property, owing to the construction of the Chinchow Road extension, amply offsets the value of the area acquired by the Council, therefore the Council's claim is upheld, namely, the free surrender of Mow 0.126.

CASE No. 171.

Szechuen Road Widening.—Lessees' interest, Noel, Murray & Co., Ltd., Cadastral Lot 85 (part), Central District—heard in the Council Chamber on Thursday, January 13, 1927 at 4.30 p.m.

PROCEEDINGS.

Messrs. K. H. Martin and H. Martin, Directors of the firm, appear, and the Council is represented by their Secretary, Mr. S. M. Edwards, Mr. C. Harpur, Commissioner of Public Works, being in attendance.

The Chairman is informed by Mr. K. H. Martin that his firm have, at the outset, nothing to add to their revised claim as set forth in the correspondence, namely:—

1. Allowance for loss of trading profits during process of re-establishment Tls. 15,000
2. Loss of rent from sub-tenants 5,500
3. Cost of removal

or Tls. 20,500, plus the cost of removal yet to be ascertained.

For the Council, Mr. Edwards states that this case is one of valuing the interest of Messrs. Noel, Murray & Co., Ltd., the Lessees of the premises at 10/16 Ezra Road, a portion of which is required in connection with the scheduled widening of Szechuen Road.

Messrs. Noel, Murray & Co., Ltd., claim a sum of Tls. 15,000 for loss of trading profits during the process of re-establishment, a sum of Tls. 5,500 for loss of rent from sub-tenants, and also an amount, to be ascertained, for cost of removal to new premises.

Taking these items *seriatim*, the first, that of Tls. 15,000 for loss of trading profits, is clearly excessive as this figure represents over six months clear net profit, according to Messrs. Noel, Murray's own figures. It is hardly likely that removal to new premises within a few hundred yards, would affect the business appreciably for more than a week or two, their 39 years record assuring them of safe continuance.

With regard to the second item, loss of rent from sub-tenants, the sum claimed represents the full rent of two years. In this connexion Messrs. Noel, Murray appear to have overlooked a clause in their lease which reads as follows:—

"It is hereby further agreed that should the lessors desire to rebuild the leased premises during the term of this lease, same will be terminable at twelve months' notice to Lessees, Lessors to give the first option of tenancy to Lessees on the same site."

The Lessees could therefore be dispossessed of their premises at any time on twelve months' notice, and it is submitted that the contingency specified, i.e. rebuilding, has now arisen. Furthermore, upon being dispossessed under this clause in the lease, and not wishing to exercise the option to occupy the remainder, the firm would relinquish the premises at the end of twelve months and receive no compensation whatever. In any case, as Messrs. Noel, Murray & Co., Ltd. have been freed from liability in respect of their lease, including rent, their loss in connection with the sub-tenancies, cannot be the total rents received, but merely the profits (if any) they would have made on these rents by twelve months had they been given due notice. This claim for Tls. 5,500 is, therefore, clearly out of the question.

The third item, removal expenses, is one which would naturally fall on the Lessees themselves, on the receipt of twelve months' notice. There is, therefore, no reason why the Council should meet the whole of the removal expenses.

Further, it should be noted that the Lessees, under their lease, had the option of continuing to occupy the remainder of the premises after

setting back. The Council has taken no action which could deprive them of that option, and they have moved to other premises of their own accord.

It must, however, be apparent that Messrs. Noel, Murray & Co., Ltd.'s claim, and the Council's offer, must necessarily be arbitrary figures, difficult to prove by calculation. Even should settlement of the matter be deferred until loss of profits can be ascertained, the loss might conceivably be due to a variety of reasons quite apart from the widening of Szechuen Road.

Having regard to all the circumstances, the Council is of the opinion that its offer of Tls. 5,000 is sufficiently generous to cover every possible loss which Messrs. Noel, Murray & Co., Ltd. may suffer as a result of the acquisition of this portion of Cadastral Lot 85.

Mr. K. H. Martin lays stress on the fact that in their new premises they are greatly handicapped insofar as ground floor space is concerned, as the bulk of the cargo handled is heavy, part of which has now to be stored upstairs which is a distinct disadvantage.

Furthermore, their old premises had three entrances, a great advantage in the rapid conveyance of goods which is essential in Auction rooms; their present premises have only one.

Turning to the question of subtenants in the old premises, owing to being dispossessed his firm was unable to accept one tenant's offer to renew his lease for a further period of 5 years and another prospective tenant for the same period.

Mr. Edwards concurs with Mr. K. H. Martin in his statement as to ground floor space and number of entrances in the new premises.

Asked by the Chairman what the cost of removal amounted to, Mr. K. H. Martin replies that all the accounts had not been received but anticipates a figure of from Tls. 1,500 to Tls. 2,000.

As to whether the old premises reconstructed on the new road line could have been used, the reply is in the negative.

The Chairman asks whether the lease for a further 5 years was signed before the road widening was scheduled, to which question the answer is that this point had not been considered, the lease, which was signed in September, 1925, to take effect as from June 1, 1926, containing no clause alluding to such a contingency.

Asked by the Chairman the duration of the disruption of Messrs. Noel, Murray & Co., Ltd.'s business, due to removal, Mr. K. H. Martin replies practically none, seeing that they had made the majority of their arrangements beforehand and, in point of fact, actually changed premises from Saturday to Monday, but naturally had to re-arrange their auctions.

Mr. Edwards informs the Commissioners that the widening of Szechuen Road was scheduled on April 12, 1922, further that the notification of such widening was made public but had evidently escaped Messrs. Noel, Murray's notice.

Mr. K. H. Martin was questioned regarding the ratio of profit earned *vis-a-vis* their inside and outside business, to which the reply is that 90 per cent. is earned on the premises, with the possible exception of a year in which they handled large Cotton, Steamer or Godown salvage auctions.

After hearing discussion on the several points as set forth in the correspondence which had passed between the parties concerned, both retire and the Commissioners decide as follows:—

AWARD.

After hearing the arguments on both sides and evidence establishing the facts that the Claimants found suitable premises for their business in the neighbourhood and suffered no actual stoppage of their auction business due to removal, and furthermore that their lease was terminable at twelve months' notice, the Commissioners award the sum of Tls. 6,420:—

	Tls.
Costs of Removal	2,000
Estimated profit on Rent from Sub-tenants for 1 year	1,420
10 per cent. of declared annual trading profit Tls. 30,000	3,000
	Tls. 6,420

Junior School for Boys.

Letters submitting a protest against the transfer of the Junior School for Boys from the Yuyuen Road School to new leased premises at No. 111 Jessfield Road, together with the Council's reply thereto, are published for general information:—

Shanghai, December 20, 1926.

GENTLEMEN,—With regard to the proposed moving of the Boys' class from the Yuyuen Road Public School to a private house to be reconstructed or adapted to this purpose. As a ratepayer and parent, I wish to protest against this proposal on the following grounds.

There are available room facilities in the present School, on the upper floor, which are now used as residential quarters by certain members of the teaching staff, and if more room is needed to take care of pupils, the obvious thing to do is to make use of the space provided for the purpose. It is inconceivable that pupils would be evicted from School premises in order to allow these same premises to be further utilized for other purposes.

Also, I question if any private residence, except the most large and modern, could be satisfactorily adapted for class use, owing to inadequate lighting by natural means, and the harmful use of artificial light except expensive mercury or arc systems. The sanitary facilities would also be unsatisfactory, if not absolutely injurious to the health of the pupils, and the entire plan is unwarranted in my opinion, and that of several other parents of children attending this School. Further, why should children have to travel still further each day, as would be the case if

another proposed location were taken. I refer to the building on Jessfield Road. As it is, the present School is the only available public Institution in the Western District, and for educational facilities to be still further restricted would be a great injustice to both children and their parents.

I wish to express my satisfaction at this time with the general system in force at the above School, and also, with the patience of the teachers concerned in my son's education, and I trust that the protest will be considered by you most seriously before any departure from the present excellent conditions is made.

Yours very truly,
F. W. SCHLOBOHM.

The Committee of Foreign Education,
Municipal Council.

Shanghai, January 7, 1927.

SIR,—Further to my letter to you of the 20th of December last regarding the inadequate housing facilities of the boys at the Yuyuen Road Public School, and the proposed changes. To date I have not been favoured with a reply, and as per a formal notice sent out by the Department, it seems as if a change to North Szechuen Road is contemplated, making matters even worse.

If several hundred girls are considered in the deliberations of your Board as to the provision of a School building, why are the boys, who must number an even proportion, left out, and treated as a secondary consideration, and why the distinction between them as to location of Schools, with absolutely no regard for the fact that the boys are resident in the Western District, as well?

The concerned parents of these boys are greatly exercised over the proposed changes, and agree with me that unless we receive the consideration from you which we are entitled to as ratepayers, we shall be forced to resort to publicity in the Press. I have no desire to associate myself with any "Indignation Society" but the matter is one of civic concern, and the interested parents must take whatever means will assure them of at least a thorough explanation of conditions which are not at all clear to them, and which, in their opinion, are not justified.

Trusting that you will favour me with an early reply, and before any further steps are taken along your proposed lines.

I remain,
Yours very truly,
F. W. SCHLOBOHM.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, January 18, 1927.

SIR,—I am directed to acknowledge receipt of your letters of December 20, 1926 and January 7, on the subject of the Junior School for Boys.

In reply, I am directed to inform you that the Yuyuen Road School was originally designed as a Girls' School, and that the inclusion of the Junior School for Boys has never been regarded as anything but a temporary measure for the benefit of small boys resident in the Western district. In view of the fact that applications for the admission of girls now exceed the accommodation available, it has been decided that other premises must be obtained for the Junior Boys' School, and arrangements have recently been concluded for the temporary lease of the only available premises in the District in any way suitable for a boys' school, these being situated in the Jessfield Road. As regards the residential quarters at the Yuyuen Road School, this question has been the subject of detailed consideration and the Council has decided that they should continue to be occupied as at present.

In conclusion, I have to inform you that, whilst the need for a Public School for Boys in the Western District is fully realised, financial considerations preclude the Council from embarking on this project at the present time.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

The Minutes of the last meeting are confirmed and signed.

The Minutes of the meeting of the *Foreign Education Committee* of December 23, are submitted and confirmed, subject to the reference to the Finance Committee of the section relating to the Annual Estimates.

Taxation of Bicycles.—With reference to the Watch Committee's minute of December 17, advocating an increase in the annual licence fee for bicycles to $4 and in connexion with letters of protest against the proposed increased tax received from the Shanghai Bicycle Association and the Dunlop Rubber Co., the Commissioner of Revenue, for the reasons advanced in his report submitted, recommends that the present fee be not increased during the current year. As applications for these licences are being received daily, he requests the Council's decision as early as possible. After discussion, members record the view that the present time is inopportune to increase this fee and having particular regard to the fact that the proposed increased tax would represent 10 per cent. of the capital cost of this type of vehicle, it is decided that no change be made at the present time in the existing licence fee.

Traffic Commission.—As directed at the last meeting, a statement has been circulated detailing the recommendations put forward by the Traffic Commission which have not been endorsed or which have been modified or extended by the Joint Committee. In connexion with the Commission's recommendation that synchronized signalling should be adopted in Nanking Road, it is noted that a further Police Department report as to this is awaited. The Commissioner-General will endeavour to obtain information as to the basis of taxation of motor vehicles in other countries, whereafter the matter of requiring separate licences for each Settlement, as suggested by the Joint Committee, will be taken up with the French Council. The recommendations put forward by the Joint Committee are then adopted, subject to reference to the Finance Committee of the question of increased licence fees and conference on such proposals with the French Council, whereafter the Council's decision as to adoption or otherwise of the recommendations put forward by the Traffic Commission will be published in the Gazette. The recommendations of the Traffic Commission, which have been endorsed by the Joint Committee, are then formally adopted.

Resignation of Member.—Mr. Sakuragi announces, with great regret, his resignation from the Council. He expresses his thanks to present and past Councillors for the kindness and consideration always shown him, and which he also extends to all Heads of Departments. On behalf of the Council, the Chairman thanks Mr. Sakuragi for the sentiments expressed, and after referring to the

valuable assistance invariably rendered by him throughout his term of office, to which in a great measure must be attributed the friendly relations and co-operation which have always subsisted between the Japanese community and the Council, he assures Mr. Sakuragi that his resignation is received with sincere regret by all his colleagues and that he has the Council's best wishes for his future.

Public Health Report for December.

The state of the Public Health at the end of the year was satisfactory.

The death rates among both Foreigners and Chinese were below normal. There was no unusual incidence of communicable disease of any kind.

Sharp variations of temperature, during the month, were associated, as is often the case, with catarrhs and colds and a mild form of Influenza. The attacks were usually of moderate severity, characterised by fever, headache and a general feeling of malaise lasting for a few days but followed for some time by a persistent, irritating cough. In some cases gastro-intestinal symptoms occurred with jaundice.

The problem of the primary cause of Influenza still remains unsolved. Many micro-organisms, including the Bacillus Influenzae of Pfeiffer, and various strains of Streptococci and Pneumococci have been found associated with the disease, but none has been proved to be the specific cause. Nor is there any certain proof that the disease is caused by a filterable virus. The mucous membranes of the respiratory passages form the defensive mechanism against respiratory infections, and this may be altered and weakened by numerous causes operating from without and within.

With regard to prevention Sir George Newman says "Unfortunately in the present state of our knowledge, medical prophylaxis is unreliable. Speaking generally the sensible course is to pursue a regular healthy life, avoiding excesses of all kinds, and taking as much outdoor exercise as circumstances permit. Persons attacked should seek medical advice at once with a view to the prevention of pulmonary and other complications, or the conveyance of infection to others."

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Venereal Diseases Clinic and Municipal Laboratories, Hospitals and Slaughterhouse.

C NOEL DAVIS,
Commissioner of Public Health.

Bacteriological Examination.—During December, 1926, nineteen samples of Shanghai Waterworks water from different parts of the Settlement were examined. Each sample consisted of 120 c.c. In one case glucose fermenting coliform bacilli were found, in number 10 per litre. In no case were lactose fermenting organisms found. In addition three samples were taken from the works delivery main. In none of these were organisms foun t capable of fermenting glucose or lactose. These results show a high standard of bacterial purity

Chemical Examination.—Chlorine in chlorides has varied from 1.8 to 2.75 parts per 100,000 and free chlorine from 0.05 to 0.30 parts per million during December. Nitrites have been absent. The figures for saline and to a less-er extent albuminoid ammonia were very c-nsiderably higher than usual towards the end of the month.

Report on Analysis.—Results of analyses, show satisfactory purification.

Fire Brigade Report for December.

The total number of calls received during the month was 52 and were as follows:—

Genuine calls within the Settlement 39, Fires in the Half-Rated area 2, False Alarms inside the Settlement 1, (with good intent) Outside Fires 8, and Special Calls 2.

The damage on assessed property within the Settlement was estimated at Tls. 84,605 (Foreign Tls. 71,416: Chinese Tls. 13,189) and in the Half-Rated area at Tls. 90, (Foreign Tls. 90: Chinese Nil), whilst the property at risk within the Settlement was estimated at Tls. 8,136,800 (Foreign Tls. 7,703,500: Chinese Tls. 433,300) and in the Half-Rated area Tls. 71,900 (Foreign Tls. 71,900: Chinese Nil).

Six lives were lost at fires within the Settlement Limits, whilst three firemen and four other persons received injuries at fires during the month. One fireman was slightly injured whilst attending a fire "Outside."

Two buildings were destroyed and 28 buildings were damaged in

varying degrees in the Settlement, and 2 buildings were slightly damaged in the Half-Rated area during the month.

In dealing with the foregoing:—

Brigade machines travelled approximately 279½ miles.

Time occupied was approximately 151 hours 24 minutes.

Hose laid was approximately 26,550 feet.

Water used was 350,800 gallons.

The fires more particularly of note were:—

December 6, 1.45 a.m. Chinese Dwellings, off Yangchow Road, (Yangtzepoo Division).—These were very old one-storied dwellings, and were practically gutted when the Brigade arrived. Damping down duties were being carried out when it was reported that people were missing, and, on searching through the debris, the bodies of one man and one woman were found. These proved to be the parents of a small child whose body was also found after further search.

The man is understood to have left the premises at first but returned to rescue his wife and child and was overcome by the fumes. They must all have succumbed long before the call was received.

December 8, 6.28 a.m. 4 Kiangse Road, Godowns (Central Division).—On the arrival of Central Division, the first floor of the South end of a large three-storied block of godowns was found well involved with the fire spreading to the second floor, which was rendered the more easy owing to the old construction of the building having a large inside open staircase, it being only a matter of a few minutes before the top floor was a mass of flames and the roof collapsed inwards. In spite of excessive difficulties due to severe weather and the inaccessible location of the fire, the outbreak was confined to where it was found, *i.e.* the Southern halves of the rooms on the second and first floors.

Salvage operations carried out in the early stages of the fire reduced the water damage to a minimum, but it was not until after nearly four hours' work that the Division were enabled to return, "damping down" duties being carried out until the following morning.

The severe weather was also responsible for three firemen receiving injuries, which, fortunately, were only slight.

The following inspections were carried out by Officers of this Department during the month:—

1.	Premises of Applicants for Licences	22
	Re-inspection of Applicants for Licences	23
2.	Licensed Premises	
	(*a*) Theatres, Cinemas and other places of Amusement	300
	(*b*) Garages	21
	(*c*) Hotels, Clubs, Lodging Houses, Restaurants, Tea Food and Wine Shops	123
3.	Buildings in course of construction	135
4.	Completed Buildings (other than Licensed Premises)	
	(*a*) Offices, Banks and Exchanges	33
	(*b*) Stores (Foreign and Chinese)	3
	(*c*) Factories, Filatures and Mills	32
	(*d*) Godowns	11
5.	Public Buildings, Churches, Schools, Hospitals and Halls	38
6.	Hydrants	
	(*a*) Shanghai Waterworks	1,253
	(*b*) Private Installations	496
7.	Pumping Connections	313
8.	Miscellaneous inspections of premises following complaints received from various sources	37
	Total	2,840

As a result of these inspections, 71 breaches of the Council's Licence Regulations were reported, and 227 letters were written with regard to Fire Installation.

Eighty-three permits for the Discharge, Storage and Transport of Dangerous and/or Hazardous Goods within the Settlement were granted.

Illegal Arrest.

The following letter relative to the illegal arrest within the Settlement of Mr. Francis Zia by Chinese Authorities has been addressed by the Council to the Senior Consul *ad interim*:—

Council Chamber,
Shanghai, February 1, 1927.

SIR,—I have the honour to transmit for the information of the Consular Body the attached extracts from reports by the Commissioner of Police, dated January 30 and 31 respectively, relative to the irregular arrest within the Settlement and the subsequent detention of Francis Zia, Editor of the newspaper known as "The China Courier," and a resident of this Settlement.

Whilst bringing this matter to the urgent notice of the Consular Body, I have the honour to state that the Council views with grave concern this disregard on the part of the Chinese Authorities of the established principle that "no Chinese resident shall be removed from the Settlement without a 'prima facie' hearing in the Mixed Court" (which Court now functions under the style of the Provisional Court), and to add that this reversion to the irregular methods formerly practised by Chinese Officials, if left unchecked, will, without doubt, lead to serious consequences and render impossible a continuance of that reciprocity in Police matters which is so essential an element to effective administration of the Settlement and the surrounding neighbourhood.

In conveying to you the Council's emphatic protest in this instance, I have the honour to request that strong representations be made for the immediate release and rendition of the man concerned.

I have the honour to be,
Sir,
Your obedient servant,
STIRLING FESSENDEN,
Chairman.

N. AALL, Esq.,
Consul-General for Norway, and
Senior Consul *ad interim*.

EXTRACTS FROM REPORTS OF THE COMMISSIONER OF POLICE OF JANUARY 30 AND 31, 1927.

At 6.50 p.m. on January 29 Francis Zia, Editor of the "China Courier" was kidnapped and forced into a closed car on the Shantung Road. It appears that Francis Zia went to the "Shun Pao" Office, Shantung Road, to cash a cheque, arriving about 6.15 p.m. in his private ricsha. When leaving about 6.45 p.m. he was seized by three men who forced him into a waiting motor car and drove away towards the French Concession. At 7.45 p.m. the same car was noticed driving east along Foochow Road and a Chinese detective made an unsuccessful attempt to stop it. At about 8.45 p.m. a telephone message was received—at the garage from which the car was hired—stating that the car would not be returned that night as it was detained at Chinese Military Headquarters. It transpires that at 5.30 p.m. the same day two Chinese, who stated that they had been sent by the Bureau of Foreign Affairs, interviewed Francis Zia privately in the "Courier" offices. After they had gone Zia informed his staff that they had remonstrated with him because incorrect reports concerning Sun Chuan-fang had been published in the "Courier." At about 8.20 p.m. a telephone message was received from an unknown source by the Chief Business Manager of the "Courier" to the effect that Francis Zia was a prisoner at Military Headquarters, Lunghua, and that his family was to be informed that there was no cause for alarm as he would probably be released the following day.

The Director of Criminal Intelligence interviewed General Li Pao-chang, the Defence Commissioner, yesterday and recorded a formal protest against the kidnapping of Francis Zia in the Settlement and also requested that he be released as soon as possible.

Rickshas.

Correspondence with Messrs. White-Cooper & Co., relative to a reduction in the number of licensed public ricshas, is published for general information:—

Shanghai, October 22, 1926.

SIR,—We have the honour to address you on behalf of the Shanghai Rickshaw Owners' Association on the subject of that portion of the Report of the Traffic Commission which deals with public and private rickshaws. From the figures given on page 329 of the Shanghai Municipal Council Gazette of the 20th instant, it appears that on June 30, 1926, 11,000 private rickshaws and 10,000 public rickshaws were licensed. On page 324 of the Gazette, recommendation No. 38 suggests a gradual reduction of the number of rickshaw licences should be effected with a view to the total number (public and private) being reduced to five thousand within a period of ten years, our clients wish to draw your particular attention to this recommendation for the reduction of 16,000 rickshaw licences in ten years appears to be of an extremely drastic nature—in fact, so much so, that our clients think they may have, perhaps, misread the recommendation and that what was intended was a reduction to 5,000 public and 5,000 private rickshaws, not to 5,000 including both classes. They would be glad to have this point cleared up. The Shanghai Rickshaw Owners' Association also wish to point out that whilst public rickshaws holding only Shanghai Municipal Council licences cannot run in the French Concession nor 'vice versa,' private rickshaws holding licences from the French Municipal Council can run in the International Settlement, and thus, cutting down private rickshaw licences will not be effective in keeping such rickshaws off the streets in the International Settlement unless an arrangement is come to between the two Councils as to restriction of private rickshaw licences. The same does not apply to public rickshaws. The reduction of private rickshaw licences in the International Settlement only will merely mean an increase on the French side. Our clients are in no way in disagreement with the Report as to the advisability of cutting down rickshaw licences to a reasonable extent, but they would like to be assured that any reduction will be carried out 'pro rata' and that for every public rickshaw licence cut down, a private rickshaw licence is also taken away. They would also prefer that the cutting down process should be less gradual than that recommended, e.g., that, say, 2,000 licences should be taken away at a time at reasonable intervals over say 6-8 years rather than a small reduction each quarter or each month. Our clients appreciate that the Traffic Commission's Report has not yet been considered in detail by the Council, but they are most anxious to place their viewpoint before the Council at the earliest possible moment as the questions of cutting down and the manner in which the cutting down is to be carried out are of vital importance to them.

We have the honour to be,
Sir,
Your obedient servants,
WHITE-COOPER & Co.

S. M. EDWARDS, Esq.,
Secretary, Municipal Council.

Shanghai, January 24, 1927.

SIR,—We had the honour of addressing you on behalf of the Shanghai Rickshaw Owners' Association on October 22 last in connection with that portion of the Report of the Traffic Commission which dealt with public and private rickshaws.

Our clients are of opinion that the time is now ripe for the commencement of the cutting of the number of licenses, and we have the honour, on their behalf, to request the Council to let this matter have its immediate attention.

We have the honour to be,
Sir,
Your obedient servants,
WHITE-COOPER & Co.

S. M. EDWARDS, Esq.,
Secretary, Municipal Council.

Council Chamber,
Shanghai, February 1, 1927.

GENTLEMEN,—I am directed to refer to your letters of October 22, 1926 and January 24, last, relative to the Traffic Commission's recommendation that "a gradual reduction of the number of ricsha licences should be effected with a view to the total number (public and private) being reduced to five thousand within a period of ten years," and to inform you that, subject to deletion of the concluding words "to five thousand within a period of ten years," the Council, after very careful consideration, has endorsed the Commission's recommendation.

At the same time, however, I am directed to state that, whilst they agree that gradual reduction in the number of public ricshas licensed should be effected, members consider that the method of reduction and the period over which such reduction should be spread should be left to the consideration of the permanent Traffic Committee, to be constituted in accordance with the Traffic Commission's further recommendation, which has also been endorsed by the Council.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Messrs. WHITE COOPER & Co.

PROVISIONAL AGREEMENT FOR THE RENDITION OF THE SHANGHAI MIXED COURT, AUGUST 31, 1926.

1. (*i*) The Kiangsu Provincial Government in place of the Mixed Court in the International Settlement at Shanghai will establish the Shanghai Provisional Court. With the exception of cases which in accordance with the treaties involve the right of Consular jurisdiction, all civil and criminal cases in the Settlement shall be dealt with by the said Provisional Court.

(*ii*) All laws, including laws of procedure, and ordinances applicable at the present time in other Chinese Courts as well as those that may be duly enacted and promulgated in the future shall be applicable in the Provisional Court, due account being taken of the terms of the present agreement and of such established rules of procedure of the Mixed Court as shall be hereafter agreed upon.

(*iii*) In criminal cases which directly affect the peace and order of the International Settlement, including contraventions of the Land Regulations and Bye-laws of the International Settlement, and in all criminal cases in which the accused is in the employ of a foreigner having extraterritorial rights, the Senior Consul may appoint a Deputy to sit with the Judge to watch the proceedings. The concurrence of the Deputy shall not be necessary for the validity of the judgment, though he shall have the right to record his objections; he shall not, however, put any question to the witnesses or prisoners without the consent of the judge.

(*iv*) All summonses, warrants and orders of the Court shall be valid after they have been signed by a Judge. All such summonses, warrants and orders shall be numbered for record by the Chief Clerk before service. When the summons, warrant or order is to be executed on premises occupied by a foreigner having extraterritorial rights, the Consul or other appropriate official of the Power concerned shall on presentation affix his counter-signature without delay.

(*v*) In cases in which a foreigner having extraterritorial rights or the Shanghai Municipal Council is the Plaintiff in a civil action and in criminal cases in which a foreigner having extraterritorial rights is the complainant, the Consul of the nationality concerned or the Senior Consul may send an Official to sit jointly with the Judge in accordance with the provisions of the treaties.

(*vi*) A Court of Appeal shall be established in connexion with the Provisional Court to deal with criminal cases which directly affect the peace and order of the Settlement and with mixed criminal cases. The President of the Provisional Court shall act concurrently as President of the Court of Appeal. No appeal shall be allowed in cases in which the penalty is below the maximum imprisonment of the fifth degree nor in cases under the Land Regulations and Bye-laws of the International Settlement.

In all cases in which a Senior Consul's Deputy sat in the original hearing a different Deputy shall sit in the appeal, appointed in the same way and having the same rights as the original

Deputy. In the same way a different Consular Official shall sit in the appeal in mixed criminal cases

(vii) The President and Judges of the Provisional Court as well as the Judges of the Court of Appeal shall be appointed by the Kiangsu Provincial Government.

2. In cases involving imprisonment for ten years or more and in cases involving the death penalty, the Provisional Court shall report the same to the Kiangsu Provincial Government for approval. In cases in which the Provincial Government refuses its approval, the Provincial Government shall give its reasons and order the Provisional Court to rehear the case and again submit the judgment to the Provincial Government. All criminal cases in which the infliction of the death penalty has been approved shall be remitted to the Chinese Authorities outside the Settlement for the execution of such penalty. Inquests and autopsies (Chien Yen) in the Settlement shall be held jointly by the Judges of the Provisional Court and the Deputies appointed by the Senior Consul.

3. The prisons attached to the Provisional Court, with the exception of the House of Detention for civil cases and the Women's Prison which are to be separately provided for, shall be under the charge of the Municipal Police specially detailed for the purpose, but they shall be operated as far as practicable in conformity with the Chinese Prison Regulations and subject to the supervision of the Court. The President of the Provisional Court shall appoint a Visiting Committee, which shall include a Deputy of the Senior Consul, to make investigations from time to time, and if it is considered that there are any respects in which the control over the prisoners is unsatisfactory, the same shall be reported to the Court, whereupon the Municipal Police shall be charged by the Court to make the necessary rectification which the said Police shall carry out without delay.

4. All summonses, warrants and orders issued by the Court shall be executed by the Judicial Police who shall be detailed for this duty by the Municipal Police and be directly responsible to the Court in the execution of their duties as Judicial police. The Municipal Police shall render full and prompt assistance in such matters as may be requested of, or entrusted to them by the Court, and when the Municipal Police arrest any person, he shall, within twenty-four hours, exclusive of holidays, be sent to the Court to be dealt with, failing which he shall be released.

5. In all mixed civil cases where there has been a Consular Official sitting jointly with the Judge, the appeal shall be made to the Office of the Commissioner for Foreign Affairs, acting with the Consul concerned according to the treaties, but such cases may be turned over to the Provisional Court for retrial by a different judge, the original Consular Official being also changed. In the event of a disagreement between the Commissioner for Foreign Affairs and the Consul in respect of the appeal in a case which has been retried, the judgment given at the retrial shall stand.

6. The financial affairs and such administrative work of the Court as shall be determined by a joint commission shall be entrusted to a Chief Clerk who shall be recommended by the Senior Consul and appointed by the Provincial Government on the receipt of a petition from the Court. He shall be subject to the supervision and orders of the President of the Court and shall have charge of the staff and exercise proper supervision over the Court finances. If the Chief Clerk is found to be incompetent or remiss in his duty the President of the Court may reprimand him, and if necessary remove him from office with the consent of the Senior Consul.

7. The foregoing six articles, forming the Provisional Agreement for the rendition of the Mixed Court to the Kiangsu Provincial Government shall be in force for three years, dating from the day on which the Mixed Court is handed over. Within this period the Chinese Central Government may at any time negotiate with the Foreign Ministers concerned in Peking for a final settlement, which if agreed upon between the Chinese Central Government and the said Foreign Ministers, shall replace the present Provisional Agreement. If at the end of three years no final settlement has been reached in Peking, the present Provisional Agreement shall continue to be in force for another three years. At the end of the first three years, however, the Kiangsu Provincial Government may propose any modifications of the present Agreement provided that notice is given six months before the expiration of the first period of three years.

8. The present Provisional Agreement shall in no way bind the Chinese Central Government in any future discussion between it and the foreign Governments with regard to the abolition of extraterritoriality.

9. The date on which rendition of the Mixed Court shall take place under the above Provisional Agreement shall be fixed by an exchange of notes to take place between the representative of the Kiangsu Provincial Government and the Senior Consul.

December 31, 1926.

MESSIEURS,—In accordance with Article 9 of the Provisional Agreement for the Rendition of the Shanghai Mixed Court signed on August 31, 1926, I have the honour to inform you that in my capacity as Senior Consul I am now authorised by my Colleagues to suggest that the rendition should take place on the first day of January 1927, and at the same time to invite your confirmation of the following understanding with regard to certain points arising under the said Agreement.

It is understood that the Chinese translation of the term "Court," after rendition, shall be "Fa Yuan" instead of "Fa T'ing."

It is understood that the establishment of the Shanghai Provisional Court provided for in Article I (i) in no way affects the validity of the judgments rendered in the past by the Mixed Court. These judgments are recognised as valid and final in all cases except in those civil cases in which

(a) the right of Appeal has been reserved and judgment has remained unexecuted:

(b) judgment has been given in default and has remained unexecuted.

In both these classes of cases an Appeal or retrial under the procedure of the Provisional Court shall be allowed.

It is further understood that the Kiangsu Provincial Government shall place the judgments of the Mixed Court up to the date of rendition, and the judgments of the Provisional Court from the date of rendition on exactly the same footing in respect of validity as the judgments of all other Chinese Courts functioning within the said province.

It is understood that the competence of the Court as described in Article I (i) includes also

(a) Mixed Criminal cases arising on foreign vessels within Harbour limits.

(b) Mixed Criminal cases arising on foreign property, including Municipal roads outside the limits of the Settlement but within the districts of Shanghai and Paoshan, provided always that this understanding shall not operate to preclude further negotiations regarding the status of such roads.

(c) Mixed Civil cases arising in the surrounding areas within the districts of Shanghai and Paoshan.

It is further understood that the respective jurisdictions of the Mixed Courts of the French and International Settlements remain

as defined in the Provisional Agreement of June 28, 1902.

It is understood that the words "Without delay" in the last sentence of Article I (*iv*) shall be interpreted as meaning in conformity with the provisions of the treaties.

It is understood that the Bye-Laws of the International Settlement mentioned in Article I (*iii*) and (*vi*) include all Bye-laws in force at the date of rendition and that all future Bye-laws will as a matter of course be communicated to the Chinese authorities for the information of the Provisional Court.

With reference to Article I (*v*) it is understood that in criminal cases where the citizen of a nation without extraterritorial rights is an accused and the citizen of a nation with those rights is a complainant, the case shall be tried in the Provisional Court and a Consular Official belonging to a third nation shall be asked by the Court to attend the trial in order to watch the proceedings.

It is understood that in order to conform as closely as possible with judicial practice in other Chinese Courts the provision that "no appeal shall be allowed in cases in which the penalty is below the maximum imprisonment of the 5th degree" contained in Article I (*vi*) shall as an experiment not be enforced during the first year after the rendition of the Mixed Court, at the end of which period the Provisional Court shall be empowered to decide whether it is desirable to enforce the provision in question.

With reference to Article I (*vii*) it is understood that the names of the President and Judges of the Provisional Court and Court of Appeal shall as a matter of course be communicated on appointment to the Senior Consul.

It is understood that the provision in Article III that in cases involving imprisonment for 10 years or more, the Provisional Court shall report the same to the Kiangsu Provincial Government for approval, shall not be enforced during the first year after the rendition of the Mixed Court, at the end of which period the Provincial Government shall decide whether it is desirable to enforce the provision in question.

It is understood that Chinese Civil cases part heard or already on the Hearing List at the date of rendition shall be dealt with as follows:—

(*a*) Cases in which foreign lawyers appear on the Record as representing one or other of the parties shall be placed on a special Hearing List and the lawyers named on the record shall be permitted to appear in these cases in the Court of First Instance only for a period of twelve months from date of rendition, within which period all such cases shall be concluded. The Court may, however, exercise its discretion to extend this period when the circumstances in any case so warrant.

(*b*) Cases in which no foreign lawyers appear on the record shall be dealt with in accordance with the ordinary procedure of the Provisional Court.

It is understood that foreign lawyers shall be permitted to appear for either party in all cases in which a Consular Official sits with the Chinese Judge, both in First Instance and in Appeal, in addition to those cases in which temporary permission to appear has been accorded under the immediately preceding paragraph. It is further understood that foreign lawyers shall be permitted to appear for either party in all cases in which the Shanghai Municipal Council acts as prosecutor, and also in Civil cases in which a foreigner having extraterritorial rights is the plaintiff, and a foreigner without these rights is the defendant.

With reference to the last sentence of Article VII, it is understood that should the Senior Consul wish to propose any modifications, the Kiangsu Provincial Government will reciprocate by extending to these the same consideration.

I avail myself of this opportunity to renew to you the assurances of my high consideration.

N. AALL,
Consul-General for Norway and Senior Consul

DR. V. K. TING,
Monsieur HSU YUAN,
Special Representatives of the Kiangsu Provincial Government.

Bureau of Foreign Affairs,
Shanghai, November 27, 1926.

DEAR MR. AALL,—I have the honour to inform you that, respecting the foreign staff in the Shanghai Provisional Court after its establishment, the verbal proposal suggested by your Committee on November 3, 1926, that ten foreigners, including the lady typist, should be employed by the Court in order to secure continuity, is acceptable to the Kiangsu Provincial Government.

With reference to the court maintenance, I have the honour to inform you that the Kiangsu Provincial Government will place the sum of forty thousand taels to the credit of the Provisional Court before or on the day of the actual rendition of the Mixed Court. This sum shall be used to make up any deficit the court may incur after all the income is exhausted. The said sum shall be maintained at the beginning of every fiscal quarter and should the whole fund or a part thereof be exhausted in any quarter, the deficit shall be immediately replaced at the beginning of the following quarter.

Furthermore, I may assure you that the president and judges of the Provisional Court will enjoy such immunities and securities of tenure as provided for by law.

Hoping that the above will meet with your satisfaction.

Sincerely yours,
V. K. TING.

N. AALL, Esq.,
Senior Consul,
Norwegian Consulate-General,
Shanghai.

Norwegian Consulate-General,
Shanghai, December 24, 1926.

DEAR DR. TING,—I have the honour to acknowledge the receipt of your letter of the 27th ult. and note that our proposal that ten foreigners, including the lady typist, should be employed by the Shanghai Provisional Court in order to secure continuity, is acceptable to the Kiangsu Provincial Government.

The simplest method of giving effect to this proposal would appear to be that the Municipal Council should detach temporarily for service under the Kiangsu Provincial Government these ten members of its staff, that the Chinese should pay their salaries and house rent at rates not less than those they are entitled to, in their various ranks, in the municipal service and that the Council should continue to be responsible for the remainder of the privileges due to all municipal employes.

Should this suggestion commend itself to you I shall be happy to make the necessary arrangement with the Municipal Council.

With reference to the Court maintenance, in view of the intention of the Kiangsu Provincial Government to increase the staff of Judges and to add to the Court accommodation, I hope that you will see your way to arrange that the sum to be placed quarterly to the credit of the Provisional Court shall be not less than Tls. 40,000 as the amount required will almost certainly prove to be in excess of this figure. I should also be glad if I might be informed whether the Provincial Government have decided to allocate any particular revenues for this purpose.

Yours sincerely,
N. AALL.

DR. V. K. TING,
Director of the Port of Woosung and Shanghai.

December 31, 1926.

DEAR MR. AALL,—I have the honour to acknowledge the receipt of your letter of the 24th instant addressed to Dr. Ting, offering to make the necessary arrangement with the Municipal Council for the temporary detachment of ten members of its staff for service under the Kiangsu Provincial Government which should pay their salaries and house rent at rates not less than those they are entitled to, in their various ranks, in the Municipal Council, the Council continuing to be responsible for the remainder of the privileges due to all Municipal employes.

I shall be glad to have you make the necessary arrangement with the Municipal Council to this effect.

With reference to the court maintenance, I have the honour to inform you that the Kiangsu Provincial Government will place the sum of not less than Sixty thousand dollars to the credit of the Provisional Court with the Bank of China before or on the day of the actual rendition of the Mixed Court. The sum shall be used to make up any deficit the court may incur after all the income is exhausted. The said sum shall be maintained at the beginning of every fiscal quarter and should the whole fund or a part thereof be exhausted in any quarter, the deficit shall be immediately replaced at the beginning of the following quarter.

I am happy to be able to inform you that the land tax revenue from all foreign title deeds in Shanghai (estimated at Fifty thousand dollars per annum) has been appropriated for this purpose and other revenues will be added if necessary.

Hoping that the above will meet with your satisfaction.

Sincerely,
HSU YUAN.

We agree that it is advisable to make at the present time only such alterations in the rules and procedure of the Court as are absolutely necessary in consequence of the Rendition Agreement and that any

general revision of the rules should be left to a later date when it will have become clearer in what direction adjustment is necessary.

The following are the immediate alterations which we recommend in the present Rules of Court:—

Central District Market.

In terms of the following correspondence, the General Association of Shanghai Markets has been given an assurance by the Council that there will be no interruption of business consequent upon the proposed demolition of the Nanking Road Market, the Council having decided to construct one or more markets before demolition of the existing market:—

Rough Translation of Note to the Secretary of Council from the General Association of Shanghai Markets, dated January 24, 1927.

The members of the Nanking Road Market report that they have seen from the Press that the market site has been sold, and that the building will be demolished. They, therefore, ask the Council to select a site for a new market in order to ease the minds of the people. The writers find that the above statements are correct, and say there are over 100 families dependent upon this market for a living.

If the Council does not make preparations beforehand, these stallholders will have to give up their business and they will starve. The writers presume the Council must realise the hardships of these people and that it will grant their application. Also, the members of the Hongkew Market report that certain people frequently go there to collect silver and copper coins from them, which result in the fluctuation of exchange rates, and the stallholders have suffered serious losses. The latter say they pay licence fees; therefore, the Council is asked to take steps to protect their interests.

Council Chamber,
Shanghai, February 5, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of January 24, conveying the request of the stall-holders in Nanking Road Market that the Council should select a site for a new market, in view of the proposed demolition of the present one; and, further, transmitting the complaint of stall-holders in the Hongkew Market as to losses incurred by them through the fluctuation of exchange rates.

Regarding the Nanking Road Market, I am directed to state that, as it is the Council's intention to construct one or more other markets before demolition of the existing market is commenced, there will be no interruption of business. With respect to the complaint of stall-holders in Hongkew Market, I have to inform you that, as the Council exercises no control over exchange rates, the stall-holders are entirely free to exchange their small money with whomsoever they please.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

THE GENERAL ASSOCIATION OF SHANGHAI MARKETS.

Road Extensions and Widenings.

Official Plans for 1927.— The following is a list of the more important alterations and improvements in the plans of the Settlement:—

CENTRAL DISTRICT

Avenue Edward VII.—At the junction with Honan Road, the radius through Cadastral Lot 187 has been modified to obviate scheduling through the buildings on Cadastral Lot 187A. The scheduling through the latter lot has accordingly been removed.

Kiangse Road.—The section of Kiangse Road between Ningpo Road and Soochow Creek is shown scheduled to 40 feet wide.

Jinkee Road.—The scheduled extension of this road, West of Szechuen Road, has been deviated, thus obviating any scheduling from Cadastral Lot 81A.

Soochow Road Substation, (Fire). As this substation has been demolished in connexion with the reconstruction of the Chapoo Road Bridge, the designation of the property has been removed from the plan.

NORTHERN DISTRICT

Whangpoo River.—The proposed bund line fronting Cadastral Lots 1002 and 1003 has been removed from the plan.

Tsepoo Road.—The scheduling from Cadastral Lot 130, for the Mixed Court Extension, has been removed from the plan.

Woosung Road.—The section of this road between Yalu and Range Roads, is shown widened to 60 feet.

EASTERN DISTRICT "A"

Tongshan Road.—The section of this road between Chaoufoong and Muirhead Roads is shown scheduled to 60 feet wide.

Point Road.—The section of Point Road Extension between Broadway East and East Seward Road has been expunged from the official road plans, in view of the cost, and the fact that it is now considered that East Seward Road will adequately serve all traffic purposes.

Wetmore Road.—The section of this road between Rangoon and Yangtszepoo Roads has been realigned by arrangement with the Shanghai Waterworks Co., Ld.

EASTERN DISTRICT "B"

Kailung Road.—This scheduling, formerly adjoining the East boundary of Point Gardens, has been removed from the plan.

Tinghai Road.—The section of this road scheduled South of the present Conservancy Normal Line has been removed from the road plan.

WESTERN DISTRICT

West Soochow Road.—Following a protest from the Shanghai Gas Co., the section of this road between Changsha and Thibet Roads, has been removed from the plans.

Changping and Ferry Roads.—An improved junction of these two roads has been scheduled.

Chengtu Road.—A realignment of this road between Mandalay and Bubbling Well Roads is shown, which will provide an improved crossing of Bubbling Well Road.

Chinhai Road.—Following protests from the owners of Cadastral Lots 2019 and 2065, the scheduling of this road was reconsidered, and it was decided to reduce the width from 50 feet to 40 feet, and to deviate the road line slightly, in order to lessen the detriment to various properties.

Race Course Road.—The road adjacent to the Race Course at the South-west boundary is shown deviated and extended so as to meet the junction of Chungking and Weihaiwei Roads. This new road, together with the portion of Taku Road East of its junction with the new road, has been named Race Course Road.

Sinza Road.—A proposed extension of this road westward to Jessfield Road is indicated on the plan.

Wuting Road.—An extension of this road, between Kiaochow and Yenping Roads, is shown scheduled 50 feet wide.

Yenping Road.—An extension of this road, 50 feet wide, is shown scheduled between Connaught Road and the proposed extension of Sinza Road.

Connaught Road.—The large scheduled corner at the junction of this road and Yenping Road has been removed from the plan.

Pingliang Road. — Negotiations have been concluded with M. Marcel Darré for the surrender of an area

of Mow 0.254 of unregistered land, situate East of Cadastral Lot 7491, required for the scheduled widening of Pingliang Road, at the rate of Tls. 2,600 per mow, plus 10 per cent. for compulsory surrender, or a total sum of Tls. 726.

Gordon and Pootoo Roads.—Negotiations have been concluded with the Naigai Wata Kaisha, Ltd., for the surrender of an area of Mow 1.021 required from Cadastral Lot 5430 for the scheduled widening of Gordon Road and the extension of Pootoo Road. Of this area, Mow 0.490 has been surrendered free and for the balance area of Mow 0.531 compensation has been arranged at the assessed value of the lot, i.e., Tls. 3,500 per mow, plus 10 per cent. for compulsory surrender, or a sum of Tls. 2,044.

Municipal Properties.

Weinan Road—Surplus Land.—An area of Mow 0.370 of surplus land B. C. Lot 12740, Cadastral Lot 7494, has been sold to M. Marcel Darré for a sum of Tls. 2,200.

Acting District Accountant
Custom House,
Shanghai, February 9, 1927.

Excerpts from Minutes.

At the meeting of the Chinese Education Committee held on Thursday, January 6, 1927, at 4.30 p.m., there are present:—Rev. G. W. Sheppard, Messrs. Chang Nieh-yun, R. E. S. Gregson and J. J. Paterson.

Election of Chairman.—Upon the proposal of Mr. Paterson, seconded by Mr. Gregson, the Rev. G. W. Sheppard is re-elected Chairman of the Committee.

The Minutes of the last meeting are confirmed and signed. With reference to the minute stating that the Chinese members undertook to investigate the teaching of Chinese at the several schools and to furnish a report on the subject for the Committee's consideration, the Chairman announces that visits have been paid to three out of the four schools, and that the impressions gathered were favourable. Mr. Chang adds that, when the inspection is completed, a memorandum will be submitted to the Committee.

Estimates for 1927.

The Headmaster of each school attends during consideration of the estimates submitted by him.

Extraordinary Expenditure. Land.

Nieh Chih Kuei School.—An appropriation of Tls. 1,600 for raising and turfing land for a playground extension is endorsed.

Buildings.

Polytechnic School.—The Deputy Commissioner of Public Works states that about Tls. 30,000 will be required to complete the new buildings, which should be finished in about two months, and this appropriation is accordingly endorsed.

Nieh Chih Kuei School.—An appropriation of Tls. 3,000 for a water-flushed latrine is endorsed.

Ordinary Expenditure.

Draft estimates of expenditure for the four schools, prepared on the basis of last year's estimates, are submitted as a basis for discussion of the probable requirements for 1927.

Ellis Kadoorie School.—These estimates show a decrease of Tls. 1,240, after allowing for reduction in revenue from fees. Questioned on the subject of discounts, the Headmaster states that these are allowed only in the case of brothers, *i.e.*, boys having the same father, and care is taken not to extend the privilege to cousins and others. These discounts, which amount to about 10 per cent. in the aggregate, are appreciated by the parents. In reply to Mr. Chang, the Headmaster says that it would be difficult to follow the rule of the Public Schools for Foreign Children and charge more for boys over ten, because of the difficulty of ascertaining their true ages. Moreover, while he agrees with the Chairman that the cost of running the higher classes is greater than for the lower classes, he thinks it desirable to encourage the attendance of the higher class pupils. Mr. Chang wishes to extend the benefits of the Council's schools to poor boys, and members are inclined to share this view, though faced by the practical difficulties of selection and the fact that the Schools are normally full and obliged to turn away applicants. The Headmaster outlines his method of selection, and stresses the importance of accepting pupils in their early youth.

Public School for Chinese.—The Estimates follow closely those of 1926. On the question of Stock and Store requirements, the Headmaster states that stoves and desks, which were installed in 1904, have to be replaced from time to time, and that the provision is mainly for this purpose. Central heating is mentioned as a possible alternative to stoves, but the cost, Tls. 15,000 to Tls. 20,000, is considered prohibitive. The Headmaster of the Polytechnic School outlines the work of the Normal School in training Chinese teachers in the four schools for Chinese.

Polytechnic School.—Appropriations of Tls. 1,610 for scientific apparatus and Tls. 800 for woodwork tools are endorsed. The Headmaster states that this School is expected to provide more scientific and technical teaching than the other Council Schools, in view of the terms of the Polytechnic Trust Deed.

Subject to adjustment by the Treasurer and Comptroller as usual,

the estimates of the four Schools for 1927 are formally endorsed.

The meeting adjourns at 6.05 p.m.

At the meeting of the Finance Committee held on Wednesday, January 19, 1927, at 4.30 p.m., there are present:—Messrs. S. Fessenden, V. G. Lyman, P. W. Massey, and H. B. Roe.

Election of Chairman.—On the proposal of Mr. Massey, seconded by Mr. Lyman, Mr. Fessenden is re-elected Chairman of the Committee.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 6.40 p.m.

At the meeting of the Council held on Wednesday, January 26, 1927, at 4.30 p.m., there are present:—Messrs. S. Fessenden, *Chairman*, P. W. Massey, A. D. Bell, T. Funatsu, V. G. Lyman, W. R. B. McBain, Brigadier-General E. B. Macnaghten, Messrs. J. J. Paterson and H. B. Roe.

The Minutes of the last meeting are confirmed and signed.

The Minutes of the meeting of the *Health Committee* of January 5 are submitted, and, subject to reference to the Finance Committee, are confirmed.

The Minutes of the meeting of the *Chinese Education Committee* of January 6 are submitted, and subject to reference to the Finance Committee, are confirmed.

The Minutes of the meeting of the *Staff Committee* of January 10 are submitted and confirmed, subject to one exception.

The Minutes of the Joint meeting of the *Foreign and Chinese Education Committee* of January 11 are submitted and confirmed.

The Minutes of the meeting of the *Watch Committee* of January 14 are submitted and confirmed, subject to reference to the Finance Committee of the section relating to the Annual Estimates.

The Minutes of the meeting of the *Public Utilities Committee* of January 18 are submitted and confirmed.

The Minutes of the meeting of the *Finance Committee* of January 19 are submitted and confirmed. With regard to *Taxation of Motor Vehicles*, the Commissioner General states that he has now obtained certain particulars as to the basis of taxation in other countries, and that he has forwarded a report for circulation to the Committee.

Traffic Control in Nanking Road.—Relative to the recommendation of the Traffic Commission (No. 30), regarding the introduction of a synchronised signalling system in Nanking Road, which has been generally endorsed by the joint meeting of the Watch and Works Committees, the Commissioner of Police now recommends that a trial be made by means of small pilot lights at the Szechuen, Kiangse and Honan Road intersections. After brief discussion this proposal is approved.

With regard to Recommendation No. 49, forwarded by the Traffic Commission relative to the reduction of the Tram and Omnibus stops in Nanking Road, the further proposal of the Commissioner of Police is also endorsed that the tramcar stops at the Shanse Road intersection of Nanking Road and the Tramcar and Omnibus stops at the Szechuen Road intersections be eliminated after the Tramway and Omnibus Companies have been warned of the proposed innovation.

Sale of "Hongkew Whiskey."—A member enquires whether in view of the impending arrival of a large number of troops, any action can be taken to suppress the sale of "Hongkew Whiskey." It is recalled that samples of this spirit have been taken by the Health Department from time to time, but as the liquor has been found to be technically pure no action could be taken to prohibit its sale. Members desire, however, that this matter be taken up afresh with the Commissioner of Public Health with a view to the sale of this liquor being prohibited.

The Municipal Gazette for Friday, January 28, is submitted in proof and authorised for publication.

The meeting adjourns at 6 p.m.

At the meeting of the Works Committee held on Thursday, January 27, 1927, at 4.30 p.m., there are present:—Messrs. P. W. Massey, *Chairman*, A. D. Bell, and W. R. B. McBain.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 6 p.m.

At the meeting of the Parks Committee held on Friday, January 28, 1927, at 4 p.m., there are present:—Messrs. L. D. Encarnacao and H. Lipson Ward.

Chairman.—In the absence of the Rev. Brother Faust, Mr. Lipson Ward takes the Chair.

BUDGET 1927.
ORDINARY EXPENDITURE.

The Deputy Treasurer reports that the estimated requirements submitted by the Public Works Department show an increase of approximately 10 per cent. on the 1926 figures but that owing to certain adjustments made in collaboration with the Commissioner of Public Works, it has been found possible, after allowing for increased pay for Chinese labour, to reduce the percentage increase to 1 per cent.

General.—Apart from normal increases of pay, the remaining items of expenditure account for an increase of Tls. 1,660 on the corresponding figures for 1926, but as it is not proposed, during the current year, to replace Mr. Etterley, an Assistant Superintendent who recently died, a further reduction in the figures submitted will be effected.

EXTRAORDINARY EXPENDITURE.

The Chief Accountant states that the Works Committee has tentatively classified the various items. Members agree as to the necessity for the strictest economy being exercised. In accordance with the usual practice, the various items are divided into three classes as follows, the recommendations of the Works Committee being endorsed in each case.

"A" Those which the Council has already approved or are considered urgent.

"B" Those considered necessary and desirable to be carried out if funds permit.

"C" Those for which having regard to financial and other considerations no appropriation should be made during the current year.

LAND.

Jessfield Park — Raising — Tls. 2,000.—It is considered that this work can be deferred and the appropriation is accordingly marked "B."

Fencing—Tls. 1,800. As a fence has now been erected around the Park, it is decided to delete this appropriation.

Hongkew Park—Road Construction—Tls. 2,500.—As this work is not considered to be urgently necessary, the appropriation therefor is marked "C."

Quinsan Square—Alterations—Tls. 5,900.—This appropriation is included to provide for the replacement of turf by asphaltic surfaced footpaths. After discussion, it is decided to mark this appropriation "B."

BUILDINGS

Jessfield Park—Watchmen's Quarters—Tls. 4,000.—This appropriation is marked "B" and the appropriation of Tls. 3,000 for a *Garden House and Drinking Fountain* is marked "C."

Greenhouses, Tls. 14,000.—The suggested expenditure for this purpose is part of a proposal to remove all the present greenhouses from the Reserve Gardens. Members endorse the view of the Works Committee that this comparatively heavy expenditure is not called for at the present time, and the appropriation is accordingly marked "C."

Public Garden Drinking Fountain, Tls. 500.—This appropriation is marked "B," as are also two appropriations in respect of *Hongkew Park Shelter, Tls. 800, and Drinking Fountain, Tls. 600.*

Wayside Park—Drinking Fountain, Tls. 600 and Boundary Wall, Tls. 2,000.—The above appropriations are each marked "C."

Studley Park—Lavatory and Drinking Fountain, Tls. 3,650.—This appropriation, which represents balance of cost, is marked "A," the Deputy Commissioner of Public Works informing members that it will be possible to reduce this sum to Tls. 2,500.

Hungjao Nursery — Caretaker's Quarters, Tls. 1,500.—It is considered that this provision can be deferred and the appropriation is accordingly marked "C."

Subject to adjustment by the Treasurer and Comptroller as usual, the estimates of Ordinary and Extraordinary Expenditure are then formally endorsed for submission to the Finance Committee.

The meeting adjourns at 4.15 p.m.

At the meeting of the Orchestra and Band Committee held on Monday, January 31, 1927, at 4 p.m., there are present:—Dr. W. J. Isenman and Brigadier-General E. B. Macnaghten.

Chairman.—In the absence of Mr. Meyer, Dr. Iseaman takes the Chair.

The Minutes of the last meeting are confirmed and signed.

Tuesday Concerts.—A report by the Conductor is submitted in which, in view of the meagre support accorded to the repeat Concerts held on Tuesdays he requests instructions as to their continuance. It is noted that the receipts from these repeat performances barely cover the cost involved, and since these concerts were introduced as an experimental measure for the month of January only, members unanimously recommend that the Tuesday Concerts be discontinued. The Secretary states that as there would be insufficient time to inform the public of the cancellation of the concert advertised for to-morrow, instructions have been given for this performance to proceed. In confirming the Secretary's action regarding to-morrow's concert, it is recommended that a notice be published in the "Gazette" to the effect that owing to the lack of public support, the Tuesday performances will be discontinued.

The meeting adjourns at 4.15 p.m.

The charge against one was dismissed while the remaining six are on remand. Of the twenty-three persons on remand at the end of December charged with armed robbery, eight were sentenced to imprisonment and the charges against two were dismissed, while the remaining thirteen are still on remand. One man arrested on a charge of being a member of an armed robber gang was under remand at the end of the month. Eight men, three of whom were in possession of loaded pistols,

were arrested in connexion with a scheme to commit an armed robbery in territory under Chinese jurisdiction. One died from wounds received at the time of his arrest and seven were handed over to the Chinese authorities concerned.

Seven robberies, in which no arms were used, were also reported. In connexion with these and reports received prior to January 1 eight persons, one of whom was in possession of a loaded pistol, were arrested and were under remand at the end of the month.

Property Stolen.—673 reports made under this heading during the month represent an estimated loss of $223,998 and include 38 cases of burglary, 17 of house-breaking, 9 of godown-breaking and 23 of shop and office-breaking. Successful investigation was made in 135 cases, resulting in the recovery of property valued at $42,357, in addition to which recoveries to the extent of $8,000 were made in connexion with reports received prior to January 1. In addition successful results were obtained in two cases reported as having occurred out of Settlement limits and in one case where the property was reported as lost.

Trafficking in Firearms, etc.—A Chinese who was on remand charged with trafficking in firearms was sentenced to eleven months' imprisonment. Nine Chinese were arrested for being in possession of firearms for an unlawful purpose. Three were sentenced to imprisonment and the remaining six are on remand.

Crime beyond Settlement Limits.—Ten cases of armed robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. Two persons were killed and four wounded during the above robberies.

Executions.—Eight persons were executed at Lunghua during the month for various offences committed beyond Settlement limits. Four were convicted of attempted insurrection, one for attempting to damage the railway and three for armed robbery and armed abduction.

Military Situation.—Martial law was enforced in Chinese territory throughout the month. This precaution was continued in consequence of reports that Southern agents were planning to start an uprising in Marshal Sun's territory. The truth of these rumours was demonstrated by two attacks on the Shanghai-Nanking Railway. On January 2 telegraph poles were cut near Chengju Station, five miles from Shanghai, and on January 28 damage was done to the permanent way at Changchow. The steamship service between Ningpo and Shanghai was suspended for four days to prevent an exodus to Shanghai of Southern troops who were defeated in Chekiang. In the Settlement barbed wire barricades were erected at various points on the boundary and a proclamation was issued by the Municipal Council which dealt with the suppression of disorder and gave an assurance of protection to law abiding residents.

Anti-Foreign Agitation.—The seriousness of anti-foreign agitation in other parts of the country was reflected in Shanghai during the month in the arrival here of some eight hundred foreign refugees, mostly women and children. Many of these were obliged to make a hurried departure from their homes, leaving their belongings and personal effects behind. Many have lost their employment and are now dependent on their friends. At secret meetings and in literature circulated during the month anti-foreign agitators expressed unfeigned delight at the turn events had taken in Hankow, and renewed their demands for the cancellation of extraterritoriality and the so-called unequal treaties.

Agitation against Chinese Authorities.—In addition to arranging attacks upon the railway lines, parties hostile to Marshal Sun Chuan-fang endeavoured during the month to persuade the public that he and his generals are tyrannical militarists. No less than seventy two persons were arrested for being concerned in these activities. Some of these were engaged in conspiracies for waging irregular warfare, while others were only propagandists. Of the former six were executed including one Chien Kang. This man is said to have been the leader of the various guerilla attacks which were made in recent months upon Marshal Sun's lines of communication and the local Chinese defence forces. His arrest undoubtedly contributed in a very considerable way to the failure of plans which are known to have been made to extend these activities and create disorder in the Settlement. The prosecution of the propagandists has resulted in four small Kuomintang newspapers suspending business and the adoption of a moderate policy by other organs of that party.

Communist Activities.—Notwithstanding the risks which active Communists were obliged to take in consequence of the measures instituted against them by the Chinese Authorities, the members of that party continued active throughout the month. They celebrated the anniversary of Lenin's death by distributing handbills extolling his merits and urging the working classes to emulate his example. At various meetings Communist leaders promised proletarian audiences that the foreign buildings and other comforts of the Settlement would soon be at their disposal.

Strikes.—There were during the month fourteen strikes in addition to two which started in December 1926. These disputes affected 17,199 employes and resulted in the loss of 93,879 working days. Nine of the new strikes were due to economic discontent, three were the result of internal friction whilst the remaining two were declared as a means of showing sympathy for colleagues of similar trades who had walked out. Besides the disputes which culminated in open breaches several threatened strikes were averted by increases in wages and other concessions. The dissatisfaction among the working classes in which these troubles originated was undoubtedly due to reports in circulation regarding advantages brought recently to wage earners in Hankow by strikes. These reports were believed notwithstanding the fact that even now the working classes of Shanghai are better off than their colleagues at Hankow. Following the arrest of a worker for assaulting a foreign employe at Ewo No. 1 Cotton Mill, 46 Yangtszepoo Road, at 6 p.m. on January 12, the operatives smashed several windows and took possession of the mills. They were later dislodged from this position by the Municipal Police and Fire Brigade. In effecting this task, the Chief Officer of the Fire Brigade and one member of the Force were injured by a fusillade of bobbins and other missiles with which the workers sought to drive them back. In pressing demands for a new year bonus the employes of the Heng Foong Cotton Mill, Whashing Road, became disorderly at 3 p.m. on January 21, smashed several panes of glass and refused to leave the mills. Under cover of a smoke screen caused by setting cotton in course of manufacture alight they proceeded to wreck the machinery, but were prevented from doing serious damage owing to the fumes caused by the burning cotton. After their departure it was discovered that a safe had been broken open and $1,000 abstracted. On January 17 a strike was declared by the employes of the Shanghai Tramway Company, their demands including a substantial increase in wages and other requests of a more impossible nature. Most of these were treated in a very generous manner by the management and the strike came to an end on January 22. To celebrate their success, the strikers requested the management to allow them to utilize a number of trams to proclaim to the public that the strike was at an end. This request was unfortunately complied with and a procession of some twenty tramcars proceeded from the Wayside Depot in the direction of Bubbling Well. An endeavour was made to stop this procession in the Hongkew District but without success until the electric current was cut off. The occupants of the trams became violent and attacked the police on the Nanking Road where it required several baton charges to re-establish order. The mob was more than usually out of hand and a very awkward situation was extremely well handled by the police on duty. The employes of the China General Omnibus Company came out on strike on the morning of January 22 in sympathy with the workers of the Shanghai Tramway Company. Agitators committed attacks upon buses and loyal employes and one of the latter was robbed of a day's takings. Other acts of violence included assaults upon two Japanese newspaper reporters and an attack upon a foreign employe of the P.W.D.

In most cases of recent trouble the mob has shown a greater inclination to violence than has hitherto been the case. This is in a measure due

to general unrest and to the belief among the lower classes that these acts can be committed with impunity. The release by the Shanghai Provisional Court on January 4 of 18 men who were charged with attacks on property and assaulting loyal workers in connexion with the strike in Chinese owned general stores did nothing to correct this belief.

Rendition of International Mixed Court.—In pursuance of the terms of the Provisional Agreement of August 31, 1926, the International Mixed Court was formally handed over to the representatives of the Kiangsu Provincial Government by the Consular Body on January 1, 1927, and henceforth it will be known as the Shanghai International Settlement Provisional Court. Dr. Hsu Vee-tsung has been appointed its first President.

Illegal functioning of Chinese Volunteers and Officials in the Settlement.—Two instances of illegal functioning on Municipal roads by members of the Chinese Volunteer Corps occurred during the month. On the evening of January 10 two members of that corps found functioning at the corner of Warren and Brenan Roads were disarmed and released. A representative of the corps, to whom the arms were subsequently returned, was warned that the trespass should not be repeated. In spite of this, two armed members of the same body were found on Jessfield Road, near Connaught Road, on January 25. A complaint of this occurrence was made to the Chinese Authorities and the matter was satisfactorily settled. Agents of the Chinese Authorities on January 29 abducted from the Settlement a journalist named Francis Zia who is alleged to have published false news about the military situation in Chekiang.

Court Cases.—Two Chinese editors and two printers were during the month charged before the Provisional Court with publishing indecent articles in their respective newspapers. Fines ranging from $20 to $50 were imposed. Another Chinese was fined $50 for selling indecent articles.

Rice.—The average price of Chinese rice during the month was $16.36 per picul as compared with $16.57 in December 1926. About 700 employes of rice shops in Shanghai and district were on strike between January 24 and January 30. Although considerable inconvenience was caused to the trade by this dispute, the shopkeepers, with few exceptions, managed to continue their business with the aid of apprentices and relatives.

Traffic.—Court proceedings were instituted in 227 (28 foreigners and 199 Chinese) of 743 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

Richshas.

Correspondence with the Chinese and Foreign Richsha Owners' Association, relative to discontent among richsha coolies as a result of the strict enforcement of the order requiring each richsha to carry two lamps, is published for general information:—

Rough Translation of Petition from the Chinese and Foreign Richsha Owners' Association, dated January, 1927.

The writers say that formerly richshas were only required to have one light, and that the lights were maintained at their expense. Since the reduction of licences in 1924 a new regulation has been promulgated requiring two lights to be attached to each richsha, but the coolies frequently complained of great inconvenience because of this and the matter was left to their own discretion.

However, since January, 1927, strict orders have been issued requiring each richsha to carry two lights. The owners have made the necessary provision but the coolies continue to complain and frequently refuse to clean the lamps, notwithstanding they have been repeatedly warned. The coolies are very ignorant and they have lodged a strong protest against this regulation. There are rumours current, though they may be without foundation, that the richsha coolies will go on strike. The writers are afraid the coolies may be influenced by agitators and they are very much concerned about the matter, and ask the Council to take all necessary measures to avoid any untoward incidents.

Council Chamber,
Shanghai, February 16, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of January 28, relative to discontent among richsha coolies as a result of the strict enforcement of the order requiring each richsha to carry two lamps.

In reply thereto, I am directed to state that the occurrence of accidents at night, as a direct result of the deficient lighting of richshas, has made the enforcement of the rule a necessity in the interests of public safety. Moreover, no practical difficulty in meeting this requirement has been experienced, and in the great majority of cases the warning issued by the Police was promptly complied with.

In this connection, the Council is informed that the owners or foremen who let out the richshas to the pullers require the latter to supply wicks and oil, and desire to force them to provide the lamps as well. It cannot be doubted that this is a contributory cause of the richsha pullers' discontent, as also the fact that they have to pay about 92 cents, large money, a day for the hire of each richsha, whereas the middlemen hire the richshas from the actual owners at about 57 cents a day.

It appears, therefore, that the protests of the richsha coolies are mainly, if not entirely, a question of income, coupled with the increased cost of living, and that the matter is one for adjustment between the coolies and those who own or control the public richshas. As the rule regarding the use of lamps was made solely as a measure of safety in the streets, I have to inform you, with regret, that the Council cannot concern itself with what appears to be an economic dispute between the richsha coolies and their employers.

I am, Gentlemen,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Parks Report for January.

The planting of imported bulbs, which arrived rather late, was completed early in the month. Tree planting on highways will probably commence after the middle of next month, and such preparations as it was possible to make in advance, so as to facilitate planting, were attended to.

The effects of sudden early frost last year are now discernible and show that thousands of seedling plants have succumbed. A survey of the vegetable districts around Shanghai and Pootung reveals that practically all green vegetables are destroyed, and that for some time there will be a dearth of them. Reasons why this sudden frost killed plants to a greater extent last year than has been experienced for two or more decades were that it followed immediately after rain and exceptionally mild weather; consequently, the plants were full of sap and growing rapidly. Freezing, which causes death, is assumed to act as follows:—

As the temperature lowers, abstracting the heat from the plant, the protoplasmic contents of the cells exude water from the interior of the cell into the inter-cellular spaces, where it forms flakes of ice on the exterior of the cell walls to protect the protoplasm. Under favourable conditions, as, for example, when it thaws slowly, the coating of ice on the exterior of the cell wall proves an effective protection and the protoplasm slowly drawn back into the cell the water it exuded. On the other hand, as happened last year, the frost came suddenly and the watery cell contents were presumably exuded, but the following day a hot sun gave rise to a rapid thaw, which the disorganised protoplasts were unable to deal with, and imbibe sufficiently quickly the water they had exuded, thus causing the death of the plant.

SPORT.

All available playing spaces, especially for football, were occupied almost every Saturday and the Hongkew Park on Sundays.

D. MACGREGOR,
Superintendent of Parks and Open Spaces.

Countersigned,
C. HARPUR,
Commissioner of Public Works.

Rabies or Hydrophobia.

Rabies among dogs having been unusually prevalent during January and February, the following notice issued by the Public Health Department is republished for general information. Further reference to this subject will be found in the Report of the Commissioner of Public Health for January, elsewhere in this issue of the "Gazette":—

The Disease.—Rabies or hydrophobia is an acute fatal disease, generally communicated to man through a wound made by the teeth of some infected animal, the saliva being the infective medium. Dogs, cats, goats, cows, horses, and other animals are susceptible to the disease and their bites are very dangerous. Hydrophobia may also be contracted by allowing the saliva (froth) of an infected animal to come in contact with a cut or scratch. This sometimes happens in adjusting muzzles, in trying to remove what seems to be a bone in the throat, or in giving medicines. The saliva may be virulent (poisonous) for one or two days before a dog shows any signs of being sick.

Symptoms.—The disease in the dog appears in two forms. In the furious type, he may suddenly leave home, wandering off for many miles, perhaps, to return in a day or two emaciated, wounded, and utterly changed. During the time of "running mad" he may have bitten many persons and other animals. He seems impelled to bite anything that comes in his way. He cannot be said, as a rule, to fight with other dogs. He bites them and passes on, but does not go out of his way very much to attack them. His main object seems to be to keep moving, as if to escape something. The dumb variety is characterized by progressive paralysis of the lower jaw, change in character of bark, and marked nervousness. The animal may appear very affectionate, but may bite without warning. Death usually results in from three to six days from the onset of sickness.

What to Do with a Suspected Animal.—When an animal is suspected of having this disease it should be captured at once, if possible, and securely confined. A veterinary surgeon should be called to see the dog, or the circumstance should be reported to the nearest Police Station where they will arrange without payment for the transfer of the dog to the Observation Kennel under the care of the Commissioner of Public Health.

Dogs, suspected of rabies, should, if possible, be captured alive; but they may be killed, if danger of any person being bitten can thereby be avoided. If preserved alive it can be ascertained in a day or two whether the animal has rabies, while if killed it usually takes fourteen days to find out.

When other dogs have been bitten by a rabid dog they should either be killed immediately or handed over to the charge of a veterinary surgeon.

What to Do when Bitten.—The bite of any animal should be cleaned throughout its depth and cauterized as soon as possible by a doctor.

The person bitten should go to the Commissioner of Public Health to see if Pasteur Treatment is necessary.

It is absolutely necessary for persons bitten by rabid animals or animals suspected of rabies to have the Pasteur Treatment. This is given at the Municipal Health Office and takes about three weeks. The fee for Pasteur Treatment is Tls. 50 reducible in cases of necessity.

Atkinson & Dallas, Ld., for the surrender of an area of Mow 0.012 required from Cadastral Lot 435 for the scheduled widening of the above road, at the assessed value of the lot, *i.e.*, Tls. 15,000 per mow, plus 10 per cent. for compulsory surrender, or a sum of Tls. 205.

Motion Picture Films.—Proposed Regulations for Storing and Handling.—Arising out of an enquiry by Messrs. Beck and Swann, Secretaries of the Shanghai Fire Association, as to the fire risks involved, and subsequent investigations, the Chief Officer of the Fire Brigade submits proposed regulations for the storage and handling of Cinema Films.

Upon the Chairman observing that the proposed regulations appear to be of a somewhat comprehensive nature, the Chief Officer submits that these, as framed, are necessary to minimize potential fire risks. At the present time films are stored in large and small buildings, some of which, from a fire risk point of view, are quite unsuitable for the purpose. In the case of only a small quantity of films being stored, his Department has no objection to a steel safe being utilised for the purpose; the regulations now submitted, however, are designed to deal with the storage of films in considerable quantities.

Upon the Commissioner of Public Works pointing out that the requirement that the outlet of each vent shall be above the roof or made to face a street, court or other clear space, giving a distance of at least 50-ft. to doors, windows or other openings, will debar premises being utilised which front on to a 40-ft. road, the Chief Officer states that, whilst the proposed regulations are framed on those existing in England and America, he is willing to adopt the proposal to modify this requirement to 37-ft., which modification will enable premises in roads of 40-ft. in width (and making allowance for verandahs projecting to a width of 8-ft.) to be utilised. To conform with the building regulations, he also concurs with the view of the Commissioner of Public Works that the floors and walls of every film vault shall be at least 8½-in. thick instead of 8-in. as originally proposed.

After further discussion, recommendation as to the best means by which these requirements may be made effective is deferred until further reports on the subject are received from the Chief Officer and the Commissioner of Public Works.

Workshelter.—In his report submitted, the Commissioner of Public Works states that the workshelter situated in Soochow Road which was instituted by the Council as a shelter for casual visitors for short periods has now become a permanent home for a number of indigents, notably Russians, and thus is not fulfilling the purpose for which it was intended. Whilst making no definite recommendation in this matter, in view of the fact that this institution cost the Council approximately Tls. 3,500 last year, he desires that these facts be brought to the Council's attention.

After discussion, members agree that continuance or otherwise of this institution merits consideration, but, in view of the fact that an undoubted hardship would be caused if the shelter was closed during the cold season, it is directed that the matter be submitted to the Committee for its recommendation in two months' time.

Annual Licensing Session.—It is decided to hold the Annual Licensing Session for the purpose of considering applications for licences for Foreign Hotels, Restaurants and Taverns for the ensuing year on Friday, March 25, at 4 p.m.

The meeting adjourns at 5.20 p.m.

The meeting adjourns at 5.45 p.m.

Public Health Report for January.

The state of the Public Health was satisfactory at the beginning of the New Year.

There was no special incidence of communicable disease, and the death-rates among Foreigners and Chinese were about normal.

Smallpox was entirely absent among resident Foreigners.

At the various Branch Health Offices, 710 free vaccinations were done during the month.

Smallpox, though most prevalent in Shanghai during the winter, occurs sporadically throughout the year, and because it is frequently so virulent and deadly in China, all who have not been efficiently vaccinated during the last three years are urged to be done without delay.

During the month 30 persons having been bitten by dogs underwent the Pasteur treatment for the prevention of Rabies. Rabies among dogs was unusually prevalent, and of 15 dogs biting people, three are known to have died of the disease. Special attention is drawn to the Public Health notice on Rabies, in which information is given about the disease, and instructions what to do with suspected animals and how to act when bitten. (This notice appears in another part of this issue of the "Gazette.") Dog-owners are urged, for the sake of the Public, themselves and their dogs, carefully to control the movements of their dogs, not allowing them to roam the streets unaccompanied or unmuzzled. Rabid dogs from the surrounding country occasionally make their way into the Settlement, and before escaping or being caught or shot, do incalculable harm by biting other animals or people and infecting them with Rabies.

The saliva of animals infected with rabies may be infective for ten days before obvious signs and symptoms of the disease appear, so that even in cases of bites from apparently healthy dogs, it is advisable to treat wounds on the assumption that they are infected, and, if wounds are severe or multiple, or on head, face, neck, hands or wrists, to commence Pasteur treatment pending expert observation of the dog during a period of ten days.

A Municipal Tuberculosis Clinic was started during the month at the General Hospital, by kind permission of the Governors, under the care of the Assistant Commissioners of Public Health in charge of Municipal Hospitals.

Tuberculosis—the Great White Plague—is the most prevalent and damaging and deadly of the diseases to which flesh is heir. About 10 per cent. of all deaths are due to Tuberculosis, and 3C per cent. of all deaths between the years 15 and 60, those of greatest usefulness, are due to Pulmonary Tuberculosis alone.

According to a conservative estimate there were over 600 cases of Tuberculosis among Foreigners and over 11,000 among Chinese in Shanghai last year.

Medical science has discovered almost all there is to be known about Tuberculosis, and it only remains to apply this knowledge.

The prevention of Tuberculosis is now largely a social problem and depends on an ample and varied supply of pure food, good housing with sunlit and well-ventilated rooms, improved industrial conditions and facilities for healthy recreation in the open air, in a word, a high standard of personal and social hygiene for everybody.

Science has shown the way, and it remains for society to apply the knowledge.

The Tuberculosis Clinic works in co-operation with the local Doctors and is

(1) A centre for examination, diagnosis, continued observation and treatment of indigent Foreigners suspected of suffering from Tuberculosis.

(2) A sorting ground and clearing house for cases suitable for admission to the Tuberculosis Block of the Municipal Isolation Hospital.

(3) A centre for information and education concerning Tuberculosis.

(4) A centre for the examination of contacts, and investigation of the domiciliary environment and economic condition of patients; the part played by these in the causation and continuance of the disease, and the adoption, as far as possible, of all necessary remedial measures.

Such a Clinic is the first unit in the campaign against Tuberculosis, and its aim is to see that no case of Tuberculosis goes undetected and uncared for, in the community.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Venereal Diseases Clinic, Tuberculosis Clinic and Municipal Laboratories, Hospitals and Slaughterhouse.

C NOEL DAVIS,
Commissioner of Public Health.

Fire Brigade Report for January.

The total number of calls received during the month was 61, and were as follows:—

Genuine calls within the Settlement, 39; fires in the special-rated area 2; false alarms inside the Settlement 4; chimney fires 2; outside fires 11 and special calls 3.

The damage on assessed property within the Settlement was estimated at Tls. 20,214 (Foreign Tls. 15,015 —Chinese Tls. 5,199), and in the special-rated area at Tls. 300 (Foreign nil—Chinese Tls. 300), whilst the property at risk within the Settlement was estimated at Tls. 6,856,030 (Foreign Tls. 6,250,000—Chinese Tls. 606,030), and in the special-rated area at Tls. 4,200 (Foreign nil—Chinese Tls. 4,300).

No lives were lost at fires during the month, but three lives were lost from carbon monoxide in a gas inspection chamber. One person and one fireman were injured by fires inside the Settlement and one fireman outside. Two Officers were injured in a cotton mill riot, and one person at a special call.

Five premises were destroyed (including three straw huts) and 17 premises damaged in varying degrees in the Settlement.

In dealing with the foregoing:—

Brigade machines travelled 354½ miles.

Time occupied was 178 hrs. 42 mins.

Hose laid approximately 18,550 feet.

Water used was 120,260 gallons.

There was only one fire of note, as follows:—

January 30, 8.36 p.m., 242/3/4 Szechuen Road (Marcel's Cafe) Central Division.—This outbreak started in a store on the second floor, and when the Brigade arrived flames were already through the roof and the third floor involved. A turntable escape was brought into use as a water tower and covering jets worked from adjoining premises through the roof space, there being no proper intervening fire walls. Water damage was minimised, as far as possible, in the shops underneath by the use of waterproof sheets, saw dust, etc.

Special Call January 20, 12.17 p.m. Avenue-Chengtu Roads, Gas Main.—A call was received to the above cross roads, and, on arrival, it was found that three men had been overcome in a gas main inspection chamber. On being got out, two were found to be dead, and despite the efforts of the Department and the use of the oxygen reviving sets, the third man succumbed. Resuscitation work was continued on all three men whilst they were being conveyed in the Rescue Van to the Shantung Road Hospital, but without avail.

The following inspections were carried out by officers of the Department during the month:—

1. Premises of Applicants for Licences	33
Re-inspection of Applicants for Licences	23
2. Licensed Premises	
(*a*) Theatres, Cinemas and other places of amusement	286
(*b*) Garages and Repair Shops	20

(*b*) Stores (Foreign and Chinese)	3
(*c*) Factories, Filatures and Mills	[illegible]
(*d*) Godowns and Wharves	[illegible]

(*a*) Shanghai Waterworks	1,46
(*b*) Private Installations	76
8. Miscellaneous Inspections of premises following complaints	[illegible]

Total	3,31

The above inspections revealed [illegible] breaches of the Council's Licence Regulations, and 209 letters were written with regard to Fire Installation.

Settlement Protection.

Council's Request for Assistance. —The following letter is published for general information:—

Council Chamber,
Shanghai, February 25, 1927.

SIR,—I have the honour to inform you that in view of the impending arrival in this neighbourhood of large bodies of Chinese troops belonging to the armies now engaged in civil war in this country, the Council considers that the menace to the Settlement is such as to justify an application to the Consuls-General concerned for assistance in the maintenance of peace and order within the limits of the Settlement and in residential districts immediately adjacent thereto.

I have the honour, accordingly, to confirm my verbal communication to you on this subject early this morning, and to request that you will be good enough to arrange for the forces to be made available which, it is understood, are being held in readiness for the purpose indicated.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

N. AALL, Esq.,
Consul-General for Norway and Senior Consul *ad interim.*

Barbed Wire Barricades. — The following correspondence is published for general information:—

Shanghai, March 3, 1927.

SIR,—I have the honour to transmit herewith a copy of a letter addressed to me by the Commissioner for Foreign Affairs regarding the barbed wire barricades erected by the Municipal Council on the North Szechuen Road.

I should be glad to receive such comments as the Council may see fit to make on the subject matter of this letter.

I have the honour to be,
Sir,
Your obedient servant,
N. AALL,
Consul-General for Norway and Senior Consul.

S. FESSENDEN, Esq.,
Chairman,
Municipal Council.

Bureau for Foreign Affairs,

Shanghai, February 16, 1927.

SIR,—I am in receipt of a communication from the Paoshan Magistrate in which he quotes the contents of a report received from the Paoshan Protectionary Corps to the following effect:—

"Colonel Wang Tung and 2nd in Command Yin Ping of the 1st Regiment of the Paoshan Protectionary Corps have reported that the Chapei North Szechuen Road is not within the confines of the Settlement and foreigners have constructed barricades on both sides of the road at each intersection. This action has caused much fear and suspicion in the breasts of the public. It appears to us that these barricades are not only an obstruction to the traffic but may well lead to ill-feeling on the part of the people. We therefore request you to take steps to have them removed."

I have also received similar letters from the City Magistrate and the Shanghai Protectionary Corps.

Before negotiations on the subject of road building outside Settlement limits, the Municipal Council should not institute defensive operations there in order to avoid suspicion and misunderstanding. The Military and police authorities are now taking strict steps on territory outside the Settlement so that barricades are not necessary.

I shall be obliged if you will take note of the above and give the necessary orders for their removal to the authorities.

I have, etc.
Seal of HSU YUAN.

N. AALL, Esq.,
Consul-General for Norway and Senior Consul.

Council Chamber,
Shanghai, March 9, 1927.

SIR,—I have the honour to acknowledge receipt of your letter of March 3, transmitting a copy of a letter addressed to you by the Commissioner for Foreign Affairs regarding the barbed wire barricades erected by the Council on North Szechuen Road Extension.

In reply, I have the honour to state that the Council, being responsible for public safety, must reserve to itself the right to erect such barricades on public property as may seem necessary, and that in the light of previous experience the Council is satisfied as to the necessity of the barricades in question at the present time.

At the same time, the Council is naturally most anxious to cause as little inconvenience as possible and to this end has already complied with numerous requests for openings to be made in the wire in order to facilitate access to premises. All requests of this nature should be made by those concerned direct to the Commissioner of Public Works, Administration Building, Hankow Road.

In conclusion, I have the honour to state that the barbed wire barricades and other defences constructed to meet a possible emergency will be removed as soon as, in the Council's opinion, the need for them no longer exists.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

N. AALL, Esq.,
Consul-General for Norway and Senior Consul *ad interim.*

Death.

The Council has learnt with deep regret, of the death on March 10, of Mrs. W. L. Merriman. Mrs. Merriman took a very keen interest in educational matters in Shanghai and was a member of the Thomas Hanbury School Committee from 1909 until its amalgamation with the Public School Committee, and thereafter was a member of the Foreign Education Committee until 1924. She also accepted the appointment as a member of the General Education Commission, 1922, and for a period of over twelve months attended the deliberations of the Commission, her advice, more particularly on questions relating to the Girls' Schools, being greatly valued by members. Mr. Merriman, whose death took place in 1925, was a member of the Council for several years.

Volunteer Corps.

Shanghai Light Horse.—S.Q.M.S. W. R. McBain to be 2nd Lieutenant.

Corps Route March.—The following letter has been received from Major-General J. Duncan, C.B., C.M.G., C.V.O., D.S.O., commanding the Shanghai Defence Force:—

Headquarters,
Shanghai Defence Force,
March 14, 1927.

MY DEAR COLONEL GORDON,—Will you please express to all ranks of the Shanghai Volunteer Corps the high opinion I formed of it as a military body as the result of yesterday's march past.

I was immensely struck with the fine physique and soldierlike bearing of the men of all Units of the Corps.

The turn out of both mounted and dismounted Units would compare most favourably with any Regular unit of the British Army.

The march discipline was beyond criticism.

Having recently commanded a Territorial Division, I realise that such a high standard of efficiency could not have been obtained without highly trained Officers and N.C.O's, and without great devotion to duty on the part of all ranks, who must have given up much of their leisure to preparing themselves for the defence of their Settlement.

It is a particular pleasure to me to note the International nature of the Corps, and to see the representatives of all the Powers working together to prepare themselves for the protection of the International Settlement. Such comradeship amongst the various nationalities is, to my mind, a factor of great importance.

The International Settlement has good reason to be proud of its Corps, and I congratulate you on the high state of efficiency to which you have brought it.

Yours very sincerely,
JOHN DUNCAN.

Serious Crime.—This includes the murder of a Chinese female who was shot dead by armed robbers in the Sinza District on the night of February 6; the murder of an unemployed boatman who was stabbed in the Louza District on February 7; the murder of an unknown Chinese whose dead body with a bullet wound in the head was found on the Sinza Road on the evening of February 8; the murder of an unidentified Chinese whose dead body with a rope wound round the neck was found partly immersed in a creek in the Wayside District on February 9; the murder of an unknown Chinese whose dead body, bearing wounds on the head, was found lying in the country off Chemulpo Road on February 10; the death in hospital on February 11 of a Chinese female who was fired at and wounded by armed robbers at her home in the Harbin Road District on February 10; the murder of two brothers employed as mill detectives who were shot dead by a gang of armed men at their home in the Pootoo Road District on February 14; the murder of a foreign female whose dead body with a bullet wound in the head was found lying at the side of Great Western Road on February 14; the death in hospital on February 20 of a Japanese who was shot dead by a gang of armed assassins at his home in the Hongkew District on February 19; the murder of an unemployed Chinese who was shot by another man in the Louza District on February 24; the murder of a Chinese shop owner who was shot in the Hongkew District on February 25 and died several hours later and the murder of a mill foreman who was shot dead in the Pootoo Road District on February 26.

In connexion with the sixth mentioned case one man was arrested and is under remand. A foreigner arrested in connexion with another case is also under remand.

Six men on remand charged with the murder of two Chinese and the wounding of another at a house in the Pootoo Road District on January 19 were dealt with. They were handed over to the Chinese Military Authorities. One man was arrested on February 1 for being concerned in the murder of a ship's fireman who died on November 18, 1924 as a result of being assaulted five days previously with knives and choppers. The accused is on remand. In connexion with the murder of a Chinese shoemaker and the wounding of another who were stabbed in the Louza District on January 22, one man was arrested and is awaiting trial.

Robbery.—Eighty-three reports of armed robbery from premises and twenty-nine on the highway were received during the month. Nine cases of attempted armed robbery were also reported. Shots were fired by the robbers in twenty-one instances resulting in the death of two Chinese and the wounding of three others.

In connexion with the above and reports of armed robberies occurring prior to February 1, seventeen persons, three of whom were in possession of loaded firearms, were arrested, and are now under remand. Of the nineteen persons on remand at the end of January charged with armed robbery, six were dealt with. Two were sentenced to life imprisonment and four to sentences ranging from fourteen to eight years' imprisonment. Two men on remand charged with being members of a gang of armed robbers were further charged with armed robbery. One was sentenced to imprisonment and the other acquitted.

Two reports of robbery from premises, in which no arms were used, were reported, and three cases of highway robbery, in which no arms were used, also occurred.

In connexion with these reports and reports received prior to February 1, two men were arrested and were under remand at the end of the month.

One of the eight men, on remand at the end of January charged with robbery, was dealt with. He was sentenced to ten years' imprisonment.

Property Stolen.—510 reports made under this heading during the month represent an estimated loss of $160,445 and include 46 cases of burglary, 12 of house-breaking, 13 of godown-breaking and 26 of shop and office-breaking. Successful investigation was made in 99 cases, resulting in the recovery of property valued at $15,171, in addition to which recoveries to the extent of $6,005 were made in connexion with reports received prior to February 1. In addition successful results were obtained in seven cases reported as having occurred out of limits and in five instances where property was reported as lost.

Trafficking in Firearms, etc.—Three Chinese were arrested for being in possession of firearms for an unlawful purpose. Two were sentenced to imprisonment and one is under remand. Six Chinese on remand at the end of January charged with being in possession of firearms for an unlawful purpose were dealt with. Five were sentenced to imprisonment and one was acquitted.

Threatening Letters.—During February only four threatening letters were handed over to the Police for investigation as compared with 93 handed over in January 1927. It is difficult to account for this remarkable decrease, and the only explanation would seem to be that the great increase in January was due to the approach of the Chinese New Year when the criminal element who specialize in this class of extortion needed money badly to carry them over the holiday period.

Crime beyond Settlement limits.—During the month six cases of armed robbery and piracy were reported as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In one instance the inmate of a house plundered was stabbed with fatal results.

Condemned Prisoners and Executions.—In the Municipal Gaol there are 80 condemned prisoners, the same number as recorded in January 1927, no prisoners being condemned to death by the Provisional Court during February. On January 22, 1927 special applications were forwarded to the Provisional Court for new dispatches to enable the Police to hand eight of these condemned prisoners over to the Military Authorities at Lunghua but, despite repeated requests, these dispatches are not yet to hand.

During the month twelve persons were beheaded or shot by the Chinese Authorities in connexion with the distribution of inflammatory literature and the carrying out of Bolshevik propaganda in Chinese territory.

British Naval Officer Missing.—Lieutenant R. L. Wight of H.M.S. "Vindictive", was reported missing on February 12, 1927, and has not since been seen or heard of despite the wide publicity which has been given to his disappearance. It would seem possible that he was drowned in an endeavour to make his ship at night.

Military Situation.—Following operations on the Chien Tang River, Marshal Sun Chuan-fang's army withdrew about February 18 to a line extending from Kingshanwei to Chukiak'o via Sungkiang. Arrangements were in progress at the end of the month for their withdrawal from that line and replacement by their allies the Chihli-Shantung troops. The united armies at the end of the month held a line from Kingshanwei to Ishing, which follows approximately the Northern boundary of Chekiang Province. Besides causing incalculable losses to trade, the fighting resulted in serious dislocation of the lines of communication between Shanghai and the interior. Of 26 steam launches regularly plying between the Settlement and the various towns on waterways in Kiangsu and Chekiang, 25 suspended their services for the greater part of the month. Traffic on the Shanghai-Hangchow Railway was maintained on a modified schedule up to February 17 but was completely suspended from that date. Other results of the war included the firing by Chinese warships anchored in the Whangpoo River on February 22 of twelve shells, of which eleven are known to have fallen in the French Concession and one in the Settlement, two minor cases of threat with firearms against the Municipal Police by individual Chinese soldiers, attacks by armed bodies on police stations in Chinese territory and the usual rush of thousands of refugees from the war area to the Settlement.

General Strike.—As soon as news reached Shanghai of the withdrawal of Marshal Sun's forces from the area of the Chien Tang River, sympathizers with the Southern Party urged the evacuation of Shanghai by Marshal Sun's forces and the supersession of the local administration by a citizens' commission. Propaganda conducted in furtherance of this policy culminated on February 18 in a decision to call a general strike. Starting on February 19 with 54,600 employes affected, this movement extended steadily until February 22 when the total number of strikers reached 112,000. These included the operatives of 39 cotton mills, 27 silk filatures, 5 tobacco factories, 6 shipping and wharf companies, a large majority of the Chinese Post Office, the Municipal Electricity Department, the Tramway Companies in the Settlement, French Concession and Chinese territory, together with four departmental stores on Nanking Road. The total number of workers out increased to 124,500 and the total number of working days lost was 488,000. On February 22 the strike commenced to collapse. By February 25 the number out had been reduced to 10,000 all of whom returned to work before February 28. Although Japanese, British and Chinese concerns were the chief sufferers, the dispute also considerably affected American, French and Portuguese firms. Attempts to induce merchants and shopkeepers to join forces with the strikers proved entirely unsuccessful. Apart from the large department stores, no shops were affected, with the exception of a small number of stores in Sinza District which closed for a few hours on February 20. Five important Chinese newspapers, however, suspended publication from February 21 to 26. While professing that the strike resulted from a desire on the part of the workers to demonstrate their sympathy with the Southern cause, the agitators from the outset sought to further the campaign by means of intimidation. At 8.45 a.m. on February 19 a gang of strike pickets smashed the windows of the Aquarius Mineral Water Factory and assaulted the foreign manager. These tactics were repeated a short time later at the British Cigarette Company's Packing Factory, Baikal Road, and at the Shanghai Steam Laundry, 8 Thorburn Road, and again in the afternoon at a lace factory at No. 549 Kungping Road. This policy of violence culminated the following day in interference with buses and tramcars. The sum of these events showed that the agitators had determined to reduce the community to helplessness by means of a general strike, made effective by violence and terrorism. The Municipal Police on February 20 and succeeding dates arrested all persons found intimidating loyal

workers and distributing literature of an inflammatory nature. In this way about fifty persons were arrested and certain well known bases of agitation were closed, while measures of a somewhat similar nature were adopted in the French Concession and Chinese territory. In the latter area a dozen or more alleged seditionists were summarily executed, by the Chinese Authorities. Previous to the adoption of these measures the Chinese Authorities issued a proclamation prohibiting strikes, and explaining that persons found intimidating peaceful workers would be dealt with according to martial law.

Chinese Representation on the Municipal Council.—Arrangements by the Chinese Ratepayers' Association at the end of January to accept the offer of the Municipal Council granting them representation to the extent of three members on that body were abandoned in favour of a policy which aims at securing a quota equal to half the number of seats.

Communist Activities.—The local branch of the Chinese Communist Party was very active during the month and played an important part in arranging the general strike. Its leaders are now concentrating on organizing the power of the revolutionary labourers and peasants so as to give effective support to the Nationalist regime. The nature of the support to be rendered has not been disclosed, but there is little doubt that the leaders intend that it shall take the form of a widespread general strike. It seems to be the hope of the agitators that by the time the order for that movement is issued the workers will be reduced to such a state of fear that they will obey without hesitation. This end is now being furthered by sinister propagandists who to emphasize their power arranged no less than five armed attacks upon employes of industrial concerns during the last ten days of February. The victims were shot dead in three of these cases and were seriously wounded in the two others. No motive seems to have existed for these crimes save a desire to intimidate. Two of the persons concerned in the campaign who were arrested by the Police admitted that they had no personal grievance against the victims, but had consented to take employment under certain so-called labour unions as hired assassins.

Traffic.—Court proceedings were instituted in 119 (20 Foreigners and 99 Chinese) of 721 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

C. NOEL DAVIS,
Commissioner of Public Health.

Public Health Report for February.

The health of the community was satisfactory, the death-rates among both Foreigners and Chinese being normal.

Smallpox was again entirely absent among Foreigners and only one death was reported among the Chinese. The comparative freedom from Smallpox led, as usual, to a false sense of security and to neglect of vaccination. This is always dangerous, since it leads to accumulation of non-immune persons, and, sooner or later, to an inevitable outbreak of the disease.

All who have not been efficiently vaccinated within the last three years are urged to be done without delay.

A mild type of Influenza was moderately prevalent, but there were no deaths among Foreigners, and only five reported among the Chinese.

The waging of civil war on the borders of Kiangsu and Chekiang drove crowds of refugees into the Foreign Settlement for safety and protection.

Movements of troops on the Shanghai-Nanking Railway interfered with the transport of cattle from Tanyang and there was a consequent increase of 30 per cent. in the price of meat. Fighting along the Shanghai-Hangchow Railway also interfered with the normal supply of sheep.

Fresh vegetables and market produce were held up by the wholesale commandeering of boats and labour by the Chinese military authorities, and prices rose accordingly.

Full co-operation took place between the Public Health Department and the Medical Staff of the Shanghai Defence Force, in matters affecting the health of the troops especially with regard to the prevention of Communicable Disease.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Venereal Diseases Clinic and Municipal Laboratories, Hospitals and Slaughterhouse.

C. NOEL DAVIS,
Commissioner of Public Health.

Bacteriological Examination.—During February, 1927, fourteen samples of Shanghai Waterworks water were examined. Each sample consisted of 120 c.c. In addition four similar samples were taken from the main hydrant. In no case were organisms found capable of fermenting either glucose or lactose. This shows a very high standard of bacterial purity.

Chemical Examination.—Chlorine in chlorides has varied from 1.9 to 2.2 parts per 100,000 and free chlorine has been constant at 0.3 parts per million during February. Nitrites have been absent. The saline ammonia figure is still very much higher than normal.

Report on Analysis.—Results of analyses show satisfactory purification.

Parks Report for February.

The rain which fell intermittently throughout the month kept the soil so moist that work thereon was practically impossible, consequently permanent planting had to be deferred. In the nurseries, where the plants are small, a certain amount of transplanting was attended to and cuttings inserted. Roses and various Autumn flowering shrubs were pruned and the lawns and paths rolled as frequently as possible.

Manifesto by the Council for the International Settlement of Shanghai.

The following Manifesto, issued by the Council, has been forwarded to the Members of the Consular Body, to the local Press (Foreign and Chinese), and to the Press of Europe, America and Japan:—

Manifesto by the Council for the International Settlement of Shanghai.

The Council for the International Settlement of Shanghai, recognizing its grave responsibility for the safety of the lives and property of the Chinese and Foreign residents within the area of its administration, considers that the time has arrived for a public announcement of its considered views as regards the local situation.

(1) The International Settlement of Shanghai is an area set aside under agreement between the Chinese Government and the Foreign Powers, within which the Municipal Council is vested with full authority as regards all matters necessary for the maintenance of order and good government. Up to the present the Settlement has been administered by a Municipal Council composed of nine Foreigners. Under this wholly Foreign administration Shanghai has developed until it has become the principal port in China. The vast international trade that has been built up and the enormous capital that has been invested in industrial enterprises have benefitted both Chinese and Foreigners, and are finding employment for hundreds of thousands of Chinese.

(2) It is within the Council's knowledge that agents in the service of revolutionary interests are actively engaged in spreading subversive doctrines among the less responsible elements of the Chinese Community of Shanghai with the object of fomenting class hatred and general disaffection. If these nefarious schemes are successful they will inevitably lead to civil commotion and mob violence, and result in crippling all forms of industrial enterprise and destroying the trade of the Port. The Council realizes the gravity of this aspect of the situation and of its possible repercussion throughout the civilized world, and will use all the resources at its disposal to retain control of the situation. Concurrently with these sinister activities, a national spirit is gradually taking form throughout China, with many aspects of which the Council finds itself in sympathy. Unfortunately an influential section of this movement is at present dominated by persons holding extreme and revolutionary views who are seeking to cloud and distort the legitimate aims of the Chinese in order to serve an evil purpose of their own.

(3) The Council is fully alive to the fact that the rapid growth of the Chinese population of Shanghai has rendered an alteration in its constitution desirable, so as to allow for the inclusion of Chinese Councillors having the same duties and responsibilities as Foreign Councillors. At the Ratepayers Meeting of April 1926 a Resolution was proposed by the Council and duly approved by the Ratepayers to the effect that the participation of Chinese residents in the government of the Settlement was desirable, and that the approval of the Powers concerned should be obtained so as to allow for the addition of three Chinese members on the Council. This proposal has duly received the approval of the Powers concerned, the Central Government at Peking, and the Provincial Government of Kiangsu; and the Council is only awaiting the appointment by the Chinese Community of three Chinese members in order to proceed with the consideration of certain outstanding problems, the solution of which requires the advice and opinion of representative Chinese. Assuming the three Chinese Councillors take their seats this year, the Council will comprise the following: — Five British, three Chinese, two Americans, and two Japanese.

(4) The Council for the International Settlement of Shanghai will be guided by the results achieved by the alteration in its constitution referred to in the preceding clause and by political developments, when considering how far a policy of devolution can be applied to a city of the size and importance of Shanghai where vast international interests are involved. It is the Council's considered opinion that the present is not a suitable time for the Powers concerned to consider any drastic change in the Shanghai administration. Influences have been released in China with the express and avowed purpose of stirring up discontent, class hatred and racial prejudice, and until these influences have been eliminated it would be a fruitless task to attempt to reconcile Sino-Foreign viewpoints. In making this statement the Council does not wish it to be inferred that it is in any sense opposed to increasing Chinese representation in the affairs of the Municipality but rather that any further changes in its constitution that further experience may suggest shall be effected by evolutionary as opposed to revolutionary methods, and that they shall be considered in an atmosphere created by mutual goodwill, respect, and conciliation.

(5) Pending the outcome of the struggle that is now being waged throughout China between the forces of temperance and intemperance, of evolution and revolution, the Council appeals to moderate minded Chinese and Foreigners alike to support the measures that are being taken to protect the International Settlement from acts of aggression either from within or without its borders. The Council also urges the Powers concerned to insist upon due respect being accorded to treaty obligations entered into between one self-respecting Nation and other self-respecting Nations until the time arrives when these obligations can be reviewed in a proper perspective.

Charity Organization Committee.

Report and Statement of Accounts for 1926:—

Shanghai, March 18, 1927.

SIR,—The Charity Organization Committee beg to hand you herewith a Report of their work for the year ending December 31, 1926, together with a Statement of their accounts and a Summary Statement of moneys received and disbursed by them during the same period.

I am, Sir,
Your obedient servant,
ADA WHEEN,
Secretary.
Charity Organization Committee, King's Daughters' Society.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Report of the Charity Organization Committee for year ending December 31, 1926.

Unknown to many, the Charity Organization Committee like Johnny Walker is still "going strong," and it may be of interest to the public to recall some of the details of the work since its inception.

For several years, the King's Daughters' Society had been investigating and relieving necessitous cases, but when the first Charity Organization was started by the late Ed. Ezra in 1913, this work was handed over to them.

However in 1916, when the old Committee relinquished the work, the Municipal Council asked the King's Daughters if they would again take it over, and administer the Council's grant for office expenses. The present Secretary then took charge and in 1918 the employment of an assistant in the office was found necessary, and in 1920 owing to the influx of refugees from Russia it was found impossible to carry on without an interpreter, who is at the office for certain hours daily.

Owing to the great increase in the work, necessitating more space for files, larger quarters were required and in October 1919 the Organization moved into its present premises, the first floor of 5A North Soochow Road.

Mrs. Wheelock who was the originator of the "Tenement Flats" under the auspices of the old Charity Organization Committee asked the King's Daughters' Society if they would also include the upkeep and supervision of these flats in the working of the new Committee and in 1918 this was done. They were supported first by special subscriptions, and later from the funds of the King's Daughters' Society. Three years later, when the "Florence Spooner Home" was ready for occupation, the Tenement

House formerly maintained by the Charity League was included, and in 1924 two of the flats were converted into a "Nursery," where children under school age can be cared for at a low charge, thus enabling the mother to earn a living.

In 1923 the first meeting of the Associated Charitable Societies was held and since then meetings have been arranged from time to time to discuss matters of common interest; this has led to a great extension of the work of the office as a central clearing house. The office files contain a vast amount of useful information, which is always available for those who need to make enquiries, as to the past history of those who apply to them for assistance. The Committee is glad to be able to state that the office is made use of not only by the various Charitable Societies and Consulates but also by many private individuals who have been approached for aid.

It is regretted, that owing to unforeseen circumstances, no General Meeting of the above has been held during the year; two meetings of representatives from the different Ladies' Benevolent Societies have been held, to discuss again the ever present need for a Cottage Home for the care of the mentally deficient and the feeble minded. These Committees are entirely in sympathy, but until the power of detention can be obtained in Shanghai, it will not be possible to run such a home successfully. If this power can be obtained through the necessary authorities, either Consuls, Council, Magistrates or Police the chief obstacle would then be removed and the question could again be considered.

Staff.—An extra drain has been put on the financial resources of the Organization during the latter part of the year, owing to the long continued illness of the Assistant, which has necessitated six months sick leave. It was quite impossible to carry on the work without another assistant, and equally impossible to get another salary for a competent person out of the allowance from the Shanghai Municipal Council, hence an application was sent to them for an increase; in the meantime the King's Daughters' Society kindly came to our help by granting four months full pay in advance to Miss Machado during her leave of absence.

Mendicants.—A certain individual applied at one of the Senior hongs for assistance to get away from Shanghai, saying that he had sufficient money for the passage with the exception of $17.00, and at the same time showing a list of names of persons who had already given or promised to give varying sums. The would be donor rang up the Secretary to make enquiries and as the name given seemed familiar, he was advised to do nothing beyond sending the man to Headquarters, when if the case was genuine the money would be collected, a ticket taken and the man seen on board. This was done and a letter containing a promise to pay the balance of $17.00 if needed, was written to the Secretary and handed to the mendicant. Needless to say nothing has been seen of him at the office, and unfortunately it is not known whether he collected the different amounts or not. This is only one of very many similar instances.

Cases.—Mention was made in the Report for the year 1922 of a family of 4 children, whose mother had died, whose father had left them and who therefore had been taken charge of by the Charity Organization Committee. Being British (the father Welsh and the Mother Scotch) St. George's Society, the Ladies' Benevolent Society, St. David's Society and the King's Daughters' Society, all very kindly came to our assistance with their education. The eldest boy was sent to Australia in 1924, writes, and is doing well. We are happy to state that after four years we got into communication with their mother's relations and the two girls and one boy left for Scotland in September last. Several letters have been received from them, telling of the great kindness shown by every one on board, from the Captain downwards, and even to the collection of £27 made by some of the passengers and given to them as a parting gift.

Mention might here be made of the great assistance rendered by the Charity Organization Society in London and the personal interest shown by one of its Secretaries, Miss Cory, a former Shanghai girl. She has always been most willing to meet and render help to any person or family we have sent back to the Homeland, such as a paralysed man with wife and child and a woman, who later on was certified by the Home Authorities as insane, all have been met and assisted to their friends.

It will be gratifying to many to know that the family named Marks, for whom an appeal was made in the "North-China Daily News" for assistance with their passage money, have arrived at their destination. A letter was received from Mr. Marks at the end of the year, saying that he had already got work, and hoped to be able to repay his debt early in the year.

The Committee has dealt with 362 new cases during the year, whilst the Daily Journal records 4,107 visitors to the Rooms as follows:—

22 Meetings have been held during the year 1926 with an average attendance of 6.

The Committee would again like to take this opportunity to acknowledge the kindly co-operation of all the various Charitable Societies and Agencies to whom it has applied and also to the various private individuals who, from time to time, have rendered assistance, and through whose agency it has been able to help in divers ways.

Manifesto by the Council for the International Settlement of Shanghai.

The following Manifesto, issued by the Council, has been forwarded to the Members of the Consular Body, to the local Press (Foreign and Chinese), and to the Press of Europe, America and Japan:—

Manifesto by the Council for the International Settlement of Shanghai.

The Council for the International Settlement of Shanghai, recognizing its grave responsibility for the safety of the lives and property of the Chinese and Foreign residents within the area of its administration, considers that the time has arrived for a public announcement of its considered views as regards the local situation.

(1) The International Settlement of Shanghai is an area set aside under agreement between the Chinese Government and the Foreign Powers, within which the Municipal Council is vested with full authority as regards all matters necessary for the maintenance of order and good government. Up to the present the Settlement has been administered by a Municipal Council composed of nine Foreigners. Under this wholly Foreign administration Shanghai has developed until it has become the principal port in China. The vast international trade that has been built up and the enormous capital that has been invested in industrial enterprises have benefitted both Chinese and Foreigners, and are finding employment for hundreds of thousands of Chinese.

(2) It is within the Council's knowledge that agents in the service of revolutionary interests are actively engaged in spreading subversive doctrines among the less responsible elements of the Chinese Community of Shanghai with the object of fomenting class hatred and general disaffection. If these nefarious schemes are successful they will inevitably lead to civil commotion and mob violence, and result in crippling all forms of industrial enterprise and destroying the trade of the Port. The Council realizes the gravity of this aspect of the local situation and its possible repercussion throughout the civilized world, and will use all the resources at its disposal to retain control of the situation. Concurrently with these sinister activities, a national spirit is gradually taking form throughout China, with many aspects of which the Council finds itself in sympathy. Unfortunately an influential section of this movement is at present dominated by persons holding extreme and revolutionary views who are seeking to cloud and distort the legitimate aims of the Chinese in order to serve an evil purpose of their own.

(3) The Council is fully alive to the fact that the rapid growth of the Chinese population of Shanghai has rendered an alteration in its constitution desirable, so as to allow for the inclusion of Chinese Councillors having the same duties and responsibilities as Foreign Councillors. At the Ratepayers Meeting of April 1926 a Resolution was proposed by the Council and duly approved by the Ratepayers to the effect that the participation of Chinese residents in the government of the Settlement was desirable, and that the approval of the Powers concerned should be obtained so as to allow for the addition of three Chinese members on the Council. This proposal has duly received the approval of the Powers concerned, the Central Government at Peking, and the Provincial Government of Kiangsu and the Council is only awaiting the appointment by the Chinese Community of three Chinese members in order to proceed with the consideration of certain outstanding problems, the solution of which requires the advice and opinion of representative Chinese. Assuming the three Chinese Councillors take their seats this year, the Council will comprise the following: — Five British, three Chinese, two Americans, and two Japanese.

(4) The Council for the International Settlement of Shanghai will be guided by the results achieved by the alteration in its constitution referred to in the preceding clause and by political developments, when considering how far a policy of devolution can be applied to a city of the size and importance of Shanghai where vast international interests are involved. It is the Council's considered opinion that the present is not a suitable time for the Powers concerned to consider any drastic change in the Shanghai administration. Influences have been released in China with the express and avowed purpose of stirring up discontent, class hatred and racial prejudice, and until these influences have been eliminated it would be a fruitless task to attempt to reconcile Sino-Foreign viewpoints. In making this statement the Council does not wish it to be inferred that it is in any sense opposed to increasing Chinese representation in the affairs of the Municipality but rather that any further changes in its constitution that further experience may suggest shall be effected by evolutionary as opposed to revolutionary methods, and that they shall be considered in an atmosphere created by mutual good-will, respect, and conciliation.

(5) Pending the outcome of the struggle that is now being waged throughout China between the forces of temperance and intemperance, of evolution and revolution, the Council appeals to moderate minded Chinese and Foreigners alike to support the measures that are being taken to protect the International Settlement from acts of aggression either from within or without its borders. The Council also urges the Powers concerned to insist upon due respect being accorded to treaty obligations entered into between one self-respecting Nation and other self-respecting Nations until the time arrives when these obligations can be reviewed in a proper perspective.

North Szechuen Road Withdrawal.

Council Appreciation.—The following letter is published for general information:—

Council Chamber,
Shanghai, March 31, 1927.

SIR,—It affords me great pleasure on behalf of my colleagues on the Council and myself to convey to you our keen appreciation of the excellent manner in which the withdrawal of 480 foreign residents from the North Szechuen Road area was carried out by the Evacuation Committee on March 21 and 22 last.

The undertaking was one which, under the then prevailing conditions, demanded courage, skill and organisation of a high order. That it should have been conducted smoothly and without casualty is, in the circumstances, a matter on which those responsible are to be sincerely congratulated.

I am to ask that you will be good enough to convey to all concerned, and in particular to those mentioned in the various reports, an expression of the Council's thanks for the way in which they executed a difficult and dangerous task.

I would add that the Council is specially gratified to learn that, from the experience gained on the occasion referred to, "it is now safe to assume that any area embraced by the Withdrawal Scheme can be effectively cleared at short notice."

I am, Sir,
Yours truly,
S. FESSENDEN,
Chairman.

Captain E. I. M. BARRETT, C.I.E.
Commissioner of Police.

Broadway East.—Negotiations have been concluded with Mr. W. S. Fleming for the surrender of an area of Mow 0.680 from Cadastral Lot 554, required for the scheduled widening of the above road, at the assessed value of the lot, *i.e.*, Tls. 16,000 per mow plus 10 per cent. for compulsory surrender, or a sum of Tls. 11,968.

Traffic Commission.

Seven joint meetings of the Watch and Works Committees of the Council were held between November 4 and December 20, 1926, to deal with the Report of the Traffic Commission. The Minutes of these Meetings are now published *in extenso* for general information:—

Meeting of November 4:—Upon the proposal of Mr. Lyman, seconded by Mr. Bell, Mr. Massey is elected Chairman.

Traffic Commission Report.—The report of the Traffic Commission, with the Police and Works Department comment thereon, is submitted and it is decided to read the results of the investigations forwarded by the Commission and to deal with the recommendations arising therefrom seriatim.

RECOMMENDATION No. 1.

The Shanghai Municipal Council should set up a permanent Traffic Committee not confined to members of the Council to deal with Traffic matters including the application of all the Commission's recommendations.

Mr. McBain informs members that this proposal was discussed by the Commission during the time he was a member thereof, and the Commission considered that by the constitution of a Committee to deal solely with traffic questions, the recommendations put forward by the Police and Works Departments could be thoroughly examined and that the co-option of members who were not members of Council would strengthen Council's hands in the matter of giving effect to such recommendations. Members unanimously endorse the above recommendation and express the view that such Committee should consist of a member of the Works and Watch Committees and three Ratepayers who are not members of Council.

RECOMMENDATION No. 2.

The Building Rules should be revised and strengthened with the following objects:—

(a) Control of the density of Class C. housing.

(b) Control of the height of office and other buildings and the open spaces about them.

The Commissioner of Public Works states that the Building Rules are in course of revision, and will be placed before the Council as soon as possible. In his opinion the only means by which the density of two storey buildings can be controlled is to insist on a larger amount of yard space. Under the Building Rules as now framed, a minimum width of back alley way space of three feet only is called for. The requisite increased space would be possible by means of a new Bye-Law. As Chinese houses are only allowed to be erected to the height of two storeys, the amount of yard space is less than that stipulated for in respect of foreign buildings.

He states that during the earlier sessions of the Commission's meetings, there was a reluctance on the part of members to agree to a limitation in the height of office and other business premises. He explained to the Commission that he had no objection to increased height of buildings solely on the ground of height; provided the air space surrounding such buildings was increased pro rata to the increased height allowed there would appear to be no object in limiting a building to a certain height or restricting the number of storeys. Members concur in his view that so long as it is possible to control the number of occupants per mow in this type of building by provision of additional air space in proportion to the increased height allowed, an arbitrary limitation as to height is not of primary importance.

The Commissioner of Public Works adds that in England no building is allowed to be occupied until a certificate as to fitness for habitation has been issued. In Shanghai, many buildings are occupied before they are completed, and at present the Council has no opportunity or power to make a final inspection as to the fitness of such buildings for habitation. In the event of any alteration to the Land Regulations he suggests that the necessary Bye-Law should be included empowering the Council to make a final inspection.

After discussion members endorse the Commissioner's views and in recording their concurrence with Recommendation No. 2 it is recommended that if and when, any alterations to the Land Regulations are applied for, steps be taken to include therein the necessary provision to enable the Council to carry into effect the Commission's recommendation.

RECOMMENDATION No. 3.

The principle of Zoning or control of development of certain areas should be established and applied in future as occasion may demand.

RECOMMENDATION No. 4.

The erection of new godowns should be prohibited in the business district.

RECOMMENDATION No. 5.

Two areas, one in the Eastern District and one in the Western district, should be reserved for residential purposes. In these areas the erection of any further factories, industrial premises or Class C. houses, should be prohibited.

These recommendations are endorsed, but since adoption thereof is contingent upon amendment of the Land Regulations, it is recommended that if and when, revision of the Land Regulations is contemplated the necessary provision be made to enable the Council to give effect to the above three recommendations.

RECOMMENDATION No. 6.

Business concerns should be encouraged to adopt tiffin hours differing slightly one from another, so as to ease the rush-hour congestion at midday.

While this proposal is sympathetically received, members take the view that traffic conditions at the present time do not necessitate its immediate adoption. Upon it being suggested that traffic conditions would be relieved if the practice of proceeding long distances for tiffin were abandoned and the tiffin hour curtailed, it is realised that the present facilities in the business districts for providing tiffin at reasonable rates for a large number of foreign employes are inadequate. The Commissioner of Public Works points out that the proportion of foreign to Chinese staff employed in offices, etc., in the business districts is extremely small and that with regard to his own staff, he estimates that not more than 50 per cent. of the latter leave the Administration building during the tiffin interval. After discussion the view is received that traffic conditions at the present time do not warrant immediate adoption of the measure advocated but since the Commission's recommendations are framed to provide for traffic needs over a period of 10 years, this question should be left to the Council to decide whether any active steps should be taken to induce large employers of labour to adopt this measure and whether the initiative should be taken by the Council itself in adopting a graduated tiffin hour in respect of its own staff.

RECOMMENDATION No. 7.

This recommendation which deals with scheduled road improvements has, with the exception of the proposal relating to the scheduling of a road across the Race Course, been adopted by the Council, and carried into effect in connexion with the Road Plans for the current year. With regard to the proposal that a road should be scheduled across the Race Course, the Commissioner of Public Works states that the Council in negativing this proposal was influenced by the fact that improved communication between the Central and Western Districts would be provided by adoption of the Commissioner's recommendation for the improvement of Tukka Road. A member points out that in the event of the scheduling of a road across the Race Course, active opposition by the Stewards of the Club may be anticipated, and that undoubtedly the Council will be called upon to prove in a court of law its power to carry out this project. The Commissioner of Public Works states that in addition to such opposition it may also be expected that the Recreation Fund Trustees will strongly oppose this recommendation although in his view any covenants attaching to the donation of this land for public use would be over-ruled upon the Council being able to prove that the scheduled road was in the public interest. Upon Mr. McBain suggesting that if this land was used for any purpose other than that provided for under the terms of the Trust Deed, it is possible that it might revert to its original owners, Mr. Harpur proposes that a legal opinion should be obtained as to this aspect of the matter. The Secretary is requested to ascertain whether there is any stipulation to this effect in the Trust Deed in respect of this property. It is then suggested that the Race Club Stewards should be informed that the Council is willing to postpone scheduling of this road if they on their part will give an undertaking that they will not erect any further buildings on the

proposed 70 ft. road line. Mr. Bell is of the view that the Stewards would prefer that the road be scheduled forthwith in order to give them an opportunity to take such action as will determine the Council's legal rights in this matter. He states that extensive re-building of the Race Club's property is contemplated, in view of which it is unlikely that the Stewards would be willing to have their building programme postponed indefinitely with no immediate prospect of this important question being settled. The Secretary is of the opinion that as it is not proposed to construct this road for a number of years, it would appear to be undesirable to incur at the present time the heavy expenditure involved in the costs of the litigation necessary to ascertain the Council's position. Due consideration is given to the view of the Commission that "the whole proposal is for the benefit of the future and the Commission is still of the opinion that this road should be scheduled but not constructed until the need becomes imminent." After discussion it is decided to recommend that the Council should if possible, obtain from the Stewards of the Race Club an undertaking that no buildings will be erected on the proposed road line without sufficient notice being given to the Council to enable it to schedule this road; if, however, the Stewards are unwilling to furnish this undertaking it is recommended that the scheduling be carried out without delay. Mr. Bell, being a Steward of the Race Club, refrains from voting on this question, and his suggestion is endorsed that in the event of the Council deciding to schedule this road it should before taking active steps to this end, consider as to the advisability of eliciting the views of the Ratepayers thereon.

RECOMMENDATION No. 8.

The scheduling of West Soochow Road across the property of the Shanghai Gas Company, Limited, should not be pressed.

This recommendation has already been submitted to the Council and has received its endorsement.

RECOMMENDATION No. 9.

It is recommended that the alignment at the West end of Taku Road be changed and the attempt to make a direct connexion with Weihaiwei Road be abandoned.

The Commissioner of Public Works submits a plan illustrating the effect of the Commission's amended proposal, and after some discussion members desire to be furnished with a more detailed plan at the next meeting. Meanwhile recommendation in respect of this proposal is deferred.

RECOMMENDATION No. 10.

In view of the probable future importance of Chengtu Road the possibility of an improved crossing of Bubbling Well Road should be explored.

Members unanimously recommend that the Commission's proposal be adopted, and that effect be given thereto in connexion with the next year's Road Plans. As an improved alignment of this road is most desirable, the Commissioner is asked to investigate the feasibility of removing the existing scheduled line South of Bubbling Well Road slightly Eastward and to submit a plan showing the effect thereof on the property which would be thereby affected.

RECOMMENDATION No. 11.

It is recommended that the representatives of the Public Transport Companies and the Commissioner of Public Works confer in order to produce a definite plan of Boundary Road as a terminus with a view to modifying the scheduled requirements, if necessary.

The Commissioner of Public Works considers that the terminus will have to be inside the Settlement, in which case it may be possible to modify the existing scheduled requirements. In endorsing the Commissioner's recommendations, members note that he will take the necessary action, and submit a further report in due course.

RECOMMENDATION No. 12.

It is recommended that Tongshan Road be widened from 50-ft. to 60-ft. between Chaoufoong Road and Muirhead Road extension.

After brief discussion this recommendation is unanimously endorsed.

RECOMMENDATION No. 13.

It is suggested that a serious effort be made to co-operate with the proper authorities in planning a system of arterial roads in the regions surrounding the Settlement, particularly on the North between Ferry Road and the Point. In this connexion further crossings of the Soochow Creek and a bridge over the railway are important.

This recommendation is endorsed on the ground that the benefits resulting from the co-operation of the neighbouring authorities to provide a system of arterial roads in the areas surrounding the Settlement, are obvious. With regard to the view of the Commission that further crossings of the Soochow Creek are important, it is recommended that the Council adheres to its existing policy whereunder its co-operation in the matter of providing additional bridges over the creek will be afforded only if the adjacent authorities will guarantee the provision of arterial thoroughfares in the territory under their control.

The meeting adjourns at 6.30 p.m.

Meeting of November 15.—The Minutes of the last meeting are confirmed and signed, and consideration of the recommendations submitted by the Traffic Commission is continued.

Recommendation No. 9. — As requested at the last meeting, the Commissioner of Public Works submits a plan showing the effect of the Commission's amended proposal under which Taku Road is widened and connects with Chungking Road in place of the original proposal that the road should be extended to connect with Weihaiwei Road. The Commissioner explains that the Commission's original proposal to provide direct connexion with Weihaiwei Road was regarded as necessary in the event of it not being possible to construct a road across the Race Course. It is noted that the Commission's amended proposal calls for the widening of Taku Road as far as Mohawk Road, but as the Western section of the road is scheduled to 40 ft. only, and connects with Chungking Road (scheduled to 50 ft.), members are inclined to the view that the Commission's later proposal cannot, for the purposes of forming a main thoroughfare between the Central and Western Districts, be regarded as a suitable alternative to a road across the Race Course. A member suggests that if any material value as a main thoroughfare is to be obtained from the scheduling of this road, such scheduling should be extended to connect with Weihaiwei Road. It is noted from the plan submitted that the development of the property affected by such an extended scheduling is not such as would render this extension impracticable, and, prior to recording recommendation, members are requested to inspect Taku Road, whereafter the Committee will record its view as to the desirability of this road widening being effected, and will also consider the feasibility of its extension to connect with Weihaiwei Road.

In connexion with the discussion at the last meeting regarding the construction of a road across the Race Course, the Deputy Secretary states that there is no stipulation in the Deed of Trust requiring that the Recreation Ground should revert to its original owners in the event of any portion thereof being utilised for the purpose of a public road. Mr. Bell states that he is informed by his fellow Stewards that there is no possibility of obtaining an undertaking as to re-building such as suggested, and further, that there is no doubt but that the Recreation Fund Trustees will strongly support the Race Club Stewards in any action taken to prevent a public road being put through these properties.

Recommendation No. 10.—The Commissioner of Public Works submits a plan showing a re-alignment of this road. Members consider that the re-alignment provides an improved crossing of Bubbling Well Road and, after discussion, it is unanimously recommended that the revised scheduling be included in next year's Road Plans.

RECOMMENDATION No. 14.

For roads of a moderate width (up to 60-ft.) each footway should be not less than one sixth of the total width of the road. This proportion should

be modified where wide carriageways are provided and the proportion of vehicular traffic to pedestrians is high.

RECOMMENDATION No. 15.

As trees cannot be placed within one foot of the kerb line, it is recommended that no trees be placed on footways of less than eight feet in width in residential roads or twelve feet in commercial districts.

RECOMMENDATION No. 16.

All semi-permanent obstructions on footways except trees should be set with the outside edge uniformly six inches from the kerb-line. Where trees are planted other obstructions should be in the same centre as the tree trunks.

RECOMMENDATION No. 17.

Unnecessary poles on footways should be avoided. Full use should be made of tramway standards for lighting so as to obviate the need for separate lighting poles.

RECOMMENDATION No. 18.

Where buildings are of a substantial nature it is recommended that trolley wire supports should be attached to the building.

The above recommendations are unanimously endorsed.

RECOMMENDATION No. 19.

It is recommended that the Police exercise a closer control of temporary obstructions on footways and elsewhere.

In strongly endorsing this recommendation, members desire to emphasize their view as to the necessity for its adoption. Asked for his observations, the Acting Commissioner of Police states that any omission on the part of the Police in the matter of control of temporary obstructions is primarily due to the fact that the strength of the Force is at present insufficient to detail the requisite number of men for traffic purposes. This question will, however, be the subject of a recommendation when the increase in personnel for 1927 is under consideration. He states that prosecutions for street and footway obstructions are constantly instituted, but, in his view, the fines imposed by the Mixed Court are too small to act as a proper deterrent for offences of this nature.

RECOMMENDATION No. 20.

In the case of building operations, fence and hoarding lines should be kept back as much as possible without interfering unreasonably with the actual work which usually involves the placing of footings under the footways. Gantries should be insisted upon in all cases where building operations facing main roads are calculated to extend beyond a period of six months.

This recommendation is endorsed, and, upon a member observing that there may be a tendency on the part of the Council to permit building operations to obstruct pavements and roadways for an undue length of time, Mr. Harpur states that constant supervision is exercised in this matter but he adds that in some cases the foundations of large buildings extend 5 feet under the roadway and this fact may account for the impression that hoardings, etc., encroach on public space to a greater extent than is necessary.

RECOMMENDATION No. 21.

Centre poles for tramways, lighting, or other purposes should not be used unless absolutely unavoidable.

RECOMMENDATION No. 22.

It is recommended that centre islands be used as sparingly as possible and for traffic control purposes only.

RECOMMENDATION No. 23.

At important crossings on roads of ample width, refuge islands should be provided for pedestrians.

RECOMMENDATION No. 24.

Tramway passenger islands should be provided at as many tramway stops as possible. They should not be less than four feet in width.

RECOMMENDATION No. 25.

Upon roads in the vicinity of wharves and upon any definite or popular route for man-hauled freight, granite or metal tracks should be laid at the side of the carriageway.

RECOMMENDATION No. 26.

Garages should not be allowed to park cars on adjacent roadways.

RECOMMENDATION No. 27.

Further markets are desirable. From a traffic point of view, corner sites for markets do not seem advisable.

The above recommendations are unanimously endorsed.

RECOMMENDATION No. 28.

All warehouses and factories, particularly those to be constructed in the future should have private accommodation for vehicles loading and unloading.

The Commissioner of Public Works states that effect to this recommendation might be given by amendment of the Building Rules. Many godowns are built on interior lots, the approach to which is insufficiently wide to admit lorries and other vehicles. In the case of interior lots it might be possible to insist that the erection of godowns would be permitted only if the approach thereto is 12-ft. in width; such a provision would minimise the use of public space for the purposes of loading and unloading cargo. The Committee favours any measure being framed which will give effect to the above recommendation.

RECOMMENDATION No. 29.

Experiments with traffic signals should be continued until the most suitable appliances have been found and these should then be made standard and uniform. If possible the type of signal should be the same in the Settlement and in the French Concession.

RECOMMENDATION No. 30.

Synchronised signalling should be adopted in Nanking Road between the Bund and Thibet Road as soon as possible.

The Acting Commissioner of Police states that the design of traffic signals within the Settlement already standardised, and that experiments in synchronised signalling are now being carried out. He is not yet in a position, however, to report on the feasibility of the adoption of a synchronised system in Nanking Road. Subject to the favourable report of the Police Department, as to the introduction of a synchronised system of signalling for the section of Nanking Road recommended by the Committee, members endorse the above two recommendations.

Members also endorse the Chairman's view that the system of signalling in Avenue Foch when under the traffic signals are placed at the mouth of the cross-roads, unsatisfactory, and it is accordingly recommended that the French Council be requested to place the signals in the centre of the main road. The Acting Commissioner of Police points out that compliance with this request will involve the control of any traffic signals placed in the centre of Avenue Foch, but that undoubtedly satisfactory arrangements could be made whereby the Police of each authority would assume control of the signals for periods to be agreed.

In order to enlist the co-operation of the French Council in any measures designed for the relief of the Traffic problem such as the standardization of street signalling, etc., it is decided to take the Council's view at its next meeting as to whether a copy of the Commission's report should be forwarded to the French Council for its observations.

RECOMMENDATION No. 31.

The three-way system on Avenue Edward VII should extend from the Bund to Thibet Road in the first instance.

RECOMMENDATION No. 32.

On roads of ninety feet or more in width segregation of slow from fast traffic is recommended when the volume of slow traffic is sufficient to justify it.

The above two recommendations are also unanimously endorsed.

The meeting adjourns at 5.45 p.m.

Meeting of November 22.—The *Minutes* of the last meeting are confirmed and signed.

RECOMMENDATION No. 9.—As requested at the last meeting, the Commissioner of Public Works submits plans illustrating alternating proposals for the extension of Taku Road to connect with Weihaiwei Road, following consideration of which the view is recorded that Taku Road should be widened and extended to connect with Weihaiwei Road in accordance with Plan "D" submitted. It is noted that the Commissioner anticipates that it will be possible to effect this road extension within the next few years, and it is accordingly recommended that the above improvement be included in next year's Road Plans.

With regard to the construction of *A Road Across the Race Course*, Mr. Bell states that he is given to un-

derstand that, while no stipulation exists in the Trust Deed of this property against the construction of a road, a number of restrictive clauses are embodied in the original document of title, one of which he understands requires that compensation would have to be paid to the original owners if the land or any portion thereof is utilised for purposes other than recreation. Members regard it as desirable that all possible information on this subject should be available for the Council's consideration prior to decision being taken, and the Secretary is accordingly directed to apply for permission to peruse the original document of title in order to ascertain the effect of any clauses contained therein on the proposal to construct this road, and thereafter to submit a conclusive memorandum on the Council's position, for consideration.

The Commissioner of Public Works then submits a plan illustrating a scheme for connecting Foochow Road with Weihaiwei Road by the construction of a tunnel under the Recreation Ground and Race Course. Prior to detailed consideration of the proposal, which it is noted, would involve a further scheduled widening of the Western end of Foochow Road and the Eastern section of Weihaiwei Road, members request the Commissioner to submit figures of cost of this project and also a comparative statement of cost of this proposal and that involved in widening and extending Taku Road.

RECOMMENDATION No. 29.—The Commissioner of Police informs members that, since the last meeting, he has been informed unofficially by the French Police that they propose to adopt the same system of street signalling as that in force in the International Settlement; and he has requested that they will notify him officially to this effect.

SECTION D—TRAFFIC UNITS.

RECOMMENDATION No. 33.

It is recommended that a movement be instituted to educate pedestrians to walk upon the footways and to keep to the left.

In unanimously endorsing this recommendation, members concur in the view of the Acting Commissioner of Police that little benefit would be derived by the institution of an educational movement until such time as the footways in the heavily congested districts of the town are widened.

RECOMMENDATION No. 34.

On busy thoroughfares crossing by pedestrians should be restricted to definitely arranged places.

This recommendation is also unanimously endorsed.

RECOMMENDATION No. 35.

The use of bicycles to carry more than one person should be checked.

Members endorse this recommendation and the Acting Commissioner of Police states that this practice has already been prohibited.

RECOMMENDATION No. 36.

No licences should be issued for public pedicabs.

This recommendation is endorsed subject to deletion of the word "public", the view being recorded that the omission of this word strengthens the recommendation. It is further recommended that no additional licences be issued in respect of private pedicabs, and that the French Council be informed that as from a specified date no public pedicabs licensed in the French Concession will be permitted to ply in the International Settlement.

RECOMMENDATION No. 37.

It is recommended that steps be taken towards the ultimate elimination of passenger and freight man-hauled vehicles within a definite period, or as soon as suitable substitutes are offering. Special consideration should be given to possible methods of encouraging such substitutes so as to hasten the replacement of man-hauled traffic.

The above recommendation is unanimously endorsed.

RECOMMENDATION No. 38.

A gradual reduction of the number of ricsha licences should be effected with a view to the total number (public and private) being reduced to five thousand within a period of ten years.

In connexion with this recommendation a letter from Messrs. White-Cooper & Co., on behalf of the Shanghai Ricsha Owners Association is submitted, in which they request that any reduction be carried out *pro rata*, *i.e.*, that for every public ricsha licence taken away, a private ricsha licence also be cancelled; they also request that the process of reduction should be less gradual than that recommended, *e.g.*, that—say—2,000 should be taken away at a time at reasonable intervals, over say six to eight years, rather than a small reduction every quarter or each month should be effected.

Dealing first with the proposed reduction of private ricshas, it is realised that it may be difficult to devise a suitable system to effect such a reduction. Upon the Chairman suggesting that a reduction in private ricsha licences might be effected indirectly by abolishing the present system under which these licences are interchangeable in each Settlement; and that, in future, licences are interchangeable in each Settlement; and that, in future, licences should be taken out in each Concession, alternatively that the fee should be doubled and the licence still apply in both Settlements, Mr. Bell points out that this proposal would involve payment of a licence fee of $12 per quarter, as against the existing fee of $6 per quarter; this amount, in his view, is exorbitant, having regard to the fact that the minimum licence fee for motor cars is only Tls. 7 per quarter. The Chairman's view is endorsed that the fees imposed for motor car licences are inadequate, and, in the event of the Council's approval to the proposed increase, which members recommend, of the private ricsha licence fee, it is further recommended that consideration be given to an increase in motor car licence fees.

With regard to the proposed reduction of public ricshas, the Acting Commissioner of Police, in reply to enquiry, states that the Police regard the number of licences now issued (10,000) as in excess of those required to meet the demand. Consideration is then given to a members' proposal that public ricshas might be eliminated from the streets in the congested business districts, or alternatively, that they should be confined to certain specified streets, but, after discussion, adoption of this proposal is regarded as impracticable. Upon a member suggesting that any drastic reduction of ricshas would constitute a hardship on the pullers whose services would no longer be required, the Acting Commissioner of Police states that the majority of ricsha coolies remain in Shanghai for a few months only, after which they return to the country. The only apparent reason for their coming to Shanghai is that they are assured of obtaining employment as ricsha coolies; if, however, it became known that their prospects of employment were minimised owing to the reduction in the number of licences issued, he considers their migration to Shanghai would decrease accordingly. The Committee concurs in a member's view that inasmuch as it is not possible to estimate the demand for ricshas so far ahead as ten years, and owing to the difficulty of estimating what alternative public transport facilities will then be available, the Council should not commit itself to a specified reduction within a definite period as recommended by the Commission.

After further discussion, members accordingly recommend:—

1. That the consent of the French Council be obtained to the proposal that, in future, private ricsha licences should be fixed at $12 a quarter, to be available for both Settlements, or alternatively that the licence fee remain as at present, such licence to be available only in the Settlement wherein it is issued, and,
2. That gradual reduction in the number of public ricshas licensed should be effected, but that the method of reduction and the period over which such reduction should be spread should be left to the consideration of the permanent Traffic Committee. In order that the Council should not definitely commit itself in this matter, the Commission's recommendation is endorsed, subject to deletion of the concluding words "to 5,000 within a period of ten years."

RECOMMENDATION No. 39.

A system should be devised and introduced for the licensing of all ricsha coolies.

Asked for his views, the Acting Commissioner of Police states that provided sufficient personnel is available he does not regard adoption of this recommendation as impracticable. As above stated, a large number of labourers come to Shanghai for a short period solely to obtain occupation as ricsha pullers, and he considers that if a suitable system

can be devised for the licensing of ricsha coolies, it will tend to discourage aspirants for temporary occupation in this capacity. Whilst it is appreciated that at the outset this measure may be difficult to enforce, and also will entail considerable labour from a Police point of view, it is noted that the labour and expense involved will decrease *pro rata* with the gradual reduction of ricsha licences; and, in endorsing the Commission's recommendation, members record the view that the Traffic Committee, in conjunction with the Police Department, should be asked to devise a satisfactory scheme for its enforcement.

The meeting adjourns at 6.35 p.m.

Meeting of November 29.—The Minutes of the last meeting are confirmed and signed, and consideration of the recommendations submitted by the Traffic Commission is continued.

RECOMMENDATION No. 40.

Wheelbarrows should be controlled as regards loading, especially with regard to loads which project to the rear.

This recommendation is unanimously endorsed.

RECOMMENDATION No. 41.

The elimination of man-hauled vehicles (see Recommendation No. 37) should aim at the complete elimination within ten years of handcart traffic between 8 a.m. and 6 p.m.

Whilst members favour adoption of this recommendation, it is considered that the Council should not at the present time commit itself to the complete elimination of handcart traffic during certain hours within the period specified by the Commission. The recommendation is accordingly endorsed subject to substitution of the word "gradual" for "complete" and excision of the words "within ten years."

RECOMMENDATION No. 42.

The Police should exercise greater vigilance to check overloading and undermanning of handcarts.

The Commissioner of Public Works states that, during the time a small weigh-bridge was utilized in the vicinity of the Garden Bridge, it was found that 45 per cent. of the handcarts were overloaded. A number of these vehicles transport merchandize clearly marked with the weight of each package. He suggests therefore that it is a comparatively simple matter to detect overloaded handcarts which transport such packages. Members are of the opinion that the Police should take all possible steps to prevent overloading, and the Commission's recommendation is accordingly endorsed.

RECOMMENDATION No. 43.

Increased taxes are suggested for passenger motor cars of the larger sizes.

In accordance with the views recorded in connexion with Recommendation No. 38, this recommendation is endorsed subject to re-wording thereof as follows: "Increased taxes are suggested for all passenger motor cars particularly those of the larger sizes."

RECOMMENDATION No. 44.

The lighting of passenger motor cars should be required to conform to a standard and consideration should be given to the question of including stop lights in the standard set up.

This recommendation is also endorsed, and it is decided to discuss at the next meeting the proposal put forward by Mr. Massey, that consideration should be given to the desirability of recommending that all motor vehicles should be required to adopt a right-hand drive.

RECOMMENDATION No. 45.

In order to encourage power freight vehicles and with a view to the reduction of man-hauled traffic, it is recommended that licences for these vehicles taken out in either the Settlement or the French Concession should be available for both areas.

The Commissioner of Police states that the inspection regulations in this Settlement are more strict than those obtaining in the French Concession, consequently if the Commission's recommendation is adopted it will result in a number of vehicles now licensed in the Settlement obtaining licences in the French Concession. In order to ensure that the vehicles are in a fit condition to be licensed, he is of the opinion that the present system of dual licensing should be adhered to. The Commissioner of Public Works is of the view that the dual licensing system is less of a deterrent to owners to acquire motor freight vehicles than the initial capital cost of the vehicle. Whilst members agree that freight transport by motor vehicles should be encouraged, they concur in the view of the Commissioner of Police that it is desirable to adhere to the present system under which these vehicles have to be licensed in each Settlement and they are accordingly unable to endorse the Commission's recommendation.

RECOMMENDATION No. 46.

The standardisation of lighting covered by Recommendation No. 44 should be applied if possible to power freight vehicles also.

The Commissioner of Public Works states that many freight vehicles have no electrical equipment, and that the lighting thereof is by means of oil lamps. This recommendation is accordingly endorsed so far as its application is practicable in respect of freight vehicles fitted with the necessary electrical apparatus.

RECOMMENDATION No. 47.

All public passenger vehicles should be subject to prescribed restrictions as to over-all dimensions, weight, speed and economy of road space with due consideration to passenger comfort and the safety of the public.

In endorsing this recommendation, it is noted that a regulation is already in force regarding the over-all dimensions of public passenger vehicles.

RECOMMENDATION No. 48.

All public passenger vehicles should be licensed to carry a certain maximum number of passengers. The authorised accommodation should be indicated on the vehicle and onus should be placed on passengers as well as owners to respect it.

Whilst members agree as to the desirability of adopting this recommendation, after discussion the view is recorded that the suggestion that onus should be placed on passengers as well as owners, is not feasible. The recommendation is accordingly endorsed subject to excision of the concluding words "and onus should be placed on passengers as well as owners to regard it."

RECOMMENDATION No. 49.

It is recommended that the number of tramway stops in Nanking Road and Seward Roads should be reduced.

With regard to Nanking Road it is considered that even if the number of authorised stops is reduced tram cars will invariably have to stop owing to cross traffic, and that motor cars usually pass a tram only when the latter is stationary, the view obtains that a decrease in stops will not greatly assist the progress of other fast traffic. The Commissioner of Public Works suggests that traffic stops might be reduced when further public transport facilities are available in contiguous streets. This recommendation is accordingly endorsed if in future it is considered that adoption thereof will have the effect of speeding up fast traffic.

RECOMMENDATION No. 50.

On all routes, the trams should have a track for traffic in each direction.

This recommendation, the adoption of which is considered desirable, and which conforms with the view expressed by Mr. J. B. Hamilton, is endorsed.

RECOMMENDATION No. 51.

In the opinion of the Commission the installation of any tramway system, either railed or railless on Avenue Edward VII, or any part of it, would seriously detract from the value as an outlet from the Bund to the Western suburb for fast moving vehicles and would deprive of much of its value the three-way-system recommended by the Commission and accepted by the Council. It is therefore recommended that no tramway shall be permitted on this road.

The Commissioner of Public Works suggests that since the service of railless cars now in operation between the Settlement and the French Concession cross this road and as some of the railless car routes in the Settlement use this thoroughfare for turning purposes, the recommendation should be qualified in order that the use at present made of this road should not be affected. Members take the view that this recommendation is put forward to prohibit a service of railed or railless cars on Avenue Edward VII in an East to West direction or *vice versa*, and in supporting this view the recommendation is endorsed, subject to the proviso that the use at present made of the road for crossing and turning purposes is not affected.

RECOMMENDATION No. 52.

The Commission is not prepared to recommend the immediate adoption of the one-way traffic system but its possible advantages should be borne in mind if in future a suitable occasion should arise for its introduction.

RECOMMENDATION No. 53.

The prohibition of right hand turns at the Nanking Road-Szechuen Road intersection should be continued. The system could be tried at other crossings and junctions subject to a careful examination of the effect on neighbouring streets.

RECOMMENDATION No. 54.

Motor omnibus and railless tram services should continue to be extended to meet public needs and to give direct communication to and from all parts of the Settlement.

The above three recommendations are unanimously endorsed.

RECOMMENDATION No. 55.

The re-routing of tram, railless tram, and omnibus services should receive serious consideration at an early date. Some changes could be made at once, and for others special road widening work should be pressed forward so as to render possible a rational network of passenger routes.

It is appreciated that the re-routing of any public transport service can only be undertaken with the acquiescence of the public Transport Company concerned. With regard to the three examples submitted by the Commission, illustrating the intention of its recommendation, upon examination of the plans submitted by the Commissioner of Public Works, and after consideration of the protest submitted by the Union Church Committee against the use of Soochow Road for the diversion of tramway route No. 1 from the Garden Bridge, as suggested in example (b), it is agreed that the specific examples should be the subject of further consideration; meanwhile the recommendation put forward is endorsed in principle.

RECOMMENDATION No. 56.

There is an urgent need for through omnibus and tramway services to the French Concession and between the densely populated Chinese districts on the North and South of the Foreign Settlements.

RECOMMENDATION No. 57.

A request should be made to the French Municipal Council to cooperate with the Council with a view to instituting a through tramway service from the North Station via the Boulevard des Deux Republiques to the French Bund.

RECOMMENDATION No. 58.

As the tramways in the Settlement are generally worked with trailers, each terminus should be arranged as a loop.

The above three recommendations are unanimously endorsed.

The meeting adjourns at 6.5 p.m.

Meeting of December 6.—The Minutes of the last meeting are confirmed and signed.

Road across the Race Course.—As requested at an earlier meeting, the Secretary submits a memorandum to the effect that he has perused the original Bill of Sale of the Public Recreation Ground and that there is only one clause of a restrictive character therein. He states that, in his opinion, "the putting of a road across the Recreation Ground would not constitute a breach of covenant either on the part of the Trustees of the Recreation Fund or of the Race Committee, provided the road was constructed by the Council in the exercise of its compulsory powers and that the Trustees and or Race Committee do not assent to it but merely yield to *force majeure* by the Public Authority." After discussion the opinion expressed by the Secretary is endorsed.

The Commissioner of Public Works reports that the estimated cost of the widening of Taku Road to 70 feet and its extension to connect with Weihaiwei Road, in accordance with the plans submitted to and approved by the Committee at a former meeting, is Tls. 572,000 inclusive of the cost of the land scheduled under the existing road plans. The cost of constructing a tunnel under the Race Course and Recreation Ground would amount to Tls. 450,000 for a two-way track and Tls. 800,000 for a four-way track. The Taku Road scheme provides a wide carriage-way and adequate side-walk accommodation. He expresses doubt as to the Council's powers under the Land Regulations to construct a tunnel under the Race Course and Recreation Ground in the event of the consent of the owners being withheld. Considerable discussion ensues regarding the advantages of a road across or a tunnel under the Recreation Ground, vis-a-vis the widening and extension of Taku Road, as a result of which the opinion is recorded that the latter road improvement should be included in next year's Road Plans.

It is also considered that if, at a later date, one of the two alternative proposals for a road over or a tunnel under the Recreation Ground is regarded as essential, future traffic conditions and the relief thereto afforded by the improvement of Taku Road will assist the Council in determining which scheme would best serve such conditions, having regard to the various considerations governing either of these projects. In the circumstances, therefore, it is recommended that no action be taken at the present time in this matter.

Motor Vehicles.—The Chairman states that he considers motor vehicles fitted with a left-hand drive make traffic control and the avoidance of accidents most difficult. Whilst it would appear that no restriction as to this exists in other countries, his view is endorsed that, if sufficient notice was given to the public that no motor vehicles fitted with a left-hand drive would be licensed after a specified date, no strong reasons could be advanced against the introduction of such a regulation. Before recording a recommendation on the subject however, the Commissioner of Police is asked to ascertain from local motor vehicle agents what, in their opinion, would be reasonable notice to the public as to this innovation, and also to furnish any other information at his disposal relevant to this question.

RECOMMENDATION No. 59.

The traffic police should be a special department separated as far as possible from ordinary police duties, with a commanding officer whose whole time is devoted to traffic problems and with a fully qualified assistant who can replace him during his absence. Extra leave should be given to the Chief of Traffic Police to study methods in other cities. The personnel should be increased at once by 33 per cent. and in future should grow steadily with the needs.

The former part of this recommendation is endorsed and it is recommended that effect thereto be given by the means suggested by the Commissioner of Police in his comment thereon submitted. With regard to the recommended increase in personnel, the Commissioner states that he supports this recommendation as, in his view, many of the conditions it is sought to remedy can only be improved by an increase of staff.

After discussion, members take the view that the increase of 33 per cent. recommended is unnecessary at the present time, and further is impracticable having regard to the cost of the proposal and the fact that undoubtedly provision will have to be made in next year's estimates for reasonably increased personnel in other branches of the Force. They are, therefore, unable to support the percentage increase recommended, the view being recorded that an increase of 10 per cent. only should be provided for in 1927, thereafter the increase to be contingent upon future traffic needs.

RECOMMENDATION No. 60.

After much deliberation it has been considered desirable that the Council should at once secure the services of a well qualified officer from outside sources for the command of the traffic police. He should be required to have technical experience of traffic problems in a modern city and to be of high organising capacity. It is essential that the officer chosen should be adaptable to local conditions. In order to become familiar with the peculiarities of the Shanghai situation, it is suggested that for at least six months after his arrival he should not be placed in command but should be required to study the problem.

In his report submitted, the Commissioner of Police comments at length on this recommendation, and it is noted that he is entirely opposed to the proposal put forward by the Commission. Upon the Commissioner amplifying his reasons, members concur in his view that the ability and experience of certain of the personnel of the Force is such as to render the appointment of an officer from outside sources unnecessary. Members are, therefore, unable to endorse the Commission's recommendation.

RECOMMENDATION No. 61.

Among the duties of the new Traffic Chief should be included:—

(a) *The development of methods for training the traffic police on a uniform system applicable to all districts.*

(b) *The devising of methods by which traffic regulations may be enforced in respect to man-hauled vehicles. Such a system will involve the introduction of special expedients and the licensing of vicsha and handcart coolies.*

(c) *The improvement and standardisation of traffic signalling (see Recommendations Nos. 29 and 30).*

(d) *The control of parking (See Section G below).*

(e) *The standardisation of car lighting (see Recommendation No. 44).*

Upon the Commissioner of Police stating that most of the above recommendations are already being dealt with and that further progress will be made as soon as increased personnel is available, this recommendation is endorsed, subject to deletion of the word "new" in the first line thereof.

RECOMMENDATION No. 62.

The whole of the traffic regulations should be carefully studied, revised, and stiffened.

The above recommendation is unanimously endorsed.

RECOMMENDATION No. 63.

Licence conditions should be revised. Among the features which should be included are:—

(a) *All vehicles should be inspected before being licensed and thereafter annually.*

(b) *Passenger hire vehicles and freight vehicles should be licensed to carry definite loads, and overloading should be prevented by the Police.*

(c) *Persons in charge of vehicles should be subject to medical examination as to fitness.*

(d) *Vehicle licences should be granted only to persons of known financial stability or on security and owners should be made liable for the acts of persons in charge of their vehicles.*

(e) *If possible all vehicles should be fitted with an efficient brake.*

(f) *Licensees should be required to show that they have sufficient private accommodation for the vehicle and in particular public garages should be required to have accommodation for all cars licensed to them.*

(a) Upon the assumption that this recommendation is not intended to apply to private vehicles and substitution of the words "as required" for "annually," this recommendation is endorsed.

(b) In endorsing this recommendation it is noted that the Police Department already has this matter in hand.

(c) The Commissioner of Police states that arrangements are being made for the medical examination of all chauffeurs, and this recommendation is endorsed, so far as its application is practicable.

(d) Members regard the carrying into effect of this recommendation as impracticable, and they are accordingly unable to record their endorsement thereof.

(e) While the Police Department does not regard as feasible the suggestion that all vehicles should be fitted with efficient brakes, it is considered that this recommendation should be adopted in respect of as many types of vehicles as possible.

(f) This recommendation is unanimously endorsed.

RECOMMENDATION No. 64.

It is recommended that the Council should establish a Traffic Court or Traffic Offences Bureau for the summary disposal of all traffic offences but those of the most serious nature.

RECOMMENDATION No. 65.

The proper steps should be taken to advise the Consular and Mixed Courts that the leniency with which these Courts deal with certain traffic cases has an adverse effect on the control of traffic.

Members record their concurrence with the view expressed by the Commissioner of Police that on account of the time and labour involved on the part of the Traffic Police in prosecuting traffic offence cases in the various Courts, the institution of a Municipal Traffic Court for summarily dealing with minor offences is most desirable. The view is also recorded that offenders would themselves welcome immediate settlement of such cases. At the same time it is realised that the Council's right to establish such a Court might rightly be challenged by the various Consular Courts, in which case it is doubtful if the Council would be empowered to deal summarily with traffic offences even with the acquiescence of the offender. Upon the Commissioner of Police suggesting that this matter should be taken up with the various Consular Courts with a view to obtaining their approval to this proposal, the Assistant Commissioner of Police (T) is requested in the first instance, to confer with the Prosecuting Solicitor, thereafter to report as to the Council's powers and also to outline any proposals under which it is considered effect could be given to the Commission's recommendation. Further consideration of the above two recommendations is accordingly deferred until the next meeting.

The meeting adjourns at 6.20 p.m.

Meeting of December 13.—The Minutes of the last meeting are confirmed and signed.

Motor Cars—Left Hand Drive.—As requested at the last meeting, the Commissioner of Police has interviewed the more important motor car agents and he reports that the majority are opposed to the proposal that a condition of the licence should require all motor cars to be fitted with a right hand drive. The agents for the Ford Cars stated that the manufacturers' plant at Detroit which supplies Ford cars to China is only adapted to manufacture cars fitted with the left-hand drive. They expressed the view that, if the Council insisted on this regulation, it would be impossible for them to continue their business.

In reply to a member's enquiry the Commissioner states that no records exist which show whether a majority of cars involved in traffic accidents are those fitted with the left-hand drive. In the absence of this information members are reluctant to advocate adoption of a measure which might be regarded as too drastic, particularly so as there is no evidence that such a regulation exists in any other city. It is however, suggested that, as an alternative measure, it should be made compulsory for all motor cars fitted with a left-hand drive to be fitted with a rear "stop" light which will operate automatically upon a car slowing down, and, after discussion it is unanimously recommended that notice should be given that this requirement will be enforced as from July 1 next.

RECOMMENDATION No. 64.

It is recommended that the Council should establish a Traffic Court or Traffic Offences Bureau for the summary disposal of all traffic offences but those of the most serious nature.

RECOMMENDATION No. 65.

The proper steps should be taken to advise the Consular and Mixed Courts that the leniency with which these Courts deal with certain traffic cases has an adverse effect on the control of traffic.

In accordance with the direction recorded at the last meeting, the Commissioner of Police has conferred with the Prosecuting Solicitor as to the practicability of giving effect to these recommendations. The opinion of the Prosecuting Solicitor is submitted together with the Commissioner's comment thereon, following consideration of which the view is recorded that the proposal that a security deposit should be called for and forfeited in the event of a breach of any traffic regulation of licence conditions is too drastic. While members are unanimous in the view that adoption of the above two recommendations is most desirable, they consider that the proposal to institute a Municipal Traffic Court or Traffic Offences Bureau as proposed by the Commission would not be favourably received by the Consular Courts. In the circumstances it is recommended that, in the first instance, the views of the American and British Magistrates should be elicited, and the Secretary will, accordingly, discuss this question with these officials, with a view to evolving a satisfactory system under which the Commission's recommendation can be given effect.

RECOMMENDATION No. 67.

In view of the limitation of space, the rapid growth of motor traffic and the successful precedents established in other cities, public parking should be restricted.

RECOMMENDATION No. 68.

No additional space for public parking should be provided in future

RECOMMENDATION No. 69.

Restriction of public parking should begin after six months' public notice. The period for public parking should finally be reduced so as not to exceed one hour at any time between 7 a.m. and 8 p.m.

RECOMMENDATION No. 70.

Within a reasonable time regulations should be introduced restricting the parking of private ricshas in the business district. Thereafter there should be a special class of private ricsha licences carrying parking privileges for which a considerably higher licence fee should be charged. Ricshas in respect of which the higher licence fee has been paid should be distinguished by a special plate or tag and should be allowed to park at places indicated by the Police. Ricshas in respect of which the extra fee has not been paid should not be allowed to park in the restricted district. The district in which the restrictions should apply would be defined by the Council and could be adjusted from time to time as required.

The Commissioner of Police states that the Chief Inspector of the Central District has suggested that by utilisation of the grass plots on the Bund to the North of the Customs Examination Shed additional motor car parking space could be provided, and that this together with that already available is ample for parking purposes, provided it is utilised as in other cities, *i.e.*, for short periods only instead of, as at present, for periods of long duration throughout the day. A member points out that many of the cars which park on the Bund are owner driven and remain there throughout the period of office hours. If a time limit was enforced in respect of cars parking on the Bund it would be impossible for owner drivers to take advantage of its facilities, and he, therefore, suggests that consideration should be given to increasing the Bund parking space. In this connexion, the Commissioner of Public Works expresses the view that it is quite impossible for public parking facilities to keep pace with the growing demands, and even if further space was made available on the Bund, in his opinion it would only be a matter of time before this proved inadequate. One of the difficulties experienced is that motor car owners will not use certain parking spaces provided, as, for instance, that on the Bund between the Garden Bridge and Peking Road. It would appear that car owners are inclined to make use of parking space only in the immediate vicinity of their place of business, and that they are not prepared to take advantage of the facilities offered at a comparatively short distance away. Public parking space in certain sections of Soochow Road also is but little utilized, whereas a double row of cars is to be observed on other sections of this road. He refers to the recommendations of the Traffic Commission contained in the last section of its report, *i.e.*, the provision of additional landing space on the Bund frontage. If cargo landing facilities are increased it will be found that additional space on the Bund will be necessary to handle the additional cargo landed. He is of the opinion that, if it is decided to provide additional parking space in the business districts, this should be provided in localities further West from the Bund where land is cheaper. If the Council's view is that more public parking space should be provided in the Central District, then, in his opinion, the Bund is not the most suitable place for the purpose. He adds that during its sittings the Traffic Commission recorded the view that it was not the duty of the Municipality to provide free parking space for motor cars; and that, if any addition to that already existing is provided, a charge for its use should be made.

After discussion, it is decided, before recording a definite recommendation, to consider the concluding section of the Commission's report which deals with water front traffic, and which, so far as the Bund is concerned, is closely related to the question of the provision of increased parking facilities.

SECTION H.—WATER FRONT TRAFFIC.

RECOMMENDATION No. 71.

Additional landing space should be provided by more and larger pontoons along the Bund.

The Commissioner of Public Works states that at one time the landing space on the Bund was utilized only for local cargo; public facilities have, however, now become inadequate to deal with the amount of cargo handled and the section of the Bund South of the Custom House is being used for landing cargo which is transported in all directions. In his view much of the cargo handled should not be landed on any part of the Bund. Whilst it is possible to provide further pontoons to deal with the ever increasing demands for the landing of cargo, it is not possible to keep pace with demands for the necessary additional space required for its handling. As there is no electrical machinery on the Bund for handling cargo, it is frequently dumped there for considerable periods prior to being transported to its destination. He concurs with a member's view that the centre of the city is not a right and proper place for the landing of cargo. He suggests that, by provision of Dock Basins in the Eastern District, it would be possible to relieve the Bund of much of the cargo at present landed there; and he submits plans illustrating his proposals, the cost of which is noted would be approximately Tls. 800,000. He states that much of the cargo landed on the Bund is destined for the French Concession, and that while this is permitted demands for further facilities for the landing of cargo from the Soochow Creek can be provided only if a permanent dredging scheme is undertaken.

After hearing the views of the Commissioner of Public Works, members record the opinion that expenditure can be utilised to a better purpose by the provision of Dock Basins in the Eastern District, as recommended by the Commissioner, rather than by providing additional cargo landing facilities in the centre of the city; and as the cargo landing facilities on the Bund are, at present, as great as the road facilities in the Central District can cope with for the transport of such cargo, members are unable to endorse for adoption No. 71. In this connexion, it is recommended that consideration should be given to the feasibility of prohibiting the landing of cargo on the Bund, the destination of which is beyond the limits of the original British Settlement.

RECOMMENDATION No. 72.

The French Municipal Council should be requested to develop the public landing facilities on the French Bund to the highest degree possible.

In strongly endorsing this proposal, it is decided, with a view to strengthening the Commission's recommendation, that the following rider be added at the conclusion thereof, "as owing to the requirements of the International Settlement it may be necessary for the Council at a future date to prohibit the landing of cargo on the Settlement Bund frontage, the destination of which is not within the International Settlement."

RECOMMENDATION No. 73.

Additional dock basins should be provided near to or above the Yangszepoo Creek.

RECOMMENDATION No. 74.

An immediate effort should be made to secure better public landing accommodation on a long frontage below Yangszepoo Creek.

RECOMMENDATION No. 75.

The new system of joint control by the Municipal Police and the Harbour Police should be continued and extended.

The above recommendations are unanimously endorsed.

RECOMMENDATION No. 76.

The Council should negotiate for the inclusion in the Harbour Regulations of a clause giving the River Police full power to deal with congestion at public jetties.

In expressing their concurrence with the view of the Commissioner of Police that the Council should in no way delegate its responsibility in this matter to the River Police, the above recommendation is endorsed subject to addition at the conclusion thereof of the words "outside the outer line of the Bund or pontoon adjoining."

RECOMMENDATION No. 77.

Idle craft should be compelled to berth at places where they will least interfere with the traffic.

RECOMMENDATION No. 78.

Craft of different kinds should be segregated at the various landing places.

The above two recommendations are unanimously endorsed.

RECOMMENDATION No. 79.

A definite programme should be worked out for the intensive development of the Bund frontage. This should provide for a section where direct loading to vehicles would be possible and also for temporary storage places for cargo in transit.

In conformity with the views expressed on Recommendation No. 71, members are unable to endorse the above recommendation.

RECOMMENDATION No. 80.

Arrangements should be made whereby the frontage of the Public Gardens could be utilised at least to some extent for passenger traffic.

RECOMMENDATION No. 81.

A definite plan should be evolved for the progressive development of landing accommodation in the Eastern District. A frontage road is desirable and should be as long as possible with full provision of roads in and out.

RECOMMENDATION No. 82.

More and better landing places should be provided in the Soochow Creek.

RECOMMENDATION No. 83.

Strong support should be given to any measures for the improvement and control of the Soochow Creek in regard to both conservancy and policing.

RECOMMENDATION No. 84.

The creeks connecting with the harbour in the Eastern District should be improved to serve industrial frontages.

RECOMMENDATION No. 85.

There should be provided, by public or private enterprise, a ferry service to various points on the Pootung Shore running at intervals of not over thirty minutes between 6 a.m. and 7 p.m., and providing accommodation for not less than 300 passengers. The craft for this service should be built and equipped in accordance with the best modern practice.

The above recommendations are unanimously endorsed.

Parking.—Further consideration in respect of Recommendations Nos. 67 to 70 inclusive, dealt with above, is deferred until the next meeting.

The meeting adjourns at 6.40 p.m.

Meeting of December 20.—The Minutes of the last meeting are confirmed and signed.

Institution of Traffic Court.—The Secretary reports that, as requested by the Committee at its last meeting, he has interviewed the American and British Magistrates. For the reason that the institution of a Municipal Traffic Court would save the time of the British Court and would undoubtedly be appreciated by the public, Mr. King stated that he welcomed this suggestion but inasmuch as the proposal involved the jurisdiction of the British Court over British subjects he could not see his way to agree to a proposal under which his nationals would opt themselves out of their extraterritorial rights. The Secretary informed Mr. King that it was not the intention of the Council to require any national to forfeit his extraterritorial rights; minor offenders would be given the option of regarding fines imposed as estreated bail which would be paid over to the Court concerned. Mr. King replied that the necessary amendment could easily be effected to the King's Regulations to regularize this procedure and that he would arrange this, if necessary, but he desired in the first place to discuss the matter with Judge Grain.

Mr. Lurton stated that he would be prepared to assent to this proposal at once if the Council had decided to retain the fines. Unless this was done he would not be able to account for the fines received as under the present procedure his court has to keep returns of fines, costs, etc., for transmission to the United States, and in the absence of the express authority of the Secretary of State he is not empowered to receive fines imposed by the Council, nor could he entertain the suggestion that the amounts refunded be regarded as estreated bail. Mr. Lurton was however sympathetically inclined towards the proposal, and undertook to discuss the matter with Judge Purdy.

The Secretary suggests that whilst it might be possible to come to an arrangement with the American Court under which the fines would be retained by the Council, he doubts whether the smaller Courts would similarly agree to this procedure. Members record the view that it would be desirable to come to an arrangement with the British and American Courts whereunder traffic offences by their nationals could be dealt with by a Municipal traffic court irrespective of whether any arrangement agreed to was adopted by the smaller Consulates. Recommendation in this matter is however, deferred until further information is obtained from the American and British Magistrates.

RECOMMENDATION No. 67.

In view of the limitation of space, the rapid growth of motor traffic and the successful precedents established in other cities, public parking should be restricted.

RECOMMENDATION No. 68.

No additional space for public parking should be provided in future.

RECOMMENDATION No. 69.

Restriction of public parking should begin after six months' public notice. The period for public parking should finally be reduced so as not to exceed one hour at any time between 7 a.m. and 8 p.m.

RECOMMENDATION No. 70.

Within a reasonable time regulations should be introduced restricting the parking of private ricshas in the business district. Thereafter there should be a special class of private ricsha licence carrying parking privileges for which a considerably higher licence fee would be charged. Ricshas in respect of which the higher licence fee had been paid should be distinguished by a special plate or tag and should be allowed to park at places indicated by the Police. Ricshas in respect of which the extra fee had not been paid should not be allowed to park in the restricted district. The District in which the restrictions should apply would be defined by the Council and could be adjusted from time to time as required.

Consideration of the above four recommendations is continued from the last meeting. Upon a member enquiring whether the first three recommendations deal solely with motor traffic or whether it was the Commission's intention that they should be applicable to ricshas, it is decided to regard these recommendations as having reference solely to motor traffic. Dealing with recommendations Nos. 67, 68 and 69, en bloc, considerable discussion takes place as to how far the Council should assume responsibility for the provision of motor car parking space. The Commissioner of Public Works states that there is at present parking accommodation on the Bund for 381 motor cars, and if the Council should decide to utilize the grass plots, space for a further 300 to 400 cars could be provided. The Chairman is of the opinion that whilst there be no onus on the Council to incur expenditure in the provision of additional parking space any available space which can be adapted for parking purposes might be utilised for this purpose provided no capital outlay on land was involved. The Secretary suggests that a solution of this very difficult problem might be reached if members were willing to leave the whole question of parking to the Traffic Committee, when appointed, with a direction that the Committee should review the traffic situation in the business district and decide how many lanes of traffic each separate street ought to provide for and having done this should proceed to mark off as parking places such extra spaces as might be found after allowing for the required number of lanes. Owing to the prohibitive cost of land in the Central District East of Shantung Road, members agree that the provision of parking facilities by private enterprise in this section of the business district is not possible. Upon it being suggested that recommendation No. 68 should be endorsed, Mr. Bell points out that there are very few cities which do not make provision for parking, and for this reason he is of the opinion that the Council should if possible provide more public parking space. The Secretary points out that the Traffic Commission were definitely of the view that no additional space should be provided by the Council for this purpose. A member then suggests that any public space which is available and which can be adapted for parking purposes should be utilised as such, and after discussion *Recommendation No. 68* is endorsed, subject to addition at the conclusion thereof of the following rider.

"Except where this can be provided without incurring capital cost in respect of land."

Reverting then to *Recommendation No. 67*, the Chairman's view is endorsed that an effort should be made to prevent public parking space being utilised as more or less permanent parking space, and also that a fee should be charged for the use of parking space already provided. In this connexion it is suggested that a charge could be made either by means of the imposition of an additional licence fee carrying parking privileges or by a system under which tickets were sold and which would entitle a car to park on public space for a specified period. The Commissioner of Police is of the opinion that if a system is introduced whereunder the purchase of tickets is required it will result in many cars "cruising" about the streets to avoid payment of the parking fee, and this he submits would aggravate the existing traffic congestion. The Chairman is of the view that if a special licence fee is imposed for parking privileges certain cars will continue as at present to occupy public space during long periods of the day with the result that cars which merely require to park occasionally for short periods and in the case of which the imposition of an additional parking fee would bear hardly, would be unable to obtain temporary parking facilities.

After lengthy discussion members unanimously record the view that parking on public space already provided should be restricted so far as possible and also that a charge should be imposed for this privilege. Subject to the re-wording as follows: Recommendation No. 67 is accordingly endorsed.

"In view of the limitation of space and the rapid growth of motor traffic, public parking of motor vehicles should be restricted so far as possible and a system of charges therefor should be devised."

With regard to *Recommendation No. 69*,—the view is recorded that provided the Committee's suggestions relative to the two preceding recommendations are adopted, the measures advocated in Recommendation No. 69, are unnecessary, and this recommendation is accordingly not endorsed.

Recommendation No. 70.—Having regard to the fact that the Committee has already recommended that the private ricsha licence fee shall be fixed at $12 per quarter to be available for both Settlements or alternately that the licence fee remain as at present, such licence to be available only in the Settlement where it is issued (vide Recommendation No. 38) certain members take the view that the imposition of an additional fee for parking purposes may justly be regarded as a drastic measure. The Secretary suggests that as it is extremely doubtful whether the French Council will agree to any increase in the licence fee for private ricshas, and as a considerable number of these vehicles which use the Settlement roads and occupy public parking space do not need to be licensed in the French Concession, he suggests that the licence fee should remain as at present but that an additional charge be imposed for parking facilities. After discussion on this proposal the unanimous view is recorded that it is most desirable to maintain the principle that these vehicles should be licensed in each Settlement and the Committee's former recommendation that a licence available for both Settlements be issued is accordingly withdrawn. The Commission's recommendation that a licence fee should be imposed for parking is also endorsed. Members desire that the amount of this fee and any necessary modification or otherwise, of the existing vehicle licence fee should be referred to the Finance Committee for its recommendation.

Recommendation No. 43.—In connexion with the above discussion the Commissioner of Public Works points out that the owners of many private motor cars which make considerable use of the Settlement roads for business purposes reside in and pay their licence fee to the French Concession. Since the French Concession is being developed chiefly for residential purposes, it may be anticipated that the proportion of motor car licences now taken out in the French Concession will increase. After discussion members record the unanimous view that private motor cars should be required to take out licences in respect of each Settlement, it being anticipated that under this proposal the Council would benefit even if the existing licence fee is reduced. In recommending this proposal for adoption it is suggested that the Finance Committee should, in connexion with the revision of the licensing schedule for 1927, consider and recommend as to whether in adopting this proposal any modification of the existing licence fee is called for.

Additional Motor Car Parking Space.—In accordance with the views expressed at this meeting the recommendation of the Commissioner of Public Works in his report submitted, that the space on Cad. Lot 174 at the junction of Foochow and Kiangse Roads be utilised temporarily for the parking of motor cars, is endorsed it being understood that the expenditure involved in converting this area for the purpose would amount to Tls. 1,000 and would provide accommodation for 118 cars.

The application of the Automobile Club of China that after the small lawn in front of the Municipal pontoon on the Bund ceases to be used as a storage dump in connexion with the rebuilding of the Customs Examination Shed, it be utilised as a motor car parking space, is also recommended for approval.

The meeting adjourns at 6.45 p.m.

Tramway Service.

North Railway Station to French Bund.—The recommendation of the Traffic Commission relative to a through tramway service from the North Railway Station *vid* the Boulevard des Deux Republiques to the French Bund has been considered by the Council and by the Provisional Commission for the Municipal Administration of the French Concession, whose views are appended:—

Council Chamber,
Shanghai, February 15, 1927.

SIR,—I have the honour to transmit for the consideration of the Provisional Commission for the Municipal Administration of the French Concession the Traffic Commission's Recommendation No. 57, which reads as follows:—

"A request should be made to the French Municipal Council to co-operate with the Council with a view to instituting a through tramway service from the North Station *vid* the Boulevard des Deux Republiques to the French Bund."

In amplification of this recommendation, the Commission expressed the view that it would be advantageous if this service could take the form of a circular route to accommodate the heavy traffic between the North Railway Station and the Chinese City without change of vehicle.

As the Council has unanimously endorsed this recommendation and is in full agreement with the further view of the Commission, as outlined above, I have the honour to request that you will be so good as to obtain and forward for this Council's consideration an expression of your Administration's views on the subject.

I have the honour to be,
Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

P. LEGENDRE, Esq.,
Secretary,
Provisional Commission for
the Municipal Administration
of the French Concession.

Translation of letter from the French Municipal Provisional Commission, dated March 14, 1927.

SIR,—I have the honour to acknowledge receipt of your letter of February 15 last, forwarding to the Municipal Administration a recommendation by the Traffic Commission relating to the institution of a circular tramway route operating from the North Station to the Boulevard des Deux Republiques and thence to the French Bund for the purpose of linking up again with the Foreign Settlement.

In reply, I am directed to inform you that the Provisional Commission is in entire agreement in principle with the project for the institution of the circular route in question.

It would seem, however, that a thorough investigation is desirable prior to making a definite decision, and, in the circumstances, it is suggested that the Departments of our respective Administrations which are concerned therein should proceed to give this matter their consideration in conjunction with the Tramway Companies, English, French and Chinese, whose interests are affected.

I am, etc.,
P. LEGENDRE,
Secretary.

Motor Freight Vehicles.

Availability of Licences:—The following correspondence is published for general information:—

Council Chamber,
Shanghai, February 16, 1927.

SIR,—I have the honour to refer to the Traffic Commission's Recommendation No. 45, which reads as follows:—

"In order to encourage power freight vehicles and with a view to the reduction of man-hauled traffic, it is recommended that licences for these vehicles taken out in either the Settlement or the French Concession should be available for both areas."

In reference thereto, I have the honour to inform you that, after very careful consideration, the Council is unanimous in the view that it is desirable to adhere to the present system under which these vehicles have to be licensed under each Administration: and that, accordingly, members are unable to endorse the Commission's recommendation.

I have the honour to be,
Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

P. LEGENDRE, Esq.,
Secretary,
Provisional Commission for
the Municipal Administration of the French Concession.

SIR,—In reply to your letter of February 16, relating to the Traffic Commission's Recommendation on the subject of power freight vehicle licences, I have the honour to inform you that this Administration is in agreement with your views in this matter and does not at present intend to modify the conditions now in force as to the issue of these licences.

I am, etc.,
P. LEGENDRE,
Secretary.

S. M. EDWARDS, Esq.,

Municipal Council.

Excerpts from Minutes.

At the meeting of the Works Committee held on Tuesday, March 15, 1927, at 4.30 p.m., there are present:—Messrs. P. W. Massey, *Chairman*, A. D. Bell and W. R. B. McBain.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 5.15 p.m.

At the meeting of the Council held on Wednesday, March 23, 1927, at 4.30 p.m., there are present:—Messrs. S. Fessenden, *Chairman*, B. D. F. Beith, A. D. Bell, T. Funatsu, V. G. Lyman, W. R. B. McBain, Brigadier-General E. B. Macnaghten and Mr. H. B. Roe. The Commandant and the Commissioner of Police attend.

Admission of Soldiers and Civilian Refugees into the Settlement.—The Chairman refers to a letter which has been received from the General Officer Commanding the British Defence Force requesting a ruling as to the policy to be adopted with reference to the entry into the Settlement of Chinese civilians, in view of the possible risks to the foreign community from gunmen. Major General Duncan also recommends that no soldiers should be granted permission to enter unless in the possession of a special pass which is issued by the Council and countersigned by the Intelligence Branch at the Headquarters of the Shanghai Defence Force; he further suggests that the issue of these passes should in principle be confined to Chinese General Officers and their bodyguards, not exceeding ten armed men. Asked for his views, the Commissioner of Police suggests that as barricades have been erected at all points of entry into the Settlement and as only a limited number of these barriers remain open, that Police officials should be stationed at these points for the purpose of examining Chinese, and at their discretion, civilians of other nationalities, desiring to enter the Settlement. He understands that it is proposed to institute a curfew system whereunder all the barricades will remain closed from 9 p.m. or 10 p.m. for a period of six or seven hours. During that period he proposes that no Chinese should be permitted either to leave or enter the Settlement. Those attempting to leave the Settlement during these hours will be taken into custody and not released until the barriers are re-opened some hours later. From the Police point of view, he considers that 10 p.m. is a suitable hour for commencement of the curfew, and owing to the number of mill operatives who have to enter or leave the Settlement before 6 a.m. and also in order not to prevent dairy and vegetable produce from being brought into the Settlement, he recommends that the barriers be re-opened at 4 a.m. It would also be necessary to restrict the entry of Chinese by the Public Jetties and to effect this the Police will also make the necessary arrangements. Under the above proposals, the Commissioner states that the Police (in collaboration with the Military authorities) would be responsible for the entry and exit of all Chinese. The Commandant concurs in the above proposals.

After discussion, it is decided that a reply be forwarded to the G.O.C., Defence Force, stating that a curfew system will be instituted forthwith to be effective between the hours of 10 p.m. and 4 a.m., during which hours no Chinese will be permitted to enter or leave the Settlement, and that in addition Police officials will be stationed at the barriers during all hours and will be responsible for the admission or exit of the civilian population; supervision of the Jetties being also undertaken.

The Secretary states that he has received numerous requests from Chinese for the issue of passes to enable them to enter the Settlement, but that so far he has refused to comply with such requests. The Commissioner of Police is of the view that if the Police function at the barricades as above proposed, the issue of passes to civilians is unnecessary. Members concur in this view, and, in the event of applications being received for passes on behalf of the Chinese military, it is directed that such applications be referred to the Police Department. A member's suggestion is endorsed that the French Council should be informed of the Council's decision in the matter of the entry and exit of Chinese civilians and that they be requested to adopt similar measures in respect of civilians from Nantao and other Chinese territory bordering the French Concession.

The Minutes of the last meeting are confirmed and signed.

The Minutes of the special meetings of the *Watch Committee* of March 14 and 16 are submitted and confirmed.

The Minutes of the meeting of the *Works Committee* of March 15 are submitted and confirmed.

The Minutes of the meeting of the *Staff Committee* of March 17 are submitted and confirmed.

General Hospital—Board of Governors.—Mr. McBain and General Macnaghten intimate their willingness to stand for election to the Board of Governors, and it is also decided to invite Dr. Neild and Dr. Dunn to stand for re-election thereto.

Political Situation.—For the purposes of record, the Chairman states that on Monday last, following the serious developments in the local situation and by virtue of the powers conferred on him by the Council, he authorised the declaration of a State of Emergency. The necessary measures have been taken and the arrangements previously decided upon were carried out with a promptitude which was highly satisfactory.

The Municipal Gazette for Friday, March 25, is submitted in proof and authorised for publication.

The meeting adjourns at 6.55 p.m.

At the meeting of the Watch Committee held on Friday, March 25, 1927, at 4 p.m., there are present:—Messrs. V. G. Lyman, *Chairman*, B. D. F. Beith, and Brigadier General E. B. Macnaghten.

Licensing Session—1927.—Consideration is given to the applications for Hotel, Restaurant and Tavern Licences, which have been received following publication of Municipal Notification No. 3564.

Hotels.—Two new applications are submitted.

1. E. H. Baker (Burlington Hotel), 232 Bubbling Well Road.
2. Ching Lui Chong, 24/28 North Szechuen Road.

1. Members are informed that, pending completion of alterations and improvements necessary to meet the requirements of the Public Health and Public Works Departments and the Fire Brigade, a provisional licence has been authorised for this hotel. The Secretary suggests that a full licence should be withheld until the departmental requirements have

been complied with. Members endorse this view and the issue of a provisional licence is recommended until the Departmental requirements are complied with, thereafter a full licence to be issued.

2. A number of protests have been received against the issue of a tavern licence for these premises. The applicant has, however, withdrawn his application for such a licence, and his application for a hotel licence (to serve liquor with meals only), no bar being permitted on the premises, has been provisionally approved. After discussion, members record the view that the objections lodged against the issue of a licence in respect of these premises will be met provided a hotel licence only is issued, and it is accordingly recommended that the Council's previous decision be confirmed, to issue a hotel licence for the sale of liquor with meals only and on the distinct understanding that no bar will be permitted on the premises.

Restaurants.—The following eleven applications are submitted for Restaurant Licences:

1. L. R. Hossenioff ("Marcels"), 32 Nanking Road.
2. Wong Bing Wei, 55 Nanking Road.
3. Y. K. Sun. U.950/953 Peking Road.
4. Wong Yung, 26, Thibet Road.
5. Teh Youh Yung, L L 83/85, Thibet Road.
6. A. J. Hughes, 34 Bubbling Well Road.
7. A. S. Kleinermann, 138, Bubbling Well Road.
8. Kishiro Masumi, 2/3 Haining Road.
9. Sato Tatemori, F. 170 Woochang Road.
10. Chikashi Matsuno, 38 Yuhang Road.
11. Fazil Krasnow, L. A. 105 Lower Yangtszepoo Road.

No. 5. Subject to compliance with Departmental requirements, the application for a licence in respect of this establishment is approved.

Nos. 9 and 11.—On the ground that the localities in which these premises are situated are adequately served by existing establishments, the recommendation of the Commissioner of Police that the applications for licences for these two establishments be disapproved, is endorsed.

It is noted that the remaining applications for Restaurant Licences are in respect of premises for which a provisional licence has already been issued and these are recommended for approval.

Taverns.—Thirteen new applications are submitted as follows:

1. Frederick Ezra (Shepherd's Hostel), 40 Kiangse Road.
2. P. Golumbovsky, 14 Kiukiang Road.
3. Louis Ladow, 4 Ningpo Road.
4. Chang Nee King, 1 Tientsin Road.
5. Tom Griffin (Palais de Danse), 50 Bubbling Well Road.
6. T. F. Millard (The Little Club), 60 Bubbling Well Road.
7. T. S. Lelli, 23a North Szechuen Road.
8. Moses Goldman, 67 North Szechuen Road.
9. Simone Pizzo, 41 Range Road.
10. Mrs. T. S. Satskin, 177/179 Broadway.
11. Leon Cunio, A. 1099 Broadway.
12. John Tsounias, L. 116/117 Yangtszepoo Road.
13 Ned Widler, K3, Boone Road.

Nos. 3 and 12.—Subject to the reports of the Departments concerned that their requirements have been complied with, these two applications are approved.

No. 6.—As the requirements of the Public Works Department and the Fire Brigade have not yet been complied with by this establishment, it is recommended that until such requirements have been met, a provisional licence only be issued.

Nos. 7, 8, 9, 10, 11 and 13.—For the reasons advanced by the Commissioner of Police, issue of tavern licences to these establishments, is disapproved.

The remaining applications for Tavern Licences are recommended for approval.

The renewal of existing licences in respect of the three classes of establishments is also approved.

Late Application for Tavern Licence.—The Secretary states that an application by Mr. A. C. H. Langvad, a Danish subject, for a tavern licence for premises in Seward Road, was received after the date stipulated in Municipal Notification No. 3564, and that the applicant now applies for a provisional licence. If this request is complied with, the licence will be effective until the next Annual Licensing Session, but the public would have no opportunity of lodging protests; for this reason he is unable to endorse the application for approval. Members decide that consideration of this application be deferred for a period of three months.

Issue of "Provisional" Licences.—In connexion with the issue of provisional licences, the Secretary requests a ruling as to what extent these should be issued during the year. He states that fourteen provisional licences have been issued since the last Annual Session, and since the public have no opportunity of lodging protests against the issue of provisional licences, and further as it might be difficult for the Council not to confirm such provisional licences at the ensuing Annual Session, he suggests that the issue of provisional *Tavern* Licences should be abandoned. In some cases it may be to the distinct advantage of an applicant for a Tavern Licence not to apply in the first instance for a licence at the Annual Session, owing to the opposition that might be encountered. He regards the issue of Hotel and Restaurant Licences as on a somewhat different basis, since protests in respect of such applications are rare, and a definite hardship might be caused if the issue of provisional licences for such establishments were suspended. After discussion, members endorse the Secretary's view that modification of the present system under which provisional licences are issued is desirable, and it is accordingly recommended that in future provisional Tavern Licences should only be issued in exceptional cases, and that applications therefor should be considered only once during each quarter of the year.

The meeting adjourns at 4.50 p.m.

At the meeting of the Council held on Thursday, March 31, 1927 at 4.30 p.m., there are present; Messrs. S. Fessenden, *Chairman*, B. D. F. Beith, A. D. Bell, T. Funatsu, V. G. Lyman, W. R. B. McBain, Brig. General E. B. Macnaghten and Mr. H. B. Roe.

Instructions to Staff.—The Council has enquired into the circumstances under which certain sentences written by the Commissioner-General appeared in facsimile in the Chinese Press. Evidence is submitted that the words were written by the Commissioner-General under duress, in order to extricate himself and others from the hands of an armed mob, outside Settlement limits.

Accepting this evidence and formally declaring the incident closed, the Council has taken steps to prevent the occurrence of a similar incident in the future.

The meeting adjourns at 5.45 p.m.

PROCEEDINGS.

Mr. S. FESSENDEN—Ladies and gentlemen, as it is past the hour for which this meeting has been called, I beg to propose

Resolution I.—That our esteemed fellow-ratepayer, Judge Peter Grain, be invited to take the Chair.

Mr. P. W. MASSEY—Ladies and gentlemen, I beg to second the resolution.

Mr. S. FESSENDEN—Those in favour of the resolution will please signify in the usual way? Those opposed. Carried unanimously.

Judge Peter Grain then took the chair.

The CHAIRMAN—My first duty is to read the notice convening the meeting.

This having been done, the Chairman called upon Mr. Fessenden to move Resolution 2.

MR. S. FESSENDEN.—Mr. Chairman, ladies and gentlemen, I beg to propose

Resolution II.—That Mr. J. W. Fraser be appointed Secretary to the meeting.

Mr. P. W. MASSEY — Mr. Chairman, ladies and gentlemen, I beg to second that resolution.

The CHAIRMAN — It is proposed that Mr. J. W. Fraser be appointed Secretary of this meeting. Those in favour will signify in the usual manner? Those against? Carried unanimously. I will now call upon Mr. Fessenden to move Resolution No. 3.

Mr. S. FESSENDEN—Mr. Chairman, ladies and gentlemen, I beg to propose

Resolution III. — That the annexed rules of procedure be adopted for use at this meeting and remain in force until the next annual meeting.

Mr. P. W. MASSEY — Mr. Chairman, ladies and gentlemen, I beg to second that.

The CHAIRMAN — It is proposed that the Rules of procedure annexed to this Resolution shall be adopted for the use of this meeting, and remain in force until the next Annual Meeting. Those in favour will signify in the usual manner? Those against? Carried unanimously. I will now call upon Mr. Fessenden to propose Resolution No. 4.

Mr. S. FESSENDEN.—Mr. Chairman, ladies and gentlemen: It is once more my duty, as Chairman of the outgoing Council, to propose Resolution IV, that the Report and Accounts for the year ending December 31, 1926, be passed.

A full account of the work done during the past year is contained in the Annual Report, which has been in your hands for some little time. There is therefore no need for me to survey the whole field of departmental activity on this occasion. I wish however again to take the opportunity of commenting upon the eminently satisfactory way in which this work has been carried out and to bring to your notice the loyal service rendered by the municipal staff throughout the period under review. As usual, also, our thanks are due to those ratepayers and others who have given their services gratuitously in the public interest; on Committees and Commissions; as Volunteers; as Special Police; as directors and helpers on food control and voluntary service, and in many other ways. For the advice, assistance, public spirit and whole hearted co-operation we are all, I am sure, very deeply grateful.

I now propose to make a few remarks on the Financial Statement for the past year. The opening statement of the Treasurer and Comptroller records a deficit on the Ordinary Budget of Tls. 18,298 to be carried forward to the budget of 1927, in place of an estimated surplus of Tls. 291,160. Our ordinary income was short of that contemplated by approximately one lakh, while ordinary expenditure exceeded the estimate by Tls. 209,468. The Treasurer's report sets out in detail the results of Departmental Expenditure as compared with the estimates, and I do not propose to take up your time in accounting for various differences that arise between the actual and estimated figures. I would say, however, that no excess expenditure has been incurred without the knowledge and approval of the Council.

The Extraordinary Budget provided for an expenditure of Tls. 6,496,580 and an income of Tls. 6,501, 630 leaving a deficit of Tls. 5,050 to be carried forward. The actual figures for the past year show expenditure amounting to Tls. 6,103,354 against an income of Tls. 6,048,288, which means that a deficit of Tls. 55,066 is carried forward to 1927 in place of the estimated figure of Tls. 5,050.

In explanation of this result I would remind you that we were authorized to raise a loan of Tls. 5,000,000, but pursuing the policy of retrenchment I spoke of last year, expenditure was kept well below that budgeted for by incurring no outlay on many of the items contained in our programme of work.

Actually we only issued debentures to the nominal value of Tls. 4,506,700 which after deducting the discount of 1 per cent. at which these debentures were placed, realized the sum of Tls. 4,461,633. For the first time in several years the cost of acquiring land for new roads and for widening existing roads closely approximates the estimate. Expenditure on making up such roads, however, exceeds the budget provision by Tls. 82,175 but as I have explained to you on former occasions, this type of expenditure is contingent on many unknown factors and consequently is most difficult to control. Your Council is satisfied that everything reasonable was done to keep within the sum appropriated.

I do not think it is necessary for me to make any further statement on the accounts. The Treasurer and Comptroller's report gives full details as to how the loan of 12[illegible] was raised and of the part played by the Municipal Investment Bank in effecting the result.

POLITICAL SITUATION.

The political events in China during the past year and the resultant local military situation have again thrown the spotlight of world-wide public attention upon the City of Shanghai as never before in its history; not even during the momentous period which followed May 30, 1925.

Important and of absorbing interest as these matters undoubtedly are I do not intend to enter upon any extended discussion of them today. I have merely referred to them in a general way as a basis for the introduction of other correlated matters, certain important aspects of which I feel should be made clear not only to you as ratepayers, but to the public generally.

Profiting by its experience during the troubles of 1924-5, the Council was able to watch with an appraising eye and discerning perception the political and military moves of the contending factions in China, one of the objectives of which was the possession of the so-called "Shanghai Area" and on the part of one faction at least, the ultimate possession of the Foreign Settlements.

The Council was fully aware of the menace to the International Settlement which these developments portended long before their significance was in fact realized or appreciated by the public and the "Foreign Powers" generally.

The Council clearly foresaw both the possibility and probability that Shanghai might be overborne by a situation similar to if not identical with that which subsequently overtook Hankow, with such disastrous results, unless adequate measures could be taken to prevent such an eventuality.

It was highly desirable from every point of view that the public should not become unduly alarmed.

By unobtrusive but as effective methods as the Council could command, it endeavoured to impress upon individuals placed in positions of influence, and upon the local representatives of the principal foreign powers the gravity of the situation and the urgent necessity of taking action to secure adequate protection of the Settlement against forces which might assail it simultaneously both from within and without its borders.

These efforts of the Council met with a certain amount of response but on the whole the results were not at first reassuring or such as to inspire confidence in the future security of Shanghai.

It was not until disaster had overtaken Hankow that the local public and the governments of some of the foreign powers were aroused to a full conciousness of the danger threatening Shanghai.

The plight of Hankow and its reaction in many directions greatly accelerated the lagging efforts to secure prompt and adequate protection of Shanghai with the happy result at least from our point of view that the Settlement is now securely protected against any contingency which in so far as anyone can foresee is likely to arise.

We are profoundly grateful to all of those to whom we are indebted for our present peace and security and relief from depressing anxiety.

Intimately connected with the matters to which I have briefly referred is one of far reaching importance and which perhaps has given rise to a considerable amount of controversy.

I refer to what for the want of a better term may be called the policy of the Council in bearing the great responsibility placed upon it of defending and protecting the International Settlement against the forces and dangers which assail it during these critical times in China.

My colleagues on the Council have accorded me their unanimous support in adopting and maintaining in so far as it lies in our power, the policy or principle that the Council has not only the moral but also the unquestionable legal right to defend by force if necessary the political and territorial integrity of the Settlement against military or mob aggression on the part of any political or military party or faction. (Applause).

The source of this legal right lies in the unique political status of Shanghai as a municipality, which has no exact counterpart in the whole world.

As a rule municipalities are created by and derive their powers from the supreme legislative assembly of the state or country in which they exist.

This is not true of Shanghai as must be obvious to anyone having even the most superficial knowledge of our system of local government.

Shanghai as a municipality was not created by and does not derive its powers of government from the legislative assembly of any single state or country nor from the mandate of any single sovereign power. It was created by and derives its powers from an agreement made between the so-called "Foreign Powers" on the one part and the Chinese Government on the other part.

This agreement which for the want of a better name is known as the "Land Regulations" has all the sanctity of a treaty, being as it is a solemn and inviolable compact between sovereign nations.

In substance and effect, although not in form, it is a treaty of the highest class being as it is not merely a bi-lateral agreement between two sovereign powers but an agreement to which many sovereign powers are parties.

An agreement of this character cannot be abrogated, modified or amended by one party acting independently of all the other parties. And one party by withdrawing from such an agreement, in breach of it, cannot nullify the rights which the other parties have acquired under it.

Under the Land Regulations, the citizens and subjects of the powers who are parties to those Regulations have acquired the right not only to reside and carry on business within the Settlement but to maintain a municipal government over that area for which purpose the Regulations expressly provide the necessary governmental machinery.

Those rights and privileges cannot arbitrarily be destroyed by the mandate of any Chinese political faction or party which happens to be temporarily in the ascendancy.

Being treaty rights, or their equivalent, the foreign residents of Shanghai have every right to oppose with force any attempt to destroy those rights by force.

As a matter therefore not only of policy but of right the Council has stoutly maintained and defended its position that the municipality of Shanghai shall not be overwhelmed and destroyed by force from without or within and that its integrity politically and territorially must and shall be preserved in "statu quo" until such time as changed by orderly and peaceful negotiation between the Chinese Government and the foreign powers concerned. (Applause).

And I venture to express the belief that by an overwhelming majority the intelligent and responsible public opinion of Shanghai is in full accord with the policy of the Council as I have outlined it. (Hear, hear, and applause).

No one who has resided in Shanghai for any length of time can fail to realize that the destiny of the Settlement is at times inextricably entangled in a greater or lesser degree with the conflicting policies of the individual foreign powers in their respective relations with China. It is often neither possible, practical nor desirable for the Council to attempt to reconcile or adjust, in all respects, its policies relating to the defence of Shanghai, with the general policy of any individual foreign power or group of powers in their general relations with China. Under these circumstances, the Council is often driven to the expediency in critical periods of adopting or favouring a policy or course of action which in its considered opinion is in the best interest of the community as a whole or affords the most efficient protection in times of trouble, trusting that the end will justify the means.

What better illustration or justification of the attitude of the Council under such conditions can be found than the events of last month?

Although the approach of contending Chinese armies upon the borders of the Settlement had long been foreseen, there was a lack of complete unanimity of policy of defence on the part of the foreign powers concerned.

The fact that the policy of the British and Italian Governments of defending the integrity of the Settlement was identical with that of the Council was a source of intense satisfaction to the Council and an encouragement to which it responded to the utmost.

The events of March 21 and 22 have demonstrated to the world the soundness of that policy and the fallacy of any lesser measures.

No one having an intimate acquaintance with the local situation can have the slightest doubt that except for the presence and action of the British Defence Force appalling disaster and loss of foreign lives would have been the inevitable result of the clash of opposing Chinese armies on our borders. (Hear, hear and applause).

Traffic Commission.

An event of importance in the past year was the completion of the report of the Traffic Commission. This Commission had sat for no less than eighteen months in an endeavour to solve what is, and probably always will be, one of the most difficult and complex of our local civic problems. Without going into the details of the Report, which has already been published in full, I may say that the Council has recognised the high value of the recommendations made. Each one of them has been carefully and exhaustively considered by two of the Council's Committees and by the Council itself; and steps are being taken to give effect to these recommendations which are considered under present circumstances to be practicable. It will be realised of course that, apart from questions of expediency, are those of cost and that for reasons to be touched upon in another speech of mine to-day finance must be the governing factor in all we do this year.

The gratitude of the Community is due to the Members of the Commission who so generously gave their time and experience to this work. To Mr. J. S. S. Cooper, the Chairman, our special thanks are due. To his most able guidance; his untiring energy and perseverance; his knowledge and judgment; and to his literary skill we must attribute a Report which I think I may say without fear of contradiction, is a model of what such documents should be. I would ask you, Ladies and Gentlemen, to show Mr. Cooper how much we all appreciate his great effort on our behalf. (Applause).

Country Hospital.

Last year I had the pleasure of announcing to you the presentation to the community, by an anonymous donor, of the Country Hospital, standing in its own grounds of about 25 *mow* and fully equipped for the accommodation of 125 patients. This stately building was thrown open to public inspection in June, after which patients were admitted and the normal work of the Hospital began. Dr. C. Douglas Gray was appointed Medical Superintendent and Secretary in February and has now taken entire charge of the administrative work of the institution under the direction, of course, of the Board of Governors. In addition to

his extensive experience of hospital administration during the Great War, Dr. Gray was for more than 20 years medical officer to the British Legation in Peking, from which post he retired in January, 1926. The community is fortunate in securing the services of so able and experienced a medical man to undertake the organization and management of this institution.

The opening of the Country Hospital has an important bearing on the general question of hospital accommodation in Shanghai, which in ordinary circumstances would now be somewhat in excess of normal demand. As the Council has assumed liability for any deficit in the revenue of the Country Hospital, the closure of the Victoria Nursing Home has been proposed as a measure of economy and a means of placing the new Hospital on a self-supporting basis. In view, however, of the possibility of a greatly increased demand for hospital accommodation arising from present conditions no final decision in this matter has yet been taken.

Waterworks Agreement.

I am very pleased to be able to state that our negotiations with the Waterworks Company which have been spread over many years have at length culminated in the signature of a Preliminary Agreement which will form the foundation for preparing a new agreement with the Company on lines similar to those laid down in the new Telephone Agreement. The Preliminary Agreement was signed on September 28 last, and was published in a special issue of the Municipal Gazette dated September 29, 1926. Unfortunately recent happenings have retarded the preparation of a new agreement which it was hoped would be ready for signature by the end of last year. However, the Company's directors and the Council are now viewing the problem from the same angle and there is every reason to anticipate that the few remaining complications will be adjusted without any great difficulty, and that the Council's future relations with the Company will continue on their present satisfactory basis. Before leaving this subject it may be as well for me to state that a revision of the existing tariff of charges is under consideration, but it is as yet too early to give any indication as to the changes that may be found necessary.

Chinese Representation on the Council.

In accordance with the terms of the resolution passed at the Ratepayers' Meeting in April last year, the necessary representations were made by the Council with a view to securing the addition of three Chinese Members to the Council at an early date. This number was accepted by the Chinese Government and the Diplomatic Body in Peking and by the Kiangsu Provincial Government locally, and had times been normal there is little doubt that some progress would have been made in the matter before the end of last year. As it is, however, it would seem that the prevailing political conditions have prevented the nomination of these three gentlemen, and consequently the Chinese community still lacks that direct representation in the Municipal government of the Settlement which is generally desired.

Municipal Gazette in Chinese.

The Municipal Gazette, the official organ of the Council, has now been published for just over nineteen years. It has always been the practice of the foreign newspapers to reprint from the Gazette items of special interest or importance, and in this way persons who do not regularly read the Gazette have been kept informed of Municipal affairs. In this respect the Chinese community were placed at a disadvantage, since comparatively few Chinese are able to read the foreign papers and not many of the items found their way into the Chinese press. It was accordingly arranged last year that the more important contents of the Gazette should be translated into Chinese and transmitted to Chinese newspapers at the same time as advance copies of the English version were sent to the foreign press. The change was effected on May 14, from which date also the Gazette has been published on Fridays instead of Thursdays as previously.

With these remarks I beg to propose:—

Resolution IV.—That the Report and Accounts for the year ending December 31, 1926, be passed.

Mr. P. W. Massey — Mr. Chairman, ladies and gentlemen, I beg to second the resolution.

The Chairman—Ladies and gentlemen, the Resolution is now before the Meeting. It has been proposed and seconded. Before I put it to the meeting, is there any ratepayer present who desires to make any observations or ask any questions on the speech just made by the Chairman of the Council?—Ladies and gentlemen, then I will put the Resolution to the Meeting. Those in favour?—Those against?—Passed unanimously.

The Chairman—I now call upon Mr. Fessenden to propose Resolution V.

Budget.

Mr. S. Fessenden — Mr. Chairman, ladies and gentlemen: In conformity with the practice of recent years, the Budget was issued some days in advance of the Financial Statement and you have all had ample time to study its contents. The probability of increased taxation foreshadowed in my speech of last year has, I regret to say, materialized and after much deliberation your Council are obliged to recommend that an additional 2 per cent. be added to the G. M. rate with effect from July 1, and that land tax be increased from 7/10th of 1 per cent. to 8/10th of 1 per cent. from the same date.

After passing through the various committee stages, in course of which it was subjected to the closest scrutiny and curtailment, the b

permission, I will now ask M
Lester, the Chairman of th
Electricity Committee, to addre
the meeting.

Mr. H. W. Lester.—Mr. Chairman
ladies and gentlemen:—

The Report and Accounts of th
Electricity Department for 192
contains the fullest information wit
regard to the working and progres
of this large undertaking, and ther
remains very little more for me t
say. In these times of unrest an
trouble it is extremely gratifying t
be able to draw your attention to th
strides made during the year under
review: the total sales of electricit
for all purposes were 408,000,00
kilowatt hours, as compared wit
294,000,000 kilowatt hours in 1925
and 307,000,000 kilowatt hours sol
in 1924: 1925 covering a period o
three months strike. What is eve
more important is the fact that ex
nett profit is Tls. 2,200,000 after
providing for depreciation, Interest
etc., against Tls. 1,450,000 during
1925 and Tls. 1,464,000 in 1924.

In his speech of last year my pre
decessor referred to the achievement
of greater efficiency in generatio
and hoped that there would be fur
ther improvement in 1926; his hope
ladies and gentlemen, has been more
than fulfilled, and I should like t
congratulate the whole of the staf

on the figures published; every member of the staff from the top to the bottom has had a finger in this increased efficiency, and I wish to place on record the satisfaction of your Committee with the work and especially the team work of the staff; to your Engineer-in-Chief and Manager, Mr. Aldridge, chief credit is due, both for his organising ability and for inspiring the whole of his staff with that esprit de corps and loyalty which is so essential in an undertaking of this nature.

The nett profit for last year, as I have said, amounted to Tls. 2,200,000, out of which it is proposed to contribute Tls. 1,200,000 to the Municipal Council for the relief of the rates: this means that a total of over Tls. 7,000,000 will have been contributed for this purpose since 1916.

With regard to the future, I wish merely to draw your attention to the fact that providing conditions are not materially worse than last year we estimate that the total revenue for 1927 will be increased by about 20 per cent. and that the nett profit will be about 4 per cent. higher than for 1926: the disparity between the increase in revenue and the increase in profit is chiefly due to the enormous increase in the cost of coal for 1927 being in the neighbourhood of 50 per cent. more than for 1926.

Given normal trading conditions I venture to say that those figures would be greatly improved, but if conditions turn out to be worse then we think there is comfort in the reflection that there is no concern better prepared or more able to stand the results of political agitation. I say political agitation because our labour is well satisfied with the treatment it receives and we have been assured over and over again that such strikes as take place have nothing of an economic nature about them.

If any ratepayer wishes to ask any questions I will do my best to answer them.

Mr. FESSENDEN.—I now beg to propose:—

Resolution V.—That the estimated expenditure for 1927, contained in the Budget proposed by the retiring Council, together with the recommendations attached thereto, be approved and adopted, and that the Council be and it is hereby authorised to impose, collect and recover the rates, taxes, dues and fees recommended therein, and to raise, should it be considered expedient to do so, upon such terms and in such manner as the Council may in its discretion think fit, a sum not exceeding Tls. 2,100,000 or the equivalent of this sum, for the purposes defined in the estimate of Extraordinary Expenditure.

Mr. P. W. MASSEY — Mr. Chairman, ladies and gentlemen, I beg to second the resolution.

Mr. A. R. HAGER.—Mr. Chairman and fellow ratepayers, in proposing an amendment to Resolution No. 5, I wish to assure you that I approach this question with considerable diffidence.

It is very far indeed from my intention to make the slightest adverse criticism, from an aesthetic standpoint, of the subject of this amendment, the Shanghai Municipal Band.

For the quality of its performance and for the ability of its leader and of its members, I have nothing but admiration.

The only question which I shall ask you in connection with the Municipal Band is, as Ratepayers, can we afford it?

At the Annual Ratepayers' Meeting in 1923 the question was raised of the large and increasing annual expenditure for the Band, and an amendment was proposed, the purpose of which was to check its increasing cost to the Ratepayer. In the vote which followed a discussion of this question, it was decided by a small majority to maintain the Municipal Band and not to restrict or cut down its cost.

Since that meeting in 1923, that is in the last four years, the Municipal Band has cost the Ratepayers about seven hundred thousand Shanghai Dollars.

Last year the net cost of the Band to the Ratepayers was over one hundred and eighty thousand dollars.

Under present conditions, are we justified in continuing this expenditure?

There are many necessities which the community cannot do without and which our fellow Ratepayers who administer the affairs of Shanghai find it increasingly difficult to provide for in the budget.

Are we justified in expending more for a luxury, for as such our Band must certainly be considered; are we justified in paying out more for this luxury than for such a necessity, for example, as the Shanghai Volunteer Corps? That is exactly what we have been doing for the past two years. I think none will question the necessity to the community of the S.V.C. We know what we have been getting for our investment in the Volunteer Corps and it is safe to assume that none of you in this room begrudges this expenditure.

Now just what are we getting in return for the larger amount which we expend for the Municipal Band? How many Ratepayers are getting an adequate return for the investment? A comparatively small group of music lovers is no doubt receiving great pleasure from the Band performances. This small and appreciative group no doubt constitutes the audience that, Sunday after Sunday, attended the forty-five concerts given by the Band in 1926 at the Town Hall. The average attendance at these concerts was 639. How many of these were Ratepayers?

I have some curiosity to know how many of the Ratepayers present have been regular attendants at the Band Concerts during the past twelve months. I believe you would all be interested in an answer to this question, and for the answer I appeal to this meeting.

Will every Ratepayer present who has attended as many as three concerts by the Municipal Band during the past twelve months please raise his hand and hold it up while the hands are counted?

With your permission, Mr. Chairman, will the tellers be good enough to count the show of hands? (Thank you).

After a show of hands, the Chairman said:—72.

Mr. HAGER—I want to congratulate the Ratepayers who have indicated that on at least three occasions during the past year they have improved the opportunity of listening to music of extraordinary merit (A Voice: More than three occasions.) I believe every Ratepayer present would like nothing better than to be able to continue to provide this opportunity even though it be for a comparatively small group of music lovers.

The question that I am asking you to-day, fellow Ratepayers, is not a question of aesthetic values. It is a question that is very simple. The question is, can the Ratepayers of Shanghai continue to meet the growing expense of providing this opportunity? Somebody must "pay the piper," and that "somebody" is, first and last, the Ratepayer.

Will you grant me a few moments more while we consider briefly the question of ways and means?

We all realize that it is not a simple matter to raise funds for the sheer necessities of this Municipality. There are four principal ways in which Shanghai can make financial provision to meet its growing needs.

First: by an increase in rates. Nobody wants this if we can avoid it. One way to avoid further increases is to eliminate luxuries that provide for the few at extravagant cost to the many.

Second: by the growth of licenses and revenues from public utilities. Let us note what relation the expense of the Band bears to this source of income.

Four of the public utilities which contribute a considerable revenue to the Municipality are: the Gas Company, the Telephone Company, the Omnibus Company and the Tramway Company. It is interesting to note that more than the entire revenue from all of these public utilities is absorbed by the expense of the Municipal Band.

The *third* method of raising more revenue is the floating of municipal loans by means of debentures. Now let us consider for a moment the significance of the expense of the Band last year in this connection.

The Band cost us last year, in round numbers, one hundred and thirty thousand taels. At six per cent. this would pay the interest and all expense of issuing debentures for a loan of two million taels. We all know that this additional two million taels, if it were available, could be used by the community for much-needed improvements at the present time.

The *fourth* method of enabling our community to better afford the necessary expenses for its proper

growth and development is one that is too often lost sight of, particularly by the Ratepayers of a large community. I refer to the sound and sensible method of Economy.

In closing, after thanking you all for your courteous interest, I wish to urge that you give careful consideration to this old fashioned and not too popular question of Economy. By eliminating this luxury, maintained at extravagant expense for the benefit of a comparatively small number, you have it in your power to reduce the danger of increased rates, and to make possible the necessary financing of present urgent requirements.

From the standpoint of Economy, Mr. Chairman and Fellow Ratepayers, I therefore present to this meeting an amendment to Resolution No. 5, namely, "that the appropriation in respect of the Orchestra and Band be excised."

Mr. G. E. Marden.—Mr. Chairman and fellow ratepayers: In rising to second Mr. Hager's amendment I would first of all wish to make it quite clear that I am as ardent an admirer of Mr. Paci's art and the finished performances of his orchestra as anyone present. I confess to a feeling in fact that we are a community poorly fitted to appreciate his artistry to the full and I wish to adduce two main reasons for the inadvisability of continuing the orchestra. One is on the ground of pure economy and the other on the ground of its limited appeal.

However much we may deplore the fact, it is true that many ratepayers do not desire to attend the performances of the orchestra and whilst it would be untrue to say that its "sweetness is wasted on the desert air," most of its delectable sounds are, in fact, appreciated by ears other than those of ratepayers. It may be answered by the statement that the function of Municipal Bands is to entertain all and sundry, and whilst this is undoubtedly true, the object of many Municipalities, in employing orchestras, is to attract visitors to a town in order that the inhabitants thereof may profit.

I think you will agree with me that it is unlikely that the fame of our orchestra will convert Shanghai into a second Spa, Brighton as a summer resort, or of Interlaken as a venue for winter sports.

Yet it is only where some such tangible quid pro quo is in view that a municipality can justify to its ratepayers any such outlay. I am, of course, willing to be corrected, but I am confident that no other municipality in the world, even with anticipated benefits to its constituents, has suffered a net outlay of over one hundred and seventy-five thousand dollars per annum for the last four years. The London County Council, in fact, probably the wealthiest municipality in the world, recently declined on the score of economy, to resume the support of an orchestra discontinued during the Great War, the cost of which was, at that time, one hundred and twenty-five pounds per week, equivalent say, to forty-seven thousand taels per year, or in other words little more than a third of the cost to us to-day of our orchestra. Even now the probable cost has been estimated to be considerably less than ours.

I would emphasize Mr. Hager's remarks on the crying urgency of economy. Are we justified in retaining a luxury (and no argument can dispute the fact that it is a luxury) which has cost the community for the last four years over seven lakhs of dollars? Do ratepayers realise that no school, no hospital, not even the Parks and Open Spaces is more costly than our orchestra?

Again, Municipal History tells us that the Band was originally organised as part of the Shanghai Volunteer Corps. Since the operation of removal from its first host, it has grown, somewhat in the manner of that rib which we are taught was removed from our first parent, to be the more expensive partner. That is to say, Gentlemen, for the year 1925 and 1926 the orchestra cost you more than the S.V.C.—your music cost you more than your army.

It is no light matter for any of us here to decide to discharge municipal servants who have given us, their employers, every cause to be satisfied with the manner in which they have performed their duties, but I am convinced that no ratepayer need feel that in deciding to support the present amendment he will be causing Mr. Paci and his fellow musicians undue hardship. The terms under which their contracts would be terminated are, to say the least, generous, and afford them ample time in which to offer their services elsewhere. It is, of course, a matter of common knowledge, that, these just and generous terms, the cost for this present year will not be considerably reduced, but, gentlemen, unless this meeting were convinced of the necessity of legislating for the year 1928 it would not have been attended.

I, therefore, Mr. Chairman and fellow ratepayers, formally beg leave to second the amendment.

The Chairman—The amendment has been proposed and seconded. If anyone proposes to address the meeting, either for or against, will he come on the platform for the purpose of doing so.

Mr. O. M. Green—Mr. Chairman, ladies and gentlemen, in rising to oppose this amendment, I should like to begin by congratulating Mr. Hager and Mr. Marden on the dexterity with which they have fought a remarkably bad case and the skill with which they have heaped up dust and thrown it in your eyes. You will have noticed several very ingenious tricks. First of all they rest the case of the band—not the orchestra, I beg your pardon—in dollars, thereby making it seem very much more. Secondly, they lump it all together in four years, making it seem still more. Now, I can play a trick like that, too. If you tell me it has cost $700,000 in four years and $175,000 in one year, I reply to you that it also cost us something less than $70,000 in four years and something under £17,500 in one year. You can play that trick in any way you like, but when you consider figures you must look at it from another point of view and that is the proportion to our income. Another trick was the ingenious one of Mr. Hager in getting us to back up our hands, but he forgot, first of all, that not all the ratepayers are present and, secondly, he overlooked, or did not draw to your attention, the fact that all ratepayers are not all voters and are therefore not entitled to sit within this charmed circle that I now have the honour of addressing. Ladies and gentlemen, when the committee sets out to spend money for the public good, it is not only considering the charmed circle who will drive about in motor cars, and motor lorries, but it is essential to consider the ratepayers who are non-voters—the poorer class of the community who have not so much money available for their entertainment. Just one last point. Mr. Hager drew a picture of large sums of money we could borrow if we took the Tls. 130,000 or Tls. 125,000 which we spend on the orchestra and used that to pay interest on loans by means of which we should have more money to spend on very desirable necessities. I quote with all reverence a well-known old saying, "Man cannot live by bread alone," and there are some necessities we can well do without for the sake of the great pleasure and joy which the orchestra gives us. On the subject of economy, we are not going to save Tls. 125,000. If we threw out the orchestra vote this afternoon, the community would not have to spend something like Tls. 79,000 on unexpired contracts, passages home and so forth, so that the tempting economy which the proposers of the amendment hold out comes down to something about Tls. 45,000. (A Voice:—In one year.) Some people say that in these times of emergency we can throw away the orchestra and pick it up again when times get better. You cannot do that. It sounds easy, but in practice it would be very difficult. The orchestra as we have it now is the result of a continuous policy pursued for 20 years. Here again I must touch on one ingenious trick. Mr. Marden said that history tells us that the orchestra was originally a band for the Volunteers and somehow—he did not explain how, but I will tell you in a minute—it developed until it was the big, expensive and ruinous thing he conceives it to be now. He did not read his history far enough. If he looks back to the reports of the Council meetings and the Ratepayers Meeting of 1906 or 1907, he will find that it was decided we should develop an orchestra in Shanghai in order that we might establish something on the artistic side of life which was in those days, and I am sure is now, considered important even in the midst of business cares. It was felt that Shanghai cannot have picture galleries and museums and the other recreations

of the leisure hour which people in the west enjoy, but music we can have and should have and we have had it and we have it now. Naturally during the great war the orchestra underwent a little eclipse, but I am not wrong in saying that the one we have now is the result of 20 years steadily following the policy of steady development and I know of nothing like it in any Western town outside the great capitals, like London, Paris, Berlin or New York. You cannot get rid of that orchestra in a moment and bring it together again in a moment and I can see no reason in the present or future situation why you should get rid of it. It is a matter of very simple arithmetic, which you all can see at once, to find that the cost of the orchestra to us is a trifle over 1 per cent. of our total income. If the worst comes to the worst and we have to hand over Shanghai to Eugene Chen, Borodin and Company, everything goes with a crash and it will make no difference to us then whether we spend this year this trifle of a little over 1 per cent. on the orchestra or not. But if we pull through—and we shall pull through for Shanghai has gone through terrible crises in the past, worse crises relatively to the ability of Shanghai to resist them than that we are facing to-day, and I venture to express my profound confidence that here we shall remain,—if we do, the cost of the orchestra, now but a fraction over 1 per cent., will make little difference. Shanghai is not going to perish for the sake of a lakh. If you throw out the orchestra this afternoon, the gain is, as I have shown, illusory and the loss irreparable and you stand convicted to the world and yourselves of purely panic legislation undertaken just because the political skies for the moment are dark and because you have not the courage, as your ancestors had, to say, "No. We have a good thing and we have other good things. Times are difficult, but we can face them. They will pass and we shall be our own masters again and we will keep these good things." I appeal to you, partly as a tribute to the splendid work of Maestro Paci and his orchestra, good men all and I know them to be from personal acquaintance and from some small work done with them. It is right to spend a little something on the beautiful things of life and for all this I appeal to you to throw out the amendment with the overwhelming majority I am quite confident you will.

The CHAIRMAN—Does any other ratepayer desire to address the meeting on the amendment? If so, please come forward. Do the Council wish to make any reply?

Mr. FESSENDEN—I have no prepared speech in reply to this amendment. For many years the policy of the Council has been to leave the question of the orchestra entirely to the ratepayers. I think some of the Council feel that, judged by the strict rules of Municipal finance, such expenditure is not, under ordinary conditions, entirely justifiable. I think some of us also feel that, judged by the methods adopted in some of the great capitals of the world, the orchestra might be put on a better basis if music-lovers made a subscription and called on the Council to equal or double it, as the case might be. I am not sure that there is entire unanimity of opinion amongst the members of the Council and in the last five or six years it has been their policy to leave the question to the ratepayers. Therefore, as Chairman, I prefer not to say more than I have said.

The CHAIRMAN—The amendment has been proposed and seconded and is now before the meeting. Those in favour of the amendment please hold up their hands.—There are 75 in favour. Those against?—I have already got more than 75 on one side of the hall so that the amendment is lost. I will now put the original resolution, as amended. Those in favour? — Against? — Carried with ten dissentients.

The CHAIRMAN—I will now call upon Mr. Fessenden to move Resolution VI.

RE-ASSESSMENT OF LAND.

Mr. FESSENDEN.—Mr. Chairman, ladies and gentlemen, you will have observed from the Council's budget of expenditure for the current year that the cost of the administration of this Settlement, in common with most other things, continues to increase. Careful examination of the estimates, however, will show that the programme of Municipal activities is sub-normal, and barely in keeping with the development of this great industrial city. In view of the additional heavy expenditure which must be incurred in the defence of the Settlement, I think you will agree with me that the Council, in view of the limited sources of revenue at its disposal, is justified in seeking your authority to arrange for an increase in the taxable value of land within the limits of the Settlement from July 1, next.

Apart from this aspect of the matter, the value of land in all districts of the Settlement has appreciated considerably in value since the last re-assessment took effect on January 1, 1925; a fact which could be evidenced by innumerable instances if time permitted of their elaboration: to touch, however, upon one or two cases in support of the Council's request for a higher taxable basis so far as land is concerned, two examples may be quoted of land, which is now assessed for taxation purposes at Tls. 7,500 and Tls. 9,500 per mow, having been sold at an average price of Tls. 21,000 per mow. Similarly, another Lot, assessed at Tls. 17,000 per mow, sold at a figure which, after allowing for existing buildings, indicates that the price paid for the land was approximately Tls. 50,000 per mow. If, therefore, land can be sold in the open market at Tls. 50,000 per mow, what reason can there be for assuming its "gross value" for taxation purposes to be only Tls. 17,000 per mow?

Land Tax is a charge on the ownership of land, and, in the Council's opinion, should properly be borne by the landowners. In view of the foregoing, it is a fallacy to contend that the proposed reassessment will materially increase the burden of the owners or occupiers of property. It is merely a means of revising the "gross value," with a view to bringing it more in accord with the price which land is now able to command in the open market, and in order to ensure that landowners do in future pay those taxes which, at present, they are able to evade, thereby making a return to the public purse more commensurate with the increase which the community in general has conferred on land values.

Land, therefore, does not, at present, appear to be bearing its fair share of taxation vis-a-vis the General Municipal Rate, and, as the Council desires that its taxation should be equitable, I have no hesitation in asking your support of Resolution VI which reads:—

Resolution VI. — That the Council be and it is hereby authorised and directed to arrange for the reassessment of the land comprised within the limits of the Settlement, during the current year, such reassessment to come into force as from the first day of July, 1927, and to engage such professional assistance for the performance of the work as may be found expedient.

Mr. P. W. MASSEY—Mr. Chairman, ladies and gentlemen, I beg to second the resolution.

The CHAIRMAN—I now put the resolution to the meeting. All those in favour kindly signify.

The resolution was carried unanimously.

The CHAIRMAN—I will now call upon Mr. Fessenden.

Mr. S. FESSENDEN.—Mr. Chairman, ladies and gentlemen: The question of admitting Chinese to the Public Parks, to which I alluded in my speech at the Ratepayers' Meeting last year, has now crystallized in a form in which it can be presented to you for decision.

The Council is fully aware that the present time is not the most auspicious for the impartial and unprejudiced discussion of this vexed question.

Nevertheless the Council is in honour bound to the Chinese to bring forward this question in the form of a resolution at this Meeting. I beg to propose

Resolution VII. — That Jessfield and Hongkew Parks, the Public Gardens, the Bund Lawns and Foreshore, Quinsan Square and Brenan Piece be opened to Chinese on the same terms as to foreigners.

This resolution is the outcome of deliberations between the Parks Committee and representatives of

the Chinese community, whose recommendation, as finally submitted to the Council, was unanimous. The Chinese representatives have stated that the Chinese community is prepared to conform to any regulations provided they are made applicable to foreigners and Chinese alike, and the Council therefore can, at its discretion, and will impose such regulations as will insure that no undesirables of any nationality are admitted.

I have little doubt that there is probably a very considerable number of ratepayers present to-day who feel that any concessions at this time in respect to admission to the parks will be construed by the Chinese as weakness. (Hear, hear and applause). It is possible that some of the lower classes might so regard it but I am confident that the intelligent and respectable classes of Chinese will only look upon the admission of Chinese to the Parks, under proper regulations, as a fair-minded effort by the Council to ensure to the Chinese participation in the amenities enjoyed by residents of the Settlement which will remove a long standing grievance.

Owing however to the fact that Jessfield Park is now occupied by military forces and Shanghai is more or less in a state of siege I feel that it is neither wise nor practical to put into immediate operation the resolution I have proposed but if the resolution is adopted it should be left to the Council's discretion to give effect to it when normal conditions are restored.

The foreign community of Shanghai must, I think, realise fully that this question of admission of Chinese to the public parks cannot be permanently evaded or buried and I move the resolution in the hope that it will be accepted as a satisfactory solution of a question of long standing and as a measure in harmony with the changing spirit of the times.

Mr. P. W. MASSEY — Mr. Chairman, ladies and gentleman, I beg to second the resolution.

Mr. W. H. TRENCHARD DAVIS—Mr. Chairman, ladies and gentlemen, in placing this amendment before you, I feel that it would be most inopportune to pass any legislation which would change the status of our Parks and Open Spaces at the present time. (Applause).

If the original resolution were passed as it stands what would we see to-morrow?

All these spaces purposely and deliberately crowded with the scum of this City and there would be no room for us or for our real Chinese friends.

Such an invasion by the scum would materially affect the safeguards being taken at this time to protect the lives not only of Foreigners in these Settlements but also the lives and property of the respectable Chinese members of our Community.

It was my first intention to word this amendment to read:—

That consideration of Resolution No. VII be postponed until such time as the present unrest and Anti-Foreign outbreak in China has ceased and local conditions have returned to normal.

But as I understand many Ratepayers are in favour of agreeing to the principle of permitting Chinese into the Parks and Open Spaces when China is pacified and peaceful I am submitting the amendment in the form I have just read to you.

Dr. FINDLEY—I beg to second the amendment.

Mr. SIOW CHOON-LENG—Mr. Chairman, ladies and gentlemen, we have all read the Resolution No. 7 which is brought at this meeting by the Council.

It would not be wise to vote in favour of either withdrawal of the Resolution or its amendment, as it is not a good time to do so. How unhappy we commercial citizens of this City shall be after the Resolution has been withdrawn or amended, when we face the coming storm—if the storm arises—and it is of the possible misunderstanding that I venture to address you.

I take it that all people in Shanghai are Citizens. A Citizen really means a man who lives in a town or city. We get the word from the Latin word "Civis," which meant a fully fledged member of any town or city in the Roman Empire. The chief point to notice about it is, that it takes for granted that a man is living in close social contact with other men—that he is, indeed, a member of a human settlement or association.

The simple truth is that men have need of one another in a hundred or thousand ways—as you can easily see if you think it over. Thus it happened that from the earliest times men have associated together —lived in settlements either of large family or of the tribe.

Realizing that Shanghai is a vast association of men and women of all races, and that within the borders of their /International .Settlement and under its governed protection all its members live in social intercourse with one another, it is easy to see that a host of relationships must exist between its members.

Now, these relationships are very important. They certainly do exist, whether we know it or not, *e.g.* my milkman or grocer has relationship with me—commercial relationships. The rickshamen and the coolies are related in some way to me—if I care to find out what. That the farmer who grows the rice, and the dealer who sells it, and the boy who brings it to my door are all connected with my life, and its needs are also pretty clear. And also I might go on giving you a fairly long list of the many vital relationships I have necessarily with my fellow-citizens, just because I live with them within the Settlement. But if you consider the matter you can make your own list. It will be instructive on this point—even if you do get tired of it before it is finished. It will at least prove to you that you cannot live alone, and that social intercourse is a necessity. Perhaps you will notice, too, that these relationships are of various kinds. They are social, political, economic, legal, religious, and so on. Domestic and family relationships are, of course, of another class.

Although men's need of one another is proved by the existence of these relationships, yet it is easy to understand that their association in the Settlement must be regulated on certain agreed lines of conduct. That their actual membership of the Settlement imposes upon them certain duties both towards the Settlement and towards one another goes without saying. That they all enjoy certain Rights or privileges for the same reason is as important a truth. Citizenship is indeed a two-sided bargain. Certain rights are enjoyed; but certain duties have to be performed.

It is, therefore, in the interests of citizenship, that I come here to ask you to vote in favour of the Resolution No. 7. I thank you.

Mr. P. H. NYE then rose in the body of the hall and made a statement which was not heard at the press table. He then came to the front of the hall and conferred with Mr. Trenchard Davis and Mr. Green.

Mr. O. M. GREEN—Mr. Chairman, ladies and gentlemen, I am not going to detain you long, but I have prepared a rider to Mr. Trenchard Davis's amendment, and in moving it, I may seem to take it out of the mouth of Mr. Nye, but I propose to.....

The CHAIRMAN.—I am afraid that you are not in order in proposing another amendment yet, Mr. Green, the amendment must first be voted upon unless the proposer likes to accept your rider (this was done).

After the amendment (with Mr. Green's rider) had been put to the meeting, and passed by a large majority, Dr. H. Couper Patrick proceeded to the platform and requested permission to address the meeting.

He said: I look upon this amendment as a resolution of surrender.....

The CHAIRMAN.—I would call to the attention of those who are now leaving the meeting that the expression of appreciation to the Council and to the Powers contained in Resolution X is a very important one and should be voted upon by as many people as possible (applause).

Dr. Patrick then continued: I look upon this amendment as a resolution of surrender and fear. At the present time we should face the Chinese with no compromise. No doubt all of you are aware of the attitude adopted today by the Chinese. My view is that we should concede nothing in the way of concessions of any nature. We must stand firm and there must be no surrender. This does not mean that I have any enmity towards the Chinese as a

nation but their recent actions have made them despised by all the nations of the world and at the present time I do not think they are entitled to any consideration. They talk of self—government but government by whom? There is no government.

Perhaps some of you have seen in this morning's "Shanghai Times" a copy of a memorandum presented to the Parks Committee. In this they state that they do not recognise any right of the Recreation Ground Trust to regard the Recreation Ground as a private place. Two years ago after the May 30th incident, I read an editorial in the "National Medical Journal of China," a purely Chinese Journal. The article was on "Constructive Patriotism," and I would like to read some part of it to you.

"Shanghai is engaging the attention of the whole world. Ever since the incident of May 30, so much controversy has gone on and up to the present moment, China has gained nothing but shame and contempt. To the mind of the true patriot, this is a blessing in disguise. So we must not lose hope but should rejoice in the fact that the outcome of the present controversy will prove a failure because if we were to succeed as we would expect, we would become more lazy than ever and that means ten or more years of somnolence for China. Our hope is in the spirit of union, a spirit of union for the common cause, as manifested by the general uprising throughout the country. This spirit would save China if properly and wisely directed. What is needed is constructive patriotism, not strikes.

"For the time being, it would be wise to be silent and to act as if nothing had happened on May 30, but at the same time pay due attention to work and development and things that will give Chinese real strength. For over three generations the powers have been playing a game of jealousy and intrigue, each seeking to profit more than the rest by the weakness of China. We are too weak to defend ourselves, we are too weak to fight out our cause by mere force of arms, and certainly we are too weak to make any claim for demands without a backing. The element of the weakness of China was the spectre constantly in the background of the discussion at the Washington Conference. So let us have patience and imitate the Japanese in their method of development from a small once-despised nation to a mighty great power to-day.

"Let us first of all respect law and order in Shanghai. Let us develop and maintain an effective and stable government. Let us complete our railway projects so as to keep our nerve system going and make our selves better united. Let us develop our industries and furnish ourselves with our own finished products. Let us build a merchant fleet, that will carry our goods to all parts of the world. Let us begin all that with the smelting of iron and steel for all we know what made the so-called powers strong is their machinery.

"We are just as industrious and intelligent as any foreigner or even better. Our natural and intellectual resources are inexhaustible. Likewise, let us have better roads and sanitation in all parts of the country. Above all, let us have unselfish leaders and true patriots to hold the reins of the Government, a Government that can protect the interests of the people and command the respect of the world. And when we are well fortified, morally, intellectually, and materially, we will not even need to hand a gentle note to our invaders before they return our Concessions and withdraw from our land."

Well, gentlemen, that article contains constructive criticism by the Chinese. It seems to me that it is a spirit of antagonism animating the Chinese at the present time, which we must resist.

One other thing, I recollect attending a football match some time ago between the foreign Boys Scouts and the Chinese Boy Scouts. The referee made a decision, concerning a goal that had been scored by the Chinese boys. The Chinese players accepted the decision, but the Chinese spectators broke up the game—of course, I am aware, that there have been football games broken up in other countries (laughter).

But it disgusted me to a very great extent to see the British Consul-General being attacked by the mob with small stones. The officials of the Chinese Boy Scouts were able to persuade the crowd to go back to the stands and recommence the game and it was played to a finish. Despite the fact that the crowd had got into a state of hysteria they recovered and the game was resumed.

This instance may be taken as suggestive of the hope that China, now nationally in a state of hysteria, will eventually recover her balance and settle down to a constructive patriotic work. The spirit of the Shanghai Defence Forces may be expressed in the terms of the prayer which is read in the ships of H. M. Navy daily,—"A security for such as pass on the Seas upon their lawful occasions—that we may return in safety to enjoy the blessings of the land with the fruits of our labours."

We are here in that spirit and wishing it for ourselves we wish it for the Chinese (loud applause).

CHAIRMAN.—The amendment now comes before the meeting to vote upon (voices) "We have already voted on it."

CHAIRMAN.—No, you have voted on the original resolution with the amendment, it now becomes necessary for you to vote on the amended amendment.

The rider was carried unanimously.

Resolution VIII.—That Mr. G. L. Wilson be elected Land Commissioner for the ensuing year.

Mr. B. D. F. BEITH—I have much pleasure in proposing Resolution VIII, that Mr. G. L. Wilson be elected a Land Commissioner for the ensuing year.

Mr. W. R. B. MCBAIN—I second that.

The CHAIRMAN—Those in favour? —against?—Carried unanimously.

Resolution IX.—That Dr. T. B. Dunn, Dr. F. M. Neild, Mr. W. R. B. McBain and Brigadier-General E. B. Macnaghten be elected Governors of the General Hospital.

Mr. FESSENDEN—I have pleasure in moving that Dr. T. B. Dunn, Dr. F. M. Neild, Mr. W. R. B. McBain and Brigadier-General E. B. Macnaghten be elected to serve on the Board of Governors of the Shanghai General Hospital.

Mr. P. W. MASSEY—I beg to second that.

The CHAIRMAN—Those in favour? ——Those against?——Carried unanimously.

Resolution X.—That this Meeting of Ratepayers of the International Settlement of Shanghai hereby places on record their heartfelt gratitude for the measures taken by the Municipal Council in the first instance and afterwards by the Foreign Powers for the protection of all residents of this Settlement.

There is abundant evidence from what has happened elsewhere and what has been attempted here, that if it had not been for the prompt action of the Powers, especially Great Britain, this Settlement would have run the greatest risk of being dominated by the forces of disorder.

It is further resolved that the Shanghai Municipal Council be requested to forward a copy of this resolution to the representatives of each of the Powers that have contributed to the protection of the International Settlement of Shanghai for transmission to their respective Governments.

Mr. O. G. STEEN—Mr. Chairman, ladies and gentlemen, in proposing this resolution it is felt this is an appropriate time for the ratepayers to give an expression of their gratitude and appreciation for what has been and is being done for their interests. The resolution, I feel, speaks for itself and I trust will receive the full support of this meeting.

Mr. K. FUKUSHIMA—As a ratepayer and a Japanese, I am very pleased to second this motion. I do not think it is necessary for

me to make a speech in support of the resolution, but will you allow me to say a word. I want to ask how are we going to defend ourselves if we are assailed. We cannot do it and we must not give others the opportunity of saying we are an ungrateful lot of people. We can only do right by passing this resolution and expressing our heartfelt appreciation of the part done by Great Britain and other Powers in sending those fine and splendid soldiers and marines for our protection.

The CHAIRMAN—Those in favour of the resolution.

The resolution was carried with acclamation.

MR. FESSENDEN—Before this meeting breaks up, I take great pleasure in proposing a vote of thanks to our esteemed Chairman, Judge Pope Grain, for his services to-day.

This also was carried with acclamation.

A Voice at the back of the hall—Three cheers for Mr. Fessenden.

Cheers were given with enthusiasm and the meeting terminated at 4 p.m.

Manifesto by the Council for the International Settlement of Shanghai.

The following Manifesto, issued by the Council, has been forwarded to the Members of the Consular Body, to the local Press (Foreign and Chinese), and to the Press of Europe, America and Japan:—

Manifesto by the Council for the International Settlement of Shanghai.

The Council for the International Settlement of Shanghai, recognizing its grave responsibility for the safety of the lives and property of the Chinese and Foreign residents within the area of its administration, considers that the time has arrived for a public announcement of its considered views as regards the local situation.

(1) The International Settlement of Shanghai is an area set aside under agreement between the Chinese Government and the Foreign Powers, within which the Municipal Council is vested with full authority as regards all matters necessary for the maintenance of order and good government. Up to the present the Settlement has been administered by a Municipal Council composed of nine Foreigners. Under this wholly Foreign administration Shanghai has developed until it has become the principal port in China. The vast international trade that has been built up and the enormous capital that has been invested in industrial enterprises have benefitted both Chinese and Foreigners, and are finding employment for hundreds of thousands of Chinese.

(2) It is within the Council's knowledge that agents in the service of revolutionary interests are actively engaged in spreading subversive doctrines among the less responsible elements of the Chinese Community of Shanghai with the object of fomenting class hatred and general disaffection. If these nefarious schemes are successful they will inevitably lead to civil commotion and mob violence, and result in crippling all forms of industrial enterprise and destroying the trade of the Port. The Council realizes the gravity of this aspect of the local situation and its possible repercussion throughout the civilized world, and will use all the resources at its disposal to retain control of the situation. Concurrently with these sinister activities, a national spirit is gradually taking form throughout China, with many aspects of which the Council finds itself in sympathy. Unfortunately an influential section of this movement is at present dominated by persons holding extreme and revolutionary views who are seeking to cloud and distort the legitimate aims of the Chinese in order to serve an evil purpose of their own.

(3) The Council is fully alive to the fact that the rapid growth of the Chinese population of Shanghai has rendered an alteration in its constitution desirable, so as to allow for the inclusion of Chinese Councillors having the same duties and responsibilities as Foreign Councillors. At the Ratepayers Meeting of April 1926 a Resolution was proposed by the Council and duly approved by the Ratepayers to the effect that the participation of Chinese residents in the government of the Settlement was desirable, and that the approval of the Powers concerned should be obtained so as to allow for the addition of three Chinese members on the Council. This proposal has duly received the approval of the Powers concerned, the Central Government at Peking, and the Provincial Government of Kiangsu and the Council is only awaiting the appointment by the Chinese Community of three Chinese members in order to proceed with the consideration of certain outstanding problems, the solution of which requires the advice and opinion of representative Chinese. Assuming the three Chinese Councillors take their seats this year, the Council will comprise the following: — Five British, three Chinese, two Americans, and two Japanese.

(4) The Council for the International Settlement of Shanghai will be guided by the results achieved by the alteration in its constitution referred to in the preceding clause and by political developments, when considering how far a policy of devolution can be applied to a city of the size and importance of Shanghai where vast international interests are involved. It is the Council's considered opinion that the present is not a suitable time for the Powers concerned to consider any drastic change in the Shanghai administration. Influences have been released in China with the express and avowed purpose of stirring up discontent, class hatred and racial prejudice, and until these influences have been eliminated it would be a fruitless task to attempt to reconcile Sino-Foreign viewpoints. In making this statement the Council does not wish it to be inferred that it is in any sense opposed to increasing Chinese representation in the affairs of the Municipality but rather that any further changes in its constitution that further experience may suggest shall be effected by evolutionary as opposed to revolutionary methods, and that they shall be considered in an atmosphere created by mutual good-will, respect, and conciliation.

(5) Pending the outcome of the struggle that is now being waged throughout China between the forces of temperance and intemperance, of evolution and revolution, the Council appeals to moderate minded Chinese and Foreigners alike to support the measures that are being taken to protect the International Settlement from acts of aggression either from within or without its borders. The Council also urges the Powers concerned to insist upon due respect being accorded to treaty obligations entered into between one self-respecting Nation and other self-respecting Nations until the time arrives when these obligations can be reviewed in a proper perspective.

S. FESSENDEN,
Chairman.

arrested in connexion with armed robberies which occurred in the French Concession. They were handed over to the French Police.

Three reports of highway robbery, in which no arms were used, were received. In connexion with one of these cases eleven persons were arrested and are under remand.

Eight of nine men on remand at the end of February charged with unarmed robbery were dealt with. Seven were sentenced to imprisonment and one was acquitted.

Four men arrested for robbery from a boat at Pootung were handed over to the Chinese authorities concerned.

Armed Abduction.—On the morning of March 26 an accountant employed by a Chinese merchant was forcibly abducted in the Wayside District by a gang of armed men who took him away in his master's motor car. The car was found abandoned on Thibet Road three days later, but no news has been received of the missing man.

Trafficking in Firearms, etc.—One foreigner and one Chinese were arrested during the month for trafficking in firearms when ten pistols and thirteen hundred rounds of ammunition were seized. Both accused were sentenced to terms of imprisonment while in addition the foreigner was ordered to be deported. Three Chinese were arrested for being in possession of firearms for an unlawful purpose. Two were sentenced to imprisonment and one died from wounds received at the time of his arrest.

Property Stolen.—549 reports made under this heading during the month represent an estimated loss of $248,602 and include 42 cases of burglary, 11 of house-breaking, 17 of godown-breaking and 27 of shop and office-breaking. Successful investigation was made in 125 cases, resulting in the recovery of property valued at $40,727, in addition to which recoveries to the extent of $10,274 were made in connexion with reports received prior to March 1. In addition successful results were obtained in eight cases reported as having occurred out of Settlement limits.

Crime beyond Settlement limits.—Eight armed robberies were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In addition, numerous cases of looting by ex-soldiers or loafers who secured arms took place during the disorderly conditions prevailing in Chinese territory.

Executions.—Two Chinese were executed at Lunghua on March 8 in connexion with armed robberies committed beyond Settlement limits. Several other executions were carried out by labour agitators or unauthorised persons during the latter part of the month.

Military Affairs.—Following successful operations against the left wing of the Chihli-Shantung Army on March 19, the Nationalist troops advanced on March 20 to Minghong and on the following day reached Lunghua Junction which they captured after a short engagement. The victorious troops then divided into two parties, one to Lunghua and Kao Chong Miao and the other to Chapei by way of the railway line. The latter detachment encountered fresh resistance at Shanghai North Station which was held by an armoured train, manned by Russians, and remnants of the retreating Chihli-Shantung troops. The Southern troops in a short engagement made the position of these forces untenable, and they as well as other Chihli-Shantung troops in other parts of Chapei retreated towards the Settlement. At some places they approached the line of the Shanghai Defence Force in an orderly manner and were allowed to climb over the barriers after they had surrendered their arms. At other points however they stampeded and fired upon the sentries holding the defence lines. Several of their number were killed and wounded by machine gun and rifle fire, by which the foreign soldiers repelled these attacks. The Defence Force suffered one casualty before they replied to the fire of the Chinese troops who in some instances outnumbered them by a hundred to one. Finally over 3,000 Chihli-Shantung troops surrendered to the Shanghai Defence Force or to the Municipal Police and were interned in the Settlement. About 1,000 of the Chihli-Shantung troops who surrendered have since been sent to their homes in North China, and arrangements were being made at the end of the month for the repatriation of the others.

The advance in the direction of Shanghai by the Southern troops was reflected locally in an uprising of Communist guerillas and workers who succeeded in capturing almost all police stations and several public institutions in Chinese territory adjoining the Settlement and French Concession. This irregular warfare caused widespread terror in the districts affected and resulted in many casualties among the civilian population. In a number of instances the guerillas also opened fire on the Shanghai Defence Force. At 2 p.m. on March 21 a lorry filled with Punjabi troops was attacked on North Szechuen Road and one of the soldiers was killed. Another member of the same regiment was shot and wounded while patrolling the same road a short time later. About 8.40 p.m. on March 21 one British Officer and three British members of other ranks belonging to the crew of an armoured car were wounded while endeavouring to save foreign houses in Darroch Road from looters. Civilian casualties during the day included a Japanese who was severely wounded while walking along North Szechuen Road at 2.30 p.m. As a result of these incidents it was found necessary to remove 930 foreign residents from the North Szechuen Road area to districts south of Range Road.

Simultaneously with attacks by guerillas on police stations in Chinese territory, members of irregular forces engaged in an orgy of shooting, killing, looting, incendiarism and other mob fury. For several days during the transition period the only organized forces to be seen outside places of military importance were armed agitators and labourers who were not responsible to any properly constituted authority. Clashes, which occurred between rival parties of these gangs and between combinations of them and the regular military forces, resulted in shooting incidents almost daily up to the end of the month. In many cases these occurrences took place on the borders of the Settlement where stray shells and bullets caused casualties and damage to property. In the Settlement two Chinese were killed, nine Chinese and two foreigners were wounded and sixteen buildings were reported damaged. On the other hand the losses outside the Settlement were very heavy, the dead and wounded there amounting to some 2,000, while two fires in Chapei destroyed more than 350 houses. The International Settlement was not at any time seriously affected by the reign of lawlessness prevailing beyond its borders. That this tranquillity was appreciated by the Chinese populace was manifested by the considerable influx of Chinese to the Settlement, Chinese hotels, shipping hongs and lodging houses showing an approximate increase of 25 per cent. in the number of guests registered at the end of the month as compared with the number on March 1, and an increase of 100 per cent. as compared with the number on February 1. Public confidence in the security of the Settlement is primarily due to the presence here of the Shanghai Defence Force and to measures adopted by both that body and the Municipal Council in preserving order. The precautions of the Municipal Council included publication of a proclamation explaining its neutral attitude, declaration of a State of Emergency, mobilization of the Police and Volunteers and the enforcement of curfew between 10 p.m. and 4 a.m. The loss to trade resulting from the military operations in the vicinity of Shanghai during the month of March was incalculable. Factors contributing to this loss comprised disruption of communications, a feeling of unrest and the general strike.

Naval Affairs.—The Chinese naval squadron in Shanghai under Admiral Yang Shu-chong declared independence on March 12 and subsequently announced its allegiance to the South. On March 27 it assisted in repelling an attack upon the Woosung forts by the "Hai Chi," a cruiser belonging to the Northern Fleet.

General Strike.—In order to facilitate the capture of Shanghai by the Southern troops, the Shanghai General Labour Union, following the first reverses inflicted upon the Chihli-Shantung forces, appealed to the workers to go on strike at noon on March 21. The strike came into effect as arranged, and by the afternoon of March 22, 161,000 employes had suspended work. These included the operatives of 43 cotton mills, 54 silk filatures, 6 tobacco factories, 6 flour mills, 4 printing and publish-

ing establishments, several shipping companies and almost all public utility concerns. As a token of their welcome to the Southern Army, the shopkeepers in the Settlement and other parts of Shanghai suspended business for one day on March 22. The general strike came to an end on March 24. The bulk of the strikers then returned to work, but 25,500 were still out at the end of the month. It is estimated that the general strike resulted in the loss of about 860,800 working days to employes in public utility and industrial establishments. Eighteen strikes not connected with the general stoppage affected 31,180 employes and resulted in a loss of 443,000 days.

Anti-Foreign Agitation.—Events during the month proved how untrustworthy were the numerous assurances given by the Nationalist officials that the lives and property of foreigners would be safeguarded and that no anti-foreign agitation would be permitted. From the arrival of the Southern Army in Shanghai to the end of the month anti-foreign demonstrations and parades were held daily in Chinese territory. These gatherings were marked by denunciations of "Imperialism" and the "Unequal Treaties," and demands for the immediate restoration to China of the Foreign Concessions. The people who took part in them carried anti-foreign banners and distributed handbills and posters advocating their various demands. The local agitators engaged in this propaganda were assisted by members of the Political Department of the Southern Army. Evidence of the efficacy of their efforts is now manifest in a widespread feeling of insecurity among foreigners residing in Chinese territory, of whom large numbers have removed to the Settlement. On March 23 a group of armed civilians attacked a foreign owned mill in Chapei and stole cash to the amount of $3,000. The buildings of the Holy Family Roman Catholic Convent, the Russian Orthodox Church and other mission property in Chapei are now occupied by Southern soldiers, and cases are on record of Christian churches being used as Communist meeting places.

Communism.—Members of the Communist Party were very active during the month. They played a leading part in the guerilla activities including attacks upon railways which preceded the arrival of the Southern troops. They are also represented in force on a body calling itself the Shanghai Provisional Government which was installed in Chinese territory following a mass meeting on March 23. This government, which is modelled on the Soviet committee system, is now functioning. It owes its power mainly to the support of labour organizations and the organized gangs of armed labourers in Chinese territory who are maintained by the Shanghai General Labour Union independent of proper authority. The labour unions and labour army are in turn increasing their strength by forming new unions and increasing the membership of those already in existence. It is estimated that about 300 of these unions with an active membership of 50,000 were in existence at the end of the month. The growth in membership was phenomenal subsequent to the arrival of the Southern forces and was accelerated by the usual terrorist methods. Acting on the pretext of authority conferred by labour unions, agitators imprisoned, fined and in some cases inflicted the death penalty upon workers. A bid was also made for support of persons outside the ranks of labour by the organization of a "No Rent Campaign" under the "Association of Shanghai and Woosung Tenants for Reduction of Rents by Half." One demand put forward by the Communists during the month was that the property of "corrupt" members of the ruling classes be confiscated and the proceeds handed over to a branch of the Communist organization known as the Chinese Relief Society. It is definitely known that two workers were publicly put to death in accordance with sentences imposed by workers' tribunals by shooting and other unverified cases of a similar nature were reported. Prior to the arrival of the Southern forces, assassins in the pay of Communist labour unions continued their relentless campaign against local workers. No less than eleven armed attacks on employes of industrial concerns took place. The victims were shot dead in eight cases and wounded in three others. One of the hired assassins arrested by the Municipal Police was sentenced to life imprisonment by the Provisional Court, after having confessed to committing the murder at the instigation of the General Labour Union by whom he was paid the sum of $10.00.

Traffic.—Court proceedings were instituted in 212 (15 Foreigners and 197 Chinese) of 692 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

Public Works Report for March.

The strike of labour that occurred towards the end of the month did not affect the Department to any material extent, so far as labour employed direct was concerned. The reduction in available labour was first apparent on Wednesday, March 23, and on the day following the number was only about one-quarter of the requirements. On the following day, however, the number was very much increased, and on the 26th the situation returned to normal.

The most serious inconvenience was that caused by the strike of the ordure Contractor's coolies who went out on March 24.

Landing Stages.—The new Examination Shed and Harbour Offices on the Bund have been finished and were handed over to the Customs Authorities at the end of the month.

Municipal Properties.—At the Polytechnic Public School for Chinese, the scaffolds have been removed and the exterior elevations dressed down and pointed.

The floors are being laid and internal plastering is in hand.

Sewers and surface water drains are being laid, and the boundary wall is now in course of erection.

At the Eastern Treatment Works, the floors of the laboratory have now been laid and the general contract has been completed.

At the Western Works, the structural work is completed, and the installation of fittings and completion of the heating installation is proceeding.

Parks Report for March.

Jessfield Park.—The allocation of a considerable area of this park to the Shanghai Defence Force has materially reduced the area available to the public. A well-raised portion of a recently acquired area on the east side has been planted with trees and shrubs, and two borders planted with Sweet Peas, Stocks, and other May flowering plants. When completed, this section and the Alpine Garden will constitute the most decorative sections. Practically all of the trees and shrubs planted here were those removed from Nanyang Road Children's Playground.

It may be noted that the huts and camps erected have been so located that no permanent features, such as trees and shrubs, have been damaged, and that, therefore, the only reinstatement necessary will consist, for the most part, of retturfing, which is a simple matter, that can be accomplished in a short time.

Nanyang Road Children's Playground.—This entire area has been taken over is a camping ground. Space was found in a section of Jessfield Park for all the trees and shrubs removed.

Conservatories, Reserve Garden.—These have been frequented by a considerable number of visitors. Hippeastrums (amaryllis), of which there were 400 in flower, were specially showy.

Hongkew Park.—During the struggle for possession of Shanghai North Railway Station, a number of shells landed in this park. The park keeper's house was damaged and rendered untenable.

Bedding out of Spring flowering plants in the parks and gardens attached to Municipal buildings has been practically completed.

Nurseries.—2,384 trees were issued and planted on highways; the transplanting of young stock of ligneous plants is well advanced. Beds cleared of Spring flowering plants were prepared for accommodating seedling Summer flowering plants.

Manifesto by the Council for the International Settlement of Shanghai.

The following Manifesto, issued by the Council, has been forwarded to the Members of the Consular Body, to the local Press (Foreign and Chinese), and to the Press of Europe, America and Japan:—

Manifesto by the Council for the International Settlement of Shanghai.

The Council for the International Settlement of Shanghai, recognising its grave responsibility for the safety of the lives and property of the Chinese and Foreign residents within the area of its administration, considers that the time has arrived for a public announcement of its considered views as regards the local situation.

(1) The International Settlement of Shanghai is an area set aside under agreement between the Chinese Government and the Foreign Powers, within which the Municipal Council is vested with full authority as regards all matters necessary for the maintenance of order and good government. Up to the present the Settlement has been administered by a Municipal Council composed of nine Foreigners. Under this wholly Foreign administration Shanghai has developed until it has become the principal port in China. The vast international trade that has been built up and the enormous capital that has been invested in industrial enterprises have benefitted both Chinese and Foreigners, and are finding employment for hundreds of thousands of Chinese.

(2) It is within the Council's knowledge that agents in the service

of revolutionary interests are actively engaged in spreading subversive doctrines among the less responsible elements of the Chinese Community of Shanghai with the object of fomenting class hatred and general disaffection. If these nefarious schemes are successful they will inevitably lead to civil commotion and mob violence, and result in crippling all forms of industrial enterprise and destroying the trade of the Port. The Council realizes the gravity of this aspect of the local situation and its possible repercussion throughout the civilized world, and will use all the resources at its disposal to retain control of the situation. Concurrently with these sinister activities, a national spirit is gradually taking form throughout China, with many aspects of which the Council finds itself in sympathy. Unfortunately an influential section of this movement is at present dominated by persons holding extreme and revolutionary views who are seeking to cloud and distort the legitimate aims of the Chinese in order to serve an evil purpose of their own.

(3) The Council is fully alive to the fact that the rapid growth of the Chinese population of Shanghai has rendered an alteration in its constitution desirable, so as to allow for the inclusion of Chinese Councillors having the same duties and responsibilities as Foreign Councillors. At the Ratepayers Meeting of April 1926 a Resolution was proposed by the Council and duly approved by the Ratepayers to the effect that the participation of Chinese residents in the government of the Settlement was desirable, and that the approval of the Powers concerned should be obtained so as to allow for the addition of three Chinese members on the Council. This proposal has duly received the approval of the Powers concerned, the Central Government at Peking, and the Provincial Government of Kiangsu and the Council is only awaiting the appointment by the Chinese Community of three Chinese members in order to proceed with the consideration of certain outstanding problems, the solution of which requires the advice and opinion of representative Chinese. Assuming the three Chinese Councillors take their seats this year, the Council will comprise the following: — Five British, three Chinese, two Americans, and two Japanese.

(4) The Council for the International Settlement of Shanghai will be guided by the results achieved by the alteration in its constitution referred to in the preceding clause and by political developments, when considering how far a policy of devolution can be applied to a city of the size and importance of Shanghai where vast international interests are involved. It is the Council's considered opinion that the present is not a suitable time for the Powers concerned to consider any drastic change in the Shanghai administration. Influences have been released in China with the express and avowed purpose of stirring up discontent, class hatred and racial prejudice, and until these influences have been eliminated it would be a fruitless task to attempt to reconcile Sino-Foreign viewpoints. In making this statement the Council does not wish it to be inferred that it is in any sense opposed to increasing Chinese representation in the affairs of the Municipality but rather that any further changes in its constitution that further experience may suggest shall be effected by evolutionary as opposed to revolutionary methods, and that they shall be considered in an atmosphere created by mutual good-will, respect, and conciliation.

(5) Pending the outcome of the struggle that is now being waged throughout China between the forces of temperance and intemperance, of evolution and revolution, the Council appeals to moderate minded Chinese and Foreigners alike to support the measures that are being taken to protect the International Settlement from acts of aggression either from within or without its borders. The Council also urges the Powers concerned to insist upon due respect being accorded to treaty obligations entered into between one self-respecting Nation and other self-respecting Nations until the time arrives when these obligations can be reviewed in a proper perspective.

S. FESSENDEN,
Chairman.

Mosquito Extermination.

NO STAGNANT WATER—NO MOSQUITOES.

The following notice is issued by Dr. C. Noel Davis, Commissioner of Public Health:—

Mosquitoes carry Malaria and other diseases.

Mosquitoes cannot multiply except in stagnant water. Where stagnant water cannot be abolished, kerosene oil sprinkled on the surface to form a film will kill mosquito wrigglers.

Old tins and bottles, broken crockery and unconsidered articles of this kind capable of holding rain water should be carefully collected from the garden and backyard and placed with the refuse for removal.

Tubs, kongs, water plants, flower-pot saucers or other vessels of water which cannot be dispensed with should be emptied or sprinkled with kerosene once a week.

Gardener's kongs, dug-outs, wells and water barrels should be done away with, water for the garden, etc., being derived directly from the tap or, if that be impossible, the kongs, etc., should be oiled once a week or kept securely covered so that mosquitoes cannot get to the water to lay their eggs.

Have the water from kennels, chicken coops, etc., regularly emptied out.

Keep drains and rain-water roof channels clean and clear and in good repair. Gully traps that are not frequently flushed should be oiled weekly.

The tops of bamboo posts should be sawn off immediately above the top septum, or be filled up with mortar or other material, so that they cannot hold water.

Shallow rain water pools and slushy places can generally be obliterated by a scratch drain or levelled with house ashes, ponds and ditches by filling-in and drainage.

Ornamental ponds may sometimes be kept free from mosquitoes by fish but, if mosquito 'wrigglers' be found, the water should be oiled weekly preparatory to filling-in.

Low lying ground can be kept free from stagnant water by adjusting the surface so that the water flows into a drain, or by making trenches connecting with a drain, or by filling up irregularities in the surface, or by raising the level of the land.

A weekly inspection of house and surroundings should be made. It may be remembered that a small unheeded pot of water will suffice to breed enough mosquitoes to irritate a whole neighbourhood.

Public Health Report for March

The health of the community was satisfactory, the death rates among both Foreigners and Chinese being about normal.

One case of Smallpox occurred among the Japanese.

In consequence of fighting in the surrounding Chinese districts and subsequent labour agitation and unrest, considerable difficulty was experienced in carrying on the essential services. The collection of house refuse was satisfactorily performed though many of the coolies living in Chapei were hindered in getting to their work.

Some of the dairies carried on with difficulty, and in two instances, labour troubles were settled by granting an increase of wages.

Fresh vegetables and fruit were scarce locally, but ample stocks were imported from Southern ports, Japan and America.

The supply of chickens and eggs was curtailed.

The meat supply was threatened, but towards the end of the month large numbers of sheep arrived. The supply of cattle by the Shanghai Nanking Railway was cut off for a time. The price of meat rose as supplies dwindled.

The season is approaching when measures for the reduction and prevention of mosquitoes become necessary.

A Malaria bearing mosquito—the "Anopheles Sinensis"—is found in Shanghai, and Malaria of the benign tertian type may be contracted here. Apart from that, these persistent pests may make the burden of life in the summer almost intolerable.

The problem is a peculiarly difficult one in the Settlement of Shanghai which merges into open, low-lying country, beset with stagnant ponds, sluggish creeks, kongs of all descriptions, and in some regions littered by thousands of hovels the insanitary condition of which is indescribable. Over these there is no control and, so far, attempts to obtain the co-operation of the Chinese Authorities have failed. Myriads of mosquitoes breed in these places, and though they do not usually go far from their breeding haunts, yet since a mosquito can fly, of its own accord, at least half a mile, and may be carried long distances by winds, it is obviously impossible under present conditions, for the Settlement to be entirely free.

Much more could be done, however, if householders would only play their part. They are urged to make special efforts themselves in and around their houses and gardens, to do away with all receptacles of stagnant water where mosquitoes breed, such as ponds, waterplants, drains out of repair, blocked gutters, abandoned tubs, pots, tins, broken bottles, holes in stumps and forks of trees, hollows in bamboos, and thus to co-operate with the Health Inspectors who have already begun their campaign against mosquitoes.

Bacteriological Examination.—During March, 1927, twenty-five samples of Shanghai Waterworks water were examined. 120 c.c. were taken in each case. In one instance of tapwater the bacteriological finding was 365 Coliform organisms per litre, but lactose was not fermented; the other samples fermented neither glucose nor lactose.

The bacteriological standard of the water is being maintained at a high level.

Chemical Examination.—Chlorine in chlorides has varied from 2.8 to 4.4 parts per 100,000 and free chlorine has been practically constant at 0.3 parts per million. Faint indications of nitrites were present on two days. The saline ammonia figure is still generally higher than normal.

Report on Analysis.—Results of analyses show satisfactory purification, and with one exception, satisfactory conveyance.

Manifesto by the Council for the International Settlement of Shanghai.

The following Manifesto, issued by the Council, has been forwarded to the Members of the Consular Body, to the local Press (Foreign and Chinese), and to the Press of Europe, America and Japan:—

Manifesto by the Council for the International Settlement of Shanghai.

The Council for the International Settlement of Shanghai, recognizing its grave responsibility for the safety of the lives and property of the Chinese and Foreign residents within the area of its administration, considers that the time has arrived for a public announcement of its considered views as regards the local situation.

(1) The International Settlement of Shanghai is an area set aside under agreement between the Chinese Government and the Foreign Powers, within which the Municipal Council is vested with full authority as regards all matters necessary for the maintenance of order and good government. Up to the present the Settlement has been administered by a Municipal Council composed of nine Foreigners. Under this wholly Foreign administration Shanghai has developed until it has become the principal port in China. The vast international trade that has been built up and the enormous capital that has been invested in industrial enterprises have benefitted both Chinese and Foreigners, and are finding employment for hundreds of thousands of Chinese.

(2) It is within the Council's knowledge that agents in the service of revolutionary interests are actively engaged in spreading subversive doctrines among the less responsible elements of the Chinese Community of Shanghai with the object of fomenting class hatred and general disaffection. If these nefarious schemes are successful they will inevitably lead to civil commotion and mob violence, with result in crippling all forms of industrial enterprise and destroying the trade of the Port. The Council realizes the gravity of this aspect of the local situation and its possible repercussion throughout the civilized world, and will use all the resources at its disposal to retain control of the situation. Concurrently with these sinister activities, a national spirit is gradually taking form throughout China, with many aspects of which the Council finds itself in sympathy. Unfortunately an influential section of this movement is at present dominated by persons holding extreme and revolutionary views who are seeking to cloud and distort the legitimate aims of the Chinese in order to serve an evil purpose of their own.

(3) The Council is fully alive to the fact that the rapid growth of the Chinese population of Shanghai has rendered an alteration in its constitution desirable, so as to allow for the inclusion of Chinese Councillors having the same duties and responsibilities as Foreign Councillors. At the Ratepayers Meeting of April 1926 a Resolution was proposed by the Council and duly approved by the Ratepayers to the effect that the participation of Chinese residents in the government of the Settlement was desirable, and that the approval of the Powers concerned should be obtained so as to allow for the addition of three Chinese members to the Council. This proposal has duly received the approval of the Powers concerned, the Central Government at Peking, and the Provincial Government of Kiangsu and the Council is only awaiting the appointment by the Chinese Community of three Chinese members in order to proceed with the consideration of certain outstanding problems, the solution of which requires the advice and opinion of representative Chinese. Assuming the three Chinese Councillors take their seats this year, the Council will comprise the following: — Five British, three Chinese, two Americans, and two Japanese.

(4) The Council for the International Settlement of Shanghai will be guided by the results achieved by the alteration in its constitution referred to in the preceding clause and by political developments, when considering how far a policy of devolution can be applied to a city of the size and importance of Shanghai where vast international interests are involved. It is the Council's considered opinion that the present is not a suitable time for the Powers concerned to consider any drastic change in the Shanghai administration. Influences have been released in China with the express and avowed purpose of stirring up discontent, class hatred and racial prejudice, and until these influences have been eliminated it would be a fruitless task to attempt to reconcile Sino-Foreign viewpoints. In making this statement the Council does not wish it to be inferred that it is in any sense opposed to increasing Chinese representation in the affairs of the Municipality but rather that any further changes in its constitution that further experience may suggest shall be effected by evolutionary as opposed to revolutionary methods, and that they shall be considered in an atmosphere created by mutual good-will, respect, and conciliation.

(5) Pending the outcome of the struggle that is now being waged throughout China between the forces of temperance and intemperance, of evolution and revolution, the Council appeals to moderate minded Chinese and Foreigners alike to support the measures that are being taken to protect the International Settlement from acts of aggression either from within or without its borders. The Council also urges the Powers concerned to insist upon due respect being accorded to treaty obligations entered into between one self-respecting Nation and other self-respecting Nations until the time arrives when these obligations can be reviewed in a proper perspective.

S. FESSENDEN,
Chairman.

Consul-General for Finland.

A letter from Mr. K. G. Wahamaki, Consul-General for Finland, notifies the Council that during his absence from Shanghai, Mr. N. Aall, Consul-General for Norway, will be in charge of the Finnish Consulate-General.

Excerpts from Minutes.

At the meeting of the Health Committee held on Wednesday, April 20, 1927, at 4.30 p.m., there are present:—Brigadier-General E. B. Macnaghten and Dr. E. L. Marsh.

Election of Chairman.—Upon the proposal of Dr. Marsh, Brigadier-General E. B. Macnaghten is elected Chairman of the Committee.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 5.5 p.m.

At the meeting of the Watch Committee held on Friday, April 22, 1927, at 4.30 p.m., there are present:—Messrs. K. Fukushima, V. G. Lyman and Brigadier-General E. B. Macnaghten.

Election of Chairman.—Upon the proposal of General Macnaghten, seconded by Mr. Fukushima, Mr. Lyman is re-elected Chairman of the Committee.

The Minutes of the last two meetings and the two recent special meetings are confirmed and signed.

Traffic Committee.—As a representative of the Watch Committee, General Macnaghten is, upon the proposal of Mr. Fukushima, nominated as a member of the Traffic Committee.

Workshelter.—With reference to the minute of the meeting of February 11, in view of the prevailing local conditions, and after endorsing the view of the Commissioner of Police that this institution serves a useful purpose inasmuch as in many cases vagrants might have to be committed to gaol at the expense of the Council, it is unanimously recommended that the Workshelter be not discontinued. In order, however, to prevent the shelter being utilised by the same persons for indefinite periods, it is further recommended that no person be admitted for a longer period than 14 days at any one time, and that, after the expiration of that period, or upon the occupant leaving the shelter within a lesser period, one month elapse be fore he be re-admitted.

Motor Freight Vehicles.—A recommendation by the Commissioner of Police, supported by the Commissioner of Revenue, that in order to facilitate police control, a security of Tls. 50 upwards be required from licensees of motor freight vehicles, is then considered.

In view of the fact that a number of public motor freight vehicles are owned by syndicates of chauffeurs and others who do not reside within the Settlement, the Commissioner of Police regards this measure as necessary. Upon the Chairman observing that a cash security would appear to be unnecessary in the case of well-known and responsible licensees residing within the Settlement, the Commissioner states that the security would not be insisted upon in such cases; the measure being designed to enable the Police to ascertain the real licensee in cases where licences are applied for in the name of syndicates which, at the present time, are very difficult to trace.

After brief discussion, members recommend that a cash security of Tls. 50 upwards be required from licensees of motor freight vehicles in cases where, in the opinion of the Police, such security is desirable.

The meeting adjourns at 5.25 p.m.

At the meeting of Council held on Wednesday, April 27, 1927, at 4.30 p.m., there are present:—Messrs. S. Fessenden, *Chairman*, A. D. Bell, *Vice-Chairman*, K. Fukushima, T. Funatsu, V. G. Lyman, W. R. B. McBain, Brigadier-General E. B. Macnaghten, Messrs. H. B. Roe and T. H. R. Shaw.

The Minutes of the meetings of April 6 and 14 are confirmed and signed.

The Minutes of the meeting of the *Electricity Committee* of March 25 are submitted and confirmed.

The Minutes of the meeting of the *Health Committee* of April 20 are submitted and confirmed.

The minutes of the meeting of the *Watch Committee* of April 22 are submitted, and subject to one exception, are confirmed.

Constitution of Committees.—The Secretary reports as to the consitution of the following Committees:—

Library Committee.—Messrs. A. Akehurst and C. M. Bain have accepted membership, and a reply from Mr. A. M. Cannan is awaited.

Foreign Education Committee.—The Secretary will later submit a recommendation to fill the vacancy on this Committee caused by the resignation of Mrs. O. M. Green.

Chinese Education Committee.—To replace Mr. Gregson, Mr. Calder Marshall will be invited to serve.

Traffic Committee.—Messrs. J. S. S. Cooper and A. J. Hughes have agreed to accept seats on this Committee, and Mr. G. Okada will also be invited to serve.

Public Recreation Ground Committee.—Mr. Lyman agrees to continue to serve on this committee, and members are informed that the con-

stitution thereof remains the same as for the past Municipal year.

General Municipal Rate Exemption.—Elgin, Cunningham and Boundary Roads.—Letters from Mr. F.S. Soong on behalf of the residents of the above roads, applying for a reduction in General Municipal Rate for the current quarter, owing to dislocation caused to business by the erection of barricades in this district, with comment by the Commissioner of Revenue, are considered. After discussion, members record the view that whilst appreciating that it is inevitable that the barricades cause a certain amount of dislocation of trade, as the residents thereby receive protection, they should be prepared to pay their fair share of taxation. It is also considered that if the present request is complied with other applications for a similar concession will inevitably follow, and it is accordingly decided that the application be not entertained.

Free Use of the Town Hall for Shanghai Defence Force.—An application by the British Women's Association for the free use of the Town Hall (exclusive of lighting) on three evenings a month for the purpose of holding dances, at which the men of the Shanghai Defence Force would be the guests, is approved on the understanding that the same privilege be granted, if applied for by other national associations who desire to arrange for entertainments of a similar nature for any branches of the Defence Force that are now stationed in Shanghai.

The Municipal Gazette for Friday, April 29, is submitted in proof and authorised for publication.

The meeting adjourns at 6.15 p.m.

At the meeting of the Staff Committee held on Thursday, April 28, 1927, at 4.30 p.m., there are present:—Mr. V. G. Lyman, Brigadier-General E. B. Macnaghten and Mr. H. B. Roe.

Election of Chairman.—Upon the proposal of Mr. Roe, seconded by Brigadier-General Macnaghten, Mr. Lyman is re-elected Chairman of the Committee.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 6.15 p.m.

Public Health Service.

In May, 1926, representations were made to the French Council regarding its annual contribution to the Municipal Laboratory, which had remained unchanged for 25 years, notwithstanding the increase in the services rendered by it to residents of the French Concession; and also directing attention to the valuable work undertaken by the Foreign Isolation Hospital and other Public Health organizations for which no financial support had so far been accorded by the French Council.

The matter was taken up in detail with the French Council with a view to arriving at an equitable apportionment of costs between the two Administrations, and the relative correspondence is appended for public information:—

Council Chamber,
Shanghai, October 27, 1926.

SIR,—I have the honour to refer to the two communications addressed to you by the Deputy Treasurer and Comptroller of this Council, under dates May 21 and September 15, on the subject of the French Council's contributions in respect of benefits accruing to residents of the French Settlement from the activities of the Public Health Department of this Settlement.

As explained in the Deputy Treasurer and Comptroller's letter of May 21, informal negotiations on this subject were first resorted to, since it was thought that by such means final and official agreement between the two Councils would be facilitated.

Since this question is intimately related with this Settlement's Financial Budget for the coming year, which is at present in course of preparation, it is of importance that early consideration be given thereto, and I have the honour, therefore, to request that the Council may be favoured with an expression of the French Council's views on this matter, at the earliest possible date.

I have the honour to be,
Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

P. LEGENDRE, Esq.,
Secretary,
French Municipal Council.

Translation of letter from the French Municipal Council, dated January 18, 1927.

SIR,—In a letter dated May 21 last, Mr. Ford of the Finance Department, Shanghai Municipal Council, officially enquired the extent to which the Municipal Administration would participate in the cost of the public health work of the International Settlement in so far as residents of the French Concession benefited thereunder; as for instance in the Pasteur Institute, Isolation Hospital for Chinese, Isolation Hospital for Europeans, Clinic for Venereal Diseases, and Pauper Burials.

The Finance Committee, when preparing the Budget, considered this matter, and on its recommendation the Council has come to the following decision which I am directed to communicate to you:—

Pasteur Institute.—The French Municipality's contribution under this heading has been fixed at Tls. 3,000 for the year 1927.

Isolation Hospital for Chinese.—This allocation has been increased to Tls. 1,000 for the year 1927.

Foreign Isolation Hospital.—The Council is of opinion that the Municipal Administration cannot contribute to the cost of hospital treatment of indigent foreigners in this establishment unless and until a fixed tariff can be agreed upon for this class of patient, and the conditions governing the admission of indigent foreigners residing in the Concession can be definitely laid down.

I am directed, therefore, to request that the tariff for hospital treatment which will eventually apply to indigent foreigners in the French Concession may be communicated to the Council.

Clinic for Venereal Diseases.—The Council cannot see its way to contribute to the cost of this clinic.

Pauper Burials.—An agreement is already in force between the Municipal Administration and the S.M.C. relating to pauper burials, and this matter is therefore regarded as already provided for.

I am, etc.,
P. LEGENDRE,
Secretary.

S. M. EDWARDS, Esq.,
Secretary, Municipal Council.

Council Chamber,
Shanghai, March 1, 1927.

SIR,—I am directed to acknowledge receipt of your letter of January 18, on the subject of the contributions offered by the French Municipal Administration towards the cost of the work performed by the Public Health Department for the benefit of residents of the French Concession.

In reply thereto, I am directed to convey to you an expression of the Council's disappointment at the amount of the allocation proposed by your Administration for the above purpose, and to request that the matter be reconsidered with a view to effecting an equitable settlement.

With his letter to you of May 21, 1926, the Deputy Treasurer and Comptroller forwarded a statement of the annual cost of conducting the various services referred to, together with information regarding the extent to which these facilities are made use of by residents of the French Concession. These data, it is considered, should be given due weight in formulating any agreement as to the apportionment of expenses.

In regard to the various items mentioned by you, I am directed to make the following observations:—

Pasteur Section.—It is not quite clear whether the proposed contribution of Tls. 3,000 includes the present payment of Tls. 1,000 per annum towards the upkeep of the Laboratory or replaces it. In either case the Council cannot consider the amount satisfactory. The Deputy Treasurer and Comptroller has already proposed a payment of Tls. 13,570 towards the gross cost of upkeep of the Laboratory, or, on an alternative computation, Tls. 11,800. An inclusive offer from your Administration of Tls. 5,000 is now suggested as the least which could be considered favourably by the Council.

Isolation Hospital for Chinese.—The Deputy Treasurer and Comptroller has proposed a contribution on an equitable basis of Tls. 5,500 or alternatively Tls. 1,700. A contribution from your Administration of Tls. 1,500 is now suggested as an irreducible minimum.

Foreign Isolation Hospital.—The Deputy Treasurer and Comptroller supplements the statement communicated to you on May 21, 1926, as to the *per capita* cost of treatment in this Hospital by the information that, during 1925, the actual cost per diem for each patient exceeded Tls. 7, and that the present rate for paying patients is Tls. 5 per diem. A copy of the memorandum on this and other points, prepared by the Public Health Department, is enclosed herewith for your information. The Council adopts the suggestion contained therein that a fixed rate of Tls. 3 per patient per diem would be an equitable charge for indigent Foreigners admitted to the Council's hospitals, and recommends it for consideration by your Administration.

Clinic for Venereal Diseases.—A contribution of Tls. 3,300, representing 27½ per cent. of the annual cost, Tls. 12,000, has been suggested by the Deputy Treasurer and Comptroller. Alternatively, the Council would be disposed to accept the equivalent of 20 per cent. of the annual cost, as set forth in the memorandum alluded to in the previous paragraph. The same percentage, in the Council's opinion, might equitably be contributed by the French Administration to the cost of the *Tuberculosis Clinic.*

Burial of Indigent Foreigners.—The following arrangement has been made by Mr. Meyrier and the Commissioner-General: In the event of an indigent foreigner who is a resident of the French Concession dying in the International Settlement, notification thereof will be made by telephone by the Public Health Department of the Municipal Council to the French Health Office, whereupon the body will be sent direct to the French Mortuary, with a note to the Custodian, and the French Authorities will arrange for its burial forthwith. I am directed to request that you will be so good as to obtain confirmation of this arrangement from your Administration.

In submitting the views of the Council on the subject of contributions by your Administration towards the cost of services rendered to residents of the French Concession by the Public Health Department, I am directed to state that, while certain reduced charges have been named as a possible basis for agreement, it is considered that these should not be adopted without a definite statement first being made by your Administration of the reasons for departing from the figures prepared for your consideration by the Deputy Treasurer and Comptroller. As the higher of these figures represent the ascertainable cost of work done by the Public Health Department for residents of the French Concession, any rebate which may be granted thereon can only be regarded as an act of grace on the part of the Council. In the circumstances, therefore, I am directed to state that, failing the conclusion of an agreement as to an equitable apportionment of costs, the Council reserves the right of charging, item by item, for all such services rendered.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

P. LEGENDRE, Esq.,
Secretary,
The Provisional Commission for the Municipal Administration of the French Concession.

Translation of letter from the French Municipal Provisional Commission, dated March 15, 1927.

SIR,—In a letter dated January 18, last, I had the honour to inform you that the French Municipal Council had increased for the current year the grants which it makes to the Pasteur Institute and to the Chinese Isolation Hospital of the International Settlement.

Replying to this communication, you have intimated in your letter, dated March 1, that the Shanghai Municipal Council considers these increases insufficient.

The Provisional Commission, to which I hastened to submit your letter, directs me to point out with regard to the subject under review that, whilst the Municipal Administration actively concerns itself in the matter of contributing benevolently to community welfare work, it nevertheless does not acknowledge that any liability rests upon it in respect of such work. Hitherto the Municipal Administration has not regarded the burden of providing hospital accommodation and necessary medical attention for residents in the French Concession as falling within its province. It considers that this obligation could be successfully accomplished by private organizations, which as a rule are able from the revenues accruing from paying patients to provide assistance to indigent patients free of charge, the Municipal Administration confining itself to facilitating their work by grants-in-aid.

In this connexion I would instance the case of the St. Marie Hospital, the most important in the French Concession, which provides hospital treatment to very numerous indigent patients, and moreover is able to defray its working expenses, although it only receives from the Municipal Administration the very small grant of Tls. 3,000 per annum.

The Provisional Commission indeed highly appreciates the extensive work undertaken by the Shanghai Municipal Council for the hospital treatment of the residents of Shanghai; but, as I have already pointed out, not having considered this burden to be within its province as regards residents in the French Settlement, it considers: (1) that, as regards paying patients from the French Concession, the charges for these patients should be calculated in such a manner as to cover the cost; and (2) as regards indigent patients from the French Concession, that the Municipal Administration has not so far accepted any obligation whatever in this respect, and reserves to itself the right of assisting the establishments concerned by grants-in-aid, the amount of which is fixed by it.

Whilst taking these facts into consideration the Provisional Commission, wishing to meet the views of the Shanghai Municipal Council in a friendly spirit, has decided as follows:—

(*a*) *Pasteur Institute.*—The grant for the year 1927 is increased from Tls. 3,000 to Tls. 5,000 under the heading of the Pasteur Institute of the Foreign Settlement;

(*b*) *Isolation Hospital for Chinese.*—The grant for the year 1927 is increased under this heading from Tls. 1,000 to Tls. 1,500;

(*c*) *Isolation Hospital for Foreigners.*—The Municipal Administration agrees that the fee for the hospital treatment of indigent patients should be Tls. 3 per diem.

The Municipal Administration will not bear the cost for the hospital treatment of indigent patients from the French Concession unless the latter are in possession of a certificate to this effect by the Municipal Authorities of the French Concession conjointly with the patients' Consular Authorities.

As regards the Venereal Diseases and Tuberculosis Clinics, the Provisional Commission regrets its inability to modify its views on this subject, and cannot, therefore, share in the cost of working these clinics.

In conclusion, on the subject of pauper burials, the present agreement between the two Administrations is confirmed.

I am, etc.,
P. LEGENDRE,
Secretary.

S. M. EDWARDS, Esq.,
Secretary, Municipal Council.

Council Chamber,
Shanghai, May 9, 1927.

SIR,—I am directed to acknowledge receipt of your letter of March 15, relative to the contributions of the French Municipal Administration towards the cost of services rendered by the Public Health Department to residents of the French Concession.

In reply thereto, I am directed, in the first place, to accept the offers of the French Administration under headings (*a*), (*b*) and (*c*) in your letter, *i.e.*, an annual grant, beginning with the year 1927, of Tls. 5,000 towards the Pasteur Institute (or, to be precise, the Municipal Laboratory and Pasteur Institute), a like grant or Tls. 1,500 towards the cost of the Isolation Hospital for Chinese, and a *per capita* payment of Tls. 3 per diem for indigent patients from the French Concession admitted to the Isolation Hospital for Foreigners. It is understood, of course, that these contributions are minima, and that they do not cover the expenses incurred by the Council.

In connexion with the third item in the preceding paragraph, I am directed to allude to your statement that the French Municipal Administration will not bear the cost of hospital treatment of indigent patients from the French Concession unless they are in possession of certificates as to their indigence issued by the Municipal Authorities of the French Concession jointly with the patients' Consular Authorities.

This condition would exclude indigent Russians who reside in the French Concession and have no Consul to sign the proposed certificate. Since indigent Russians compose the greater number of the "free" cases treated in the Municipal Hospitals, the grant of Tls. 3 per diem from the French Administration would not be effective in such cases. I am accordingly directed to request that this condition, whose consequences do not appear to have been realized, be withdrawn or modified.

As regards other points involved, I am directed to make the following comments:—

Venereal Diseases Clinic.—In this connexion, I have to refer you to the "Report on the Control and Treatment of Venereal Disease in Shanghai," submitted in 1923 by a Committee appointed by the Shanghai Medical Society. Dr. E. Lagrange, of the French Concession, was a member of this Committee. Recommendation No. 19 of the report reads:—

"That co-operation for purposes of public control of vice and venereal diseases should exist between the Public Health Department and *neighbouring Municipalities*. . . ."

This recommendation is accepted unreservedly by the Council, whose interests and responsibilities in the matter are so intimately related to those of the French Administration

Tuberculosis Clinic.—Between 10 and 15 per cent. of all patients attending this Clinic reside in the French Concession, and *all* of them are indigent Russians without Consular representation, although most of them are registered with Mr. V. Grosse.

At present the staff of the Clinic are not empowered to carry out in the French Concession the extremely valuable house visiting that is done in the International Settlement, but the necessary medicines, including considerable quantities of malt and cod liver oil, are issued to the patients. They also receive the benefit of free X-ray diagnostic examinations (otherwise costing Tls. 25 for each examination), of free medical advice and free clinical examinations.

Mental Ward.—As having a bearing on the matters under discussion, I am directed to refer to the fact that many indigent Russians from the French Concession, not recognized by any Consulate, are accommodated in the Mental Ward of the Victoria Nursing Home, which is the only place available in the two Municipal areas for the treatment of acute mental cases. The administration of this Ward is beset with great difficulty, because of the impossibility of turning away cases of acute mental disease which demand urgent treatment. I am accordingly directed to request that the French Administration will accept responsibility, *pari passu* with the various Consulates, to the extent of contributing a fixed sum of Tls. 3 per diem towards the cost of the Mental Ward treatment of indigent persons from the French Concession who have no Consular representative, irrespective of any proportion of this amount which the French Administration may be able to recover from such patients or their friends.

On the general question of the Municipal care of indigent patients, I am directed to state that the Council cannot accept the principle propounded in your letter that the responsibility of either Administration is limited to the annual subventions made by it to public benevolent institutions. Were the two Municipalities wholly independent, a difference of method might conceivably be desirable, and in any case would call for no comment by either party. Your letter, however, concedes that the services rendered by the Municipal Hospitals are highly appreciated by the French Municipal Administration; while their effective operation in both areas implies their tacit acceptance by the French Administration as an indirect relief of public expenditure.

It is the Council's earnest wish that this matter may be brought to an amicable conclusion by an early agreement on these outstanding questions; but, in fairness to the Ratepayers of this Settlement, I am directed to add that the Council reserves the right to curtail services, rendered to persons outside the Settlement area, for which no adequate payment is made.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

Excerpts from Minutes.

At the meeting of the Foreign Education Committee held on Friday, May 6, 1927, at 4 p.m., there are present: Mrs. A. D. Bowman, and Messrs. J. S. S. Cooper, V. G. Lyman and R. F. C. Master.

Election of Chairman.—Upon the proposal of Mr. Lyman, seconded by Mr. Master, Mr. Cooper is elected Chairman of Committee.

The Minutes of the last two meetings are confirmed and signed.

Public School for Boys and Junior School for Boys—Re-opening of Classes.—The replies received from the Heads of Schools to a questionnaire prepared by Mr. Billings relative to the amount of space occupied by the Defence Forces and the balance of available accommodation at the various schools are considered. Asked for any suggestions as to arrangements which might be made to resume the classes at the various schools, Mr. Billings suggests that, in the absence of definite information as to how long the Defence Forces are likely to remain in occupation of the schools, in the first instance consideration should be given to the best means by which classes could be resumed during the current term which covers a period of approximately eight weeks. From enquiries made, it may be assumed that the schools will be occupied by the Military Authorities during the next two months at least, and the possibility of obtaining suitable large buildings as temporary school premises is remote.

Dealing first with the provision of accommodation for pupils from the Northern School, which building is now entirely closed to pupils, he states that two laboratories and a lecture room could be cleared and the three upper classes accommodated therein. By arrangement with the Headmaster of the Thomas Hanbury School for Boys he anticipates that four classes from the Public School could be accommodated there, and possibly a larger number if the Hall could also be used for the purpose. Accommodation possibly for three classes might also be obtained at the Nieh Chih Kuei School.

With regard to the provision of accommodation in the Western District for Junior Boys, Mr. Billings states that four rooms at the Yuyuen Road Girls' School are occupied by girl pupils under eight years of age, and he suggests that the Committee might consider it advisable that the younger pupils should be displaced by older pupils and boys who were accommodated at the Jessfield Road Junior School. Members, however, are averse to this suggestion on the ground that it is most undesirable that boys, other than those attending Kindergarten classes, should be accommodated in the Girls' School. The view also obtains that pupils for whom the school is normally provided should not be displaced for the purpose of providing temporary accommodation for other classes. Members endorse the view of the Deputy Commissioner of Public Works (Mr. Swing) as the cost entailed in fitting up small private houses for school purposes, it is undesirable to rent such premises for temporary quarters.

Mr. Billings then suggests that in the event of insufficient accommodation being available in the Council's schools, application might be made for accommodation in other buildings which have rooms suitable for utilisation as class rooms. In this connexion he suggests that the Ferry Road Military Canteen might be available in the mornings, as also the Ball Room at the Country Club. Members favour this proposal, other buildings suggested being Marble Hall, the Masonic Hall and the Union Church Hall. A member refers to the offers which have been made by parents to place at the Council's disposal rooms in their private residences to accommodate small classes, and this proposal is favourably received as a means of obtaining temporary accommodation.

After lengthy discussion, it is finally decided that for the purpose of providing accommodation for pupils from the Northern School, three classes should be accommodated in that building, and that in the first instance the Secretary, in collaboration with Mr. Billings and the Heads of the Schools concerned, should endeavour to arrange for accommodation at the Thomas Hanbury School for Boys. In the meantime, Mr. Billings is requested to ascertain whether accommodation could also be secured at either the Masonic Hall or the Union Church Hall. With regard to accommodation for Junior Boys in the Western District, Mr. Billings will also endeavour to arrange for their accommodation either at Marble Hall or the Country Club Ball Room, and during the morning

hours at the Ferry Road Canteen. In the event of such applications being unsuccessful, it is recommended that the offers made by parents to place at the Council's disposal rooms in their private residences for the holding of small classes be accepted, and that similar assistance from other parents be invited by public notification.

With regard to accommodation for pupils from the Boone Road and Kungping Road Branch Schools, it is noted that temporary premises have been leased in Yulin Road. As, however, it may be anticipated that owing to the distance of this house from the pupils' homes, these premises may not be utilised to their fullest extent, it is recommended that the rooms available at the Thomas Hanbury School for Girls be utilised forthwith to accommodate three classes from the Boone Road Branch School.

Mr. Billings' suggestion is also adopted that, with a view to ensuring sufficient accommodation for the autumn term, a meeting be held in one month's time to give further consideration to this question. In the meantime the Deputy Commissioner of Public Works is requested to enquire from the Military Authorities as to whether they can give any indication as to how long they are likely to require the Municipal Schools for the accommodation of the Defence Forces.

Non-attendance of Pupils owing to State of Emergency and question of Cancellation of Fees.—Upon the Secretary requesting a ruling in the matter of the cancellation or remission of fees in the case of pupils attending schools, which have been closed or have not been functioning during the whole or part of any month on account of the State of Emergency or occupation by the Defence Forces, members recommend for adoption the proposal of the Deputy Treasurer and Comptroller that, where schools have been closed during a complete month, no fees be charged, but that in cases where schools have remained open for part of any month, or where it has been possible for pupils to attend classes elsewhere, proportionate fees be required. It is further recommended that in the latter case Heads of Schools be required to consider each case on its merits and make recommendations for cancellation or otherwise. This recommendation is made in view of special circumstances and will in no way affect the standing Regulations in regard to notice of withdrawal, etc.

The meeting adjourns at 4.55 p.m.

Two further arrests were made during the month in connexion with the attempted murder of a mill interpreter in Gordon Road district on March 7. A man was apprehended in Chapei on April 24 on a charge of murdering a Chinese in the Lou district on February 24 and his arrest led to the seizure of nine pistols and about 1,000 rounds of ammunition. He was handed over to the Chinese Authorities. In connexion with the murder of a Chinese wharf coolie and the wounding of two other Chinese by armed robbers in Wayside district on January 2, three arrests were made during the month. Two men were arrested for being concerned in the murder of a cigarette factory worker who was shot dead in the Wayside district on March 17. In the murder of a mill shroff who was shot in Chinese territory adjoining the Settlement boundary on February 22, two men were arrested on April 30. The person referred to previously as being on remand charged with being concerned in the murder of a Chinese female during an armed robbery in the Harbin Road district on February 10, was sentenced to imprisonment for life.

Robbery.—One hundred and thirty reports of armed robbery from premises and forty on the highway were received during the month. Nine cases of attempted armed robbery were also reported. Shots were fired by the robbers in twenty four instances, resulting in the death of two Chinese and the wounding of a Chinese Police Sergeant and five Chinese civilians. Two robbers were wounded and subsequently died. In connexion with the foregoing and reports of armed robberies occurring prior to April 1, 105 persons, 23 of whom were in possession of loaded firearms, were arrested. Two died from wounds received at the time of arrest, six were sentenced to imprisonment, three were dismissed and ninety-four are on remand. Of forty persons on remand at the end of March charged with armed robbery, fifteen have been sentenced to imprisonment and four acquitted. Nine persons, one of whom was in possession of a loaded pistol, were arrested for being members of a gang of armed robbers and are now under remand. In connexion with armed robberies which occurred in the French Concession, fourteen persons, one of whom was in possession of a pistol and ammunition, were arrested and handed over to the French Police. Two men arrested in connexion with armed robberies which occurred in territory under Chinese jurisdiction were handed over to the authorities concerned.

Eight reports of highway robberies, in which no arms were used, were received. In connexion with these reports and unarmed highway robberies committed prior to April 1, eleven persons were apprehended. Two were sentenced to imprisonment and nine are under remand.

Armed Abduction.—On April 15 an ex-Chinese army officer was decoyed to a house in the Sinza district and there held by six men armed with pistols and knives who

demanded sums of money ranging from $5,000 to $40,000 for his release. The victim made his escape on April 22 whilst temporarily left unguarded. Two men have been arrested. The manager of a Chinese steamship company was held up in the Western district on the morning of April 25 by four men, two armed with pistols, who boarded his car and demanded a ransom of $5,000. He obtained his release on payment of $700.

Trafficking in Firearms, etc.—Three foreigners and one Chinese were arrested during the month for trafficking in firearms when seven pistols and revolvers and some five hundred rounds of ammunition were seized. The accused were sentenced to terms of imprisonment. Twenty three Chinese were arrested for being in possession of firearms for an unlawful purpose. Three were sentenced to imprisonment, one was acquitted and nineteen are under remand.

Property Stolen.—561 reports made under this heading during the month represent an estimated loss of $259,879 and include 24 cases of burglary, 6 of house-breaking, 9 of godown-breaking and 27 of shop and office-breaking. Successful investigation was made in 163 cases, resulting in the recovery of property valued at $37,705, in addition to which recoveries to the extent of $3,894 were made in connexion with reports received prior to April 1. In addition successful results were obtained in nine cases reported as having occurred outside Settlement limits and in one case where the property was reported as lost.

Crime beyond Settlement limits.—Twenty-six cases of robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In one instance a motor bus of the Minghong Company was attacked by ex-soldiers who wounded a battalion commander travelling on the vehicle, whilst in six other instances the inmates of houses plundered were roughly handled and injured.

Executions.—A large number of perons were executed during the month at Lunghua, but the exact number is not yet known, owing to the executions not having been officially published.

Activities of Communists.—Communist agitators and the armed body under their direction, known as the "Workers' Supervisory Corps," continued in occupation of several police stations and other buildings in Chinese territory for several weeks after the capture of the area by Nationalist troops. By intimidation and propaganda, the Workers' Supervisory Corps kept the inhabitants, especially the working classes, in a state of fear. Parties, apparently in collusion with the Workers' Supervisory Corps, opened fire on April 8 in North Szechuen Road on a British armoured car and on Japanese marines. Another attack, for which they were also undoubtedly responsible, was made some days later on members of the Defence Forces who were on duty on the boundary near Chaoufoong Road. Following these incidents, the arrogance of the labourers became more marked and tension already existing in their relations with the Chinese Authorities increased. A climax was finally reached on April 12, when Merchant Volunteers and regular Nationalist troops surrounded twenty-five of the bases which they occupied in Chinese territory and called upon the parties inside to surrender. The members of the Workers' Supervisory Corps in several of the besieged places immediately did so. At some places, however, they opened fire and commenced a series of pitched battles. Rifle and machine gun fire and hand grenade throwing lasted several hours. As a result of the night's operations, the Workers' Supervisory Corps was put out of action. Several leaders were captured while others were either wounded or killed among the latter being the notorious President of the Shanghai General Labour Union. The total casualties of the workers came to approximately four hundred, while those of the regular forces and volunteers were about twenty-six. The formidable nature of the military strength of the Workers' Supervisory Corps was revealed by the booty captured by the victors. This included 20 machine guns, 3,000 rifles, 1,000,000 rounds of small arms ammunition, 7 handcart loads of axes and 2,000 long handled pikes. Fresh seizures, including 200 Mauser pistols from one dump in Pootung, on subsequent days added considerably to this stock.

Although the strength and armament of the Workers' Supervisory Corps show that it was the intention of the Shanghai Branch of the Communist Party to have at its disposal a strong military force, yet the main effort of the party during the period it carried on its activities openly was directed towards the extension of its political influence. The staff at each of the bases occupied by its followers included a group of propagandists. Broadsheets, brochures and handbills disseminated by these advocated the destruction of foreign administration and foreign influence in China and urged that corrupt members of the Chinese wealthy classes be eliminated and their property confiscated. Simultaneously with this propaganda the organization of the workers proceeded apace. Each day was marked by the formation of new unions and considerable increases in the membership of those already operating. This continued up to April 12, the date of the anti-Communist coup when, according to reliable estimates, there existed in the vicinity of the Settlement no less than 320 labour unions with a membership of 55,000, five peasant organizations with a membership of 2,000 and several Communist youth societies. Promises of shorter hours, higher wages and exemption from rents and taxes were among the inducements held out to the workers to join. The main factor of the success achieved, was, however, a widespread fear of the Shanghai General Labour Union. Called into existence by the series of murders of loyal workers which preceded the arrival of the Southern Army, this fear was kept alive by the formation of the labour army. So thoroughly had this fear been instilled into the working classes, that the allowed themselves to be influenced by it even after the ability of the General Labour Union to do them harm had gone. Consequently an appeal from that body in favour of a strike as a protest against the anti-Communist coup was obeyed on April 13, the date the appeal was issued, by no less than 104,856 workers whose number increased to 113,808 on April 15. Finding that the strike lacked the driving force furnished on previous occasions by intimidators and pickets, the strikers on the following day abandoned their fears and began to resume work. By April 16 the number out had been reduced to 63,500 and three days later to about 7,800. The success of the coup against the military arm of the Communists had the effect of driving into hiding the members of the party who remained. Notwithstanding this disadvantage, they are continuing their activities, and towards the end of the month succeeded in putting into circulation handbills condemning Chang Tso-lin, Chiang Kai-shek and foreign imperialism. Measures taken by the Chinese Authorities to counteract Communist propaganda during the month included, in addition to the disarming of the labour army, the arrest and execution of several extremists, the suppression of inflammatory literature by arresting individuals and closing up establishments engaged in its dissemination, censorship over the press and the distribution of handbills pointing out the evils of the "Red" doctrine. The anti-Communist campaign by the Authorities was supported by a society called the "Chung Hua Joint Progressive Association" and other civilian organzations.

The efforts to spread Communism among Chinese were supplemented during the month by attempts to inoculate the Shanghai Defence Force with the same ideas. Agents tried to further this aim by disseminating handbills which sought to produce among the members of the rank and file discontent and class hatred. In almost all cases the distribution of the handbills was undertaken by Chinese of immature years or members of the uneducated classes who knew nothing of the names or whereabouts of the persons on whose behalf they were acting. A few cases are also on record where Indian troops were approached direct by their fellowcountrymen. It is worthy of note that instead of being influenced by the propaganda, the troops in several instances arrested the persons engaged in its dissemination and handed them over to the police. The prosecution of these parties had a salutary effect, and reports received towards the end of the month showed that the agitators behind the scenes, who include some foreigners, are ex-

periencing great difficulty in continuing this propaganda with success.

The late Sirdar Sahib Buddha Singh.—I desire to place on record my sincere regret, and also that of every member of the Force with whom he came in contact, at the death of Sirdar Sahib Buddha Singh. This officer had completed twenty-five years' faithful service and was very highly respected by all classes of the community. His loyalty to the British Government was undoubtedly responsible for his untimely end, and his place as Senior Inspector of the Sikh Branch of the Force cannot at the moment be in any way adequately filled. The cold-blooded murder of this splendid officer is not only a sad loss to the Municipal Police but is also a blot on the name of the Sikh community of Shanghai.

Traffic.—Court proceedings were instituted in 104 (5 Foreigners and 99 Chinese) of 1,141 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

Genuine fires in the Settlement 26, Genuine fires in the Specialrated Area 3, Genuine fires outside the Settlement 8, false alarms in the Settlement 8, false alarms in the Special-rated Area 1, special call in the Settlement 1.

The damage on assessed property within the Settlement was estimated at Tls. 106,137 (Foreign Tls. 4,735 Chinese Tls. 101,402) and in the

Special-rated Area at Tls. 130 (Foreign Tls. 130, Chinese nil) whilst the property at risk within the Settlement was estimated at Tls. 4,365,900 (Foreign Tls. 562,800, Chinese Tls. 3,803,100) and in the Special-rated Area at Tls. 24,700 (Foreign Tls. 24,700, Chinese nil).

No lives were lost at any fire during the month, but 12 persons and 2 firemen were injured at fires within the Settlement, and 1 person at a fire outside the Settlement.

One building and 1 straw hut were destroyed, and 13 premises and 1 straw hut were damaged in varying degrees in the Settlement, whilst 1 residence and 1 straw hut were damaged in the Special-rated Area.

In dealing with the foregoing:—

Brigade machines travelled approximately 319 miles.

Hose laid approximately 15,770 feet.

Water used 252,410 gallons.

Time occupied at fires approximately 72 hours 32½ minutes.

Time occupied at watching duties at fires 48 hours 53 minutes, and at places of amusement 5,150 hours.

The fires of note during the month were as follows:—

March 5, 3.59 p.m., 36 W. Soochow Road (Oil Mill) Section of Sinza and Central Divisions.—Two large press rooms, a boiler room, and engine room were a mass of flames, with the roof already in, also six large oil tanks were on fire, and blazing oil was running therefrom, gravely menacing other buildings. Steps were immediately taken to confine the outbreak, the large Leyland Pump from Central responding to assist in these efforts, which were successful. During these operations another fire broke out in a power and press room, but was promptly extinguished.

March 24, 1.11 a.m., Off Dixwell Road.—This fire occurred during the recent period of fighting between rival forces in Chapei, following upon the arrival of Nationalist soldiers in the environs of Shanghai, and was undoubtedly caused by incendiaries (presumably soldiers or loafers), who first looted and then set fire to a row of foreign-styled houses in the neighbourhood of Dixwell Road and just off a Settlement Road, kerosene having been used freely to assist the flames.

The fire was extinguished by the Brigade; 12 houses, however, were destroyed and 2 damaged. Members of the Brigade were subjected to a certain amount of sniping from armed men moving about in the vicinity.

During the month a Foreign Volunteer Reserve was formed to assist the Department, if and when necessary, and drills are being held regularly.

The new 6-cylinder Leyland chassis arrived and was fitted with an emergency body, and has done a considerable amount of very useful work, including assistance in the evacuation of residents from the outskirts of the Northern District.

All camps have been inspected, and fitted with fire fighting appliances.

The following inspections were carried out by Officers during the month:—

1. Premises of Applicants for Licences	32
Reinspection of premises of Applicants for Licences	23
2. Licensed Premises	
(*a*) Theatres, Cinemas and other places of Amusement	20
(*b*) Garages and Repairs Shops	8

The above inspections revealed 189 breaches of the Council's Licence Regulations, and 206 letters were written with regard to fire installations.

Sixty-four permits for the Discharge, Storage and Transport of Dangerous and/or Hazardous Goods within the Settlement Limits were granted.

Sanitary Conditions in Shanghai.—Following a memorandum by a member as to the insanitary conditions in the Settlement, reports by the Commissioners of Public Health, Public Works and Police, advocating the adoption of certain remedial measures, have been received. Members unanimously agree as to the necessity of improving the sanitary conditions in certain parts of the Settlement, having particular regard to the health during the coming summer of the foreign troops stationed here. A summary of the Departmental proposals has been prepared by the Commissioner-General, and these are dealt with seriatim.

Procedure to be observed in the event of Disturbances.—The Commissioner-General reports that the Committee responsible for the concentration of civilians in times of disturbances has suggested the insertion of a short notice in the American, British, French, Japanese and Russian Newspapers to the effect that in the event of any outbreak, foreign residents should be required to remain in their homes and that if unable to reach their homes they should obey the orders given them by the Military and Police Patrols. In order to allay any anxiety which such a notice might create it would be couched in such terms as to avoid the implication that any new outbreak is anticipated. The Commissioner of Police states that in some cases applicants have reason to believe that their applications will not be endorsed by the Police Department and for this reason purposely incur expenditure to meet the requirements of other departments in order to be in a position to plead hardship if, on account of the Police reporting unfavourably on the application, a licence is refused. Since, however, the issue of licences enables the police to take action in the event of contravention of the licence conditions, whereas if an establishment is unlicensed, the Police cannot prevent it from being improperly

conducted, he agrees that in the public interest the issue of licences is desirable. Members concur in this view and it is accordingly recommended that applications for the issue of Restaurant Licences, without liquor, should not be disapproved solely on the ground that the district is already adequately served by similar licensed establishments, and further that in future all applications for restaurant licences (with or without liquor) should, in the first instance be reported by the Police Department and that, if rejected by the Police, they be forwarded to the Committee for confirmation.

The meeting adjourns at 5.15 p.m.

Public Health Report for April.

The health of the community was unusually good during the month, the death-rate among both Foreigners and Chinese being below normal.

There was no special incidence of any of the communicable diseases.

With the approach of Summer, it becomes a matter of urgent importance that special precautions be taken to avoid intestinal disorders caused by infected food and drink. The chief of these are Cholera, Typhoid, the Paratyphoids and Amoebic and Bacillary Dysenteries.

These precautions are set down in detail in the Public Health Notice, freely obtainable from the Public Health Department and the Branch Health Offices.

Though Shanghai is spoken of as a Model Settlement from the administrative point of view, it is far from being so from the sanitary point of view.

The agricultural methods of the Chinese farmer and gardener, the personal habits of the coolie class, the great congestion and overcrowding in certain areas, the existence of foul and stagnant creeks, these are conditions incompatible with an ideal sanitary environment and they can only be remedied gradually, by education, compulsory powers and money.

Food infection is especially common locally, and the simplest and safest way to avoid it is to destroy it before it can reach the mouth. Some of the essential rules to observe are:—

Eat and drink nothing that has not been recently cooked, boiled or otherwise sterilised.

DO NOT CONSUME:—

(1) Fruit, vegetables or salads which have not been cooked or sterilised.

(2) Food infected by flies which often forage and feed on filth and become foully contaminated.

(3) Milk or cream which has not been efficiently pasteurised, boiled or sterilised.

(4) Ice cream unless made of boiled materials.

(5) Water which has not been boiled or sterilised or filtered through an efficient germ-proof filter.

These rules, though difficult and irksome to apply at times, are well-proved, and the observance of them is amply repaid by freedom from infection.

A further important precaution is to insist on cooks, house-boys and amahs, thoroughly washing and scrubbing their hands with soap and hot water before handling or serving food.

Infection may undoubtedly occur from contaminated fingers of servants who, unbeknown to their employers, may be convalescents or carriers of disease.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

C. NOEL DAVIS,
Commissioner of Public Health.

Excerpts from Minutes.

At the meeting of the Orchestra and Band Committee held on Monday, May 23, 1927, at 4 p.m., there are present: Dr. W. J. Isenman, Messrs. V. Meyer and T. H. R. Shaw.

Election of Chairman.—On the proposal of Mr. Shaw, seconded by Dr. Isenman, Mr. V. Meyer is re-elected Chairman of the Committee.

The Minutes of the last meeting are confirmed and signed.

Summer Programme and Facilities for Military Bands.—The correspondence which has taken place between the Secretary and the Leaders of various military Bands, previously circulated to the Committee, is discussed. The Committee express their desire to do everything possible to provide the necessary facilities for the Military Bands to perform in public during their stay here, with due regard to the necessity of not disturbing the Municipal Orchestra's regular performances and earning power. The Conductor states that last year three orchestra and four brass band performances were given each week, two of the brass band concerts being given in the Public Gardens. After a full discussion, the following arrangements are recommended for adoption:—

(1) The Municipal orchestra will not give any brass band performances in public during the summer, on the definite understanding that the Conductor will continue keeping his brass band up to form through the necessary rehearsals.

(2) The Sunday evening concerts in the Town Hall to be continued up to and including June 12.

(3) The Municipal orchestra to give three performances in Jessfield Park and two in Hongkew Park each week at night.

(4) That the fees to be collected in Jessfield Park and Hongkew Park by the Municipal Orchestra be the same as are at present collected in the Town Hall.

With regard to the facilities to be afforded the Military Bands to perform in the public parks, the following is recommended:—

(1) That during the period up to June 12, Military Bands be authorised to play in the Jessfield Park and or Hongkew Park and Public Gardens three times a week at night and as often as they desire in the afternoon.

(2) That after June 12 the Military Bands be authorised to perform one night a week in Jessfield Park and one night a week in Hongkew Park, and as often in the afternoons as they desire, it being however distinctly understood that they will perform not less than twice in the afternoon in the Public Gardens.

(3) That the Military Bands performing be given the free use of the Council's bandstands, and that they be allowed the use of the Council's chairs, charging the same fee for performances in the Parks as is being charged at Municipal Orchestra concerts. The fees will be collected as usual by the Council's collectors.

(4) It is to be distinctly understood that the Council does not guarantee the Military Bands any fixed sum at any time for any performance, but that the Military Band performing will be entitled to receive the first $150 earned through chairs and entrance fees, the balance to go towards the Municipal Orchestra's expenditure.

As it appears from correspondence placed before the Committee that the various Military Bands have different ideas of how these matters should be arranged, it is suggested that a meeting be arranged between the Chairman of the Orchestra and Band Committee, the Conductor, the Deputy Treasurer and Comptroller, and the Presidents of the Military Bands concerned, in order that details for the execution of the above mentioned programme can be arranged.

Symphony and Operatic Concerts. It is suggested that the earning power of the Municipal Orchestra can be increased by making certain of the ordinary Sunday performances, special performances through the engagement of soloists, whereby a higher entrance fee would be justified. It is considered that increased receipts would justify the further engagement of soloists for such concerts, and it is recommended that a few trial concerts be arranged on this basis.

Town Hall.—With reference to applications which have been received for permission to give Military Band concerts in aid of Defence Force recreation funds at the Town Hall, it is recommended that these be treated as ordinary engagements of the Town Hall at the reduced fee of Tls. 75 per diem, plus lighting charges.

The meeting adjourns at 4.55 p.m.

At the meeting of the Public Utilities Committee held on Monday, May 23, 1927, at 4.30 p.m., there are present:—Messrs. A. D. Bell, S. Fessenden and W. R. B. McBain.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 5.05 p.m.

Parks Report for April.

Jessfield Park.—The number of visitors during the latter part of the month constituted a record in attendance. Though the area available for the public is restricted, the massed bands of the Shanghai Defence Force, which give a performance every Sunday morning, proved so popular that, even without the floral attractions and other park amenities, large crowds are attracted.

Six hundred flowering plants were planted in the new section on the east side of the park, these including a number of Japanese lilies. Water lilies, Irises, Water hyacinths and Calla lilies were planted in the water gardens.

The original refreshment kiosk being at present required for other purposes, a rustic structure was erected to provide facilities for the supply of light refreshments during the Summer, and so arranged that it will form a useful shelter at other seasons. Water was laid on rendering it possible to provide a drinking fountain.

Children's Garden.—The small space known as the Yuyuen Road Children's Playground was re-developed and planted with shade trees. Swings, Giant-strides and See-saws were re-erected, also a mat shed to provide shade. Small as the area is, it provides a safe shady retreat, especially for young children.

Sports.—Advance applications for playing spaces were not numerous, but during the second half of the month the number of applications increased considerably. In the case of Hongkew Park, they were a little below the average of recent years. By the amalgamation of various small clubs, it was found possible to reserve sections for the recreation of the Armed Forces.

Public Recreation Ground.—Inequalities in the surface and the margins of the paths were levelled so as to constitute suitable landing places for the Air Force and a section was set apart as an Aerodrome. Aerial flights during tne day do not prevent the use of the playing spaces in the evening.

Conservatories.—Tuberous Begonias, Gloxinias and Streptocarpus have maintained a good blaze of colour during the month.

Fire Brigade Report for April.

The total number of calls received during the month was 55 and were as follow:—

Genuine fires in the Settlement	37
" " " Special-rated Area	3
Genuine fires outside the Settlement	6
Chimney fire in the Settlement	1
False Alarms in the Settlement (all with good intent)	8
Total	55

The damage on assessed property within the Settlement was estimated at Tls. 199,926 (Foreign Tls. 183,227—Chinese Tls. 16,699), and in the Special-rated Area Tls. 505 (Foreign Tls.5—Chinese Tls. 500), whilst property at risk within the Settlement was estimated at Tls. 7,553,250 (Foreign Tls. 5,503,000—Chinese Tls. 2,050,250), and in the Special-rated Area at Tls. 15,500 (Foreign Tls. 10,000—Chinese Tls. 5,500).

No lives were lost at any fire during the month. Four persons and two firemen were injured at fires within the Settlement.

Twenty-six premises inside the Settlement and one in the Special-rated Area were damaged in varying degrees.

In dealing with the foregoing:—

Brigade machines travelled approximately 415 miles.

Hose laid approximately 26,725 feet.

Water used 525,005 gallons.

Time occupied at fires approximately 144 hrs. 38¼ mins.

Time occupied at watching duties at fires 105 hrs. 42 mins.

Time occupied at watching duties at places of amusement 3,526 hrs.

The fires of note during the month were as follow:—

April 8, 2.20 a.m., 242A and 243A, Tungchow Road General Stores (Hongkew Division).—Persons unknown broke the rear windows of the above premises and set light to a quantity of wine, oil and kerosene. The fire was extinguished with little damage. This was the climax of an epidemic of fires in the immediate vicinity which lasted about 10 days, two attempts being made on an adjoining Pawn-shop and two on the Bamboo Fence on the opposite side of the road.

April 17, 8.47 p.m., 12C, Kiangse Road, General Godown (Sections of Central and Sinza Divisions).—The upper floor of this godown was well alight, the roof falling in a few minutes after the arrival of the Brigade. Owing to the old construction of the building with open internal wooden staircases and floors, there was risk at one stage of the fire of the whole building and block being involved. The Big Leyland Pump 38, and the Magirus Turntable No. 27 from Central and an additional 65' Escape from Sinza were put into use. Water damage was minimized as far as possible by the prompt use of waterproof sheets on the floors below by the salvage section of the Department. The top floor was very badly damaged.

April 19, 11.27 p.m., The Norwegian M. V. "Fordefjord" (Tonnage 2,116; Mackenzie's Wharf, Pootung (Sections of Central and Hongkew Divisions).—On the arrival of the Customs Float and the Fire Dragon, No. 2 Hold, which contained some thousands of bales of American Press Packed Cotton, was found to be well alight. Revolving nozzles were lowered into the hold and down the ventilators. After the fire was subdued, the hatches were uncovered, and men with powerful jets were lowered into the hold, working in smoke helmets and masks. The fire was found to have passed through the bulk-head into No. 3 hold. Owing to the peculiar construction of the boat, which had a between deck running its full length, this made the fire quenching much more difficult. Valuable assistance was given by H. M. S. "Hawkins" which projected its search-lights on the boat during the operations.

April 22, 6.18 a.m., 1, Chapoo Road, Godown (Sections of Hongkew and Central Divisions).—Thick smoke was pouring from all the upper windows, the first floor being found to be well alight. The roof was opened up for ventilation and the cargo on the floors below covered with water-proof sheets. The fire was confined to where it was found, the damage being comparatively light.

April 27, 12.38 a.m., 166, North Thibet Road (Sinza Division).—On arrival, three premises were found to be in flames and menacing the surrounding property. A little delay was caused in laying on owing to the barbed wire barricades. Five premises were damaged in varying degrees.

April 27, 3.22 p.m., The P. & O. S. S. "Khiwe" (9,000 Tons), Shanghai & Hongkew Wharf (Sections of Hongkew and Central Divisions).—This fire was in the forecastle, and much difficulty was experienced in reaching the seat owing to the dense volumes of smoke and fumes which filled the whole fore part of the ship. With the aid of gas helmets and masks etc. the fire was eventually found to be in the Paint, Rope and Canvas Stores, these being small compartments away down between decks.

The following inspections were carried out by Officers during the month:—

1.	Premises of applicants for licences	37
	Re-inspection of premises of applicants for licences	32
2	*Licensed premises:*—	
	(*a*) Theatres, Cinemas and Places of Amusement	171
	(*b*) Garages and repair shops	112
	(*c*) Hotels, Clubs, Lodging houses, Restaurants, Tea, Food and Wine shops	37
3.	Buildings in course of construction	112
4.	*Completed buildings other than licensed premises*—	
	(*a*) Offices, Banks and Exchanges	29

(*b*) Factories, Filatures and Mills	43
(*c*) Godowns and Wharves	8
(*d*) Houses	18

6. Pumping Connections	434
7. *Hydrants*:—	
(*a*) Shanghai Waterworks	1,216
(b) Private Installation..	730
8. Miscellaneous inspections following complaints....	47
9. Stores for hazardous goods	2
Total	3,065

The above inspections revealed 39 breaches of the Council's Licence Regulations, and 164 letters were written with regard to fire installation.

Seventy two permits for the discharge, storage and transport of dangerous and or hazardous goods within the Settlement limits were granted.

Municipal Taxation.

The appended correspondence between the Senior Consul, the Commissioner for Foreign Affairs, and the Chairman of Council is published for general information:—

Senior Consulate,
Shanghai, June 1, 1927

SIR,—I have the honour to transmit herewith a translation of a letter which I have received from the Commissioner for Foreign Affairs regarding a proposed increase in Municipal taxation.

I should be glad if you would give this question your consideration and inform me in due course of the Council's views on the points raised in the letter.

I have the honour to be,
Sir,
Your obedient servant,
N. AALL.
Consul-General for Norway and Senior Consul.

S. FESSENDEN, Esq.,
Chairman, Municipal Council.

Bureau for Foreign Affairs,
Shanghai, May 24, 1927.

SIR,—I have the honour to quote below a letter from the Shanghai General Chamber of Commerce:—

"On the 21st instant, a letter has been received from the Association of Chinese Ratepayers in the International Settlement of Shanghai, reading as below:—

With regard to the proposal of the Foreign Ratepayers for an increase in the Municipal Tax, we have yesterday addressed a letter to the Bureau for Foreign Affairs reading as follows:—

According to the "Municipal Gazette" of 14th April the Foreign Ratepayers proposed an increase of 20 per cent. of the Municipal Tax, same to come into effect from the 1st of July this year. This decision of the foreign ratepayers did not meet with the approval of the Chinese Ratepayers and therefore the Chinese residents are very much astonished at the sudden decision of the foreigners without their knowledge, and they must consequently unanimously object to such resolution which is contrary to public opinion and detrimental to the interests of the residents. We have repeatedly been urged to ask you to protest to the Consular Body. We beg to state that for these two years, owing to the unsettled situation, it has influenced the business to a big extent. The residents of Shanghai have suffered materially and physically as they receive very little income. Although the situation in the South-Eastern portion is more or less quiet, it requires much more time to make good their former losses. At the time when business is so stagnant, how can the people bear more burdens. Furthermore, as recently the Chinese people are urging their Government to effect the rendition of the foreign settlements, it is strange

that the foreign ratepayers should at this juncture propose to increase the municipal tax. This association is an organ for representing public opinion, we cannot remain silent and we therefore strongly recommend that you will vigorously protest against this.

As your Chamber is the Leader of the commercial organizations, we send you this copy and request you to unite with us and protest against the same.

We beg to remark that the residents of Shanghai, suffering from different causes, have been through very hard times. Should the increase be effected, it is nothing else than a violation of the interests of the people. On the other hand according to the reports of the Shanghai Municipal Council, the annual income of the Council showed a steady increase. There is no reason therefore for an increase in their taxation.

Furthermore, in the year 1899, when the Settlement Authorities were extending the Settlement, the Chinese Authorities then in power at Shanghai, officially notified the Settlement authorities stating that the following are the conditions for the expansion of the Settlement:—

"That the different Laws, regulations, pertaining to the Chinese, are not valid unless they are recognized by the local Chinese authorities."

So, the decision that from the 1st of July, the Municipal Tax will be increased by 20 per cent. which decision was not endorsed by the Chinese, cannot, therefore, be carried into effect. Kindly notify the Senior Consul and inform him that the Chinese residents positively refuse to recognize the "20 per cent. Increase" and that the Senior Consul be requested to cancel such decision.

I have received a similar letter from the Association of Chinese Ratepayers.

I wish to remark that owing to the influence of the recent political situation, the business of Shanghai has been in a desperate state of stagnation, and the general public are in financial distress. At such a moment, the adoption of the 20 per cent. increase in the Municipal tax is grossly contrary to public opinion and a menace to the welfare of society. Furthermore, this matter, which concerns the financial burden of the residents in Shanghai, has not been in any way whatsoever, brought to the knowledge and endorsement of the Chinese and the resolution was passed by the foreigners alone. This action is apparently contrary to the provision contained in the notice from the Chinese local Authorities to the Consular Body at the time of the extension of the Settlement.

I, therefore, in the interests of the public, and in accordance with public opinion, do hereby protest against the enforcement of the resolution of the Foreign Ratepayers' Meeting to the effect that the 20 per cent. Increase in the Municipal Tax will be carried into effect from the 1st of July.

Kindly take notice and give the necessary notification for the voluntary cancellation of the above increase, in order to keep in line with public opinion and to pacify the general public.

I have, etc.

KUO TAI CHI,
Commissioner for Foreign Affairs.

N. AALL, Esq.,
Consul-General for Norway and Senior Consul.

Council Chamber,
Shanghai, June 8, 1927.

SIR,—I have the honour to acknowledge receipt of your letter dated June 1, enclosing copy of a translation of a letter dated May 24 received from the Commissioner for Foreign Affairs regarding a proposed increase in Municipal taxation.

In reply I have the honour to inform you that the decision to increase the General Municipal Rate from 14 per cent. to 16 per cent. (which of course is not a 20 per cent. increase as alleged) was reached at the Annual Meeting of Ratepayers held on April 13, 1927, in strict accordance with the terms of Land Regulation No. IX under which the meeting was as usual convened. I have further the honour to point out that in proposing this increase of taxation for the approval of the ratepayers the Council followed the usual procedure in every respect; and the statement made in the letter from the Chinese Ratepayers' Association to the Shanghai General Chamber of Commerce as to the approval of the local Chinese authorities being necessary is not therefore understood.

In conclusion I have to state that the increase complained of is actually no more than 2 cents per month upon each dollar of rental paid by the occupiers of houses, that this extra tax falls equally upon the whole community, Chinese and Foreigners alike, and that the revenue so to be obtained is necessary in order to enable the Council to meet the expenses for the current year. It is hardly necessary to say that in prevailing circumstances of trade depression these expenses have been cut down by the Council to the lowest possible limit and that it is only with great reluctance that the Council has been compelled to have recourse to the addition of 2 per cent. to the General Municipal Rate.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

N. AALL, Esq.,
Consul-General for Norway and Senior Consul *ad interim.*

Senior Consulate,
Shanghai, May 20, 1927.

SIR,—I have the honour to transmit herewith a translation of a communication which I have received from the Commissioner for Foreign Affairs and which is self-explanatory.

I should be glad to receive a statement of the position of the Municipal Council in regard to this matter in due course.

I have the honour to be,
Sir,
Your obedient servant,
N. AALL,
Consul-General for Norway and Senior Consul.

S. FESSENDEN, Esq.,
Chairman, Municipal Council.

Commissioner for Foreign Affairs to Senior Consul.
May 14, 1927.

SIR,—I have the honour to transmit below the contents of a communication forwarded by the Wu Pei Public Works and Tax Bureau:

We are in receipt of a letter from Shao Hsiao-tzu as follows:

"I live at No. 2 Hou To Chieh, North Szechuen Road which is altogether in Chinese territory and my landlord is a Chinese citizen. The Shanghai Municipal Council have again sent men to me demanding that I pay the quarterly Municipal tax. The collector further stated that if I failed to pay these taxes they would cut off my water supply. I wish, therefore, to request you to advise me as to what I should do about this."

Although during the time of the Ch'ing dynasty the Shanghai Municipal Council gradually encroached upon the rights of the Chinese Government by building roads outside Settlement limits, for example North Szechuen Road, jurisdiction over these districts along both sides of this road remains with the Chinese Authorities and it is, in consequence, expedient to curb such foreign encroachment. We therefore request that you will take such steps as will cause the Shanghai Municipal Council to refrain from collecting these irregular taxes outside the limits of the Settlement.

In view of the above I have the honour to request you to take due note and to give orders that such tax collecting be stopped in future.

I have, etc.

KUO TAI-CH'I.
Seal of Commissioner for Foreign Affairs.

Council Chamber,
Shanghai, June 9, 1927.

SIR,—I have the honour to acknowledge receipt of your letter of May 24 enclosing a translation of a letter, addressed to you by the Commissioner of Foreign Affairs under date of May 20, upon the general subject of the collection by the Municipal Council of rates upon property situated outside of the territorial limits of the Settlement, and requesting my comments on the Commissioner's letter.

The expansion of the Settlement to which the Commissioner alludes is not the result of a deliberate intention of the Council to expand the Settlement but has been caused by the influx of large numbers of Chinese into the Settlement who apparently fully appreciate the strik-

ing contrast between the protection, sanitation, and public utility services which they receive under the ægis of the Municipal Council as compared with that which they receive in purely Chinese territory under Chinese sovereignty.

The Council is fully aware that it has no power to enforce compulsory taxation upon property outside the Settlement, and it has not attempted to do so. It has, however, been the fixed policy of the Council for many years to reserve to itself the right to refuse to extend police protection and public utility services to people living outside the Settlement unless these people voluntarily contribute to the Council's revenue under a special rate adopted by the Council to meet these special conditions.

The revenue derived from this special rate is applied to the general expenses of road maintenance, police protection, and similar matters.

There is no discrimination against the Chinese in the application of this rate as it is applied to people of all nationalities who live outside the Settlement.

The Commissioner of Foreign Affairs claims that the Council has forcibly put number plates upon houses in Chinese territory. I am informed that in no case does the Council forcibly put up number plates, but that on the contrary the Chinese concerned appear to be only too glad to have the Municipal plates affixed to their dwellings and to receive the privileges which they can thereby obtain.

The Council has always been and still is reluctant to exercise its power of withholding light, water, telephone service and police protection from people living in Chinese territory abutting on Municipal roads even when clearly entitled to do so but in the event of a general refusal on the part of the Chinese to voluntarily contribute under the special rate which I have explained above, the Council will have no alternative but to exercise its undoubted powers.

I trust, therefore, that the Commissioner of Foreign Affairs will appreciate the reasonableness of the Council's attitude in this matter and use his good offices to prevent any misunderstanding over an arrangement which has apparently worked very satisfactorily to all concerned for many years.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

Consul-General for Norway and
Senior Consul *ad interim*.

With regard to his further recommendation that the Municipal Open Air Swimming Pool, Kiangwan Road, should also be available to members of the foreign forces on payment of the usual admission fee, since the facilities for the general public will be restricted by granting the troops the exclusive use of the Swimming Bath, members are unable to endorse the latter recommendation. Armed Abduction.—On the morning of May 17 a Chinese boy aged twelve years was held up on the Kangping Road whilst proceeding to school in a private ricsha and forcibly abducted by five armed men who took him away in a motor car. Letters have since been received by the boy's relatives demanding a large sum of money for his release.

Robbery.—One hundred and thirty-two reports of armed robbery from premises and twenty-eight on the highway were received during the month. Shots were fired by the robbers in twenty-three instances resulting in the death of a Sikh watchman and the wounding of a Chinese Constable and seven Chinese civilians. Two robbers were fatally wounded by the police.

In connexion with the above and reports of armed robberies occurring prior to May 1, 101 persons, 12 of whom were in possession of loaded firearms, were arrested. Three died from wounds received at the time of arrest, five were sentenced to imprisonment, fourteen were dismissed and seventy nine were on remand at the end of the month. Of 123 persons on remand at the end of April charged with armed robbery, 9 were dealt with during the month. Four were sentenced to imprisonment and five were dismissed. Twelve men on remand for being in possession of firearms for an unlawful purpose were further charged with armed robbery. Three were sentenced to imprisonment, two were handed over to the Chinese Authorities and seven are under remand. Thirteen persons, two of whom were in possession of loaded firearms, were arrested for being members of a gang of armed robbers and are under remand. Of six persons arrested in connexion with these cases two were sentenced to imprisonment, three were handed over for trial and one is on remand. Four of the twenty-one men on remand charged with robbery were dealt with. Two were sentenced to imprisonment and the charges against two were dismissed.

Trafficking in Firearms, etc.—One Chinese was arrested for trafficking in firearms when one pistol was seized. He was sentenced to imprisonment. Fourteen Chinese were arrested for being in possession of firearms for an unlawful purpose. Four were sentenced to imprisonment, one was fined and nine are on remand. Five men on remand for this class of offence were dealt with. Four were sentenced to imprisonment and one was acquitted.

Property Stolen.—594 reports made under this heading during the month represent an estimated loss of $273,551 and include 40 cases of burglary, 14 of house-breaking, 8 of godown-breaking and 32 of shop and office-breaking. Successful investigation was made in 145 cases, resulting in the recovery of property valued at $28,089, in addition to which recoveries to the extent of $26,710 were made in connexion with reports received prior to May 1. In addition, successful results were obtained in six cases reported as having occurred out of Settlement limits and in two instances where the property was reported as lost.

Crime beyond Settlement Limits.—Forty-five cases of robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In three instances shots were fired.

Executions.—Twenty-two Chinese were executed by the local Chinese Authorities for crimes committed in the International Settlement. A number of persons, including twenty soldiers, were also executed for offences committed in Chinese territory.

Military Situation.—The outstanding feature of military activity locally during the month was the engagement on May 18 between three ships of the Tsingtao Squadron and the Woosung Forts. The ships arrived secretly at Woosung about 10 a.m. on the date in question and opened fire on the Forts which immediately retaliated with their long range guns. The cannonading lasted half an hour after which the ships withdrew. The civil war was further reflected locally in the commandeering of steam launches and boats belonging to Chinese concerns, the raising of loans under pressure from merchants, landlords and other members of the wealthy classes, and the usual depression in trade.

Anti-Foreign Agitation.—Anti-foreign feeling, which declined following the anti-Communistic coup on April 12, was revived to a remarkable extent in the latter part of May. The change undoubtedly resulted from the large number of meetings held during the month which were marked by the delivery of speeches and distribution of literature of a distinctly anti-foreign nature. Celebrations took place in commemoration of Labour Day, May 1, the establishment of the Nationalist Government at Nanking, May 5, National Humiliation Day, May 9, memorial rites for Sun Chung Shan, May 18, and the Nanking Road incident on May 29 and 30. On the occasion of the observance of May 30, mass meetings were held simultaneously in the Public Recreation Ground, West Gate, Ching Yuin Road, Chapei, and Pootung. These gatherings were attended by 15,000, 10,000, and 5,000 people respectively. At the Public Recreation Ground speeches, which were almost entirely anti-foreign, were made by a student of a local university and representative of the Shanghai Students' Union, by the Chief of the Political Depart-

ment of the Nationalist Army on the Eastern Front and several other prominent Kuomintang propagandists. Similar proceedings took place at Ching Yuin Road, Chapei, where speeches were delivered by the Chief of the Organization Department of the Unification Committee of the Shanghai Labour Unions and by a representative of the Political Department of the Chinese Navy, Shanghai Squadron. Speeches in the same strain were delivered at the third meeting in Pootung. In addition to the usual resolutions passed at the conclusion of these meetings, demands were made that the Shanghai Defence Force be withdrawn, that the Settlements be restored to China and that negotiations be opened for the settlement of the May 30 incident. The slogans of the day advocated the destruction of Imperialism, vengeance for the May 30 martyrs, abrogation of unequal treaties, the restoration to China of all Foreign Settlements, the destruction of communism, the emancipation of the peasants and the elimination of corrupt members of the leisured classes. Handbills advocating views similar to those expressed in the speeches were distributed at various meetings and among impromptu audiences which collected in the streets to listen to agitators. In the Settlement, several small parties of Chinese students visited Nanking Road in the forenoon of May 30 and made brief speeches on the May 30 incident to pedestrians. They also occasionally shouted slogans such as "Down with the imperialists," "Down with the communists" and "Down with Chiang Kai-shek." Disorderly crowds collected as a result of these activities on Nanking Road, near Chekiang Road, and threw stones at Constables on duty there, but dispersed on the appearance of police reinforcements.

In the forenoon of May 29 a party of Nationalist soldiers stationed near the Kiangnan Arsenal opened fire on several racing yachts belonging to a local foreign club, and made a similar attack on the afternoon of that date on a foreign owned motor house boat. The people on the boats fired on included women and children as well as men but fortunately none of them were injured. It has been alleged that this incident occurred in defiance of an assurance given by the Chinese Authorities that the foreign sailing boats would not be molested.

Communist Activities.—Notwithstanding the disbandment of the "Supervisory Labour Corps," the execution of several communists and the suppression of the subversive organizations, the Chinese Communist Party is still active. While the work of the party is conducted in secret, there is evidence that the General Labour Union and several other secret Communist centres remain intact. Apart from the time when the Communist Party conducted its activities openly following the advent to power of the Kuomintang, its secret propaganda is at present practically as vigorous as it was at any period since the movement was first started in this country. The Communist programme is now being furthered by secret meetings of students and working people, surreptitious distribution of pro-Communistic and anti-Chiang Kai-shek handbills, and the maintenance of secret bases where recruits are engaged for the Wuhan Armies. There is good reason to believe that the handbills disseminated are imported from Hankow as the local Communists find the difficulties in the way of getting such literature printed locally insurmountable. It has been noted that the Communists, in addition to conducting independent propaganda of their own, are again endeavouring to gain a footing in the Nationalist Party. It is stated that agents engaged for this work will pose as Nationalists, but by subtle means will inject doctrines calculated to prepare the way for the establishment of "Red" rule into the propaganda of that party.

Agitation against Municipal Council.—Agitation conducted against the Municipal Council during the month included a proposal for the re-organization of that body itself, advocacy of the retrocession of the Settlement, a suggestion that the extraconcessional roads be placed under Chinese control, a demand for the removal of the military barricades and a protest against the proposed increase of the Municipal rates. The promoters of these movements and their followers consisted entirely of interested individuals and professional agitators, except in the case of the opposition to the increase of the new taxes which seems to be receiving a wide measure of support.

Agrarian Agitation.—Simultaneously with the demands made upon landlords for contributions to the war chest of the Nationalist Army, the tenants in occupation of their houses started a movement for the reduction of house rents. Trade depression resulting from disturbed conditions locally and in the interior were advanced as pretexts for this campaign.

Indian Affairs.—The subversive foreign agents, who for almost a decade have been propagating Communism among Chinese, have for the past year extended their activities to the creation of discontent among the Indian Community in China. Means employed for the furtherance of this object include the delivery of vehemently seditious speeches at secret meetings and the circulation through the medium of the post of inflammatory publications imported from foreign countries and the ports of China which are ruled by pro-Communist elements. These secret activities culminated in an effort to create disaffection among Indian members of the Shanghai Defence Force in March 1927. Three men concerned in the movement were successfully prosecuted and were sentenced at H. B. M.'s Supreme Court on April 8 to 18 months' imprisonment each with hard labour and deportation. Undaunted by the arrest of these parties, a Sikh named Harbar Singh, who undoubtedly was acting at the instigation of the seditious elements, shot dead Sirdar Sahib Buddha Singh, Senior Indian Inspector, on April 6 at the entrance to the Central Police Station. Information was received at the time that this dastardly outrage was intended to be the prelude to a movement aiming at causing a strike among the Sikh Branch of the Municipal Police. The murder of a senior employe in furtherance of this aim was in accordance with the method followed when a serious strike took place in the Shanghai Electric Construction Company in January 1927. The plans for the strike were, however, prevented from coming to a head by the arrest of several Indians who, because of close association with the assassin and for other reasons, were suspected of being acquainted with the plans of the group on whose behalf Harbant Singh had acted. Being apparently dissatisfied with the failure of their colleagues hereto create disorder, seditious Sikhs in Hankow, who were pursuing their activities openly, sent emissaries to Shanghai about the middle of April. So important was this mission considered that a special Russian agent of the Cheka accompanied one member of it on the journey to Shanghai. Early information received as to what was happening, however, once more enabled the police to frustrate their designs. Measures taken against the emissaries from Hankow seriously obstructed their activities from the date of arrival, and resulted in the arrest of both of them early in May.

Strikes.—As compared with April when no less than 23 strikes resulting a loss of 47,145 working days occurred, there were only three strikes in May and the total number of working days lost was only 2,670. The three disputes which occurred affected 130 employes of a lumber yard, 8 workers in a printing establishment and 800 coolies employed in Chinese shipping hongs. In the first two instances the strikers were dismissed and replaced by new hands but the shipping hong coolies were given a flat increase of $5.00 per man. The gains accruing to industry from the small number of strikes during May were, however, to a great extent offset by the number of working days lost through large bodies of workers taking leave on no less than three different dates for the purpose of attending political meetings organized under official auspices. The paucity of industrial disputes may be attributed to the measures adopted against the active adherents of Communism and to a fall in the price of rice. This cereal, which cost $16.58 per picul on an average for April, fell to $15.89 per picul in May.

Traffic.—Court proceedings were instituted in 185 (34 Foreigners and 151 Chinese) of 1,260 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The

remainder were dealt with by letter of warning or entry of caution on their records.

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, JUNE 24, 1927. No. 1083

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(*Translation*)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

Barbed Wire Barricades.—The attached correspondence between the Senior Consul and the Council relative to requests, transmitted by the Commissioner for Foreign Affairs, for the removal of the barbed wire barricades on Boundary, North Chekiang and Elgin Roads, is published for general information:

Senior Consulate,
Shanghai, June 13, 1927.

SIR,—I have the honour to inform you that I am in receipt of a communication from the Commissioner for Foreign Affairs in which he quotes a Petition forwarded to him by certain residents in North Chekiang and Elgin Roads regarding the wire barricades erected by the Council in that district.

This Petition states that owing to the hindrance caused to business by these barricades a number of shops have been compelled to remove to other places, but the Petitioners themselves, owing to the fact that they are in a very small way of business, are unable to move. They are, however, suffering considerable hardships owing to loss of business and request the Commissioner to use his good offices to obtain the removal of the obstructions complained of.

I should be glad if you would inform me whether, in the view of the Authorities, there is any likelihood of these wire barricades being removed in the near future and whether those on the Boundary Road, which are also mentioned, are in the same position.

I have the honour to be,
Sir,
Your obedient servant,
N. AALL,
Consul-General for Norway and Senior Consul.

S. FESSENDEN, Esq.,
Chairman, Municipal Council.

Council Chamber.
Shanghai, June 16, 1927.

SIR,—I have the honour to acknowledge receipt of your letter of June 13 in reference to a communication received by you from the Commissioner for Foreign Affairs concerning the barbed wire barricades in the Boundary, North Chekiang and Elgin Roads.

In reply I have to state that in order to facilitate the business of the residents of that district as far as possible certain alterations in the wire barricades are already being undertaken.

In this connection I should like to point out that it is the Council's earnest desire, no less than it is that of the Commissioner for Foreign Affairs, to secure the resumption of normal conditions at the earliest possible date; but that all efforts to bring this about are frustrated by the intensive campaign of anti-foreign publicity which is being conducted in Chinese territory outside the limits of the Settlement, apparently under the auspices of the local Nationalist authorities.

I need hardly say that in face of action of this nature, which is deliberately calculated to arouse the worst passions of the ignorant masses, the Council finds it impossible to consider the adoption of measures which, had circumstances been different, might properly have been put into effect before this time.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

N. AALL, Esq.,
Consul-General for Norway
and Senior Consul.

In reply thereto, I am directed to inform you that, in view of the obvious betterment conferred on this lot by the construction of Hart Road, the Council is of opinion that the area measuring Mow 0.129, shown hatched red on the accompanying plan, required for the construction of half the width of the road, should be surrendered without compensation.

In the circumstances, I am directed to offer compensation for the remaining area shown hatched yellow at the new assessed value of the lot, *i.e.* Tls. 4,300 per mow, plus 10 per cent. for compulsory surrender, or a sum of Tls. 270 for the area of Mow 0.057 involved; and I shall be obliged if you will kindly inform me whether this offer is acceptable.

Public Health Report for May.

The health of the community continued to be satisfactory, the incidence of communicable disease being low, and the death rates among both Foreigners and Chinese being well below normal.

There were two deaths from Smallpox among the Chinese and two cases of Scarlet Fever were notified among foreign residents.

Special attention was given to the sale of food and drink among hawkers, and Municipal notifications were published prohibiting the sale of unsound and dangerous foods and drinks and those specially liable to dangerous infection. Over two hundred prosecutions were made for breaches of regulations for the protection of the food and drink supply.

A large number of samples of ice-cream from licensed premises were tested bacteriologically in the Municipal Laboratory, and with few exceptions found to reach a satisfactory standard of purity.

In view of the exceptional risks of contamination of food in Shanghai, the standard of purity is a high one and ice-creams have to be made under sterile conditions in licensed premises. No license is issued until the applicant has submitted a sample that has reached the necessary standard of purity. Outbreaks of Typhoid Fever, Scarlet Fever, Diphtheria and other communicable diseases have been traced to infected ice-cream, and the same precautions should be taken for its purity as for the purity of milk.

The presence of the military forces in Shanghai, and the urgent necessity of making their billets and encampments as healthy as possible, has enabled several measures of sanitary importance to be put into force, which for years have been striven for by the Police, Public Works and Public Health Departments.

The approach of summer makes it advisable to review our habits concerning food, clothing, exercise and rest.

It is wise for most people to reduce their usual amount of food, especially meat. Two good meals a day are enough for anybody, a good breakfast and a good dinner at the end of the day's activities with a light tiffin and a light tea if desired.

Food should be as fresh as possible, and not over cooked, in order to conserve its vitamins, which are essential to health and growth. Foods rich in vitamins are milk, butter, cheese, eggs, green vegetables, salads, fruits and whole-meal cereals. Foods rich in "good" proteins, that is to say, tissue-building foods, well constituted for human consumption, are meat, fish, eggs, milk and cheese.

Raw salads, unfortunately, are unsafe in Shanghai, on account of the Chinese methods of fertilising vegetable gardens. The question is often asked "Are no fruits and salads made safe to eat by washing in solutions of alcohol, potassium permanganate (Condy's Fluid), formalin, chlorine water and other discovered, which will uniformly kill all pathogenic organisms, as those of Typhoid, Paratyphoid, Cholera, Bacillary Dysentery, all protozoal cysts as those of Amoebic Dysentery, and all worm's eggs, is to immerse fruits and vegetables for at least 10 seconds, in briskly boiling water.

Clothing should be loose and light, so that the skin may be well-ventilated. The ill effects of the hot, moist, stagnant atmosphere of the summer are often aggravated by a hotter, moister more stagnant atmosphere, under the clothing, next to the skin. The body has an innate power of resisting cold, and far more harm is done by being too heavily than too lightly clothed. The atmosphere next to the skin should be kept as cool, dry and

free as possible, by wearing loosely woven cotton or linen garments occasionally changed during the day and always after exercise when a warm bath should be taken followed by a rub down with a cold sponge or a tepid shower bath. Silk and wool are less absorbent than linen and cotton, and the fibres of wool, imbricated like tiles upon a roof, irritate the skin and increase the tendency to prickly heat. Exercise is best taken in the early morning about sun-rise, and in the late afternoon. It should be pleasurable and stimulating, and moderate enough not to cause fatigue.

In hot climates to take a "siesta" in the middle of the day is a physiological instinct. After a long morning's activity, it is the appeal of the fatigued and congested brain for Nature's soothing and restoring remedy, and whenever possible should be yielded to, for it cannot be refused with impunity.

In such matters of personal hygiene, as was once said, every man is either a fool or a physician.

Here follow Tables of Vital Statistics, Communicable Disease and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

Commissioner of Public Health.

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, JULY 1, 1927. No. 1084

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

By order,
S. M. EDWARDS,
Secretary.

Municipal Taxation.

Further correspondence, relative to the increase of 2 per cent. in municipal taxation, is published for general information:—

Translation of Note to the Secretary of Council from The Shanghai Federation of Street Unions, dated June 14, 1927.

The writer says he is informed that the General Municipal Rate will be raised from 14 per cent. to 16 per cent. as from July 1 next. He says that this increase does not receive the approval of the Chinese ratepayers. Furthermore, owing to the dullness of trade, the people cannot meet this additional burden; also it is contrary to law and facts, and he asks that the decision to increase Municipal rates be rescinded, as it will be very difficult for Chinese to comply with the order.

The writer asks the Council to take note and to act accordingly.

Council Chamber,
Shanghai, June 22, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of June 14, protesting against the increase in General Municipal Rate from 14 per cent. to 16 per cent. with effect from July 1 next.

In reply thereto, I am directed to inform you that this increase, which was sanctioned by the Ratepayers at the Annual Meeting on April 13, falls equally upon the whole community, Chinese and Foreigners alike, and that the revenue accruing therefrom is necessary to enable the Council to meet current expenses and to maintain its public services without loss of efficiency. Inasmuch as the increased tax amounts to only 2 cents on each dollar paid in rent, the Council is unable to admit that the burden is excessive, or beyond the capacity of householders to bear.

I am directed to add that, in view of the present depression in trade, the Council has cut down both ordinary and extraordinary expenditure to the lowest possible limit, thereby avoiding the necessity of making still greater calls on the resources of ratepayers.

I am, Gentlemen,
Your obedient servant,
S. M. EDWARDS,
Secretary.

Restaurant Licences.

The following correspondence, relative to the non-issue of restaurant licences on Broadway, between Chaoufoong Road and St. Andrew's Church, is published for general information:—

Shanghai, June 15, 1927.

DEAR SIR,—It has been brought to my notice that a restaurant licence has been applied for in Broadway, between Chaoufoong Road and St. Andrew's Church. I understand that up to the present the Licensing Committee have made a point of granting no licences along this piece of Broadway. On behalf of the Missions to Seamen I should like to say how grateful we are to them for this policy, and that we sincerely trust that they will adhere to it.

A large number of seamen from all parts of the river from No. 36 Broadway upwards land regularly at Chaoufoong Road Jetty and come from there to the Missions to Seamen; and it is of great benefit to them that that part of Broadway is clear of all licensed houses of any description. Working in Broadway and knowing what our seamen are up against in this part of the town, I most sincerely trust that the Licensing Committee will adhere to their old ruling.

Apologising for troubling you, and thanking you in anticipation.

I remain,
Yours truly,
T. W. HALL,
Chaplain, The Missions to Seamen.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 24, 1927.

SIR,—I am directed to acknowledge receipt of your letter of June 15, protesting against the issue of a restaurant licence for premises between Chaoufoong Road and St. Andrew's Church.

Your reference to the policy of the Licensing Committee suggests that a licence involving the sale of alcoholic liquor is referred to, though no applications of this nature have been received lately. I am directed, however, to inform you that the Council, recognizing the claim of the Missions to Seamen for protection in this matter, is generally opposed to the establishment of restaurants, either with or without permission to sell alcoholic liquor, in Broadway between Chaoufoong and Yuenfong Roads, and that restaurant licences have recently been refused for premises at 773 Broadway and 918-9 Broadway.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Rev. T. W. HALL,
Chaplain,
The Missions to Seamen.

Advertisement Hoardings.

In terms of the following correspondence, it has been decided to remove certain advertisements in the vicinity of Jessfield Park:—

Shanghai, June 14, 1927.

SIR,—Do you mind my drawing your attention to a very misplaced beer advertisement erected near the footbridge spanning the public pathway in Jessfield Park?

I think I speak for many persons when I say that we hope this is not the forerunner of systematic advertising in the parks, which, I submit, Sir, should be a matter of serious thought before being permitted.

Is it possible for you to bring about the removal of the advertisement to which this letter refers?

Most truly yours,
ARTHUR AKEHURST.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 22, 1927.

SIR,—I am directed to acknowledge receipt of your letter of June 14, on the subject of an advertisement erected near the footbridge spanning the public pathway in Jessfield Park, and, in reply, to inform you that instructions have been given for the removal of the advertisement referred to forthwith.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Road Extensions and Widenings.

Dalny Road.—Negotiations have been concluded with Messrs. Atkinson & Dallas, Ld., for the acquisition of Cadastral Lots 1541 and 1549, measuring a total area of Mow 1.056, for a sum of Tls. 5,437. Of this area, Mow 0.686 is required for the scheduled widening of Dalny Road; the balance area of Mow 0.370 remaining available for disposal as surplus land.

Woosung Road.—Negotiations have been concluded with The Shanghai Land Investment Co., Ld. for the surrender of an area of Mow 0.101, required from Cadastral Lot 1017 for the scheduled widening of this road, at the new assessed value of the lot, *i.e.*, Tls. 55,000 per mow, plus 10 per cent. for compulsory surrender, or a sum of Tls. 6,110.

Excerpts from Minutes.

At the meeting of the Works Committee on Wednesday, June 15, 1927 at 4 p.m., there are present:— Messrs. A. D. Bell, *Chairman*, W. R. B. McBain and T. H. R. Shaw.

The Minutes of the last meeting are confirmed and signed.

The meeting adjourns at 4.45 p.m.

At the meeting of the Finance Committee held on Friday, June 17, 1927, at 4 p.m., there are present: Messrs. A. D. Bell, S. Fessenden and H. B. Roe.

Election of Chairman.—Upon the proposal of Mr. Roe, seconded by Mr. Bell, Mr. Fessenden is re-elected Chairman of the Committee.

Land Assessment—Appeals.—The appeals in respect of the recent assessment of land in the Central and Eastern Districts are submitted, together with comments by the Land Assessors. The circumstances in connexion with each appeal are carefully examined as a result of which the assessed valuations are confirmed, subject to the following exceptions.

CENTRAL DISTRICT.

Cadastral Lot 445 D—E. Denegri.—In view of the reasons upon which this protest is based, members endorse the recommendation of the Land Assessors that the assessment in respect of this lot should be reduced to Tls. 30,000 per mow.

Cadastral Lot 281—Moorland, Heise & Robinson.—In this case, members support the view of the Assessors that the revised Assessment is on too high a basis as compared with neighbouring lots and a reduction to Tls. 70,000 per mow is accordingly recommended.

Cadastral Lot 436—McNeill & Wright; and Cadastral Lot 293A—Ryder, Ryder, Druce, Tetley and Clark.—The recommendation of the Assessors is endorsed that the assessments of the above two lots be reduced to Tls. 72,000 and Tls. 75,000 per mow respectively.

EASTERN DISTRICT.

Cadastral Lot 3842—British Cigarette Co. Ld.—In this case, the Committee supports the recommendation of the Assessors that the assessed value of this lot be reduced to Tls. 3,600 per mow.

Cadastral Lot 2130—S. E. Shaimoon & Co.—For the reason that the assessment of this lot is high compared with the valuation placed on neighbouring lots, a reduction to Tls. 4,900 per mow is recommended.

Cadastral Lot 7248—M. E. H. Wells.—This protest is on the ground that the revised valuation is too low and since the Assessors, when considering the value of this lot, did not appreciate that the section of Weihsien Road immediately north of Hochien Road, although not actually surrendered, has in fact been constructed, their recommendation is endorsed that for this reason the assessment should be increased to Tls. 2,500 per mow.

With regard to the assessment of Cadastral Lot 7249 on the opposite side of the road, the view of the Assessors is that for the same reason the assessment in this case should be increased to Tls. 2,500 per mow is endorsed, but since no protest against this particular assessment has been received which precludes variation in the assessed value at the present time, it is recommended that when the next re-assessment of land values is undertaken the assessment of this lot be adjusted accordingly.

Cadastral Lot 1872—Credit Foncier d'Extreme-Orient.—For the reasons advanced in support of this protest, members endorse the recommendation of the Assessors that the assessment of this lot be reduced to Tls. 3,900 per mow.

The meeting adjourns at 4.45 p.m.

At the meeting of the Electricity Committee held on Friday, June 24, 1927, at 4.30. p.m. there are present: Messrs. H. W. Lester, *Chairman*, A. D. Bell, C. J. Knipschildt, K. Kuroda, and W. R. McBain.

The meeting adjourns at 6.30 p.m.

THE GENERAL MUNICIPAL RATE.

(*Translation*)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

Removal of Barricades.—Correspondence relative to the removal of the barbed wire barricades on Sinza Road and Markham Road Bridges, and also as to the ownership of the latter bridge, is published for general information:—

Shanghai, June 9, 1927.

SIR,—I have the honour to transmit herewith a translation of a communication which I have received from the Commissioner for Foreign Affairs regarding the barricades on Sinza Road Bridge and Markham Road Bridge.

I should be glad if you would give the contents of this communication your consideration and inform me in due course of the Council's views thereon.

I have the honour to be,
Sir,
Your obedient servant,
N. AALL,
Consul-General for Norway and Senior Consul.

S. FESSENDEN, Esq.,
Chairman,
Municipal Council.

Bureau for Foreign
Affairs, Shanghai.
May 27, 1927.

SIR,—The following is a reproduction of a communication received by me from The Chapei Chamber of Commerce:

"We are in receipt of a letter from "The Wu Feh Rice Dealers Association" as follows:

"Piers along Sinza District are important business centres where numerous rice-boats congregate. The entire food supply to the International Settlement and Northern Shanghai came from this source. When war broke out this time, the Authorities of the International Settlement hastily erected barbed wire barriers on Sinza Road Bridge, and Mark-

ham Board Bridge, thus obstructing the whole traffic. The numerous rice-boats in the Soochow Creek were thereby unable to discharge and land their cargo. In consequence of this obstruction, imports of rice have been reduced and the price of rice has steadily gone up as the result of the shortage in the supply.

"Later on, however, when the Nationalist Army occupied Shanghai and the entire South-Eastern Portion of the Republic, and after they did away with all the Communists, peace and order have been restored in Shanghai. The Settlement Authorities, however, have so far only opened the sidewalks on these bridges but wire barriers still remain on the main body of these bridges. Not only are heavy loaded trucks and handcarts still debarred from crossing these structures, even pedestrians have to wait for some considerable time, before they can pass over them, eventually spoiling their clothing torn by the wire barriers. The rice hongs, factories, shops, dealers have suffered heavily on account of the hindrance to transportation, the long distance they take, the increasing cost of conveyance, and the loss of considerable time.

"Now, the Nationalists are being victorious all along the lines. They have crossed the river from Nanking to Pukow and are successfully marching northwards. Therefore, all districts south of the Yangtse River are definitely quiet and tranquil. There is no necessity for the continued presence of these obstructions.

"Furthermore it is remarkable that the Woosung Kiang (river) is under the jurisdiction of the Republican Government and the Sinza Road Bridge and Markham Road Bridge were built by the Chapei municipality. The intrusion of the Municipal Council in erecting these barbed wire barriers outside of their boundary is a serious encroachment on the sovereignty of the Chinese Republic. We have called a meeting of Rice Merchants Association, and we have unanimously agreed to write you urging for the matter to be brought up with the Settlement Authorities with whom a vigorous protest should be lodged. We further demand that these Authorities should at once destroy and remove the barbed wire barriers from these two above-mentioned bridges in order to facilitate communications. We further reserve our right of reparation of our losses.

"We have, therefore, the honour to transmit the above, for your information and shall feel obliged if you will have same dealt with accordingly."

In accordance with the above, I have the honour to ask you to take notice and to notify the Shanghai Municipal Council that they should remove at once those barriers on the two bridges in question.

I am looking forward to your reply.

I have the honour to be,
Sir,
Your obedient servant,

Council Chamber,
Shanghai, June 25, 1927.

SIR,—I have the honour to acknowledge receipt of a letter dated June 9, from Mr. Aall, Senior Consul, *ad interim*, forwarding a translation of a letter received from the Commissioner for Foreign Affairs, protesting against the erection of barricades by the Council on the Sinza Road and Markham Road Bridges.

In reply thereto, I have the honour to state that these barricades have been removed, but that in the case of the Markham Road Bridge, it would appear advisable to correct the statement made in the letter from the Bureau for Foreign Affairs to the effect that this bridge was built by the Chapei Municipality.

The negotiations leading to the construction of the Markham Road Bridge are set forth in the Council's Report for 1904 (pp. 321—323) and in 1905 the original bridge was built by the Council, at the request of Messrs. Algar & Beesley, at a cost of Tls. 22,494 which was defrayed by their clients, a syndicate of Chinese landowners. In 1916—1917 the central span was reconstructed by the Council at a cost of Tls. 12,512 of which Chapei merchants subsequently contributed a sum of Tls. 2,000.

I have the honour to request that you will be good enough to communicate the foregoing facts to the Commissioner for Foreign Affairs.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,

Insanitary Chinese Dwellings.

In the *Municipal Gazette* of January 21, March 11, and April 29, 1926, notice was given of the Council's plans for the demolition of certain bamboo and mud huts within the Settlement boundaries which were considered dangerous to public health. Correspondence thereanent between the Senior Consul and the Council relative to a protest received from the Commissioner for Foreign Affairs, is published for general information:—

Senior Consulate,
Shanghai, June 16, 1927.

SIR,—I have the honour to transmit herewith a translation of a letter which has been addressed to me by the Commissioner for Foreign Affairs regarding the demolition of certain straw huts in the Eastern district of the Settlement.

I should be glad if the Council would consider the contents of this letter and inform me in due course of the result of your deliberations in order that I may reply to Mr. Kuo Tai-ch'i.

I have the honour to be,
Sir,
Your obedient servant,

Municipal Council.

Commissioner for Foreign Affairs to Senior Consul.
Shanghai, June 15, 1927.

SIR,—I have the honour to quote below the contents of a petition submitted by Hsu Fu-yun, representative of the famine refugees residing in Yangchow Road, Pingliang Road, Meichow Road, and Ward Road in the International Settlement:—

"Your Petitioners are famine refugees engaged in coolie work. Owing to the high cost of living at this port their earnings are insufficient to meet their expenses. Particularly in view of the high rents prevailing in Shanghai these poor people have built straw huts to live in the Settlement. During the last few years the Shanghai Municipal Council have sent Police several times to dismantle and burn these huts, and representations were made by the Kiang-Pei Guild.

"On the 9th day of the current moon the Municipal Council, without giving any warning and without listening to argument, sent police to that district and, starting from the Meichow Road they destroyed every hut leaving none untouched. The number destroyed amounted to several hundred homes. The victims have now no place to live in nor have they any means of getting back to their native places and are in such desperate straits that they are very anxious as to what they can do. As they are afraid of being molested again, they sent a delegate to the Bureau for Foreign Affairs to request assistance."

I have also received a similar petition submitted by the same delegate to the Commander-in-Chief.

I have the honour to state that these people are in very wretched condition and I should, accordingly, be glad to learn whether or not these straw huts along Yangchow Road, etc., could be left untouched so that these poor people will not be made homeless.

Kindly take due note of the above and notify the Municipal Council requesting them to use their best efforts to refrain from demolishing these huts or, should that be impossible, to pay adequate compensation to the sufferers.

I have, etc.,

Seal of Commissioner for Foreign Affairs.

Council Chamber,
Shanghai, June 28, 1927.

SIR,—I have the honour to acknowledge receipt of a letter dated June 16, from Mr. Aall, Senior Consul *ad interim* forwarding a translation of a letter from the Commissioner for Foreign Affairs on the subject of the demolition by the Council of certain straw and mud huts in the Eastern District of the Settlement.

In reply thereto, I have the honour to state that the presence of these insanitary huts is considered a grave menace to the health of the community, that they were erected without permission and are accordingly contrary to the provisions of Bye-law 33 attached to the Land Regulations. The Council's policy is to prevent, so far as possible, the erection of new huts and to demolish such new huts as have been erected without permission and have escaped immediate detection.

In pursuance of this policy 60 huts, affecting 13 lots of land, 10 of which are registered in Foreign Consulates have recently been demolished by the Public Works Department (not several hundreds as stated by the Commissioner for Foreign Affairs), and notice of intention to demolish was given in all cases, such notice varying from 16 to 25 days. No huts have been burnt as stated in the letter from the Commissioner for Foreign Affairs.

In this connection, I have the honour to point out that the Council has endeavoured from time to time to effect the removal of these undesirable dwellings from the Settlement, but that owing to the failure on the part of the Chinese Authorities to co-operate with the Council, no effective results have been achieved.

I have the honour to be,
Sir,
Your obedient servant,

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, JULY 15, 1927. No. 1086

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. MUNICIPAL NOTIFICATION

No. 3634.

COMPLAINTS having been made to the Council that certain unauthorised persons are seeking to collect from Chinese residents of the foreign Settlement a special tax equivalent to two months' rent of the premises of the said residents NOTICE IS HEREBY GIVEN that all such exactions are illegal—that no one has been authorised by the Council to collect such a tax and that no resident is obliged to make such payments. WARNING is accordingly given that any person endeavouring to extort money by threats or intimidation will be arrested forthwith and punished without leniency and residents are urged to report all such attempts to the Police immediately.

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulations constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds" for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13 last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese Authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Commerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—to which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese Tls.	From Foreigners Tls.	Total Tls.
Land Tax	1,053,600	1,526,400	2,580,000
Municipal Rate	3,292,800	1,848,200	5,051,000
Licence Fees	963,527	453,823	1,417,350
Wharfage Dues	130,000	520,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, on a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health*, *safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 3,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office —not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 as compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents, their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence lines to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their profound gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the wilfully disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that, except for the fact that taxes are remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,668.

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this Department, therefore, now claims a very considerable share of the total municipal revenue as is shown in the table given below:—

1925	Tls. 2,372,857
1926	„ 2,582,158
1927 (estimated)	„ 2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Forthwith, a proportion of the fines, hearing and filing fees, *etc.*, received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prisoners. Now, under the new régime, no such payment is made, with the

result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 2,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6½ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued political agitation will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

Electric Burglar Alarm System.

In terms of the following correspondence, permission has been granted to the Oriental Electric Protective Association to install and operate an electric burglar alarm system in residences and places of business generally in the Settlement:—

Shanghai, June 9, 1927.

SIR,—As attorney for the Oriental Electric Protective Association, I am addressing you for the purpose of making application to the Council for a franchise for said Association to operate in the International Settlement. I will say if a franchise is given by the Council that the Oriental Electric Protective Association which now is composed of several gentlemen residing in Shanghai will immediately incorporate as a Company.

The business which my clients intend to carry on is the installation and operation of an electric burglar alarm system to be installed in residences and business places generally. Practically the same system is in operation, I believe, in most of the large cities of the world. The general plan is as follows:

1. The City will be divided into districts which will be co-extensive with your police-station districts.

2. The property to be protected will be wired and connected with the police-station of the district in which the property is situated.

3. Special apparatus, which occupies very little space, will be installed in the police-stations in the various districts.

4. After the protected property is closed and the apparatus is *set*, and a door or window or safe in the protected property is molested and/or during business hours if a hold-up is attempted, the owner of the protected place by operating a button with the foot or other concealed means will cause a serial number to flash and a bell ring in the police-station, the police thus being enabled to go directly to the point indicated.

5. The Association has negotiated with the Shanghai Mutual Telephone Company and expects in the event that the requested franchise is granted by the Council that a contract will be entered into with the Telephone Company for the rental and use of independent lines for the operation of the proposed system.

6. Representatives of the Association have consulted officials of your Police Department who seem strongly in favor of the proposed system.

7. It was at first contemplated to have all alarms go into a central office of the Association and then be relayed by direct telephone lines to the proper police-stations, but after careful consideration it is thought that the system will be much more effective if the original alarm is sounded directly in the police-station, as indicated in paragraph 4.

Inasmuch as it will require quite an expenditure of capital to procure the necessary electric apparatus it is essential that the Association obtain from the Council an exclusive franchise and it is requested that the Council grant the Association such a franchise conditional upon the understanding that the system be in operation in at least one police district within six months from the date of granting such franchise.

If the Council desires the Association to enter into any special written contract or contracts, I will be glad to go into the matter in more detail.

Requesting that this application be given as prompt attention as possible under the circumstances,

I am,
Respectfully yours,
CHAUNCEY P. HOLCOMB,
Attorney for Oriental Electric Protective Association.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, July 6, 1927.

SIR,—I am directed to acknowledge receipt of your letter of June 9, applying on behalf of the Oriental Electric Protective Association for the grant of a franchise for the installation and operation of an electric burglar alarm system in residences and places of business generally in the Settlement.

In reply thereto, I am directed to inform you that, in view of the Council's consistent policy, which is opposed to the granting of monopolies, the Council is unwilling to grant an exclusive franchise for a period longer than five years; which period, in members' opinion, should afford the proposed Company an adequate opportunity of installing its system without fear of such competition as would endanger the heavy initial capital outlay which the project would involve.

Before issue of a franchise for this period, the Council would require that all charges made by the Company receive its formal approval; and that sufficient evidence of the Company's financial stability to carry out the project be furnished for its consideration. Furthermore, insertion of a clause in the formal agreement enabling the Council to terminate the franchise if the services rendered by the Association proved to be unsatisfactory is considered requisite, also a clause concerning false alarms and a penalty for misuse.

Subject to acceptance of the above conditions, and in order that the scheme may be given a thorough trial, I am directed to state that it may be proceeded with in one or more Police districts, on the understanding that no expense to the Council is involved.

I am, Sir,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Easements.

Canopies.—A permit has been issued to Messrs. Brandt & Rodgers, Ld., to erect three canopies over the Municipal footpath fronting their premises on Cadastral Lot 2000, Bubbling Well Road, subject to the usual conditions and the following additional clause: "That no signboards or advertisements be affixed to the canopies."

Road Extensions and Widenings.

Kiukiang Road.—In terms of the following correspondence, it has been decided to refer the undermentioned case to the Land Commission for decision:—

Shanghai, January 12, 1927.

DEAR SIR,—We have been instructed by our clients, the Bank of Taiwan, to make a claim for compensation in connection with the land surrendered from their lot, Cad. 37, Central District, for widening the Kiukiang Road.

It is difficult to form a correct idea of the market value of Bund sites, but owing to this one being situated at the corner of the Kiukiang Road, it is certain that this particular site is one of the best on The Bund.

The site was originally bought by the Bank in 1912 for Tls. 360,000 which for Mow 1.557 works out at Tls. 230,000 per mow, but in 1919 the North China Daily News was offered Tls. 600,000 for their site of Mow 1.618, working out at Tls. 370,000 a mow, and which they refused.

In endeavouring to arrive at a fair conservative value, we submit the following claim:—

	Tls.
Mow 0.079 at Tls. 400,000 per mow	31,600
Plus 10 per cent. for compulsory surrender	3,160
Total Amount of Claim	34,760

Yours faithfully,
LESTER, JOHNSON & MORRISS.

C. HARPUR, Esq.,
Commissioner of Public Works,
Municipal Council.

Council Chamber,
Shanghai, May 31, 1927.

GENTLEMEN,—I am directed to refer to your letter of January 12, addressed to the Commissioner of Public Works, claiming compensation for the area of land required from Cadastral Lot 37 for the scheduled widening of Kiukiang Road; an area of Council's land, measuring Mow 0.001, having been incorporated in the new building site.

In reply thereto, I am directed to offer compensation at the new assessed value, i.e., Tls. 200,000 per mow, less one-sixth betterment, plus 10 per cent. for compulsory surrender, or a sum of Tls. 14,484, for the net area of Mow 0.079 involved. With respect to the deduction of one-sixth for betterment, I am directed to point out that, as the entrance to the offices is in Kiukiang Road, the Council is of opinion that the widening of this road has so enhanced the value of the lot as to justify such a deduction.

I shall, therefore, be obliged if you will kindly inform me whether this offer is acceptable.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

MESSRS. LESTER, JOHNSON & MORRISS.

Shanghai, June 20, 1927.

DEAR SIR,—We are instructed by the owners of Cad. Lot 37 Central District to inform you that they cannot accept your offer of Tls. 200,000 per mow, less one-sixth betterment for compensation, in connection with the land surrendered for widening the Kiukiang Road.

As you will notice by our letter dated January 12, 1927, this property was purchased by the present owners at a higher figure than this in the year 1912.

Yours faithfully,
LESTER, JOHNSON & MORRISS.

C. HARPUR, Esq.,
Commissioner of Public Works,
Municipal Council.

Council Chamber,
Shanghai, July 4, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of June 20, addressed to the Commissioner of Public Works, intimating that the Council's offer of Tls. 14,484 as compensation for the surrender of the net area of Mow 0.079 required from Cadastral Lot 37 for the scheduled widening of Kiukiang Road is unacceptable.

In the circumstances, I am directed to inform you that this case will be referred for settlement to the Land Commission. Plans of the lot will, accordingly, be prepared and forwarded for signature at an early date, and notice of the next sitting of the Commission will be communicated to you in due course.

With respect to the area of Mow 0.001 of surplus road land which has been incorporated in Cadastral Lot 37, I am directed to inform you that the Land Commissioners are not competent to decide the amount to be paid to the Council therefor. As, however, the Council is willing to accept payment at whatever rate of compensation (excluding betterment) is awarded by the Land Commissioners in respect of the scheduled area of Mow 0.080, I am directed to request that you will kindly undertake to recognize such rate of compensation as the sale price of the surplus land in question.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

MESSRS. LESTER, JOHNSON & MORRISS.

Excerpts from Minutes.

At the meeting of the Watch Committee held on Friday, June 24, 1927, at 4.30 p.m., there are present:—Brigadier-General E. B. Macnaghten, *Acting Chairman*, and Mr. K. Fukushima.

The Minutes of the last meeting are confirmed and signed.

Award for Act of Gallantry.—In his report submitted, the Commissioner of Police furnishes particulars regarding the action of Sergeant G. Martin of the Royal Artillery, H.Q., Shanghai Defence Force, in rescuing from the Whangpoo River a foreign woman, who attempted suicide by drowning on June 1, and he recommends that the Council should recognise this act of gallantry by presenting Sergeant Martin with a watch or some other useful article suitably inscribed.

The Chairman considers that the bravery displayed by Sergeant Martin could suitably be acknowledged by a recommendation to the Royal Humane Society of Great Britain that its medal should be awarded in this case. In his view, such an award would be more suitable and more appreciated by the recipient than a presentation as suggested. In reply to enquiry, the Commissioner states that he is not aware whether this man's Commanding Officer contemplates forwarding such a recommendation; the latter has, however, intimated that there would be no objection to recognition being made by the Council in the form proposed. He submits that, apart from a recommendation being forwarded to the Royal Humane Society, it would be a graceful act on the part of the Council, and in accordance with the practice of Municipalities at home, to express in tangible form its recognition of the gallant conduct displayed by Sergeant Martin. After discussion, members endorse this view, and it is accordingly recommended that a watch be purchased at a cost not exceeding $200 and suitably inscribed for presentation to Sergeant Martin. It is further recommended that the Commissioner of Police should as-

certain from this man's Commanding Officer whether it is proposed to forward a recommendation to the Royal Humane Society. In the event of the Military authorities not being prepared to take such action, it is considered that the Council might forward the necessary recommendation to the Society through the British Consul-General.

At the meeting of the Finance Committee held on Wednesday, June 29, 1927, at 4 p.m., there are present:—Messrs. A. D. Bell, in *the Chair*, and H. B. Roe.

Land Assessment Appeals.—The appeals in respect of the recent assessment of land in the Western District are submitted, together with comments by the Land Assessors. The circumstances in connexion with each appeal are carefully examined as a result of which the assessed valuations are upheld, subject to the following exceptions:—

Cadastral Lot 2143—Asia Realty Co.—The recommendation of the Assessors is endorsed that as this lot is somewhat highly assessed at Tls. 11,500 per mow, the assessment be reduced to Tls. 11,000 per mow.

Cadastral Lot 3071—Atkinson & Dallas Ld.—For the same reason members support the recommendation of the Land Assessors that the assessment of this lot be reduced from Tls. 7,500 to Tls. 6,500 per mow.

Cadastral Lot 615—Moorhead, Halse & Robinson.—In this case the recommendation of the Land Assessors that the assessment placed on this lot be reduced from Tls. 16,500 to Tls. 16,000 per mow, is endorsed.

Cadastral Lot 3912—Davies & Brooke.—For the reason that the assessment placed on this lot is somewhat high, the recommendation of the Land Assessors is endorsed that this assessment be reduced to Tls. 3,700 per mow.

Cadastral Lot 5234—Brandt & Rodgers Ld.—Members support the recommendation of the Land Assessors that the assessment placed on this lot be reduced from Tls. 2,000 to Tls. 1,500 per mow.

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, JULY 22, 1927. No. 1087

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

By order,
S. M. EDWARDS,
Secretary.

Council Chamber,
Shanghai, June 23, 1927.

MUNICIPAL NOTIFICATION

No. 3634.

COMPLAINTS having been made to the Council that certain unauthorized persons are seeking to collect from Chinese residents of the foreign Settlement a special tax equivalent to two months' rent of the premises of the said residents NOTICE IS HEREBY GIVEN that all such exactions are illegal—that no one has been authorised by the Council to collect such a tax and that no resident is obliged to make such payments. WARNING is accordingly given that any person endeavouring to extort money by threats or intimidation will be arrested forthwith and punished without leniency and residents are urged to report all such attempts to the Police immediately.

By order,
S. M. EDWARDS,

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulations constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds" for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13 last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record

of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese Authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Commerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—to which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese Tls.	From Foreigners Tls.	Total Tls.
Land Tax	1,033,600	1,626,400	2,660,000
Municipal Rate	3,292,800	1,848,200	5,051,000
Licence Fees	963,527	453,823	1,417,350
Wharfage Dues	130,000	320,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, on a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health, safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 3,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office —not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 as compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents, their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence line to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their profound gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the widely disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that, except for the fact that taxes remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,693.

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this Department, therefore, now claims a very considerable share of the

total municipal revenue as is shown in the table given below:—

1925	Tls. 2,372,857
1926	„ 2,582,158
1927 (estimated)	„ 2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Formerly, a proportion of the fines, bearing and filing fees, etc., received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prisoners. Now, under the new régime, no such payment is made, with the result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 2,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6¾ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued political agitation will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

Chekiang and Canton Roads.—In terms of the following correspondence, it has been decided to refer the undermentioned case to the Land Commission for decision:—

Rough translation of note received from Wong Ping Kee, No. 44 Shing Yih Lee, West Paoshing Road, Chapei, to the Commissioner of Public Works, Shanghai Municipal Council, February 24, 1927.

The writer states that his property is situated at the corner of Chekiang and Canton Roads, known as B. C. Lot 1008, Cad. Lot 683, registered by Messrs. Hansons, but the declaration of trust is in the name of Wong Ping Kee. He applied for a permit from the Council for rebuilding, his land being scheduled to the extent of about 2 fun for road purposes. The new buildings will be completed shortly and the writer asks the Council to pay him compensation at the assessed value, plus 10 per cent. for the surrender. He will be much obliged if you will kindly let him have a reply, and hopes that his request will meet with your approval.

Council Chamber,
Shanghai, May 9, 1927.

GENTLEMEN,—With reference to the enclosed translation of a letter received from Mr. Wong Ping Kee relative to the area of Mow 0.189 required from Cadastral Lot 683 for the scheduled widening of Chekiang and Canton Roads, I am directed to offer compensation therefor at the new assessed value, less one-sixth for betterment, plus ten per cent. for compulsory surrender.

DEAR SIR,—Replying to your letter of the 9th ult., offering compensation at the new assessed value, less one sixth for betterment, plus 10 per cent. for compulsory surrender, we are instructed by our client to decline this offer. Our client desires us to inform the Council that he is unable to appreciate the fact that any betterment is derived by him through the widening of the road and rounding off of the corner and therefore he is not prepared to agree to any deduction being made for betterment. Our claim, therefore, is at the rate of the new assessed value, *viz.*, Tls. 50,000 per mow, plus 10 per cent. for compulsory surrender, which we trust the Council will see their way to accept.

Yours truly,
HANSONS.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of July 7, to the Commissioner of Public Works, containing your claim to compensation for the area required from your property, situate East of Cadastral Lot 893, for the scheduled extension of Dent Road.

In reply thereto, I am directed to inform you that in view of the betterment accruing to your property by the extension of this road, the Council considers that a free surrender of the land required for road purposes is equitable, and to inform you that failing acceptance of these terms the matter will be referred to the Land Commission for settlement.

Shanghai, September 1, 1926.

DEAR SIR,—I act for Mr. Chang Miao Miao and others who have handed to me your correspondence with them in this matter, including your letter of August 27.

I have to inform you that last Monday I called to see Mr. Harpur for a settlement of this matter and arranged to see him again in the course of a few days. Under the circumstances, it would seem to be unnecessary for the time being to refer the matter to the Land Commission.

If you want me to call and see you, I shall be glad to do so and have an appointment with you.

Yours faithfully,

DEAR SIR,—I have to thank you for your letter of the 1st instant. I would now ask that as the Council is pressing for this extension that you kindly let me have your client's decision in regard to this surrender at the earliest date possible.

Shanghai, October 13, 1926.

DEAR SIR,—With reference to my last interview with you in this matter, I shall be glad if you will let me have a plan showing the surrenders of land both at Dent Road and Muirhead Road so that, if the land of my clients is affected at both roads, their claims for the surrenders may be considered and settled at the same time.

Yours faithfully,

Shanghai, October 21, 1926.

DEAR SIR,—In accordance with the request contained in your letter of the 13th instant, I beg to hand you herewith a plan showing in red and blue an area of 0.817 mow required from your clients' property for the scheduled extensions of Dent and Muirhead Road. If your clients intend to submit a further proposal in regard to this area, it is desirable that they do so at an early date.

Yours faithfully,
C. HARPUR,
Commissioner of Public Works.

Y. S. ZIAR, Esq.

Shanghai, November 4, 1926.

DEAR MR. ZIAR,—With reference to our conversations and to my letter of October 21 last, enclosing a plan, it has recently come to my knowledge that the property of Mr. Fee Cumming is distinct from that of the Chang family. The boundaries can be well defined and the interests of Mr. Fee Cumming and the Chang family are therefore in no sense joint interests. For instance, the land coloured blue on my plan of October 21 is the property of Mr. Fee Cumming, the Chang family having no remaining interest.

Under these circumstances, I think it will be impossible to consider Mr. Fee Cumming as a joint owner with the Chang family.

Yours faithfully,
C. HARPUR,
Commissioner of Public Works.

Y. S. ZIAR, Esq.,

Shanghai, November 25, 1926.

DEAR SIR,—In reply to your letter of November 4 and with reference to my interview with you yesterday afternoon, I write to confirm that my clients have never claimed to be the joint or common owners of the land and that they have instructed me to send their claims for compensation as one claim to the Council in respect of the surrender in order to avoid multiplication of claims and save expenses.

As you desire to know the areas to be surrendered by every individual owner, I enclose herewith, as requested, a sketch plan showing such areas and shall be glad if you will in due course let me have an official plan of the same.

Yours faithfully,
Y. S. ZIAR.

C. HARPUR, Esq.,
Commissioner of Public Works,
Municipal Council.

Shanghai, December 6, 1926.

DEAR SIR,—I beg to acknowledge receipt of your letter of November 25 forwarding a sketch showing the various areas claimed by your clients. In accordance with your request I enclose an official plan showing these areas and their respective owners. You will observe that the area required from Mr. Fee Cumming's holding for Muirhead Road is also shown.

Yours faithfully,
C. HARPUR,
Commissioner of Public Works.

Y. S. ZIAR, Esq.

Shanghai, December 30, 1926.

DEAR SIR,—Referring to your letter of the 6th instant, I am instructed to claim compensation for the surrenders of land at Dent and Muirhead Road Extensions and the particulars of the claims are as follows:—

Dent Road Extension.

	Tls.	Tls.
0.667 Mow at Tls. 9,000 per Mow	6,003.00	
10 per cent. for compulsory surrender	600.30	
		6,603.30

Muirhead Road Extension.

	Tls.	Tls.
0.150 Mow at Tls. 9,000 per Mow..	1,350.00	
10 per cent. for compulsory surrender	135.00	
		1,485.00
	Tls.	8,088.30

You will notice that the claims for the surrenders at Dent Road Extension are joint. I am, however, instructed to consider any offer that you will make, if you desire to treat those claims separately.

Yours faithfully,
Y. S. ZIAR.

C. HARPUR, Esq.,
Commissioner of Public Works,
Municipal Council.

Council Chamber,
Shanghai, March 14, 1927.

SIR,—I am directed to acknowledge receipt of your letter of December 30, 1926, addressed to the Commissioner of Public Works, in which you submit a claim to compensation on behalf of the owners of certain areas of unregistered land situate East of Cadastral Lot 893, required for the scheduled extension of Dent and Muirhead Roads.

In reply thereto, I am directed to inform you that, upon reconsideration, the Council is willing to offer, without prejudice, compensation at the proclamation rate of Tls. 150 per mow, for the areas required for Dent Road, *i.e.*, Mow 0.110 from Mr. Fee Cumming's property and Mow 0.557 from the property of the Chang family.

In this connection, I am directed to inform you that the property of the Chang family originally extended on both sides of Dent Road; that the Western portion—Cadastral Lot 893—was registered in H.B.M. Consulate General, but that, when a title deed was obtained, the Eastern boundary was fixed to the scheduled road line, obviously with the intention of evading the provisions of Land Regulation VI. Moreover, if Cadastral Lot 893 was actually sold outright, the vendors presumably obtained an enhanced price owing to Dent Road having been scheduled; and, in the circumstances, it is considered that they should be called upon to contribute towards the cost of the road.

In view of the foregoing, and also of the fact that, when the construction of Dent Road is completed, the property will be converted from an interior holding without access into one with a valuable road frontage, the Council adheres to the view that a free surrender would be equitable. I have, therefore, to express the hope that you will be able to accept the above offer.

With regard to the area of Mow 0.150 required from Mr. Fee Cumming's property for Muirhead Road, I am directed to offer compensation therefor at the rate of Tls. 1,500 per mow, plus 10 per cent. for compulsory surrender, and I shall be obliged if you will kindly inform me whether these terms are acceptable.

I am, Sir,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Y. S. ZIAR, Esq.

Shanghai, March 30, 1927.

DEAR SIR,—Mr. Y. S. Ziar having handed us your letter to him of the 14th instant, we shall be obliged if you will kindly advise us how you have arrived at the proclamation rate of Tls. 150 per mow for the areas required from our property for Dent Road.

In reference to the third paragraph of your letter under reply, we wish to inform you that the Chang family were imposed upon, in that the owner of Cadastral Lot No. 893, knowing the proposed extension of Dent Road fixed the eastern boundary in question and paid no enhanced price for the land bought, the Chang family being unaware at that time of the extension of the road having been scheduled.

As the matter stands at present, it would seem that that part of the road frontage which the Council is going to build at the sacrifice of the Chang family is for the benefit and convenience of the holder of Lot No. 893.

Awaiting your answer.

Yours faithfully,

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, April 26, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of March 30, on the subject of certain areas of unregistered land situate East of Cadastral Lot 893, required for the scheduled extension of Dent and Muirhead Roads.

In reply thereto, I am directed to inform you that the rate of compensation, Tls. 150 per mow, offered by the Council in respect of the area required for Dent Road, is that agreed upon by the Committeemen of the various districts under the Taotai's proclamation dated July 26, 1904.

With reference to the second paragraph of your letter under reply, I am directed to state that any imposition upon the Chang family by a private party is not a matter for special consideration by the Council; and, in this connection, I have to remind you that Dent Road was scheduled in March 1903, and the road line defined on the ground in May 1915, *i.e.*, over three years prior to the application for the title deed for Cadastral Lot 893.

In conclusion, I am directed to state that there is no reason for assuming that this section of Dent Road is being constructed for the sole benefit of any individual party, as it is manifest that the benefits accruing by the completion of the road will be shared by you since your property will be provided with valuable road frontage which it at present does not enjoy. The Council, accordingly, adheres to the terms contained in its letter of March 14, addressed to Mr. Y. S. Ziar, and I shall be obliged if you

will kindly inform me whether these terms are acceptable.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Mr. CHANG MIAO MIAO and Others.

Shanghai, May 31, 1927.

DEAR SIR,—I have been instructed by my clients, Messrs. Chang Miao Miao, Chang Lao Yung, Chang Ning Pao, Chang Mai Long, Chang Ching Song and Fee Cumming, the owners of certain unregistered land situate East of Cadastral Lot No. 893, to address you with reference to the question of their claim for compensation concerning certain areas required for the scheduled extension of Dent and Muirhead Road extensions.

I have perused the correspondence which has hitherto been exchanged between yourself, Mr. Y. S. Ziar, my clients' previous Counsel, and my clients themselves and from the said correspondence and particularly from your last letter to my clients of April 26 last, I notice that the Council was not prepared to increase the offers as set forth in your letter to Mr. Y. S. Ziar of March 14, 1927, that is to say, at the rate of Tls. 150 per mow for the areas required for Dent Road and Tls. 1,500 per mow, plus 10 per cent. for compulsory surrender for the areas required for Muirhead Road.

I am now instructed by my clients to inform you that the offers which the Council has made on the above basis are so low in comparison with the market value of the land in this particular locality that my clients cannot see their way to accept.

Apart from the reasons set out in my clients' letter to you of March 30, I am instructed to point out to you the fact that some five or six years ago, the Council paid Tls. 6,000 per mow for Lot No. 872, of which a portion was used for the extension of Dent Road and the remainder was eventually sold by the Council at the rate of Tls. 9,000 per mow.

It has also come to our clients' knowledge that the Council in acquiring Lots Nos. 895, 898, 1405 and 1406 for the purpose of extending Muirhead Road had also to pay the present market value of Tls. 9,000 per mow.

My clients also take exception to the proclamation rate referred to in your correspondence and cannot possibly conceive how the Council can construe it as giving power to purchase land at Tls. 150 per mow in this locality.

Under these circumstances, I suggest that the proper and usual procedure in cases of this kind should be followed by the Council, that is by paying the injured parties in accordance with the present market price (Tls. 9,000 per mow), plus 10 per cent. for compulsory surrender, less one-third for betterment.

Awaiting your early reply,
I remain,
Yours faithfully,
CHAR LING-CHING.

S. M. EDWARDS, ESQ.
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 21, 1927.

SIR,—I am directed to acknowledge receipt of your letter of May 31, intimating on behalf of the owners of certain unregistered land situate East of Cadastral Lot 893, that the Council's offer of compensation for the areas required therefrom for the scheduled extension of Dent and Muirhead Roads is unacceptable.

In the circumstances, I am directed to inform you that this case will be referred for settlement to the Land Commission. Plans will, accordingly, be prepared and forwarded for signature at an early date, and notice of the next sitting of the Commission will be communicated to you in due course.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

CHAR LING-CHING, Esq.,

Penang Road Depot and West Soochow Road Extension.—In terms of the following correspondence, it has been decided to refer the under-mentioned case to the Land Commission for decision:—

Shanghai, October 1, 1926.

DEAR SIR,—We are instructed by our client, Mr. Chen Pinny, beneficial owner of Cad. Lots 4430 & 4431 to enquire whether the Municipal Council is disposed to make an offer for the purchase of this site. The lots offered have an area of Mow 2.550, part of which has already been scheduled by the Council for road widening purposes. We understand that the area scheduled would be a free and compulsory surrender and that in 1911 Mr. Chen made a similar free surrender when the Penang Road was cut.

As the total area already surrendered, together with the area scheduled, is somewhat large in proportion to the property as a whole, it is felt that the Council may be disposed to offer a sum approximating the present market value by way of compensation for the loss sustained by the owner.

We shall be glad if you will be good enough to advise us the figure the Council is willing to offer?

We are, Dear Sir,
Yours faithfully,
PALMER & TURNER.

C. Harpur, Esq.
Commissioner of Public Works,
Municipal Council.

Council Chamber,
Shanghai, November 1, 1926.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of October 1, to the Commissioner of Public Works, on the subject of your clients' property, B. C. Lots 4620 and 2273, Cadastral Lots 4430 and 4431, Western, the whole of which is scheduled for acquisition in connection with the extension of the Penang Road Depot and West Soochow Road Extension.

In reply thereto, I am directed to offer a sum of Tls. 15,000 for the entire property, measuring Mow 2.550, and to express the hope that this offer will be found acceptable.

I am, Gentlemen,
Your obedient servant,
S. M. EDWARDS,
Secretary.

Messrs. PALMER & TURNER.

Shanghai, May 4, 1927.

DEAR SIR,—Reverting to your letter of November 1, 1926, offering the sum of Tls. 15,000, for the Council's acquisition of B. C. Lots 4620 and 2273, scheduled in connection with the extension of Penang Road Depot, we regret to advise you that this offer is not acceptable to our client, Mr. Chen Pinny. For your guidance in the matter we would mention that this land is under mortgage to the Tung Hsing Native Bank for the sum of Tls. 18,000, hence if our client accepts the offer he will be required to pay Tls. 3,000 (plus accumulated interest) for the privilege of the Council purchasing the land. In view of the important position the site commands by reason of it being a corner lot and about the only remaining vacant land in the vicinity with creek frontage, Mr. Chen considers that the sum of Tls. 33,000 is a fair market value and we are requested to inform you that he is not prepared to sell to the Council below this figure. We believe that in the past you have experienced considerable difficulty in negotiating with Mr. Chen for the acquisition of this land; we therefore take this opportunity of advising you that the writer has full power of attorney to handle the matter on Mr. Chen's behalf, and we hope that we will be able to come to an amicable arrangement regarding the proposed purchase.

We shall be glad if you will kindly place this letter before the Council for their further consideration.

We are, Dear Sir,
Yours faithfully,
PALMER & TURNER.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 22, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of May 4, on the subject of your client's property, Cadastral Lots 4430 and 4431, Western, the whole of which is scheduled for acquisition in connection with the extension of the Penang Road Depot and West Soochow Road Extension.

In reply thereto, I am directed to state that, upon reconsideration, the Council is willing to pay compensation at the rate of Tls. 8,000 per mow, or a sum of Tls. 20,400 for the area of Mow 2.550 involved. In this connection, I am directed to point out that the title deeds cover

a net area of Mow 2.428 only, and to state that this offer is made on the understanding that the Council will be given title to a net area of Mow 2.550, and that any shengko charges involved will be borne by the vendor.

In conclusion, I am directed to inform you that should this offer prove unacceptable, this case will be referred for settlement to the Land Commission.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Messrs. PALMER & TURNER.

Shanghai, July 13, 1927.

DEAR SIR,—With reference to your letter of the 22nd ultimo, on the subject of Cad. Lots 4430 & 4431, Western, the whole of which is scheduled for acquisition in connection with the Penang Road Depot and West Soochow Road Extension, we have to advise you that the increased offer of the Council to Tls. 8,000 per mow is unacceptable by our client, and we have therefore to request that the matter be referred to the Land Commission for settlement.

Yours faithfully,
LALMER & TURNER.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

The Minutes of the last meeting are confirmed and signed.

The Minutes of the meeting of the *Staff Committee* of June 20 are submitted and confirmed.

The Minutes of the meeting of the *Watch Committee* of June 24 are submitted and confirmed. With regard to: *Award for Act of Gallantry*—The request of the Commanding Officer of the Royal Artillery that the Council should forward a recommendation through him in support of the application which is being forwarded by the Military Authorities to the Royal Humane Society of Great Britain that Sergt. Martin be awarded the Society's Medal in recognition of the gallant conduct displayed by him, is approved.

The Minutes of the meeting of the *Finance Committee* of June 29 are submitted and confirmed.

Electricity Department—Proposed Extensions (1927) to provide for Generating Plant and Major Transmission Cables up to 1930.—The recommendation of the Electricity Committee that expenditure of Tls. 1,041,687, less the sum of Tls. 252,104, representing the cost of air pre-heaters and dredger (which the Engineer-in-Chief and Manager has now agreed to postpone) be incurred during 1928, is submitted. After discussion and upon the grounds that it is estimated that the major portion of this purchase can be financed out of the Department's profits and in view of the estimated annual load increases up to 1930, the Committee's recommendation is endorsed.

Censorship of Cinema Films.—The recommendation of the Commissioner of Police regarding the personnel of the proposed Board of Film Censors is approved. With regard to his further recommendation that Clause 7 of the Cinematograph Licence Conditions be amended to read—

"7. That no film which has not been certified by the Board of Film Censors for public exhibition be shown without the express sanction in writing of the Council."

enquiry is made as to whether every film must be submitted to the Censors before being shown. The Secretary states that it is proposed in the first instance that all films be inspected by the Police and if approved a certificate will be issued stating that such film is approved by the Board. If, however, the Police regard any film as objectionable, this will be referred for decision to the Board of Censors. Before approving this proposal, the Secretary is requested to ascertain from the members of the Board whether they are willing to delegate their functions to the Police Department as proposed.

Annual Recess.—Decision as to the commencing date and duration of the annual recess for the current year is deferred until the next meeting.

The Municipal Gazette for Friday, July 8, is submitted in proof and authorised for publication.

The Minutes of the last two meetings are confirmed and signed.

Land Assessment Appeals.—The appeals in respect of the recent assessment of land in the Northern District are submitted, together with comments by the Land Assessors. The circumstances in connection with each appeal are carefully examined, as a result of which the assessed valuations are upheld, subject to the following exceptions:—

Cadastral Lot 822—Societe des Missions Belges.—Members endorse the view of the Land Assessors that since Durpoe Road is less than 10 feet wide the public latrine on Cadastral Lot 814 on the opposite side of the road may have some effect on the value of Cadastral Lot 822, for which reason a reduction to Tls. 22,000 per mow is recommended.

Cadastral Lot 304—Messrs. Atkinson & Dallas, Ld.—The recommendation of the Land Assessors is endorsed that the revised assessment of Tls. 17,000 per mow is somewhat high and a reduction to Tls. 15,500 per mow is recommended.

Cadastral Lots 1173 and 864—China Realty Company.—For the like reason, the recommendation of the Land Assessors is endorsed that the assessments placed on the above two lots be reduced to Tls. 14,000 per mow and Tls. 28,500 per mow respectively.

Serious Crime.—This includes the murder of a ship's watchman who was shot in an alleyway in the Wayside District on the night of June 4; the murder of a coal broker who was shot in the Wayside District on the night of June 9; the murder of a Chinese Detective Sergeant whose

dead body bearing a bullet wound was found behind a sandbag barricade in the West Hongkew District on the early morning of June 11; the murder of a Chinese Constable and the wounding of three other Chinese Constables, one of the latter being a member of the French Police, who were fired at by an armed gang in the Louza District on the morning of June 15; the attempted murder of a Chinese Constable who was fired at by two armed men in the Wayside District on the evening of June 14; the murder of a Chinese who was shot by armed robbers at his home in Hongkew District on June 17 and the death of a Chinese as a result of being assaulted at a teashop in the Pootoo Road District on June 16.

In connection with these cases thirteen persons were arrested. Two died from wounds received at the time of their arrest and the remainder are under remand.

Five persons were arrested during the month in connection with the murder of a foreign Constable and two Chinese Constables and the wounding of two other Chinese Constables who were fired at by an armed gang on Carter Road on the night of May 26. In connection with the murder of a foreign woman whose dead body was found in the Western District on the morning of February 14, one foreigner was arrested on June 15. One man on remand charged with the murder of a Chinese female in the Yangtszepoo District on April 28 was sentenced to 12 years' imprisonment. In addition to the three men on remand charged with the murder of a wharf coolie and the wounding of two other Chinese in the Wayside District on January 2 three arrests were made on June 20.

Armed Abduction.—At about 1 a.m. on June 29 a Chinese and his wife were forcibly abducted on Thibet Road by four armed men who after getting rid of the chauffeur, to whom they gave a letter to be delivered at the victims' house, drove off towards Yangtszepoo. Whilst proceeding along Yangtszepoo Road the car became disabled through running into a part of the road under repair and during an attempt to put it right the persons abducted escaped. One shot was fired by the abductors at a Sikh Police Havildar. The letter mentioned above purported to be signed by a member of the Chinese Communist Party and demanded that a sum of money be paid within three days.

Trafficking in Firearms, etc.—Five foreigners and two Chinese were arrested for trafficking in firearms when twenty pistols and 1,000 rounds of ammunition were seized. Five of the accused were sentenced to imprisonment and two are on remand.

Nineteen Chinese were arrested for being in possession of firearms for an unlawful purpose. Two were fined, three were acquitted and fourteen are under remand. Five men on remand at the end of May for this class of offence were dealt with. Four were sentenced to imprisonment and the charge against one was dismissed.

Robbery.—Forty-nine reports of armed robbery from premises and twenty on the highway were received during the month. Seven cases of attempted armed robbery were also reported. Shots were fired by the robbers in ten instances, resulting in the death of one Chinese and the wounding of another. One robber was shot dead and two were wounded.

In connection with the foregoing and reports of armed robberies occurring prior to June 1, 85 persons, 11 of whom were in possession of loaded firearms, were apprehended. Two died from wounds received at the time of their arrest, three were sentenced to imprisonment, two escaped from custody, two were acquitted and seventy-six are on remand. Of the 200 persons on remand at the end of May charged with armed robbery sixty-four were dealt with. Forty-one were sentenced to imprisonment, three escaped from custody and twenty were acquitted. Five persons arrested in connection with an armed robbery committed in territory under Chinese jurisdiction were handed over to the authorities concerned. Two men were likewise handed over to the French Police for armed robbery committed in the French Concession.

Eight reports of highway robbery, in which no arms were used, were received. One man apprehended in connection with one of these holdups was acquitted. Two men on remand charged with highway robbery were sentenced to imprisonment.

Property Stolen.—480 reports made under this heading during the month represent an estimated loss of $186,943 and include 28 cases of burglary, 7 of house-breaking, 8 of godown-breaking and 20 of shop and office-breaking. Successful investigation was made in 106 cases, resulting in the recovery of property valued at $32,110, in addition to which recoveries to the extent of $43,670 were made in connection with reports received prior to June 1. In addition, successful results were obtained in ten cases reported as having occurred out of limits and in two cases where property was reported as lost.

Crime beyond Settlement Limits.—Thirteen cases of armed robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In one instance shots were fired resulting in the death of a Chinese.

Executions.—About forty executions of persons charged with being Communists and robbers took place during the month at Lunghua.

Anti-Foreign Agitation.—Notwithstanding the suppression of Communist activities in the area under the Nationalist (Nanking) forces, anti-foreign propaganda on the lines introduced into this country by that party is still being vigorously continued. Pretexts used in furtherance of the campaign during the month included a protest against the dispatch of Japanese troops to Shantung and the incidence of various anniversaries of conflicts between Chinese and foreigners. At meetings convened under official auspices and attended by students and workers to the number of several thousands, speakers denounced Japanese imperialism. They alleged that the troops sent by the Japanese Government to Shantung ostensibly for the purpose of protecting Japanese residents were really intended to further aggressive designs and to prevent the defeat of the Fengtien militarists who were condemned as Japanese hirelings. An anti-Japanese boycott was freely advocated as the most effective means to prevent Japan from attaining these aims. The speakers who propounded these views included the Chief of the Headquarters of the Shanghai Special District Kuomintang, the Chief of the Political Department of the Nationalist Army of the 2nd Route, a representative of the Shanghai Students' Union, a member of the Chinese General Chamber of Commerce and several other prominent Kuomintang leaders. The addresses which they gave were supplemented by the distribution of leaflets advocating anti-Japanese sentiments, the exhibition of banners bearing inscriptions of similar import and the shouting of slogans of which the following are typical examples:—

Let us oppose the dispatch of Japanese soldiers to Shantung!
Let us sever economic relations with the Japanese!
Let us abrogate all Sino-Japanese treaties!
Let us overthrow Japanese Imperialism!
Let us get back all Chinese territory held by Japan!
Let us denounce the Twenty-one Demands!
Let us boycott Japanese goods!

Other means invoked in the furtherance of anti-Japanese propaganda included the delivery of street lectures and the posting of hideous cartoons. On one of these posters Japanese Imperialism was depicted as a figure engaged in the destruction of "International Law" with the aid of a spear inscribed "The Dispatch of Troops." Under the feet of the figure is Shantung Province with Marshals Chang Chung-chang and Chang Tso-lin represented as thieves skulking in the background. Other features of the campaign against Japan included the distribution among Japanese members of the Shanghai Defence Force of extremist literature, and the advocacy of a boycott of all goods manufactured in that country.

Methods of a somewhat similar nature were used to further the anti-British campaign and the meetings organized for that purpose were held in connection with the celebration of various anniversaries comprising June 23, the Shameen Incident; June 16, anniversary in commemoration of Dr. Sun Yat-sen's sufferings after his defeat in Canton in 1922, and a public reception held on June 20 in the Great Eastern Hotel on the occasion of the celebration of the Nationalist victories. At these

gatherings which, like the anti-Japanese demonstrations, were convened under official auspices, speakers accused Great Britain of having played the leading rôle in the schemes of imperialist nations for the domination and exploitation of China, and urged their compatriots to follow, in the fight against Great Britain, the example set by the various martyrs whose death was the subject of celebration. The speeches were supplemented by the distribution of scurrilous leaflets, a display of flags bearing unseemly inscriptions and the shouting of slogans such as:—

Let us overthrow the British Imperialists who are the leaders of all other imperialists!
Let us sever economic relations with England!
Let us demand the withdrawal of all foreign naval ships in Chinese waters!
Let us revenge the wrongs done to the martyrs of the Shameen Incident!

The official agitators also had resort to offensive cartoons in their efforts to invoke public opprobrium against Great Britain. One of these depicted British Imperialism as a monster with a tiger's head engaged in strangling a Chinese with one hand, while he held a dagger and the bleeding head of a decapitated Sikh in the other. To add to the gruesomeness of the picture, the monster is represented as using a pedestal composed of human skulls. On the occasion of a procession held at the conclusion of one of the meetings, four of the Chinese who participated in it carried a large lantern which contained paper figures of foreign soldiers being defeated and pursued by Chinese Nationalists.

Although Japan and Great Britain were singled out for special condemnation, the oral and written propaganda used on the various occasions under review showed unmistakably that the parties responsible for it were blindly hostile to all foreigners with the possible exception of the nationals of countries which have adopted the Soviet system of government. It was moreover remarked that the propaganda, although conducted by officials and politicians claiming to be the foes of Communism, bore unmistakable traces of Communist influence. The general procedure followed in developing the anti-foreign campaign differed in no way from the methods adopted in parts of the country which are known to be dominated by the Communist Party. Divisions were sometimes made from the abuse of foreigners to advocate the cause of the world revolution, and slogans intended to discredit the wealthy classes were used on several occasions. Besides approval was overtly given to an illegal campaign which aims at compelling Chinese of independent means, by terrorist methods, to subscribe to funds for the promotion of alleged public objects, with which they have no sympathy and to the support of which they are not bound by any legal or moral obligation.

Communism.—Manifestations of Communist activities during the month included handbills aiming at the subversion of the Shanghai Defence Force by appeals to class prejudice and the dissemination of literature attacking General Chiang Kai-shek. In a cartoon in a booklet discovered, General Chiang is represented as a bed bug which should be killed at sight. Observations during June tend to confirm statements contained in my report for May concerning the continuance of Communist secret activities. Local adherents of the doctrine of Karl Marx, for obvious reasons, no longer openly profess their views, but there is nevertheless no doubt that their strength is still considerable.

Agitation against the Municipal Council.—Simultaneous with the agitation against Great Britain and Japan the campaign for the transfer of the Settlement to Chinese control has been continued unrelentingly. On the occasion of a reception at a local hotel, one Chinese orator, in an anti-foreign speech marked by great bitterness, urged Chinese to devote all their energy to getting back the Settlement which he alleged is a part of Chinese soil on which foreigners are trespassing. Towards the end of the month these agitators concentrated on the exploitation of dissatisfaction with the Municipal Council resulting from a decision to increase the Municipal rates from 14 to 16 per cent. of the monthly rental. In the concluding days of June this campaign was being conducted by the Chinese Ratepayers' Association which was receiving support from members of the Chinese Chamber of Commerce and the Nationalist Political Party.

Korean Affairs.—A meeting held on June 10 in commemoration of the Koreans who lost their lives in the Korean Independence Movement, was attended by about 100 Koreans and several revolutionaries. Korean speakers denounced the Japanese administration in their country and urged that the example of those who had fallen be followed in the fight for its liberation. These views were endorsed by Chinese speakers who advocated that all oppressed races should unite and take up the fight for world revolution.

Strikes.—There were six strikes in June as compared with three in May. Whilst making investigations on June 1 into a dispute between the management and employes of the Shanghai Sock Weaving Co., East Yuhang Road, a foreign police officer was beaten and robbed of a pistol.

Traffic.—Court proceedings were instituted in 473 (33 Foreigners and 440 Chinese) of 1,489 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, JULY 29, 1927. No. 1088

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

S. M. EDWARDS,
Secretary.

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments has made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulations constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds" for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13

last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese Authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Commerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—is which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese Tls.	From Foreigners Tls.	Total Tls.
Land Tax	1,053,600	1,526,400	2,580,000
Municipal Rate	3,202,200	1,848,300	5,051,000
Licence Fees..	965,527	453,823	1,417,350
Wharfage Dues	130,000	520,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, on a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health*, *safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 3,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office —not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 as compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence lines to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their profound gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the widely disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that, except for the fact that taxes are remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,668.

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this

Department, therefore, now claims a very considerable share of the total municipal revenue as is shown in the table given below:—

1925	Tls. 2,372,857
1926	„ 2,582,158
1927 (estimated)	„ 2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Formerly, a proportion of the fines, hearing and filing fees, etc., received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prisoners. Now, under the new régime, no such payment is made, with the result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 2,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6½ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued political agitation will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

"Hongkew" Whisky.

From time to time references are made to "Hongkew" whisky and the general impression is that "Hongkew" whisky is a rabidly poisonous concoction of wood alcohol, methylated spirits and other noxious ingredients. The liquor is not in fact such a pernicious mixture as indicated above but nevertheless it has little to recommend it as a beverage.

The derivation of the term "Hongkew" whisky is self evident. It covers the cheap whiskies and other spirits sold, either in bottle or by the glass, in various parts of Shanghai; originally chiefly in the bars, etc., in the Northern and Eastern districts but not unknown, according to popular repute, in other parts of Shanghai and even in hotels and clubs.

These cheap liquors are made from ordinary rectified alcohol, of which large quantities are imported from Java and the Straits. This alcohol is from 94 to 96 per cent. in strength, and has a large legitimate use in many trade operations. In the production of "Hongkew" whisky this alcohol is diluted with water to about the same alcoholic strength as whisky and then coloured, usually with burnt sugar. Some may even be mixed with a certain amount of genuine imported whisky in order to impart the flavour of whisky or may be flavoured with an artificial whisky essence.

If these fabricated products were labelled and sold as "Shanghai Whisky" or as whisky manufactured in Shanghai, and at a price commensurate with the cost of production the purchaser would buy in full knowledge of the origin of the liquor. If labelled and sold as "Scotch" or "Irish" or "Canadian Rye" whisky, as the case may be, or even filled into empty labelled bottles of genuine imported brands and sold as such, a definite fraud is perpetrated on the public.

Pure rectified alcohol of 94 to 96 per cent. strength can be bought in quantity in Shanghai at a cost of about $1.20 a gallon. One gallon of this will make about 2½ gallons of a dilution of the strength of whisky so that 2½ gallons or the equivalent of 16 bottles of whisky can be produced at a cost roughly of 10 cents a bottle for the straight unflavoured dilution.

The Royal Commission of 1908-9 on Whisky and other Potable Spirits arrived at the following definition of whisky—"Whisky is a spirit obtained by distillation from a mash of cereal grains saccharified by the diastase of malt; that, 'Scotch Whisky' is whisky as above defined, distilled in Scotland, and that 'Irish Whisky' is whisky, as above defined, distilled in Ireland."

One of their conclusions was "That no restrictions should be placed upon the processes of, or apparatus used in the distillation of any spirit to which the term 'Whisky' may be applied as a trade description." In other words, both pot-still and patent-still distillates are admitted as whisky.

Most of the well known brands of whisky are blends of pot still and patent still spirits which have been matured, as a rule in wood, for a number of years. Natural genuine potable spirits contain certain minute quantities of acids, esters, aldehydes and higher alcohols and it is to these components that the flavour of the natural spirit is due. In the process of maturing certain changes occur in these substances with the development of the rounded, smooth and palatable quality which distinguishes the good whisky from the raw spirit. Rectified alcohol or silent spirit contains very little of these secondary constituents, hence a dilution has, beyond the ordinary alcoholic taste, very little of the flavour of a natural potable spirit.

Pure wood alcohol (methyl alcohol) has a taste very similar to ordinary alcohol, but there are very cogent reasons why neither wood alcohol nor methylated spirit, both of which are popularly supposed to be largely present in Hongkew Whisky, are likely to be ingredients.

Wood alcohol (which is definitely poisonous and has been the cause of many deaths in America by its presence in fabricated liquors) is very much more costly in China than ordinary rectified alcohol and is also not available in any quantity. Similarly, where rectified alcohol can be bought so cheaply and with no excise restriction, there is no demand for

an industrial spirit like methylated spirit and it is doubtful whether methylated spirit can be bought in Shanghai. Methylated spirit is ordinary rectified alcohol denatured, *i.e.*, made nauseous to taste by the admixture of certain denaturing agents such as wood naphtha, mineral naphtha, pyridine, etc. It is produced in countries where heavy duties are placed on alcohol in order that a cheap alcohol may be available for certain manufacturing purposes.

Wood alcohol or methylated alcohol has never been detected in any of the many samples of liquor examined in the municipal laboratory, nor drugs, excessive fusel oil or other substances of toxic nature.

It is possible that, in certain cases, where ill effects have been stated to follow the ingestion of a small dose of a liquor, that some narcotic may have been added to the glass poured out, but this possibility has not hitherto been established.

Although no definite abnormal toxic properties have been found in "Hongkew" whiskies there are other factors which have to be taken into consideration. A quotation from Thorpe's Dictionary of Chemistry is relevant. "At the same time, since many substances are known to produce marked effects on the digestive system merely as a result of the sensation produced by their *Flavour*, this plays an important part from a dietetic point of view, and the more agreeable flavour of a mature whisky may exert a favourable mental effect which promotes the activity of the digestive processes, whilst the unpalatable flavour of new 'silent' or neutral spirits may tend to interfere with digestion apart from the direct effect due to the alcohol itself."

It is possible that some of the untoward effects described as resulting from the consumption of Hongkew whisky, may be explained by such physiological disturbances. It is also possible that the low price results in a more generous measure of the liquor being consumed, possibly less diluted with water or mineral water, and hence a rapid intoxication, particularly if the consumer is not a regular drinker of spirits or has been an abstainer for some time.

Public Works Report for June.

Cases of extortion by persons representing themselves to be employes of the Public Works Department are constantly coming to notice in connection with the erection of new buildings, and more particularly with the alteration of existing buildings.

The usual method adopted is for the impersonator to call at a house where building work has been carried out in contravention of the Building Rules, and threaten the person responsible that he will report the matter to the office unless he is paid a sum of money, frequently adding that he has to hand over part of the money to the foreign building inspector.

It would assist this Department immensely if such cases were immediately reported at the nearest Police Station or to the office, so that investigations can be made without loss of time.

Parks Report for June.

Beds and borders were prepared for planting immediately the flowering season of Spring flowering plants terminated, but the frequent wet weather during the latter part of the month prevented planting up the beds again. On the 15th, a sharp gale swept over a section west of Bubbling Well and east of the Rubicon Road, doing considerable damage to trees and fences. Those at Hungjao Road Cemetery suffered most, all the boundary fences being laid flat and the trees blown over, but the latter, being young and for the most part flexible, little damage was done to them; two grave stones were overthrown.

Lawns.—As the football season was extended fully a month longer than usual, the lawns at the beginning of the tennis season were not up to the usual standard. Frequent dressing with artificial fertilizers, combined with the moist weather has, however, brought them into good condition.

Roadside Trees.—In anticipation of typhoons, the poles and fastenings were inspected and renewed where necessary. Overhanging branches were removed, also those in touch with aerial wires. Privet flowers were removed from all trees flanking the roads and in a number of private gardens (by request).

Roses of the scrambling kind—form of Wichuriana—flowered profusely. As this type flowers on the shoots made the previous year, the shoots which flowered early in the month were cut out soon after the flowers finished, to stimulate the growth of this year's shoots, on which the flowers will be produced next year. This treatment applies to a number of Spring flowering shrubs, as Forsythia, Spiraea, etc., which also were thinned out during the month.

Orchestral Concerts.—Owing to inclement weather, only three concerts were held.

Nurseries.—94,500 seedling flowering plants are ready for planting out.

Fire Brigade Report for June.

The total number of calls received during the month was 39, as under:—

Genuine fires in the Settlement	25
Genuine fires in the Special Rated Area	nil
Genuine fires outside the Settlement	2
Chimney fires	1
False alarms inside the Settlement (all good intent)	5
Special calls	4
Total	39

The damage to assessed property within the Settlement was estimated at Tls. 12,899 (Foreign, Tls. 10,023 —Chinese, Tls. 2,876) and the value of property at risk Tls. 3,800,260 (Foreign, Tls. 3,456,000—Chinese, Tls. 344,260).

During the month, two lives were lost (a girl aged 6 and a man) due to the collapse of houses and shops.

One fireman and two other persons were injured at fires, and one also due to a collapsed wall, all inside the Settlement.

Thirty-six premises (all straw huts) were destroyed and eleven damaged inside the Settlement.

In dealing with the foregoing:—

Brigade machines travelled	240 miles
Hose laid	14,825 feet
Water used	85,300 gallons
Time occupied at fires	61 hrs. 55 mins.

Watching Duties.

Time occupied at fires 38 hrs., 15 minutes.

Time occupied at places of amusement 9,011 hrs.

The only fire of note during the month was as under:—

June 27, 12.41 p.m., Whangpoo Wharf, s.s. "Sphinx," tonnage 11,375 (Messrs. Messageries Maritimes)—(Sections of Central, Yangtzepoo and Hongkew Divisions).—The fire was found to be in the propeller shaft tunnel under the afterhold, and was extremely difficult to reach owing to its position and the intense heat and smoke.

Several attempts were made to locate the fire with the aid of gas helmets and masks, but without success, so flooding eventually had to be resorted to.

The after-hold also became involved. This was partially flooded, as it was impossible to gain an entrance owing to its being loaded with cargo to its utmost capacity.

Valuable assistance was rendered in the early stages of the fire by a party of Officers and men from *H.M.S. "Argus"* as well as an Officer and party from one of the U.S.S. Destroyers.

The fire damage was confined to a temporary paint and oil store which had been erected in the propeller shaft tunnel. There was also a small amount of fire and water damage to the contents of the afterhold.

Two firemen were asphyxiated by carbon monoxide fumes, first—aid being rendered by the special rescue section of this Department, who acted under the supervision of the Ship's doctor, and, when sufficiently recovered, were conveyed to St. Luke's Hospital, where they were detained for the day.

The following inspections were carried out by Officers during the month:—

1. Premises of applicants for licences	56
Re-inspections of premises of applicants for licences	74
2. *Licensed Premises.*	
(a) Theatres, Cinemas and places of amusement	335

本局對於報紙及其他等處所逼傳之某項謬妄誤引及不適切之詞勿先願有所註解

（一）公共租界係由洋涇浜章程而存在並爲其所約束該項章程係於一八四五年經中國當局核准續訂至一八六九年重經修改其後各種修改俱經北京中國政府允准且該項章程歷經上海會審公廨華當局切實施行故就實際與效力上言之該項章程實成爲一最高設之條約非僅兩國兩方面之一種合同實爲凡與中國共訂者也在此合同之下凡與中國訂立該項章程之各國人民非但在租界內有居住及營業之權利並得設立市政府按某項特別規則治理之該項規則之中有選舉董事並凡有資格納稅人每年集會一次商議辦法籌集需要之經費以便進行租界之治理且得徵收稅捐而對於房屋土地宣佈捐率格式之估價

一九二七年預算表內規定增捐百分之二經納稅人於本年四月十三日在議事廳集會時核准故增加本局於擬執行完全按照洋涇浜章程而核准之一種辦法爲非法一語實屬謬妄更有謂本局違背合同或未先向華人居民徵求同意增加捐率有違章程等詞則尤屬無稽本局決無該項合同之存在

（二）第二種普通之謬論即謂華人不准參預租界之市政是也查此事之眞相人已知之極詳今且備短述之如下一九二六年四月間納稅人常會曾通過下列之議案

（議案）會之意見租界之治理華人居民參預並當介工部局向關係國請求務能早日增加華董三名）

該決議案當經本局提交北京外交團不久即蒙容納而所提議之華董人數亦經中國政府與本埠華當局核准嗣後約九個月前本局與總商會之間時爲該事正式商商一切且本局時作非正式之詢問以便得悉該事進行至何地步但至今且據本局所知華人對所同意之三華董位置仍然虛懸毫無舉動第一事本局願注重者乃本局負責華人居民商議後而定華董人數始初爲三名第二事本局自一九二六年納稅人通過該議決案後日盼三華董之產至故謂華人不得參預租界市政或本局對於目下華人不參加應負責任等語實屬不確

（三）第三種最易誤引之謬言且極普遍者乃租界稅捐華人付百分之七十以上一語是也至於該項稅捐問題如將實情申述則毫無誤會之處查本局通常之稅捐共有四大來源曰地捐曰市政捐（或房租捐）曰執照捐曰碼頭捐

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, AUGUST 5, 1927. No. 1089

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

By order,
S. M. EDWARDS,
Secretary.

Council Chamber,

MUNICIPAL NOTIFICATION
No. 3637.
DOGS.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

"That the dog when in the streets or other place of public resort be effectively muzzled, but in such a manner as will admit of its breathing and drinking."

Dogs found without muzzles, whether led or at large, within the limits of the Settlement or on outlying roads, will be seized by the Police and detained at the Kennels for a period of one week or longer as circumstances may direct; their owners, when identified, will be prosecuted. Dogs wearing ineffective muzzles will be regarded as unmuzzled.

Unmuzzled dogs found at large within the limits of the Settlement, or on Municipal roads outside the limits of the Settlement, which cannot be seized, are liable to be shot.

This measure has become necessary owing to the incidence of rabies, and all dog owners are hereby warned accordingly.

Enquiries on the subject of lost or strayed dogs should be made at the Gordon Road Police Station (Telephone No. West 348) and Yangtszepoo Police Station (Telephone No. East 743).

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulations constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds" for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13 last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record

of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese Authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Commerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—to which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese Tls.	From Foreigners Tls.	Total Tls.
Land Tax	1,053,600	1,526,400	2,580,000
Municipal Rate	3,202,800	1,848,200	5,051,000
Licence Fees	963,527	453,823	1,417,350
Wharfage Dues	130,000	520,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, on a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health*, *safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 3,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office —not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 as compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents, their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence lines to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their pro[illegible] and gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the widely disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that, except for the fact that taxes are remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,666.

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this Department, therefore, now claims a very considerable share of the

total municipal revenue as is shown in the table given below:—

1925	Tls.	2,372,857
1926	"	2,582,158
1927 (estimated)	"	2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Formerly, a proportion of the fines, hearing and filing fees, etc., received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prisoners. Now, under the new régime, no such payment is made, with the result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 2,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6½ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued capital expenditure will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

S. FESSENDEN,
Chairman.

Volunteer Corps.

American Troop.—Lieut. Silagi resigns his commission.

Municipal Economy Committee.

Mr. N. S. Marshall has resigned his seat on the Municipal Economy Committee owing to his departure from Shanghai. Messrs. V. Meyer and H. Tiefenbacher have been appointed new members of the Committee.

Parks and Open Spaces Committee.

Resignation of Chairman.—The Council has accepted, with regret, the resignation of the Rev. Brother Faust, who for 13 years has served as a member of the Parks and Open Spaces Committee. For the last 7 years he acted as Chairman of the Committee.

Luxury Surtax.

In terms of the following letter to the Senior Consul, the Council has entered its "strongest possible protest" against the additional surtax which has recently been imposed on certain cargo imported from abroad:—

Council Chamber,
Shanghai, July 25, 1927.

SIR,—I have the honour to inform you that the Council's attention has been drawn to the fact that, at the present time, it is impossible to obtain delivery of cargo imported from abroad without payment of an additional surtax on certain goods classed by the Chinese authorities as "luxuries"; and, in this connexion, I have the honour to state that a tax styled "Luxury surtax" on cargo imported by the Council per s.s. Glenliffer and Glenogle on July 15, last, has been paid under protest.

In conveying to you the Council's strongest possible protest against this additional surtax, which has apparently been imposed without the sanction of the Treaty Powers, I have the honour to request that you will kindly favour the Council with an expression of the Consular Body's views on this subject.

I have the honour to be,
Sir,
Your obedient servant,
S. FESSENDEN,
Chairman.

E. S. CUNNINGHAM, Esq.,
Consul-General for Unites States of America and Senior Consul.

Motor Freight Vehicles.

Enforcement of Deposit Money.—Enforcement of the payment of security deposits for motor freight vehicles has been decided on by the Council for the reasons stated in the appended correspondence:—

Shanghai, July 16, 1927.

DEAR SIR,—I am instructed by my clients, all the local Motor Lorry Merchants, to request that you kindly rescind your order regarding the collection of Tls. 50 of Deposit Money for each Motor Lorry on the following grounds:—

Each Lorry costs several thousand taels. Prior to their doing business, the Lorries must be sent to the S.M.C. Traffic Department for examination. After the examination is passed, the owner is then allowed to pay the fee and apply for a license. In case the lorry is not in a good condition, the examination can never be passed and you certainly have the power to refuse the granting of a license. As to the faults committed in driving or breach of traffic regulations being discovered, this would be dealt with by law. As those Motor Lorry merchants or owners have a fixed address and usually carry on their business with a capital of several thousand taels at least, they are reliable merchants and they are therefore opposed to the Deposit Money you require them to put up. I respectfully request that you will kindly instruct the Traffic Department to rescind the order for deposit money, as the date for Autumn Season license fee is fast approaching. Please give the matter your consideration and favour me with an early reply.

Yours faithfully,
T. S. SOONG.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, July 26, 1927.

SIR,—I am directed to acknowledge receipt of your letter of July 16, protesting on behalf of local Motor Lorry Merchants against the enforcement of the payment of security deposits for Motor Freight Vehicles.

In reply thereto, I am directed to state that, whilst in many instances it may be correct that these motor lorry merchants have a fixed address as stated by you, in the past numerous summonses have been applied for against licensees, but on attempts being made to effect service, they were found to be unknown at the addresses given. Vehicles were continually being passed from one party to another without notification to the Police and investigation shows that many vehicles are owned by syndicates, the membership of which is frequently changed.

In this connexion, it is essential that the Police should be in a position to get into immediate touch with a registered owner when necessary and the only practical method in the circumstances is that of enforcing the security clause, which is perfectly reasonable and fair towards any reputable concern and is similar to that required of persons operating public hire cars.

In conclusion, I am directed to state that, for the reasons given above, the Council is unwilling to sanction any modification in the existing procedure.

I am, Sir,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Road Extensions and Widenings.

Tongdongkaloong.—In return for a total payment of Tls. 4,001, the Chinese owner has surrendered for the scheduled widening of this road an area of Mow 0.357 of unregistered land situate North of Cadastral Lot 335. Of this area, Mow 0.147 was included in the original 30 feet scheduling of this road and compensation therefor has been arranged at the rate of Tls. 500 per mow or a sum of Tls. 74. For the remaining area of Mow 0.210, compensation has been arranged at the rate of Tls. 17,000 per mow plus 10 per cent. or a sum of Tls. 3,927.

Chinchow Road.—Compulsory free surrender of an area of Mow 0.192, required from Cadastral Lot 6543 for the scheduled extension of this road, has been made by Mr. J. Barraud.

Point Road.—Negotiations have been concluded with the China Realty Company, Fed. Inc. U.S.A., for the acquisition of Cadastral Lot 1547, measuring Mow 0.496, for a sum of Tls. 1,240. Of this area, Mow 0.316 is required for the scheduled extension of Point Road, and the balance area of Mow 0.180 remains available for disposal as surplus land.

Chinhai Road.—In terms of the following correspondence it has been decided to refer the undermentioned case to the Land Commission for decision:—

Shanghai, May 16, 1927.

DEAR SIR,—With reference to the area surrendered from B. C. Lots, 1,208 and 1211, Cad. Lot. 2019, measuring Mow 1.000 for the Chinhai Road Extension, we beg to inform you that we shall require payment for same at the rate of Tls. 23,000 per mow, being the price paid for the land, plus 10 per cent. for compulsory surrender.

We are,
Yours faithfully,
ATKINSON & DALLAS, LD.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 2, 1927.

SIR,—I am directed to acknowledge receipt of your letter of May 16, relative to the area required from Cadastral Lot 2019 for the scheduled extension of Chinhai Road.

In reply thereto, I am directed to offer compensation at the new assessed value of the lot, *i.e.*, Tls. 19,000 per mow, less a deduction of one-fifth for betterment, plus 10 per cent. for compulsory surrender, or a total sum of Tls. 16,720 for the area of Mow 1.000 involved. With respect to the deduction of one-fifth for betterment, I am directed to state that, in the Council's opinion, the construction of a public road on the Western boundary, providing as it does, additional access to the Chinese houses in the rear, confers such betterment to the property as to justify this deduction.

I shall, therefore, be obliged if you will kindly inform me whether this offer is accentable.

I am, Sir,
Your obedient servant,

C. NOEL DAVIS,
Commissioner of Public Health.

Public Health Report for June.

The health of the community was satisfactory during the month, the death rates among both Foreigners and Chinese being below normal.

The first case of true Cholera was notified on the 16th of the month, the patient being a sampan coolie who had been drinking raw water from the Whangpoo. One other case occurred later among the Chinese within the Settlement and one among the Chinese of the French Concession.

The diagnosis in these cases was confirmed in the Municipal Laboratory.

No case occurred among Foreigners.

Three cases of Scarlet Fever occurred among residents, but there was no special incidence of communicable disease.

A special campaign against insanitary conditions in the Settlement was begun by the Sanitation Division, especially with regard to the cleansing of alleyways, vacant land and the banks of creeks, the clearing of blocked drains, and the filling in of low-lying ground. For this purpose four extra Foreign Sanitary Overseers were engaged and forty coolies.

There are nearly sixty miles of public alleyways and about one hundred miles of private alleyways in the Settlement, and the task of keeping those in a clean and sanitary condition, is a difficult one, and depends on the amount of available labour and supervision.

Particular attention was given to the surroundings of military camps with the gratifying result that no complaints of insanitary conditions were received from the military authorities.

Numerous prosecutions were undertaken for dumping house refuse, and for insanitary conditions of laundries and tailors' shops.

Anti-mosquito work was handicapped by the heavy rains which caused large stretches of stagnant water on vacant land. These were drained away by ditching wherever possible. One huge expanse of water, swarming with larvae, near the Tongshan Road Military Camp, was pumped away by the old "Fire King" by the courtesy of the officers of the Fire Brigade.

Even in the Central District, which should be free from mosquitoes, larvae were found in excavations for new buildings.

In many places the breeding of mosquitoes is an indictable and punishable offence, and recently in a Scottish Court it was decided that mosquitoes were legally a nuisance within the meaning of the Public Health Act, when present in sufficient numbers to cause annoyance to, and inflict injury on, residents.

The Food, Dairies and Markets Division was specially active in its duty of safeguarding the food supply. From licensed dairies 115 samples of milk were taken for analysis in the Municipal Laboratory, and of these 9 were found to be of poor quality, and 5 below the proper standard.

Notices were served and prosecutions undertaken. One dairyman was fined by the Provisional Court for insanitary methods.

Ice-creams were kept under close supervision, and of 45 samples examined, 10 were found to be unsatisfactory. Notices were served on the makers of unsatisfactory samples.

Many hawkers of ice-cream, iced drinks and unsound foods, were apprehended and summarily fined at the Police Stations, and their products and containers confiscated.

The supply of cattle from Shantung and Kiangsu by rail from Nanking for the local shops and markets, was normal, and the quality good, but prices continued to rise. Butcher's meat found being transported through the streets unprotected from dust and flies was detained until the owner provided proper and adequate covering.

The Municipal Swimming Bath which was put at the disposal of the Naval and Military Forces was used by 11,814 men during the month. The water was chlorinated nightly and changed twice a week.

The Open Air Swimming Pool at Hongkew Park, reserved for the public, was used by 6116 persons, a rather smaller number than usual on account of the unfavourable weather. The water was also chlorinated nightly and changed three times during the month.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

Commissioner of Public Health.

LABORATORY REPORT ON WATER.

Sample of Shanghai Waterworks Water.

Sample received June 27, 1927.

Report sent out July, 1927.

Physical Characters.—Faint yellowish green colour with a trace of opacity only. Faintly alkaline reaction to litmus.

Chemical Examination.

Appearance on Ignition :	Slight charring
Total Hardness :	9.0

(b) Permanent	4.0

Poisonous Metals	Nil
Nitrites	Nil
Phosphates	Minute traces
Sulphates	Traces
Oxygen absorbed in 1 hour at 37° C.	0.0489

Bacteriological Examination.—21 Specimens of Shanghai Waterworks water were examined during the month, each sample consisting of 120 c.c. Of these, 10 did not ferment glucose, while 6 samples showed the presence of Colliform organisms in amounts varying 10—270 per litre; no lactose fermenters were present in these. Of the remaining 5, 2 contained 10 B. Coli Communior per litre, 2 others 10 organisms per litre of an unspecified B. coli group. One case of tap water the B. Coli group estimate was 1450 per litre, contained 25 B. Coli Communior and 800 B. Cloacae per litre. This excessive contamination must have been local, so that the standard of bacteriological purity of the water is still at a high level.

Chemical Examination.—Chlorine in chlorides has varied from 1.7 to 2.5 parts per 100,000 and free chlorine from 0.02 to 0.06 parts per million. Nitrites have been absent. The saline ammonia figure has been normal.

Report On Analysis.—Results of analyses showed satisfactory purification, and, with one exception, satisfactory purity during conveyance.

二

對加捐之主動力大半與正當有關之市政問題無涉該種結論負責之華人當能與表同意

其次本局願將所以須加百分之二之巡捕捐之故略爲解釋如下

（一）不絕之內亂與中國政治之不靖使租界當局屢次設法採取必要之手續保護上海中外人士之性命與財產本局於一九二三年一九二五年及一九二六年因此種情形所取緊急辦法而所不得不費之金錢其數遠逾銀四四三六六八兩

（二）再租界華人間罪案之驟增亦屬擾亂情形之一種原因強盜綁匪與政治狡猾者之活躍自與本局有極大之機係而欲應付此種增加之恐嚇勢必時常加添巡捕並籌劃更有效力之設備故維持部所需佔總捐之數實不在少可於下列表內見之

	一九二五年	一九二六年	一九二七年（預算）
銀	二七二八五七兩	二五八二一五兩	二九四四二九〇兩

又自一九二七年一月一日起於各警務區域內每月總計之重大罪案較之去年每月之平均數已加百分之二百七十一

（三）會審公廨之交回係于一九二七年一月一日實行改名爲上海臨時法院以前該院所收入罰款之一部及訴訟費等向交本局接收以作本局華人監獄之維持費而今在新制之下則此項收入已經取消其結果乃納稅之公衆勢必增加負担實任其數約每年銀一五〇〇〇〇兩

（四）警務處經費增加一節前已提及而辦理其他公共事業之費用因物價之增漲而實際上亦隨之增加關於此層華人員役之薪資而言於一九二六年本局共付銀二八八五六四九兩平其數必更增加

（五）近來本局無甚艱難以徵息借資作爲重要之用者目下所有公債之平均率係在百分之六半之下如上海欲保存其世界通商巨埠之地位則將來須增加重要之用費其能護得此項基本金之能力全視乎市政局之信用是否能得保持至於繼續不息之政治煽動自必降低本埠之信用一如他處感受同樣之應聲致使所借重要用費之息金增加而借貸增加利率必使稅捐隨之增加因此市政局之信用務須保持至於投資公衆之前有損壞市政局信用之任何嘗試實一種犯法之愚昧舉動且屬破壞中外納稅人之利益故本局切請住居租界內華人不以政治之關係及其他原因妨礙一居有百萬人民之城市之秩序及良好政府此時本局負有極重大之責任而深望獲得納稅人之輔佐完無國界之分焉

備忘錄

本局對於所規定於一九二七年七月一日起增加百分之二之巡捕捐一事特將下列之備忘錄公之於衆以便週知

一

本局對於報紙及其他等處所遇傳之某項謬妄誤引及不適切之詞句先願有所註解

（一）公共租界係由洋涇浜章程而存在並爲其所約束該項章程係於一八四五年經中國當局核准頒訂至一八六九年重經修改其後各種修改俱經北京中國政府允准且該項章程歷經上海會審公廨華當局切實施行故就實際與效力上言之該項章程實成爲一最高級之條約非僅兩國兩方面之一種合同實爲凡與中國與中國共訂者也在此合同之下凡與中國訂立該項章程之各國人民非但在租界內有居住及營業之權利並得設立市政府按某項特別規則治理之該項規則之中有洋涇浜章程所規定外國人每年集會一次商議辦法籌集需要之經費以便遵行租界之治理且得徵收稅捐而對於房屋土地宣佈捐率格式之估價

一九二七年預算表內規定增捐百分之二經納稅人於本年四月十三日在議事廳集會時核准故謂本局於擬執行完全按照洋涇浜章程而核准之一種辦法爲非法一語實屬謬妄更有謂本局違背合同或未先向華人居民徵求同意增加捐率有違章程等詞則尤屬無稽本局決無該項合同亦從未知有該項合同之存在

（二）第二種普通之謬論即謂華人不准參預租界之市政是也查此事之眞相人已知之極詳今且簡短述之如下一九二六年四月間納稅人常會曾通過下列之議案

（據該會之意見租界之治理華人居民參預並當合工部局向關係國請求務能早日增加華董三名）

該決議案當經本局提交北京外交團不久即蒙容納而所提議之華董人數亦經中國政府與本埠華當局核准嗣後約九個月前本局與總商會之間時爲該事正式商一切且本局時作非正式之詢問以便得悉該華董進行至何地步但至今日據本局所知華人對所同意之三華董位置仍然虛懸毫無舉動第一事本局願注重者乃本局負責華人居民商議後而定華董人數始初爲三名第二事本局自一九二六年納稅人通過該議決案後日盼三華董之涖至故謂華人不得參預租界市政或本局對於目下華人不參加應負責任等語實屬不確

（三）第三種最易誤引之謂言且極普遍者乃租界稅捐華人付百分之七十以上一語是也至於該項稅捐問題如將實情申述則毫無誤會之處查本局通常之稅捐共有四大來源曰地捐曰市政捐（或房租捐）曰執照捐曰碼頭捐

本年度預計之各該項收入如下

	由華人處	由外人處	總數
地捐	銀一〇五三六〇〇兩	銀一五二六四〇〇兩	銀二五八〇〇〇〇兩
市政捐	三二〇二八〇〇兩	一八四八二〇〇兩	五〇五一〇〇〇兩
執照捐	九六三五二〇兩	四五三〇八〇兩	一四一七三五〇兩
碼頭捐	一三〇〇〇〇兩	五一〇〇〇〇兩	六五一〇〇〇兩
共計	五三四九九二七兩	四三四八四二三兩	九六九八三五〇兩

由是觀之所計該四大項通常稅源總數銀九六九八三五〇兩之中華人約納百分之五十五而外人約納百分之四十五者以人口計算外人每人年付通常捐銀一百四十五兩而華人每人年付通常捐銀六兩之數

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, AUGUST 12, 1927. No. 1090

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

By order,
S. M. EDWARDS,
Secretary.

Council Chamber,
Shanghai, June 23, 1927.

MUNICIPAL NOTIFICATION

No. 3637.

DOGS.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

"That the dog when in the streets or other place of public resort be effectively muzzled, but in such a manner as will admit of its breathing and drinking."

Dogs found without muzzles, whether led or at large, within the limits of the Settlement or on outlying roads, will be seized by the Police and detained at the Kennels for a period of one week or longer as circumstances may direct; their owners, when identified, will be prosecuted. Dogs wearing ineffective muzzles will be regarded as unmuzzled.

Unmuzzled dogs found at large within the limits of the Settlement, or on Municipal roads outside the limits of the Settlement, which cannot be seized, are liable to be shot.

This measure has become necessary owing to the incidence of rabies, and all dog owners are hereby warned accordingly.

Enquiries on the subject of lost or strayed dogs should be made at the Gordon Road Police Station (Telephone No. West 348) and Yangtszepoo Police Station (Telephone No. East 743).

By order,
J. M. MCKEE,
Deputy Secretary.

Council Chamber,

MUNICIPAL NOTIFICATION

No. 3638.

GENERAL MUNICIPAL RATE.

OWING to the recent agitation, the collection of General Municipal Rate for the quarter year ending September 30, 1927, has been seriously delayed. With a view to minimizing the additional expenditure entailed, Foreign Ratepayers are requested to be good enough to assist the Council by sending the amount of their General Municipal Rate for the current quarter to the Revenue Office, No. 23 Kiangse Road.

By order,
J. M. MCKEE,
Deputy Secretary.

Council Chamber,
Shanghai, August 4, 1927.

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulations constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds"

for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13 last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Comnerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—to which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese Tls.	From Foreigners Tls.	Total Tls.
Land Tax	1,053,600	1,526,400	2,580,000
Municipal Rate	3,202,800	1,848,200	5,051,000
Licence Fees	963,427	453,823	1,417,350
Wharfage Dues	130,000	520,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, on a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health, safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 5,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office —not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 as compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence lines to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their profound gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the widely disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that, except for the fact that rents remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,693

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this Department, therefore, now claims a very considerable share of the total municipal revenue as is shown in the table given below:—

1925	Tls. 2,372,857
1926	„ 2,582,158
1927 (estimated)	„ 2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Formerly, a proportion of the fines, hearing and filing fees, etc., received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prison ers. Now, under the new régime, no such payment is made, with the result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 2,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6½ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued political agitation will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

Public Health Service.

Further correspondence, relative to the apportionment of costs between the Council and the Provisional Commission for the Municipal Administration of the French Concession in the matter of public health services, is published for general information. Previous correspondence was published in the "Municipal Gazette" of May 20, 1927:—

Translation of letter from the French Municipal Provisional Commission dated June 15, 1927

SIR,—I have the honour to acknowledge receipt of your letter No. 4343/1, of May 9 last, on the subject of the participation by the Municipal Administration in the working expenses of the activities of the Health Department.

In reply, I am directed to inform you that the Municipal Commission has noted the agreement of the Shanghai Municipal Council as regards the grants accorded by the Municipal Administration under the headings of the Pasteur Institute and the Chinese Isolation Hospital, and to the daily tariff of hospital charges for indigent patients at the Foreign Isolation Hospital.

As regards participation in the cost of Venereal Diseases and Tuberculosis Clinics, the Municipal Commission regrets its inability to modify its views as previously communicated to you.

As regards the procedure to be followed for the admission to the Foreign Isolation Hospital of foreign indigent patients without Consular representation, the Commission is willing to bear the cost of hospital treatment on condition:—

(1), that they are residents of the French Settlement;

(2), that they are certified by the French Consular Authorities as indigent persons.

Referring to the Mental Ward, the Municipal Administration is willing to continue, as hitherto, to bear the cost of hospital treatment for foreign indigent patients without Consular representation, subject to the two conditions above-mentioned.

I am, Sir,
Your obedient servant,
P. LEGENDRE,
Secretary.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, August 2, 1927.

SIR,—I am directed to acknowledge receipt of your letter of June 15, on the subject of contributions by the French Municipal Administration to the cost of services rendered by the Public Health Department to residents of the French Concession.

In reply thereto, I am directed to state that the Council notes with satisfaction the decision of your Administration to pay the previously named sum of Tls. 3 per diem towards the cost of maintenance in the Foreign Isolation Hospital, and in the Mental Ward of the Victoria Nursing Home, of indigent patients without Consular representation on condition that they are residents of the French Concession and that they are certified by the French Consular Authorities to be indigent persons. In this connection, I am directed to request that you will obtain the requisite certification of the indigent patients named in the enclosed list, who are receiving free treatment in the Tuberculosis Block of the Foreign Isolation Hospital.

I am further directed to advert to the paragraphs in the Council's letter of May 9, emphasizing the importance of co-operation between the Public Health Department and neighbouring Municipalities in the control of venereal diseases and tuberculosis. The value of co-operation in these matters is beyond question, and the Council strongly desires that the French Administration should consider participation in the cost of maintaining the relative Clinics in its Budget for 1928. In anticipation of such sympathetic action by the French Administration, and as an expression of goodwill on the part of the Council, I am directed to state that indigent patients in the French Concession will, in the meantime, be admitted to these Clinics as heretofore, and, further, to request that the special Nurse and Health Inspector attached to the Tuberculosis Clinic be permitted to visit patients in their homes in the French Concession, as is the present practice within the International Settlement.

I am, Sir,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

P. LEGENDRE, Esq.,

With regard to the admission of indigent patients to the Tuberculosis Clinic and the Venereal Diseases Clinic, I am directed to inform you that the Municipal Administration can only confirm its previous communications, regretting its inability to assume the expenses incident to the admission of indigent residents of the French Concession to these Clinics.

Special Advertisement Rate—Protests against increased charge.—Protests by the British-American Tobacco Co., Ld., Carl Crow, Inc., and six other firms against the increase in the minimum charge for advertising from Tls. 0.05 to Tls. 0.10 per square foot, which was sanctioned at the last annual meeting of ratepayers, are submitted. In comment thereon, the Commissioner of Revenue states that this rate was never intended to be a source of revenue but was instituted for the purpose of controlling advertising matter. The chief factors upon which the protests are based are that the original rate enabled the Council to achieve its object in controlling the type of advertisements displayed, and further that hardship is suffered by the increased rate being given retrospective effect from the beginning of the year since the advertisers concluded contracts before they were aware of the proposed increase.

After discussion, members record the view that the increased minimum charge is justified; on the other hand, they consider that the firms affected are entitled to reasonable notice of the proposed increase. It is, accordingly, recommended that the increased minimum rate should not become effective until July 1, last, instead of on January 1, last, as originally proposed.

At the meeting of the Works Committee held on Thursday, July 28, 1927, at 2 p.m., there are present: Messrs. A. D. Bell, *Chairman;* W. R. B. McBain and T. H. R. Shaw.

備忘錄

本局對於所規定於一九二七年七月一日起增加百分之二之巡捕捐一事特將下列之備忘錄公之於衆以便週知

本局對於報紙及其他等處所逼傳之某項謬妄與引及不適切之詞句先願有所註解

一

(一) 公共租界係由洋涇浜章程而存在並爲其所約束該項章程係於一八四五年經中國當局核准頒訂至一八六九年重經修改其後各種修改俱經北京中國政府允准且該項章程歷經上海會審公廨華當局切實施行就實際與效力上言之該項章程實成爲一最高級之條約非僅兩國兩方面之一種合同實爲凡與中國有約各國與中國共訂者也在此合同之下凡與中國訂立該項章程之各國人民非但在租界內有居住及營業之權利並得設立市政府按某項特別規則治理之該項規則之中有選舉董事並凡有資格納稅人每年集會一次商議辦法籌集需要之經費以便進行租界之治理且得徵收稅捐而對於房屋土地宣佈捐率格式之估價

一九二七年預算表內規定增捐百分之二經納稅人於本年四月十三日在議事廳集會時核准故謂本局於遞執行完全按照洋涇浜章程而核准之一種辦法爲非法一語實屬謬妄更有謂本局違背合同或未先向華人居民徵求同意增加捐率有違章程等詞則尤屬無稽本局決無該項合同亦從未知有該項合同之存在

(二) 第二種普通之謬論即謂華人不准參預租界之市政是也查此事之真相人已知之極詳今且簡短述之如下一九二六年四月間納稅人常會曾通過下列之議案

(擬該會之意見租界之治理華人居民參預並當合工部局向關係國請求務能早日增加華董三名)

該決議案當經本局提案北京外交團不久即蒙容納而所提議之華董數亦經中國政府與本埠華當局核准嗣後約九個月前本局與總商會之間時爲該事正式商酌一切且本局時作非正式之詢問以便得悉該議進行至何地步但至今日擬本局所知華人對所同意之三華董位置仍然虛懸毫無舉動第一事本局願注重者乃本局與華人居民商議後而定華董人數始得爲三名第二事本局自一九二六年納稅人通過該決案後日盼三華董之莅至故謂華人不得參預租界市政或本局對於目下華人不參加應負責任等語實屬不確

(三) 第三種最易誤引之謬言且極普遍者乃租界稅捐華人付百分之七十以上一語是也

至於該項稅捐問題如將實情申述則毫無誤會之處查本局通常之稅捐共有四大來源曰地捐曰市政捐(或房租捐)曰執照捐曰碼頭捐

本年度預計之各該項收入如下

由華人處		由外人處		總數	
地捐	銀一〇五三六〇〇兩		銀一五二六四〇〇兩		銀二五八〇〇〇〇兩
市政捐	三一〇一八〇〇兩		一八四八二〇〇兩		五〇五一〇〇〇兩
執照捐	九六三五二七〇兩		四五三八二〇〇兩		一四一七三五〇兩
碼頭捐	一三〇〇〇〇兩		五二〇〇〇〇兩		六五二〇〇〇兩
共計	五三四九九二七兩		四三四八四二三兩		九六九八三五〇兩

由是觀之所計該四大項通常稅額總數約九六九八三五〇兩之中華人約納百分之五十五面外人約納百分之四十五者以人額計算外人每人年付通常捐額數一百四十五兩華人每人年付捐額各約二十五兩之數

The Municipal Gazette

BEING THE OFFICIAL ORGAN OF
THE COUNCIL FOR THE FOREIGN SETTLEMENT OF SHANGHAI.

Vol. XX. SHANGHAI, FRIDAY, AUGUST 19, 1927. No. 1091

PROCLAMATION.

THE GENERAL MUNICIPAL RATE.

(Translation)

THE General Municipal Rate has been, hitherto, 14 per cent. on the assessed rental of houses within the Settlement, and 12 per cent. on houses beyond Settlement limits. As from July 1, the Council intends to increase the rates by 2 per cent., making them 16 and 14 per cent. respectively.

Now certain persons, ever alert to seize an opportunity for agitating the public mind, are deliberately spreading false statements concerning the Council's reasons for increasing the rates; their purpose being to discredit the Municipal Administration and to sow discord among Chinese and Foreign residents of Shanghai. Let none be deceived by their subtle schemes.

There is no truth whatever in the statement that Foreigners receive preferential treatment in the matter of taxation; nor is there any ground for the rumour that the cost of the Foreign Troops now in Shanghai is borne by the Council. The basis of taxation in the International Settlement is the same for all, Chinese and Foreigners alike. The entire cost of the Foreign Troops is defrayed by the Governments under whose orders they are acting.

It is a well-known fact that the cost of nearly all commodities has risen considerably during recent years. This increase has to be faced by the Council as well as by business firms and private individuals. The Council has made a very careful estimate of the amount that will be required during 1927 to maintain the several departments of the public service, and has come to the conclusion, with great reluctance, that a 2 per cent. increase in the rates is essential.

This increase of 2 per cent. is a comparatively small amount for the individual payer. For example, a Chinese living within the Settlement and paying a house rental of $10 per mensem has been required, hitherto, to contribute $1.40 in rates; from July 1 he will be charged $1.60, an increase of 20 cents a month. A Chinese or Foreign merchant renting a house at $150.00 per mensem will be called upon to pay $24.00 a month, instead of $21.00, and so on. Thus a uniform rate is equitable to all classes. A wealthy person occupying large premises contributes more in rates than a poorer man who rents but a small house or shop. Yet each is taxed according to the law, secure against extortion and duress.

During the present period of trade depression, the general public is naturally averse to any increase in the rates. Foreign residents, however, realizing the very heavy responsibility of the Council to provide for the proper upkeep of the Settlement and the protection of its citizens against the risks of fire, lawlessness, and disease, are shouldering their burden of taxation without demur. There is ample justification for the belief that, with the exception of a noisy and irresponsible minority, the Chinese community is just as desirous of fulfilling its civic obligations in a like manner.

Many false statements concerning this matter are now being circulated by the supporters of Communism to further their own sinister designs. All law-abiding citizens should assist the authorities in the preservation of peace and good order by paying no heed whatever to such rumours.

By order,
S. M. EDWARDS,
Secretary.

DOGS.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

"That the dog when in the streets or other place of public resort be effectively muzzled, but in such a manner as will admit of its breathing and drinking."

Dogs found without muzzles, whether led or at large, within the limits of the Settlement or on outlying roads, will be seized by the Police and detained at the Kennels for a period of one week or longer as circumstances may direct; their owners, when identified, will be prosecuted. Dogs wearing ineffective muzzles will be regarded as unmuzzled.

Unmuzzled dogs found at large within the limits of the Settlement, or on Municipal roads outside the limits of the Settlement, which cannot be seized, are liable to be shot.

This measure has become necessary owing to the incidence of rabies, and all dog owners are hereby warned accordingly.

Enquiries on the subject of lost or strayed dogs should be made at the Gordon Road Police Station (Telephone No. West 348) and Yangtszepoo Police Station (Telephone No. East 743).

GENERAL MUNICIPAL RATE.

OWING to the recent agitation, the collection of General Municipal Rate for the quarter year ending September 30, 1927, has been seriously delayed. With a view to minimizing the additional expenditure entailed, Foreign Ratepayers are requested to be good enough to assist the Council by sending the amount of their General Municipal Rate for the current quarter to the Revenue Office, No. 23 Kiangse Road.

By order,
J. M. McKEE,
Deputy Secretary.

Council Chamber,
Shanghai, August 4, 1927.

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulation constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds"

for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13 last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese Authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Commerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—to which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese Tls.	From Foreigners Tls.	Total Tls.
Land Tax ..	1,053,600	1,526,400	2,580,000
Municipal Rate	3,202,800	1,848,200	5,051,000
Licence Fees ..	963,327	453,823	1,417,350
Wharfage Dues	130,000	520,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, on a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health*, *safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 3,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office —not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents, their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence lines to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their profound gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the widely disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that except for the fact that taxes are remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,668.

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this Department, therefore, now claims a very considerable share of the total municipal revenue as is shown in the table given below:—

1925	Tls. 2,372,857
1926	„ 2,582,158
1927 (estimated)	„ 2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Formerly, a proportion of the fines, hearing and filing fees, etc., received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prisoners. Now, under the new régime, no such payment is made, with the result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 5,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6½ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued political agitation will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

Serious Crime.—This includes the murder of a Chinese who was attacked in a barber's shop in the Hongkew District on July 1 by a gang of men armed with knives and axes; the murder of a Chinese with a criminal record whose dead body bearing axe wounds was found on Pingliang Road on the night of July 2; the murder of a Chinese who was shot by an armed robber on the Fokien Road on July 6 and died in hospital the following day; the murder of a Chinese and the wounding of another who were fired at by an armed robber in the Louza District on the afternoon of July 12; the murder of a Chinese pedestrian who was shot whilst attempting to arrest an armed robber in the Harbin Road District on the night of July 13; the murder of a wheelbarrow coolie who was shot by armed robbers on Ward Road on the early morning of July 15 and died in hospital two days later; the murder of a Chinese detective constable on the morning of July 19 by two armed assassins; the murder of a Sikh Constable who was shot dead in the Hongkew District on the afternoon of July 22 whilst attempting to arrest an escaping armed robber and the death in hospital on July 22 of a coolie as the result of stab wounds received at a cake shop in the Harbin Road District four days previously.

In connexion with the above cases three persons were arrested and are on remand. Two further arrests were made during the month in connexion with the murder of a coolie foreman who was shot dead on Yangtszepoo Road on October 16, 1926.

Armed Abduction.—On July 10 the police arrested a Chinese for being concerned in a case of armed abduction which occurred on North Szechuen Road on the early morning of June 14. The sum of $50,000 was demanded for the release of the victim but he finally regained his liberty on the payment of $3,000 to one of his guards. No report was made at the time of the crime to the police.

Robbery.—Forty-nine reports of armed robbery from premises and twenty-three on the highway were received during the month. Two cases of attempted armed robbery were also reported. Shots were fired by the robbers in fifteen instances resulting in the death of a Sikh Constable and four Chinese and the wounding of one Chinese. One robber was shot dead and three wounded.

In connexion with the foregoing and reports of armed robberies occurring prior to July 1, forty-one persons, ten of whom were in possession of loaded firearms, were arrested. One died from wounds received at the time of his arrest, two were sentenced to imprisonment and the remaining thirty-eight are on remand. Twelve men on remand for being in possession of firearms have been further charged with armed robbery. The case against them has not yet concluded. Of the two hundred and twelve persons on remand at the end of June charged with armed robbery, thirty-three were dealt with, nineteen being sentenced to imprisonment and fourteen acquitted. One man in possession of a loaded pistol was arrested in connexion with an armed robbery which occurred in the French Concession and handed over to the French Police.

Nine reports of highway robbery, in which no arms were used, were received. Of five persons arrested in connexion with these holdups, one was sentenced to imprisonment and four are on remand. Fourteen persons on remand charged with highway robbery were dealt with. Ten were sentenced to imprisonment and the charges against four were dismissed.

Property Stolen.—419 reports made under this heading during the month represent an estimated loss of $156,184 and include nineteen cases of burglary, four of housebreaking, three of godown breaking and ten of shop and office-breaking. Successful investigation was made in 104 cases, resulting in the recovery of property valued at $40,740, in addition to which recoveries to the extent of $13,076 were made in connexion with reports received prior to July 1. In addition, successful results were obtained in eight cases reported as having occurred out of Settlement limits and in five instances where the property was reported as lost.

Trafficking in Firearms, etc.—Two Chinese were arrested for trafficking in ammunition when over seven hundred rounds of .32 pistol ammunition were seized. Two foreigners on remand charged with trafficking in firearms were each sentenced to a fine. Nine Chinese were arrested for being in possession of firearms for an unlawful purpose. Two were sentenced to imprisonment, two were fined, one was acquitted and four are awaiting trial.

Crime beyond Settlement Limits.—Seven cases of armed robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In one instance an officer of the 20th National Army was shot dead while endeavouring to arrest an armed robber.

Execution.—Twenty-nine Chinese found guilty of armed robbery and other serious crime within the Settlement were executed by the Chinese Authorities during the month. Some twenty prisoners were executed for offences committed in Chinese territory. Included in this number was the paymaster of the Chinese Communists in Shanghai.

Civil War.—The civil war was reflected locally in military movements on an abnormally large scale and depression in trade. To the interference with transport facilities and uncertainty resulting from civil war, from which business has previously suffered, have now been added various new taxes. These impositions include forced loans, plans for the collection of a levy from landlords equivalent to double the amount of their monthly rental, a proposed schedule of tariffs on luxuries which, with the customs al duty, would make a total of 62½ per cent. on such articles as wines and liquors, cigars and cigarettes, special taxes on coal and aerated water, and an increase in the duty levied on all commodities passing through the Chinese Maritime Customs. As a result of these impositions, various industries have ceased to be profitable and the cost of living has increased.

Reports were current at the end of the month that new alignments which affect General Chiang Kai-shek's territory were in process of formation by various militarists and politicians, and suggestions were made that a fresh outbreak of civil war, which may affect this province, is possible.

Anti-Foreign Agitation.—Anti-foreign propaganda was furthered during the month by the usual means. Charges were made in the Chinese press and leaflets that the ills from which China suffers result in a large measure from the power wielded in this country by foreign imperialists, and the anti-foreign prejudices of the illiterate were aroused by street speakers and hideous cartoons ascribing to foreigners acts of a most diabolical nature. One of these cartoons depicted a half naked Chinese being

strangled with a rope by foreign style figures representing militarists, imperialists, corrupt officials and rowdies, who are operating under cover of the "Unequal Treaties." In the case of the Japanese, the hostile propaganda was accompanied by a vigorous demand for the boycotting of their goods, and threats that all sorts of terrible punishments would be inflicted upon those who failed to obey. Cages similar to those formerly used in China for executions by means of slow torture were made and displayed in Chinese territory. These cages bore the inscription "To be let to the slaves of foreigners," and it was freely reported that they would be used for Chinese who had the temerity to deal in Japanese goods. While the use of these cages does not seem so far to have been invoked, it is known that persons acting under the instructions of the Boycott Committee arrested merchants accused of dealing in Japanese goods and held them in custody until they ransomed themselves by the payment of large amounts. The events of the month indicate that the opportunities which such cases afford for the enrichment of the parties concerned account in no small measure for the enthusiasm of the boycotters.

Agitation against the Municipal Council.—The Chinese Ratepayers' Association, supported by the Chinese General Chamber of Commerce and the Nationalist Political Party, conducted vigorous propaganda during the month against the payment of taxes in accordance with the new rates fixed by the Municipal Council. This propaganda took the form of the publication in the Chinese press of manifestoes and resolutions which were approved at a series of meetings convened to further the opposition to the tax, the distribution of leaflets in a similar sense and the declaration of a one day's strike on July 3. Suspicions entertained from the beginning that the campaign lacked popular support were strengthened by the absence of enthusiasm for the temporary strike and confirmed later in the month when the agitators, leaving appeals aside, sought to further their movement by means of various threats. Counter measures taken by the Municipal Council for the enforcement of its rights had the desired effect and it was noticeable at the end of the month that the influence wielded by the agitators among the ratepayers had considerably diminished. Measures taken by the Municipal Council included the publication of a statement explaining the benefits conferred upon residents of the Settlement and the factors which make the increase in the tax unavoidable.

Communism.—The secret activities of the Communist Party were pursued with unusual vigour during the month which, in accordance with a practice followed in the summer months of previous years, was devoted almost entirely to revisionary work. This included the taking of a census of employes of industrial concerns in Shanghai and the collection of information about their political affiliations. Other activities in which the Chinese Communist Party engaged included the dissemination of handbills. One of these advised the people to make war on Chiang Kai-shek and urged the workers to be prepared to shed their blood in the fight for the proletariat, which should be continued until blood red flags are flying over the citadels of all the counter revolutionaries. Another of the leaflets explained that the Chinese Communist Party favoured a scheme for the conversion of all factories and mills into public property, but advises that for the present this rule should only be applied to establishments which oppress their workers by means of lockouts, etc.

Strikes.—Two strikes occurred in July in addition to two which were continued from June, affecting a total of 11,629 workers. On July 6 a number of silk filature strikers intimidated the workers of a silk filature in Chapei and the Chapei Police were obliged to fire several shots in order to disperse them, two of the demonstrators receiving wounds which necessitated hospital treatment.

In consequence of the lack of demand for cigarettes resulting from the imposition by the Nationalist Authorities of a 50 per cent. tax on these goods, the British-American Tobacco Company and the British Cigarette Company closed their factories during the month. Some 7,500 operatives engaged in these establishments were thereby rendered idle.

One thousand three hundred employes of the Chung Hua Book Company, 277 Bubbling Well Road and 508 Foochow Road, were idle from July 1 to 31 in consequence of suspension of business by that enterprise.

Other workers out of employment at the end of the month included 3,684 hands engaged in the Oriental Cotton Mill, 36 Yangtszepoo Road, which, in consequence of a strike of the workers to enforce a demand for a special monthly bonus, was closed from July 1 to 31.

Court Cases.—S. Golianovsky and K. Stoyanovitch, two Soviet agents, were charged before the Provisional Court on July 9 with openly inciting people to commit an offence against the public safety. The case was remanded until July 12 when, on an application being made by the Chinese Authorities, the Court ordered the accused to be handed over to them for trial.

Three Sikhs, two of whom were members of a party who had come from America with the sole intention of stirring up anti-British feeling in China and the other, Gujjan Singh, notorious disseminator of sedition, were sentenced by H.B.M. Supreme Court on July 5 to one year in prison and at the expiration of their sentences to be deported to India, on charges of conspiring to spread sedition contrary to Article 80 of the China Order in Council.

During the month three Chinese proprietors of book stores were charged with selling indecent publications and sentenced by the Provisional Court to fines of $45, $50 and $300 respectively. Four Chinese vendors of indecent literature were each sentenced to a fine of $40 or 40 days' imprisonment.

Raid on Dalbank.—On the forenoon of July 16 the Municipal Police, acting on the authority of a warrant issued by the Shanghai Provisional Court, searched the offices of the Bank of East Asia (Dalbank), a Soviet institution at No. 29A Szechuen Road. Subsequent to the search the Provisional Court, acting at the request of the Chinese Authorities, issued an order to have the premises of the Bank sealed. This order, which was duly carried out, had not been rescinded up to the end of the month.

Opium Monopoly.—As part scheme for the elimination of opium, the Finance Department of the Nationalist (Nanking) Government is reported to have decided to allow a monopoly to engage temporarily in the trade. For the enjoyment of this right for a period of one year in Chekiang and Kiangsu, this monopoly has agreed to pay the Government a sum of $15,500,000 which shows that enormous quantities of opium are still being used in these provinces.

Traffic.—Court proceedings were instituted in 323 (17 Foreigners and 306 Chinese) of 1,915 reports of traffic irregularities received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

（四）第四種歲納之言論信者稱衆乃租界市政之衆衆各種平華人所納之稅一語

益辦事實列下查通當之收入係由徵捐及其他之派頭而得者並係用作日常治理之經費故每年該項收入係依照預算表而支用其中用途極繁然概括言之可謂用於租界居民之衛生安全及利便是也該項辦法當然包含本局所賴一切事業之維持經費至於特別之收入係由公債而來專用於永久性質之發展工作類如市政上所需用於馬路橋樑房屋醫院學校陰溝及堆頭等之一切費用除一九二〇年之金磅公債及一九二一年之銀洋公債該項債票之發售以票償還投資者不得查考外本局所發行之公債票以本年六月三十日爲止其數共爲銀四千五百萬兩減去中國政府機關如海關鹽務署郵局所持者計約三百萬兩華人所購者不過二百六十萬兩其餘之三千九百四十萬兩全屬外人購買由是觀之外人在租界市政發展上所投之資較華人多十五倍按人頭計算外人每名投資一三一三兩而華人每名僅七兩故謂租界之建設係賴華人納稅一言按事實上觀之實無根據也

（五）第五說謂外兵之來滬全在保護界內外人不曾一種侵犯而抵捐之增加係爲應付外兵之費用關於該題本局對華人居民不得不有所聲明因在三年之前上海多數有勢力之華商曾簽名稟請本局推放護衛綫將閘北之大部份亦包含在內再在前三月之內亦有多數華商對於現在滬地外兵所予之保護表示感激而各團係國亦曾數次明白解釋何以擴張等之意見須派兵來滬今爲關謀起見本局特切實聲明以便週知卽除外兵居處免徵捐費外其餘一切費用均由各國担負與本局絲毫無涉也

（六）卒言之本局不得不對多數不適切之言論及印刷品有所表示因按其表面雖似抗議加捐但由主持者所言之性質上及其所示不顧事理一事上而觀之本局勢必作一結論卽該項反對加捐之主動力大半與正眞有關之市政問題無涉該種結論負責之華人當能與表同意

二

（一）不絕之內亂與中國政治之不靖使租界當局屢次設法採取必要之手續保護上海中外人士之性命與財產本局於一九二三年一九二五年及一九二六年因此種情形所取緊急辦法而所不得不費之金錢其數逾銀四三六六八兩

（二）再租界華人間罪案之驟增亦屬擾亂當形之一種原因强盜綁匪與政治投機者之活躍自與本局有極大之機係而欲應付此種增加之恐嚇勢必時常加添巡捕並籌劃更有效力之設備故維持該部所需店總捐之數實不在少可於下列表內見之

一九二五年	銀二三七二八五七兩	一九二六年	銀二五八二二五八兩
一九二七年（預算）	銀二九四四二九〇兩		

又自一九二七年一月一日起於各警務區域內每月總計之重大罪案較之去年每月之平均數已加百分之二百七十一

（三）會審公廨之衰退係于一九二七年一月一日實行改名爲上海臨時法院以前該院所收入罰款之一部及訴訟費等向交本局接收以作本局華人監獄之維持費而今在新制之下則此項收入已經取消其結果乃納稅之公共勢必增加負担責任其數約每年銀一五〇〇〇兩

（四）警務處經費增加一節前已提及而辦理其他公共事業之費用因物價之增漲而實際上亦隨之增加關於此層單就本局華人員役之薪資而言於一九二六年本局共付銀二八八五六兩

（五）近來本局無法顯維以徵息借資作爲重要之用貴目下所有公債之平均利率係在百分之六半之下如上海欲保存其世界通商巨埠之地位則勢須增加重要之用費其能護得此項基本金之能力全視乎市政局之信用是否能得保持至於繼續不息之政治煽動自必降低本埠之信用一如他處感受同樣之應響致使所借重要用費之息金增加而借資增加利率必使稅捐隨之增加而此市政局之信用保存者於投資公衆之前有損滅市政局信用之任何營謀實一種犯法之愚昧舉動且屬破壞中外納稅人之利益故本局切請住居租界內華人不以政治之關係及其他原因妨礙一居有百萬人民之城市之秩序及良好政府此時本局負有極重大之責任而深望護得納稅人之輔佐無國界之分焉

備忘錄

一

本局對於所規定於一九二七年七月一日起增加百分之二之巡捕捐一事特將下列之備忘錄公之於衆以便週知

本局對於報紙及其他等處所遍傳之某項謬妄誤引及不適切之詞句先願有所註解

（一）公共租界係由洋涇浜章程而存在並爲其所約束該項章程係於一八五五年經中國當局核准頒訂至一八六九年重經修改其後各種修改俱經北京中國政府允准且該項章程歷經上海會審公廨華當局切實施行故就實際與效力上言之該項章程實成爲一最高級之條約非僅兩國所立之一種合同實爲凡與中國有約各國與中國共訂者也在此合同之下凡與中國訂立該項章程之各國人民非但在租界內有居住及營業之權利並得設立市政府按某項特別規則治理之該項規則之中有選舉董事並凡有資格納稅人每年集會一次商議辦法籌集需要之經費以便進行租界之治理且得徵收稅捐而對於房屋土地宣佈捐率格式之估價

一九二七年預算表內規定增捐百分之二經納稅人於本年四月十三日在議事廳集會時核准故謂本局於擬執行完全按照洋涇浜章程而核准之一種辦法爲非法一語實屬謬妄更有謂本局違背合同或未先向華人居民徵求同意增加捐率有違章程等詞則尤屬無稽本局決無該項合同亦從未知有該項合同之存在

（二）第二種普通之謬論卽謂華人不准參預租界之市政是也查此事之眞相人已知之極詳今且備短述之如下一九二六年四月間納稅人常會曾通過下列之議案

（據該會之意見租界之治理華人居民參預並當分工部局向關係國請求務能早日增加華董三名）

該決議案當經本局提交北京外交團不久卽蒙容納而所提議之華董人數亦經中國政府與本埠華當局核准嗣後約九個月前本局與總商會之間時爲該事正式函商一切且本局時作非正式之詢問以便得悉該事進行至何地步但至今且據本局所知華人對所同意之三華董位置仍然虛懸毫無舉動第一事本局願注重者乃本局負責華人居民商議後而定華董人數始初爲三名第二事本局自一九二六年納稅人通過該決案後日盼三華董之涖至故謂華人不得參預租界市政或本局對於目下華人不參加應負責任等語實屬不確

（三）第三種最易誤引之謬言且極普遍者乃租界稅捐華人付百分之七十以上一語是也

至於該項稅捐問題如將實情申述則毫無誤會之處查本局通常之稅捐共有四大來源曰地捐曰市政捐（或房租捐）曰執照捐曰碼頭捐

本年度預計之各該項收入如下

由華人處		由外人處		總數
地捐	銀一〇五三六〇〇兩	銀一五二六四〇〇兩		銀二五八〇〇〇〇兩
市政捐	三一〇二八〇〇兩	一八四八二〇〇兩		五〇五一〇〇〇兩
執照捐	九六三五二一七兩	四五三八二三兩		一四一七三五〇兩
碼頭捐	一三〇〇〇兩	五二〇〇〇兩		六五〇〇〇兩
共計	五三四九九二七兩	四三一四九二三兩		九六九九五〇兩

由是觀之所計該四大項通常稅源總數銀九六九五〇兩之中華人約納百分之四十五而外人約納百分之五十五而外人約納百分之四十五者以入口稅計算外人每人年付通常捐額一百四十五兩而華人每人年付通常捐額六兩六錢

OWING to the recent agitation, the collection of General Municipal Rate for the quarter year ending September 30, 1927, has been seriously delayed. With a view to minimizing the additional expenditure entailed, Foreign Ratepayers are requested to be good enough to assist the Council by sending the amount of their General Municipal Rate for the current quarter to the Revenue Office, No. 23 Kiangse Road.

By order,

Deputy Secretary.

Official Statement by the Shanghai Municipal Council.

GENERAL MUNICIPAL RATE.

The following memorandum is issued by the Shanghai Municipal Council for the information of the public in regard to the two per cent. rate increase scheduled to come into force from July 1, 1927:—

I.

In the first place the Council desires to comment on certain false, misleading and irrelevant statements which have gained wide publicity in the press and elsewhere.

1. The charter under which the International Settlement exists and is governed is known as the Land Regulations. These Regulations were originally drawn up and promulgated with the approval of the Chinese Authorities in 1845. A revised Code was issued in 1869. Various amendments made since that time have received the assent of the Chinese Government in Peking, and the Regulations themselves have been consistently enforced by the Chinese Authorities in the Mixed Court at Shanghai. In substance and effect, therefore, this Code of Regulations constitutes a treaty of the highest class, being as it is not merely a bi-lateral agreement between two Sovereign States, but an agreement to which China herself and all the Foreign Powers having treaties with China, are parties. Under this agreement the citizens and subjects of the Powers which are parties thereto have acquired the right not only to reside and carry on business within the foreign Settlement but also to maintain a Municipal Government to be administered under certain specific rules. These rules, *inter alia*, provide for the election of a Council and for an Annual Meeting of qualified Ratepayers to "devise ways and means of raising the requisite funds" for the carrying on of the administration of the Settlement, to "impose and levy rates....." and to "declare an assessment in the form of a rate....." on land and buildings.

The budget for 1927, containing provision for the 2 per cent. rate increase, was duly submitted and approved at a meeting of Ratepayers held in the Town Hall on April 13 last. To say, therefore, that the Council is acting illegally or unconstitutionally in proposing to give effect to a measure that has been duly sanctioned in strict accordance with the Land Regulations, is false. The further statement that the Council has contravened an "agreement" or has "violated regulations in not first securing the permission of the Chinese residents to increase the rate" is without foundation. The Council certainly has no record of any such agreement; nor can it discover that any such agreement ever existed.

2. A second mis-statement commonly made is that Chinese are not allowed to participate in the municipal government of the Settlement. The true facts, of course, are perfectly well known and may briefly be recapitulated as follows. At the Annual Meeting of Ratepayers held in April 1926 a resolution was passed to the following effect:

"That in the opinion of this meeting the participation of Chinese residents in the government of the Settlement is desirable; and that the Council be hereby authorized and instructed to make forthwith representations to the powers concerned with a view to securing the addition of three Chinese Members at an early date."

This resolution was at once forwarded by the Council through the proper channels to the Diplomatic Body in Peking; and in due course it was accepted, and the proposed number of Chinese Councillors approved by the Chinese Government and the local Chinese Authorities. Since that time, some nine months ago, official correspondence on the matter has passed between the Council and the Chinese General Chamber of Commerce and unofficial enquiries have been made from time to time on the Council's behalf as to how the matter was progressing. But up to date, so far as the Council is aware, nothing has been done by the Chinese community towards filling the three seats agreed upon. The Council wishes to emphasize firstly, that the proposed number of Chinese Councillors was fixed at three to commence with after consultation with responsible Chinese residents; and secondly, that ever since the passing of the resolution by the Ratepayers in 1926 it has at all times been anxious to secure the services of three Chinese colleagues. To say, therefore, that the Chinese are not allowed to participate in municipal government, or that the Council is in any way responsible for their non-participation at the present time, is false.

3. A third form of mis-statement —and one most misleading in its implications—to which considerable publicity has been given is that 70 per cent. or more of the taxes in the Settlement are paid by the Chinese.

In this matter of taxes there has been so much misunderstanding and misrepresentation that the actual facts of the case may be stated. Ordinary municipal revenue is derived from four main sources, namely, Land Tax, Municipal Rate (or house rent tax), Licence Fees and Wharfage Dues.

For the current year the estimated revenue under these heads is as follows:

	From Chinese	From Foreigners	Total
	Tls.	Tls.	Tls.
Land Tax	1,053,600	1,526,400	2,580,000
Municipal Rate	3,202,800	1,848,200	5,051,000
Licence Fees	963,527	453,823	1,417,350
Wharfage Dues	130,000	520,000	650,000
Totals	5,349,927	4,348,423	9,698,350

That is to say, out of a total sum of Tls. 9,698,350 estimated to accrue from these four main sources of ordinary revenue, the Chinese contribute approximately 55 per cent. and the Foreigners 45 per cent. Or, as a *per capita* basis, each foreigner pays about Tls. 145 annually towards ordinary revenue as compared with about Tls. 6-6/10 paid by each Chinese.

4. A fourth and most astonishing assertion that has gained wide belief is that the municipal prosperity of the foreign settlement is due to the taxes paid by the Chinese people.

The actual facts are as follows. Ordinary revenue is derived from taxation and other sources and is devoted to current administrative expenses. That is to say the money obtained annually in this way is expended annually as provided for in the budget on a variety of measures chiefly concerning the *health, safety* and *convenience* of Settlement residents. Such measures, of course, include the maintenance of all services controlled by the Municipal Council.

Extraordinary revenue on the other hand is derived from public loans and is devoted exclusively to development work of a permanent and non-recurrent nature. Thus under this head is included the expenditure on land required for all municipal purposes, on roads, bridges, police stations, hospitals, schools, sewers, landing stages and so on.

Excluding the sterling and dollar loans of 1920 and 1921 respectively (in which, being bearer issues, the investors are not traceable) the total amount of municipal debentures outstanding on June 30, 1927, was just over Tls. 45,000,000. Deducting the sum of about Tls. 3,000,000 in the hands of Chinese Government concerns—Customs, Salt and Post Office—not more than about Tls. 2,600,000 of the balance has been subscribed by Chinese, against about Tls. 39,400,000 by foreigners. That is to say, the amount of money invested by foreigners in the municipal development of the Settlement is more than fifteen times the amount invested by Chinese. On a *per capita* basis each foreign resident has invested Tls. 1,313 as

compared with Tls. 7 invested by each Chinese. Clearly therefore, any claim that the Settlement has been built up by the money paid in taxes by the Chinese is not supported by the actual facts of the case.

5. A fifth statement to which much prominence has been given is that while the foreign soldiers in Shanghai are ostensibly for the protection of foreign residents, their presence in reality is nothing less than an invasion and that the rates have been increased in order to meet the expenses of these foreign troops. In this connection the Council would like to remind Chinese residents that less than three years ago the Council received a petition signed by many of the most influential Chinese merchants in Shanghai begging the Council to extend its defence lines to include the greater part of Chapei; that within the last three months many Chinese merchants have expressed their profound gratitude for the protection afforded by the foreign troops now here; and that the foreign governments concerned have on several occasions clearly defined the reasons why in their opinion it became necessary to send their troops to Shanghai. To dispose once and for all of the widely disseminated falsehood in regard to the expenses of these foreign troops, the Council states for the information of all concerned that, except for the fact that taxes are remitted on premises occupied by them, the whole of the cost is borne by national funds and that no part thereof is a charge against Municipal funds.

6. Finally, the Council is compelled to refer to a number of irrelevant statements that have appeared in speeches and documents purporting to be protests against the increased rate. From the nature of these utterances and from the disregard for truth displayed by those responsible, the Council is driven to conclude that the opposition to the increase is very largely inspired by motives unconnected with the purely municipal question involved. With this conclusion, the Council has good reason to know that many responsible Chinese agree.

II.

In the second place the Council desires to explain briefly why an increase of 2 per cent. in the Municipal Rate is necessary.

1. The continued state of civil war and political unrest in China has resulted in the Settlement authorities being repeatedly faced with the necessity of adopting measures for the protection of Chinese and Foreign life and property in Shanghai. The amount of money the Council was compelled to expend on emergency measures of this nature in 1924, 1925 and 1926 was no less than Tls. 443,668.

2. To the same disturbed conditions, also, may partly be attributed the alarming spread of crime among the Chinese within the Settlement. The activities of armed robbers, kidnappers and quasi-political criminals have naturally caused the Council great concern. To meet this increasing menace it has been found necessary from time to time to augment the Police Force numerically and to introduce new and more effective forms of equipment. The maintenance of this Department, therefore, now claims a very considerable share of the total municipal revenue as is shown in the table given below:—

1925	Tls. 2,372,857
1926	„ 2,582,158
1927 (estimated)	„ 2,944,290

It may be added that since January 1, 1927, the monthly average of cases of violent crime in all police districts has increased by 271 per cent. as compared with the average monthly figures for the preceding year.

3. The rendition of the Mixed Court became effective on January 1, 1927, on which date the Shanghai Provisional Court took its place. Formerly, a proportion of the fines, hearing and filing fees, etc., received by the Mixed Court were paid over to the Council and went towards the cost of maintaining the Municipal Gaol for Chinese prisoners. Now, under the new regime, no such payment is made, with the result that the rate-paying public are compelled to bear the additional burden of approximately Tls. 150,000 a year.

4. The rising cost of the Police Department has already been referred to. The cost of operating other public services has also materially increased in sympathy with the increased cost of practically all commodities. In this connection it may be mentioned that the amount paid in wages alone to the Council's Chinese employes in 1926 was Tls. 2,885,649. This year it is bound to be more.

5. Until comparatively recently the Council had little difficulty in borrowing the money required for capital expenditure at reasonable rates of interest. The average rate paid on Loans at present outstanding is less than 6½ per cent. Heavy additional capital expenditure will be required in the future if Shanghai is to retain its position as one of the great trading ports of the world. The ability to secure this capital will depend on the credit of the municipality being maintained. Continued political agitation will inevitably lower credit here as it has lowered credit elsewhere. This will mean that considerably higher rates of interest will have to be paid on money raised for capital expenditure; and increased interest rates on borrowed money will necessitate still further increased taxation. Hence it is imperative that the credit of the municipality be safeguarded and preserved. Any attempt to damage it in the eyes of the investing public is nothing less than criminal folly—a betrayal of the interests of the Ratepayers, both Chinese and Foreign alike. The Council, therefore, would urge Chinese residents of the Settlement not to allow political interests or other motives to undermine the order and good government of a city of nearly one million inhabitants. The Council is burdened with a very heavy responsibility in these times and has a right to expect the assistance and support of all Ratepayers irrespective of nationality.

Fire Brigade Report for July.

The total number of calls received during the month was 37, as under:—

Genuine fires in the Settlement	20
Genuine fires in the Specialrated Area	6
Genuine fires outside the Settlement	2
Chimney fires	2
Two false alarms inside the Settlement and one in the Special-rated Area (all good intent)	3
Special calls	4
Total	37

The damage to assessed property within the Settlement was estimated at Tls. 15,833 (Foreign Tls. 155; Chinese Tls. 15,678), and in the Special-rated Area Tls. 12,675 (Foreign Tls. 75; Chinese Tls. 12,600).

The value of property at risk within the Settlement was estimated at Tls. 2,460,400 (Foreign Tls. 2,189,100; Chinese Tls. 271,300), and in the Special-rated Area at Tls. 771,350 (Foreign Tls. 770,000; Chinese Tls. 1,350).

Six lives were lost at fires in the Settlement during the month, four men, one woman and one girl, and one recruit fireman lost his life whilst bathing at Yangtszepoo.

Nine persons were injured at fires in the Settlement.

Two hundred and sixteen premises were destroyed, all in the Special-rated Area, of which two hundred and thirteen were straw huts. In addition, twenty-eight premises were damaged, (one being a straw hut) of which only fifteen were inside the Settlement.

In dealing with the foregoing Brigade machines travelled 351 miles.

Hose laid approximately 21,475 feet.

Water used 81,590 gallons.

Time occupied at fires 111 hours 8 minutes.

Watching Duties.

Time occupied at fires 83 hours 8 minutes.

Time occupied at places of amusement 8,952 hours.

The only fires of note during the month were as under:—

July 21, off Ferry Road, Bamboo shed stocked with cotton waste and beggar village (Bubbling Well and Section of Sinza Divisions).—A large bamboo shed stocked with cotton waste approximately 60 x 60 yards and a number of straw huts were in flames on arrival. The fire was a distance of 1,500 feet from the nearest water supply and pumps re-layed the water. The fire took a considerable time to extinguish, and not before a large number of bamboo shops and huts had been destroyed and a quantity of cotton.

July 22, 3.03 a.m. Y293/4 North Szechuen Road (Hongkew and a Section of Central Division).—On the arrival of the Division the top floor of the above premises was a mass of flames, and the shops on each side already alight, as well as a large drying stage at the rear of the premises. Three people had jumped from the verandah to the roadway, and the Rescue Van was turned out and they were conveyed to Hospital, two succumbing shortly afterwards. Despite the fact that enquiries were made on arrival as to whether any persons were still in the building, it was not till damping down that the bodies of one woman and a girl were found in bed covered with the debris. Six premises were damaged in varying degrees.

The month of July was notable for the fires in straw huts and beggar villages, as has been stated no less than 213 huts being involved.

The following inspections were carried out by Officers:—

1. Premises of applicants for licences	40
Re-inspection of premises of applicants for licences	54
2. *Licensed Premises.*	
(a) Theatres, Cinemas and places of amusement	368
(b) Garages and Repair Shops	92

4.	*Completed buildings (other than licensed premises)*	
	(a) Offices, Banks and Exchanges	41
	(b) Stores (Foreign and Chinese)	14
	(c) Factories, Filatures, Mills etc.	26
	(d) Godowns and Wharves	14
	(e) Chinese houses and private houses	10
5	Public Buildings, Schools, Churches, Hospitals, Municipal Buildings	30
6.	Pumping Connections	432
7.	*Hydrants.*	
	(a) Shanghai Waterworks	1,288
	(b) Private installations	625
8.	Miscellaneous inspections following complaints	84
9.	Stores for hazardous goods	12
	Total	3,295

The above inspections revealed 25 breaches of the Council's Licensing Regulations, and 197 letters were written with regard to fire installations.

One hundred and four permits for the discharge, storage and transport of dangerous and/or hazardous goods within the Settlement limits were granted.

Parks Report for July.

Jessfield Park.—The most interesting and decorative feature during the month was the Water Garden, where the water was covered by masses of flowers of "Water Hyacinth"—Pontederia—, "Water Lilies," Nymphea—"Lotus"—Nelumbium and Segettaria. Originally this section was a marsh, in which reeds and bulrushes flourished. This Spring, intersecting water ways were excavated, leaving masses of reeds and bulrushes in the form of islands and on the margins, and the above-mentioned plants, together with Japanese iris, various grasses and other water plants, were planted in the water ways.

Wayside Park.—By raising the walls two feet the water-lily pond was converted into a bathing pool. This "water-lily" pond was, since their introduction in 1919, the place where the majority of Mosquito Fish were bred. Originally these fish were introduced from the Philippines and placed in the Park ponds. Wayside Park Lily Pond was the most suitable one, as it contained soil and plants, and fresh water could be turned on daily.

A census of visitors to the Parks and Gardens taken on July 30 and 31 gave a daily average of 26,359 persons.

Number of visitors in Jessfield Park 35,128

本局對於所規定於一九二七年七月一日起增加百分之二之巡捕捐一事特將下列之備忘錄公之於衆以便週知

一 本局對於報紙及其他等處所遍傳之某項謬妄誤引及不適切之詞句先願有所註解

(一) 公共租界係由洋涇浜章程而存在並爲其所約束該項章程係於一八四五年經中國當局核准頒訂至一八六九年重經修改其後各種修改俱經北京中國政府允准且該項章程歷經上海會審公廨華當局切實施行故就實際與效力上言之該項章程實成爲一最高設之條約非僅兩國兩方面之一種合同實爲凡與中國有約各國與中國共訂者也在此合同之下凡與中國訂立該項章程之各國人民非但在租界內有居住及營業之權利並得設立市政府按某項特別規則治理之該項規則之中有選舉董事並凡有資格納稅人每年集會一次商議辦法籌集需要之經費以便進行租界之治理且得徵收稅捐而對於房屋土地宣佈捐率格式之佔價

一九二七年預算表內規定增捐百分之二經納稅人於本年四月十三日在議事廳集會時核准故謂本局於擬執行完全按照洋涇浜章程而核准之一種辦法爲非法一語實屬謬妄更有謂本局違背合同或未先向華人居民徵求同意增加捐率有違章程等詞則尤屬無稽本局決無該項合同亦從未知有該項合同之存在

(二) 第二種普通之謬論即謂華人不准參預租界之市政是也查此事之眞相人已知之極詳今且簡短述之如下一九二六年四月間納稅人常會曾通過下列之議案

(據該會之意見租界之治理華人居民參預並當合工部局向關係國請求務能早日增加華董三名)

該決議案曾經本局提交北京外交團不久即蒙容納而所提議之華董人數亦經中國政府與本埠華當局核准嗣後約九個月前本局與總商會之間時爲該事正式函商一切且本局時作非正式之詢問以便得悉該事進行至何地步但至今日據本局所知華人對所同意之三華董位置仍然盧懸毫無舉動第一事本局願注重者乃本局負責華人居民商議後而定華董人數始初爲三名第二事本局自一九二六年納稅人通過該議決案後日盼三華董之產至故謂華人不得參預租界市政或本局對於目下華人不參加應負責任等語實屬不確

(三) 第三種最易誤引之謬言且極普遍者乃租界稅捐華人付百分之七十以上一語是也

至於該項稅捐開趨如將實情申述則毫無誤會之處查本局通常之稅捐其有四大來源曰地捐曰市政捐(或房租捐)曰執照捐曰碼頭捐

本年度預計之各該項收入如下

	由華人處	由外人處	總數
地捐	銀一〇五三六〇〇兩	銀一五二六四〇〇兩	銀二五八〇〇〇兩
市政捐	三二〇二八〇〇兩	一八四八〇〇兩	五〇五一〇〇〇兩
執照捐	九六三五二七〇兩	四五三八二三〇兩	一四一七三五〇兩
碼頭捐	一三〇〇〇〇兩	五二〇〇〇〇兩	六五〇〇〇〇兩
共計	五三四九九二七兩	四三四八四二三兩	九六九八三五〇兩

由是觀之預計該四大項通常稅源總數銀九六九八三五〇兩之中華人約納百分之五十五而外人約納百分之四十五者以人頭計算外人每人年付通常捐銀一百四十五兩而華人每人年付通常捐銀六兩六錢

Council and Shanghai Waterworks Co., Ld.

Revised Tariff of Charges.—In accordance with the appended correspondence, the Council has approved the revised Tariff of Charges prepared by the Shanghai Waterworks Co., Ld., operative from October 1, 1927, until December 31, 1928:—

Shanghai, August 25, 1927.

SIR,—The Agreement between the Council and the Company dated 28th September, 1926, provides that the Tariff of Charges for Intra Agreement Consumers shall be agreed as between the Council and the Company.

The estimates of expenditure have already been submitted to the Council; these represent the cost of providing an adequate supply of purified water with what has been agreed to be a fair return to shareholders on the capital they have invested.

The Tariff of Charges proposed by the Company for the period ending 31st December, 1923, (to come into force on the 1st October, 1927,) is as follows:—

1. *For Municipal Purposes: By Meter.*—At the rate of Tls. 0.30 for 1,000 gallons.

(*Note*:—Supplies of water for Municipal Purposes which cannot be measured by meter will until otherwise agreed be calculated on the same basis as at present subject to the increased rate stated above).

2. *For Domestic Purposes: At 6% on monthly rental of premises plus extra for water-closets, etc.*—For Domestic Purposes whether the premises be residential or otherwise at the rate of 6% on the actual rent payable by the occupier as it may be from time to time and without any deduction whatsoever or where the occupier is the owner of the premises at the rate of 6% on the rent assessed by the Council for the purpose of taxation as it may be from time to time without any deduction whatsoever and in both cases the rent shall be the rent for the whole of the premises occupied including any garden or other land forming part thereof provided that in the event of the actual rent or assessed rent for any one house being in excess of Tls. 200 per calendar month where rents are payable in accordance with the Gregorian calendar or per moon where rents are payable in accordance with the lunar calendar the rate on such excess shall be 2% Provided further that in the event of the occupier being the owner of the premises and the rent as assessed by the Council being on account of special circumstances lower than the rent would have been but for such special circumstances the said rate may be charged on what the rent would have been but for such special circumstances.

The Company may at its sole option charge for water supplied for domestic purposes in any apartment building or any building containing residences, offices or shops or to any consumer in the opinion of the Company likely to supply water to a non-consumer or to any consumer found to be wasting water by meter at the following rates:—

$5 for each meter for any quantity used where the monthly consumption does not exceed 10,000 gallons.

$0.50 per 1,000 gallons where the monthly consumption exceeds 10,000 gallons.

Except where the supply is regulated by meter, the rate for a supply of water for water closets shall be as follows:—

$1 per month for one or two water closets.

$0.40 per month for each water closet in excess of two.

Except where the supply is regulated by meter, the rate for the supply for automatic urinal flush tanks shall be as follows:—

For each tank designed to flush .85 gallons per flush $1.41 p.m.

For each tank designed to flush 1 gallon per flush $1.66 p.m.

For each tank designed to flush 1.15 gallons per flush $1.90 p.m.

For each tank designed to flush 2 gallons per flush $3.38 p.m.

For each tank designed to flush 3 gallons per flush $5 p.m.

The rate for tanks designed to flush other quantities shall be determined by the Company from the estimated quantity of water that will be consumed calculated at the rate of $0.50 per 1,000 gallons.

In the case of any building containing a number of offices or flats or a number of different consumers or in the case of any block of buildings the Company shall be entitled to require the landlord of such building or block to accept a service or supply for the whole of such building or block and to enter into a contract therefor as if such landlord were so far as the Company is concerned the sole consumer in respect of the whole supply or service to such building or block.

The Company shall also be entitled to require such a landlord to furnish to the Company at the end of each month or moon a statement in writing of the rent payable by each tenant of such building or block.

3. *For other than Domestic Purposes: By Meter.*—The following rates will be charged:—

$5 for each meter for any quantity used where the monthly consumption does not exceed 10,000 gallons.

$0.50 per 1,000 gallons where the monthly consumption does not exceed 200,000 gallons.

$0.45 per 1,000 gallons for any additional monthly consumption above 200,000 gallons and not exceeding 500,000 gallons.

$0.40 per 1,000 gallons for any additional monthly consumption above 500,000 gallons.

Provided that where the supply is for both domestic and non-domestic purposes in lieu of charging by meter the Company may charge for a supply of water for other than domestic purposes a rate (exclusive of any charge in respect of water closets or automatic urinal flush tanks) in addition to the charge for water supplied for ordinary domestic purposes. Such additional rate in the case of Purveyors of hot water shall not exceed $8 per calendar month and in the case of bean curd shops shall not exceed $6 per calendar month and in all other cases shall not exceed $5 per calendar month.

4. *Rubicon Road Supply: By Meter.*—For all supplies from the Works at Rubicon Road for whatever purposes at the rate of $0.60 per 1,000 gallons provided that the Company shall be entitled to charge for each meter a minimum rate of $6 per calendar month which minimum rate shall entitle such consumer to a supply during such month not exceeding 10,000 gallons.

5. *Fire Extinction and Private Fire Hydrants.*—No charge shall be made for the supply of water for the purposes of fire extinction drawn off from a private fire hydrant, sprinkler or drencher system provided that such fire hydrant, sprinkler or drencher system be supplied by a separate service pipe connected with the Company's main and that the consumer enters into a contract with the Company as to such supply and to comply with the reasonable regulations of the Company and to pay an annual fee in the case of private fire hydrants of $5 per hydrant irrespective of size but not exceeding in any case $20 and an annual fee in the case of a sprinkler or drencher system of $0.10 per sprinkler or drencher head supplied by one connection to the Company's main but not exceeding in any case $100 which annual fees shall in all cases be payable by equal monthly instalments.

I am directed to request you to be good enough to let me know if the tariff of charges as set forth above is agreed to by the Council.

I am, Sir,
Your obedient servant,
H. STRINGER.
Acting Engineer-in-Chief and Manager.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, August 29, 1927.

SIR,—I am directed to acknowledge receipt of your letter of August

25, containing proposals as regards a revised Tariff of Charges to come into force as from October 1 next and to remain in force until December 31, 1928. The detailed estimates of expenditure that have been forwarded to the Treasurer and Comptroller have received close and careful consideration, and the Council is satisfied that the increased cost of labour, coal and other materials justifies a revision in the Company's Tariff of Charges. I am therefore directed to convey to you the Council's approval of the proposals contained in your letter under reply.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

Public Health Report for July.

The health of the community continued to be satisfactory, the death-rates among both Foreigners and Chinese being about normal.

Cholera, which first appeared among the Chinese within the Settlement in June, continued to be present during the month, but no case occurred among Foreigners.

Among the Chinese, 16 cases were notified altogether, 9 without and 6 within the Settlement, in all of which diagnosis was confirmed in the Municipal Laboratory.

Prevention in Shanghai is the same as that for all intestinal infections, and is largely a matter of hygiene of the person and kitchen.

To avoid infection, the safest and surest way is to eat nothing that has not been recently cooked or boiled or otherwise sterilised.

This can be done in accordance with the instructions of the Public Health Notice without impairing nutritional value of food. The Public Health Notice may be freely obtained from the Public Health Department or from any of the Branch Health Offices. For those persons who are living in, or travelling through infected regions and who cannot safeguard their food and drink supplies, a prophylactic Cholera vaccine is of special value, and will give considerable protection for about a year.

From time to time a few cases of benign tertian malaria have been reported as occurring locally, but during the month the Medical Authorities of the British Forces in Shanghai notified 36 primary cases of benign tertian malaria, and in practically all these the infection was contracted at the Hurgjao Road Camp near the Hungjao Golf Course. The camp has now been closed. The infecting mosquito was proved to be the Anopheles hyrancus, formerly called "sinensis," which has the reputation of being only slightly receptive to infection experimentally, and not a common carrier of infection in nature.

It breeds freely in swamps and paddy-fields, and is said not to be fond of haunting houses. These mosquitoes are most active during twilight and night, and special precautions should be taken against them in the regions of their breeding-places.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

Commissioner of Public Health.

Bacteriological Examination.—20 Specimens of Shanghai Waterworks water were examined during the month. 10 samples showed the presence of Coliform organisms in varying amounts up to 270 per litre, but these did not ferment lactose. The remaining 10 samples contained organisms of the B. Coli group. In one case the figure was 120 per litre, but in the remaining 9 it was never higher than 25. These organisms were chiefly of an unspecified B. Coli group, or else B. Aerogenes.

The B. Coli Communis was isolated from one sample only. Although the numbers of Coliform organisms in the water show an increase, the lactose fermenters are not present in dangerous amounts except in the one case mentioned.

Chemical Examination.—Chlorine in chlorides has varied from 2.2 to 3.9 parts per 100,000 and free chlorine from 0.02 to 0.05 parts per million. Nitrites have been present in traces on four occasions. Saline ammonia has been low.

Report On Analysis.—Results of analyses showed satisfactory purification, and, with one exception, satisfactory purity during conveyance.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

In this connexion, a Municipal Notification has been issued under which Clause 7 of the Cinematograph Licence Conditions has been revised to read as follows:—

Thefts from Motor Cars.

Precautions taken by the Municipal Police to prevent petty thieving from motor cars parked in public places are indicated in the following correspondence:—

Shanghai, August 18, 1927.

SIR,—In view of the recent increase in the cost of motor-car licenses, may I ask whether some of the money cannot be devoted to providing regular inspection, by plain clothes Chinese detectives, of the ranking places set apart by the police, with a view to putting a stop to the scourge of petty thieving from cars which has always been bad, but which is becoming a positive nuisance, particularly to the owner driver.

I have been the victim of these most annoying thefts on five separate occasions, the last being one day between 8 a.m. and noon, while my car was parked not 5 yards away from, and in full view of, a telephone box, where presumably a policeman is on duty during these hours.

Trusting something can be done on the lines I have suggested to remedy this evil.

I have the honour to remain, Sir,

Your obedient servant,
F. NORTON BELL.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council

Council Chamber,
Shanghai, August 25, 1927.

SIR,—With reference to your letter of August 18, I am directed to inform you that everything which is possible in the circumstances is being done to prevent petty thefts from motor cars parked in public places. Three plain clothes constables are specially detailed to watch motor car stands in the Central District and to pay particular attention to owner-driven cars, while one or sometimes two Chinese detectives are employed in the same manner.

I am directed to add that the class of crime referred to is found to have decreased considerably since the arrest and conviction of three men some two months ago.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

F. NORTON BELL, Esq.

Markham Road Bridge.

Plans for Repair Work.—The following correspondence between the Council and the Public Works Department of the Shanghai-Woosung Special Municipal Administration, relative to the repairing of the Markham Road Bridge, is published for general information:—

Translation of Note to the Council from the Public Works Department of the Shanghai Special Municipality; Dated, August 10, 1927.

The writer says that in removing the Markham Road Bridge a large quantity of the old material was stored at the Southern approach to the bridge. The writer has instructed the workmen to begin repairing the bridge on the 8th instant, also he has notified the Council thereanent. As regards the materials (referred to above) he says there is also some lumber there which was purchased by the former Works office of the Woosung Shanghai Directorate, when repairs were made to the bridge last year, which will be used and the rotten lumber will be removed elsewhere so that rebuilding operations may proceed.

Council Chamber,
Shanghai, August 29, 1927.

SIR,—I am directed to acknowledge receipt of your letter of August 10, claiming a quantity of old material recently salved from Markham Road Bridge, at present stored at the Southern approach to the Bridge.

In reply thereto, I am directed to inform you that the decking laid down during Mr. V. K. Ting's period of office has been sorted out and placed at the top of the Bridge approach, where it is now available for removal by your Department; the balance of the timber remaining the property of the Council.

Regarding the plan of the new bridge which has been submitted to the Commissioner of Public Works for inspection, I have to inform you that the Council has sanctioned the connexion of the bridge to the Council's property at the South abutment.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

The SECRETARY,
Public Works Department,
Shanghai-Woosung Special
Municipal Administration.

Municipal Properties.

Mokanshan Sanatorium.—On the recommendation of the Commissioner of Public Works, the Council has decided to demolish the bungalow "Beau Sejour" at Mokanshan Sanatorium forthwith, owing to its dangerous condition.

Easements.

Canopy.—Subject to the usual conditions, a permit has been issued to Mr. Tai Kong-zung to construct a canopy fronting his premises on Yates Road, Cadastral Lot 2136, Western District.

Road Extensions and Widenings.

Tsepoo Road.—Negotiations have been concluded with the Chinese owner for the surrender of an area of Mow 0.065 of land, situate West of Cadastral Lot 440, required for the scheduled widening of this road. Of this area, Mow 0.053 was acquired at the proclamation rate of Tls. 500 per mow, and the remaining area of Mow 0.012 at the rate of Tls. 18,500 per mow, plus 10 per cent. for compulsory surrender, making a total sum of Tls. 271.

Land Commission.

Chapoo and Haining Roads.—In terms of the following correspondence, it has been decided to refer the undermentioned case to the Land Commission for decision:—

Shanghai, January 12, 1925.

DEAR SIR,—We are instructed to enquire whether the Council will desire to acquire the balance of the area scheduled ex *Cad. Lot 916* at an early date or, on the other hand, whether the Council is willing to let the acquisition of the balance stand over for the next 3 to 5 years.

Our client, the owner of the property, desires to know this as he wishes to carry out certain repairs to the houses now left standing on the lot and so far as he is concerned would possibly prefer acquisition to be delayed.

In any event, we have to request that the question of payment of compensation for that portion of the lot already surrendered be now gone into.

Yours faithfully,
TEESDALE, NEWMAN & McDONALD.

C. HARPUR, Esq.,
Commissioner of Public Works,
Municipal Council.

Council Chamber,
Shanghai, January 30, 1925.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of January 12, to the Commissioner of Public Works, relative to the remaining area required from Cadastral Lot 916 for the scheduled widening of Chapoo and Haining Roads.

In reply thereto, I have to inform you that the Council desires to proceed at once with this scheduled widening, and to request that you will be so good as to submit a definite claim for compensation at your early convenience.

With respect to the area of Mow 0.214 already surrendered from this lot, I am directed to offer compensation therefor at the assessed value of the lot, *i.e.*, Tls. 28,000 per mow, plus 10% for compulsory surrender, or a sum of Tls. 6,591, together with a sum of Tls. 66, representing 6% simple interest thereon for a period of two months, or a total sum of Tls. 6,657; and to express the hope that this offer will be found acceptable.

I am, Gentlemen,
Your obedient servant,
E. S. B. ROWE,
Acting Secretary.

MESSRS. TEESDALE, NEWMAN & McDONALD.

Shanghai, December 2, 1925.

DEAR SIR,—With reference to our appearance before the Works Committee in support of the protest against the balance of road scheduling as now affecting our client's lot, our client asks us to request the Council, in the event of its refusing to agree to his protest, to consider the question of suspending proceeding with the entire widening as affecting his house for a period of 4 to 5 years, owing to the difficulty he

will have in buying land elsewhere and the heavy expense of erecting an entirely new dwelling house.

Yours faithfully,
TEESDALE, NEWMAN & MCDONALD.

E. S. B. ROWE, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, December 9, 1925.

GENTLEMEN,—With reference to your protest against the scheduled improvement of Chapoo and Haining Roads as affecting Cadastral Lots 916 and 916A, I have to inform you that this matter has received the Council's careful consideration, and to inform you that, since any alteration in the scheduled line is impracticable, your protest has been overruled.

In this connexion I would refer to your letter dated December 2, and, in reply thereto, I have to inform you that it is desired to effect this scheduled improvement without further delay, and it is therefore regretted that your clients request for the postponement of this widening cannot be acceded to.

I am, Gentlemen,
Your obedient servant,
E. S. B. ROWE,
Secretary.

Messrs. TEESDALE, NEWMAN & MCDONALD.

Shanghai, July 11, 1927.

DEAR SIR,—We have to take up the question of the area already surrendered ex *Cad. Lot 916.*

In this case the whole of the lot has been scheduled for acquisition and such being the case compensation should in our view be based on the market value of the property with a generous allowance for compulsory surrender.

You will recall we communicated with the Council on the question of the difficulty our client experienced in trying to obtain another site and made an offer to purchase the surplus back area of the Elgin Road Market site which was not accepted by the Council as it appeared from the "Municipal Gazette" that this surplus land was subsequently sold to a third party.

It is becoming increasingly difficult to obtain suitable sites in this district and it will be doubtless impossible to purchase other land of such an excellent situation except at a very heavy capital outlay.

We, therefore, suggest as a basis of compensation Tls. 45,000 per mow with say an additional 15% for compulsory surrender.

Yours faithfully,
TEESDALE, NEWMAN & MCDONALD.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, July 28, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of July 11, submitting a claim to compensation for the area already surrendered from Cadastral Lot 916 for the scheduled widening of Chapoo and Haining Roads.

In reply thereto, I am directed to state that, in view of the value recently placed on this lot by the Land Assessors, the Council is willing to increase the offer contained in its letter of January 30, 1925. I am, accordingly, directed to offer compensation for the area of Mow 0.214 involved at the assessed value of the lot, *i.e.* Tls. 30,000 per mow, plus 10% for compulsory surrender, or a sum of Tls. 7,062, together with simple interest at the rate of 6% per annum on this sum from December 1, 1924, (when the Council took possession) until the actual date of payment.

I shall, therefore, be obliged if you will kindly inform me whether this offer is acceptable.

I am, Gentlemen,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Messrs. TEESDALE, NEWMAN & MCDONALD.

Shanghai, August 8, 1927.

DOGS.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

"That the dog when in the streets or other place of public resort be effectively muzzled, but in such a manner as will admit of its breathing and drinking."

Dogs found without muzzles, whether led or at large, within the limits of the Settlement or on outlying roads, will be seized by the Police and detained at the Kennels for a period of one week or longer as circumstances may direct; their owners, when identified, will be prosecuted. Dogs wearing ineffective muzzles will be regarded as unmuzzled.

Unmuzzled dogs found at large within the limits of the Settlement, or on Municipal roads outside the limits of the Settlement, which cannot be seized, are liable to be shot.

This measure has become necessary owing to the incidence of rabies, and all dog owners are hereby warned accordingly.

Enquiries on the subject of lost or strayed dogs should be made at the Gordon Road Police Station (Telephone No. West 348) and Yangtszepoo Police Station (Telephone No. East 743).

Armed Robberies.

Purchase of Bullet-Proof Vests.—On the recommendation of the Commissioner of Police, the Council has approved the purchase of 48 bullet-proof vests, at a total cost of approximately Tls. 2,774, for use by search parties and men engaged in contending against the armed robber menace. Since the beginning of the year, no less than eight members of the Police Force have been killed and thirteen wounded by armed robbers. On May 26, one foreign Constable and two Chinese lost their lives in an encounter with armed robbers in which the whole search party was either killed or wounded, and it is probable that the provision of bullet-proof vests on that occasion would have saved the lives of the members of the search party. The purchase of bullet-proof vests has been the subject of a careful enquiry by a Board delegated for this work by the Commissioner of Police and the vests now authorized to be purchased have been tested and found satisfactory.

Serious Crime.—This includes the murder of two Chinese lime merchants who were shot by a gang of armed men while in bed at a house on Markham Road in the early morning of August 1; the murder of an ex-mill foreman who was shot in the Pootoo Road district on the night of August 5 by two armed assassins; the death in hospital on August 8 of a Chinese who was injured in a fight in which axes were used in the Sinza district on August 6; the murder of a Chinese female whose dead body bearing chopper wounds was found lying in a field in the Gordon Road district on August 10; the death in hospital on August 17 of an unknown Chinese who was found in an unconscious state suffering from axe wounds in the head in the Yangtszepoo district on the night of August 16; the death in hospital on August 19 of a Chinese who was stabbed the previous night while lying on a camp bed outside a house on Woochang Road and the murder of two Chinese who were shot at a house in the Pootoo Road district on the night of August 21 by an armed gang.

Ten men were arrested and charged during the month in connection with murders that occurred in 1921, 1926 and 1927. The accused are on remand. The case against a man arrested in February 1927 for being concerned in the murder of a ship's fireman in November, 1924, was concluded when the accused was sentenced to a term of imprisonment. Three men on remand charged with the murder of a wharf coolie in the Yangtszepoo district on January 2, 1927, were dealt with, two being sentenced to imprisonment and one acquitted. In connection with the murder of a Sikh watchman who was shot dead by armed robbers in Louza district on May 11, 1927, one man on remand was found guilty and sentenced to death. One man on remand charged with being concerned in the murder of a mill detective in Yangtszepoo district on March 11, 1927, was sentenced to a term of imprisonment.

Armed Abduction.—Three cases of armed abduction were reported in the Settlement during the month. In each instance the procedure was somewhat similar, the victim being held up by armed men and removed in waiting motor cars. In one case the person abducted was able to make his escape while being driven through the Settlement, but in so doing he was fired at and wounded by the abductors. In connection with this case two persons were arrested and two loaded firearms seized. Arising out of the finding of two murdered bodies off Fraser Road on the morning of August 20, it was ascertained that one of the deceased, a youth of 14, had been abducted on the Hankow Road sometime at the beginning of August. The other deceased had been appointed by the youth's father to negotiate with the abductors for his release and for this purpose had been given the sum of $3,000. Four persons wanted by the French Police for armed abduction were arrested and handed over. Six men were also arrested for the armed abduction in the French Concession of a piece goods dealer on August 12. At the time of the arrests the victim was liberated, while one pistol, a quantity of ammunition and several motor car number plates were found. The sum of $100,000 was demanded in this case. On August 31 five men and one woman were arrested for armed abduction of a Chinese boy on Robison Road on July 31. The boy was found at an address on Kungping Road. One of the abductors was fired at and wounded while attempting to escape and another injured himself by falling off a wall.

Robbery.—Sixty-nine reports of armed robbery from premises and twenty on the highway were received during the month. Seven cases of attempted armed robbery were also reported. Shots were fired by the robbers in eleven instances resulting in seven Chinese being wounded. Three robbers died

of wounds received at the time of their arrest.

In connection with the foregoing and reports of armed robberies occurring prior to August 1, forty-one persons, twelve of whom were in possession of loaded firearms, were arrested. Three died of wounds, one was sentenced to imprisonment, one was acquitted and thirty-six are on remand. Three men on remand charged with being in possession of firearms for an unlawful purpose were further charged with armed robbery and sentenced to varying terms of imprisonment. Of the 229 persons on remand at the end of July charged with armed robbery, 112 were dealt with. One was sentenced to death, 66 were sentenced to imprisonment, one was handed over to the Chinese Authorities, one was fined and 43 were acquitted. Fourteen persons arrested in connection with armed robberies which occurred in the French Concession, were handed over to the French Police. In connection with armed robberies which occurred in Chinese territory two persons were arrested and were ordered to be handed over to the authorities concerned.

Two robberies from premises, in which no arms were used, were reported. Eleven reports of highway robbery in which no arms were used were also received. In connection with these reports eighteen persons were arrested. Two were sentenced to imprisonment and sixteen are awaiting trial.

Property Stolen.—497 reports made under this heading during the month represent an estimated loss of $203,054 and include 25 cases of burglary, two of house-breaking, three of godown-breaking and 19 of shop and office-breaking. Successful investigation was made in 128 cases, resulting in the recovery of property valued at $45,562, in addition to which recoveries to the extent of $28,070 were made in connection with reports received prior to August 1. In addition, successful results were obtained in ten cases reported as having occurred out of limits and in one instance where the property was reported as lost.

Trafficking in Firearms.—Three foreigners and one Chinese were arrested for trafficking in firearms when three pistols and one hundred rounds of ammunition were seized. Two were sentenced to imprisonment, one was fined and one was acquitted. Three Chinese were arrested for being in possession of firearms for an unlawful purpose. Two were sentenced to terms of imprisonment and one is on remand. Three men on remand for this class of offence were dealt with. One was sentenced to imprisonment and two acquitted.

Motorists attacked on outlying roads.—Four reports were received during the month of persons being attacked by armed Chinese whilst motoring late at night on outlying roads in the Western district. On three occasions motor cars were stopped by a gang of eight or nine armed men and the occupants robbed but not otherwise molested. The victims in two instances were foreigners and on the other occasion two Chinese ladies. An attempt to stop another car, containing two foreign passengers, by placing a barrier across the road, was frustrated by the chauffeur who drove through the obstruction. Two shots were fired at the car as it passed but neither took effect. On August 30 a police patrol met and exchanged shots with a gang of these men who escaped into the country. A Chinese has since been located suffering from buck shot wounds and is at present detained by the Chinese Authorities.

Crime beyond Settlement limits.—Thirty-two cases of armed robbery and one of piracy were reported during the month as having occurred in territory under Chinese jurisdiction in the neighbourhood of Shanghai. In connection with the above cases two persons were fired at and wounded Four cases of murder and four of armed abduction were also recorded.

Executions.—Eleven persons convicted of armed robbery and other serious crime committed in the Settlement were executed during the month by the Chinese Authorities. Four persons were also executed for crimes committed in territory under Chinese jurisdiction in the neighbourhood of Shanghai.

Civil War.—Following reverses suffered by the Nationalist forces on the Tientsin-Pukow Railway in the early part of the month, General Chiang Kai-shek returned to Shanghai from the front on August 13 and immediately announced his retirement from active service. He subsequently proceeded to his home at Fenghua, Ningpo. Local officials including General Yang Hu, Chen Chuan and the Mayor of Shanghai, Huang Fu, automatically followed their chief into retirement. General Chiang's action threatened to disrupt the Nationalist forces but petty jealousies were overcome at a meeting of the Military Council in Nanking. General Ho Ying-ching assumed supreme command of the Nationalist armies and General Pai Chung-hsi was proclaimed Garrison-Commander of the Woosung-Shanghai District on August 20. Meanwhile artillery duels took place daily between the Ankuochun who had reached Pukow and the Nationalist forces at Nanking. Locally, the Peichihli Squadron of the Navy half-heartedly bombarded Woosung Forts on August 20 and were driven off. Subsequent developments in the military situation beyond Shanghai reached a climax on August 26 when several thousands of Marshal Sun Chuan-fang's troops crossed the Yangtze River and effected a landing between Chinkiang and Nanking. As a result, the train services on both the Shanghai-Nanking and Shanghai-Hangchow-Ningpo Railways were suspended and all rolling stock was commandeered by the Nationalists. During the night of August 25 the Shanghai-Nanking line was cut at Anting and the train in which General Pai Chung-hsi was travelling to Chinkiang escaped disaster only owing to starting half an hour later than scheduled time from Shanghai. A second delay to General Pai Chung-hsi occurred on the morning of August 26 when a passenger train returning unexpectedly out of the war zone collided with the armoured train "Chung San No. 1" between Sinfeng and Chaotze. During the last few days of the month, the Ankuochun forces who landed on the South bank of the river suffered several reverses and there was every indication of a general withdrawal to Pukow and vicinity of the attacking Northern forces. This revival on the part of the Nationalists was owing to the whole of General Ho Ying-ching's troops being withdrawn from Chekiang Province and the Shanghai neighbourhood and sent to Nanking and Chinkiang. General Chou Fengchi undertook the defence of Shanghai from attacks *via* Liuho. As a result of the changes in administration of the Shanghai Area and the approach of the Ankuochun, martial law was enforced in Chinese territory from August 20.

Anti-Foreign Agitation.—Anti-foreign agitation of a public nature lapsed to a great extent during the early part of the month, distraction being provided by the warfare at Nanking. Nevertheless, committees, formed to consider the abolition of extra-territoriality and the boycott of Japanese goods, held several meetings as a result of which posters appeared in Chinese territory advocating the severance of economic relations with Great Britain and Japan. On August 16 a British Army aeroplane made a forced landing on the International Race Course, Kiangwan, and parts of the machine were detained by the Chinese military who repeatedly refused to return them. This attitude led to the British authorities cutting the Shanghai-Nanking Railway loop line at Jessfield at 4.15 p.m. on August 17. The aeroplane parts were returned on August 18 through the medium of the Japanese Military authorities and the railway line was immediately repaired and traffic resumed from 1 a.m. August 19. This incident led to an outburst against Great Britain in the Chinese press, but it was short-lived and at the end of the month seemed forgotten in the minds of the Chinese public.

Communism.—Following upon the retirement of General Chiang Kai-shek and his local subordinates, local Communists took full advantage of the relaxation of measures for their suppression and for a few days distributed a large number and variety of handbills denouncing every authority in China. They exhorted the Chinese working classes to revolt and pointed out that both the Ankuochun and Kuo-

mintang officials were too occupied on the banks of the Yangtze River to find time to suppress an uprising in Shanghai. This agitation met with a certain response in the mills of the Naigai Wata Kaisha and as a result, the workers of these mills spasmodically ceased work throughout the rest of the month.

On August 13 and a few succeeding days, pamphlets printed in the English and French languages and headed "Down with the Shanghai Terror" and "Stingy Shanghai" were sent through the post to foreign residents in both the Settlement and French Concession. The pamphlets were enclosed in envelopes bearing the name and business address of two foreign firms and a newspaper office and purported to be issued by the "Shanghai Defence Force Revolutionary Soldiers' Committee." The scurrilous wording in the pamphlets belittled the efforts of the Shanghai community to entertain the troops and disclosed their Communistic origin in generally and vulgarly abusing the British Military Authorities, the Municipal Council, General Chiang Kai-shek and Marshal Sun Chuan-fang and lauding the General Labour Union. There is reason to believe these pamphlets are the work of certain rabid foreigners in an outport.

The world agitation in connection with the recent execution of Sacco and Vanzetti, two Italian Communists, by the United States Authorities was reflected locally in the distribution of handbills of two different kinds. Printed in Chinese and English respectively, they purport to emanate from the Anarchist Youth Federation of China, The Black Flag Union of Korea and the Anarchist Federation of Shanghai. The handbill printed in Chinese contains the photographs of Sacco and Vanzetti and urges the world proletariat to rise up and join in a world revolution for the emancipation of the working classes, thereby avenging the death of their two deceased comrades. It adds that the best way to manifest the protest is to boycott American goods and destroy all American organizations. One of the handbills adds "Attempt to destroy the U. S. Consulate and the capitalist imperialist institutions of the U.S.A. in Shanghai."

There is no reason to believe that anarchist federations as described exist and the handbills are undoubtedly the work of irresponsible persons seeking to agitate the Chinese on any slight pretext.

Legalization of Opium.—In pursuance of a policy in vogue in every province under the control of the Nanking Government, the Shanghai Opium Suppression Bureau was formally opened on August 21 in the Coal Merchants' Guild, Chinese City. The Chief of the Public Safety Bureau, formerly the Woosung-Shanghai Constabulary, is Director of the Bureau which was organized in order to obtain revenue from the sale and smoking of opium. A proclamation was issued on August 27 ordering opium shops to deposit securities ranging from $3,000 to $500 (according to the size and business of the shop) with the Bureau. Opium addicts are also ordered to register with the Bureau and obtain a permit to smoke opium. This legalization of opium is contrary to the existing Criminal Code and the activities of the Bureau will be watched with interest. An idea of the amount of revenue expected from this source can be gathered when it is recalled that prior to the retirement of General Chiang Kai-shek tenders for the monopoly for the sale of opium in Kiangsu Province reached as high a figure as $15,000,000. A similar amount was offered for the monopoly in Chekiang Province.

Labour Matters.—There were eight strikes during the month as compared with four in July. These disputes affected a to' l of 9,039 employes and resulted in a loss of 46,168 working days.

The British Cigarette Company, 17 Thorburn Road, and the B. A. T. factories in Pootung, which closed in July owing to a lack of demand for cigarettes, reopened during the month. Owing to a shortage of cotton, the Sing Sing Cotton Mill, 78 Ward Road, and the San Sing Cotton Mill, 87 Yangtszepoo Road, were obliged during the month to carry on short time worl, *viz:* four days a week. The former concern employs 1,994 hands and the latter 3,057.

During a disturbance which followed the dismissal of a female worker for inattention to work on August 11, a Japanese foreman of the Nagai Wata Kaisha No. 5 East Mill, 14 West Soochow Road, was attacked and rendered unconscious by the workers, three of whom were arrested.

Labour agitators endeavoured to t..ke advantage of the tense political and military situations and revive the General Labour Union, the powerful labour organization of extreme radical leanings which was suppressed in April by General Chiang Kai-shek. Efforts of the agitators produced strikes and discontent in Japanese owned mills which lasted throughout the month, and one loyal foreman was shot and killed on Macao Road on August 5 as a result of the agitation.

An organization called the Shanghai Labourers and Capitalists Arbitration Committee was inaugurated on August 14 in the Chinese General Chamber of Commerce. There are twelve members of this Committee, most of whom represent the Chamber of Commerce and the Unification Committee of Shanghai Labour Unions.

Miscellaneous.—The Dalbank (Far Eastern Bank of Harbin), 29A Szechuen Road, which was sealed on July 16 by order of the Provisional Court at the instance of the Nationalist Authorities, reopened for business on August 16.

In consequence of a declaration by the Nanking Government to the effect that Customs autonomy would be enforced as from September 1, many meetings were held principally under the auspices of the Shanghai District Kuomintang, to congratulate the Government on the stand taken. Posters and handbills lauding the Government appeared daily. The schedule of increased taxation proposed was, however, cancelled by the Government on August 31.

Police officers of the Shanghai Public Safety Bureau commenced on August 14 to collect one month's rent direct from Chinese tenants of houses outside the Settlement and French Concession. The programme of the Nanking Government is to collect two months' rent from each tenant, the money to be used for military purposes. Landlords of property have not openly opposed this high-handed action.

Traffic.—Court proceedings were instituted in 417 (59 Foreigners and 358 Chinese) of 1,905 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

Traffic Signals.

The following correspondence between the Council and Messrs. Beck and Swann, Secretaries of the Automobile Club of China and the North China Motor Insurance Association, is published for general information:—

Shanghai, August 31, 1927.

DEAR SIR,—We are directed by our Committee to suggest, now that the question of co-ordination of street intersection traffic signals has been effected and definite systems have been decided upon for the future, that the Traffic Department give the fullest possible attention to the matter of signals to be given by the drivers of various kinds of vehicles.

Paragraph No. 31 of the Traffic Regulations sets forth the necessary signals but it would appear that their presence in the Regulations is unknown to the majority of drivers of motor vehicles as strict observance is seldom seen. It is no uncommon thing for a vehicle to turn to right or left or to stop without any signal being given whatsoever by the driver, and in many instances where a signal is given it is not the correct one set forth in the regulations. Vehicles with left hand drive are probably the worst offenders in the matter of incorrectly conveying signals to other vehicles following and to the Traffic Constables on Point Duty.

It would appear to our Committee that the Regulations regarding the necessity for signals from drivers, both to vehicles following and to Traffic Constables on Point Duty, might be brought more forcibly to the attention of drivers and after a short period strong action taken against offenders. The publicity which this Club is able to give to the matter is not sufficient owing to the fact that the Membership does not include all owners of private motor cars, nor does it include the owners of Commercial Vehicles and Appliances, which constitute one of the most serious dangers owing to the difficulty which the driver meets in obtaining a clear view of traffic in his rear. To meet language difficulties and the varying standard of intelligence of drivers, it would seem that illustrated pamphlets in several languages are necessary.

A special point might be made of the fact that it is just as essential that the correct signals be given to Traffic Constables on point duty, indicating whether it is desired to turn to right or left or go straight ahead, as it is to give them to following traffic.

We are, Dear Sir,
Yours faithfully,
BECK & SWANN,
Secretaries.
The Automobile Club of China.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Shanghai, September 1, 1927.

DEAR SIR,—We are directed to forward you the following views expressed at a recent Meeting of the Committee of this Association and to suggest that the various points raised be brought to the attention of the department concerned:—

In the matter of signals laid down in the Traffic Regulations, which must be given by the drivers of various kinds of vehicles, it is no uncommon thing for a vehicle to turn to the right or left or to stop without any signal at all being given by the driver. Vehicles with left hand drive are particular offenders in the matter of incorrectly conveying to the vehicles following what they are going to do. A large number of drivers think it is quite sufficient to hold out their arm horizontally which should mean that they are turning in that direction but locally often means that they are turning in the opposite direction.

The giving of a wrong signal should in our Committee's opinion be as much a punishable offence as, say, parking in an unauthorised spot. Our Committee's suggestion is that the Traffic Authorities should be asked to give greater publicity to the correct signals laid down in Traffic Regulations, instructions as to what these signals are, with illustrations, to be widely circulated in English, French and Chinese. This should be followed by a strenuous campaign against drivers in which the driving public should be asked to render every assistance by reporting all cases coming to their notice. Without the help of the public the duties of the police become almost too onerous but the public requires to be awakened to a sense of its public duty and responsibilities. A special appeal to the Public by the local Municipal Councils might have some effect.

Our Committee are convinced that many people do not report what they look upon as minor offences simply because they cannot or will not afford the time which is taken up by appearing as a witness in the Consular or Provisional Courts. It is probably not within the bounds of practical politics under present conditions, but the establishment of regular traffic courts to deal with these offences or the granting of authority to the Police to deal with first and second offences of a minor nature under licensing conditions, with possibly a small fine for the second offence, might considerably help matters.

Our Committee will be glad to assist the Police by distributing any leaflets of instructions to drivers on the lines indicated to the Members of this Association who will in turn hand copies of same to all their clients.

We are, Dear Sir,
Yours faithfully.
BECK & SWANN,
Secretaries.
North China Motor Insurance Association.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, September 15, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letters

of August 31 and September 1, on the subject of traffic signals and control.

In reply thereto, I am directed to inform you that, if the co-ordination of street intersection traffic signals, alluded to in the first paragraph of your former letter, refers to the system of synchronized signals on Nanking Road, no definite decision as to its suitability has yet been reached.

With regard to the question of motorists' obligation to assist in the regulation of traffic, I am directed to state that, before a motor driver's licence is issued, the applicant is required to pass a test to show that he knows the correct hand signals to use, as laid down in Traffic Regulation 31; but it has to be remembered that the signals given by a driver of a car with a left hand drive are not always easily seen by the driver of a car with a right hand drive, and *vice versa*, and in the case of a community of international character it is not considered advisable to try to restrict cars to a right or left hand drive only. Signalling from a closed car is also not easy, but the percentage of accidents resulting from badly given signals or the absence of signals is very low.

Should, however, any member of the Automobile Club of China or of the general public report drivers for not complying with Traffic Regulation 31, the Traffic Department will take the necessary steps to deal with the delinquent.

With reference to your suggestion that illustrated pamphlets in several languages, on the observance of traffic regulations, are rendered necessary by linguistic difficulties and the varying standard of intelligence among drivers, I am directed to inform you that pictures with Chinese wording were formerly distributed to richa-pullers for this purpose, but that their issue was discontinued some three years ago as they proved to be of little value. It is accordingly not proposed to incur the expense of printing pamphlets or charts for the information of drivers, though the Traffic Department would attend to the distribution of any which the Automobile Club might care to supply.

The above remarks apply equally to your second letter of September 1, written on behalf of the North China Motor Insurance Association. I have only to add that the suggestion of this Association, as to the establishment of traffic courts, or the delegation of judicial functions to the Police, has already received the close consideration of the Council in connection with Recommendation No. 64 of the Traffic Commission Report, issued in October, 1926, and that certain necessary enquiries relating to this problem are now in progress.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Messrs. Beck & Swann.

Traffic Commission Report.

Recommendation No. 60.— Six members of the Traffic Commission, including Mr. J. S. S. Cooper, the Commission Chairman, have expressed disappointment that the Commission's Recommendation No. 60 was not endorsed by the Council; in their letter, they also request reconsideration of the matter with a view to putting this recommendation into effect as soon as possible. Recommendation No. 60 reads:— "After much deliberation it has been considered desirable that the Council should at once secure the services of a well qualified officer from outside sources for the command of the traffic police. He should be required to have technical experience of traffic problems in a modern city and to be of high organising capacity. It is essential that the officer chosen should be adaptable to local conditions. In order to become familiar with the peculiarities of the Shanghai situation, it is suggested that for at least six months after his arrival he should not be placed in command but should be required to study the problem."

The letter from the six members of the Traffic Commission and the Council's reply are appended:—

Shanghai, May 12, 1927.

SIR,—We, the undersigned former members of the Traffic Commission, wish to express our disappointment with the fact that Recommendation No. 60 of the Traffic Report was not endorsed by the Municipal Council. It appears from the Municipal Gazette of April 8, that this recommendation was disapproved because of the statement of the Commissioner of Police that the existing police personnel contained within itself adequate material for traffic control. A careful perusal of the Traffic Report will reveal that this is directly contrary to the considered opinion expressed therein. Reference to Part III Section F. Part IV introduction to Section F, and the first three words of the Recommendation itself will sufficiently show the strong emphasis placed upon this point by the Commission. It is hoped that the Council will reconsider this matter, with a view to putting Recommendation No. 60 into effect as soon as conditions permit.

We are, Sir,
Yours faithfully,
Harold J. SHERIDAN,
A. J. WELCH,
J. S. S. COOPER,
G. OKADA,
A. J. HUGHES,
G. E. TUCKER.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, June 7, 1927.

SIR,—I am directed to acknowledge receipt of the letter of May 12, signed by yourself and five other ex-members of the Traffic Commission, expressing your disappointment with the fact that Recommendation No. 60 of the Commission's Report was not endorsed by the Council.

In reply thereto, I am directed to state that the Council after reviewing all the circumstances considers, having regard to the existing local political and financial situation, that the present time is not a propitious one to put this recommendation into effect, but that the views expressed in your letter have been noted by the Council.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

J. E. NEEDHAM,
Deputy Commissioner of Public Works.

Public Health Report for August.

The health of the community continued to be satisfactory, the death-rate among both Foreigners and Chinese being well below normal.

Cholera showed a marked increase among the Chinese, but only one case was notified among Foreigners, the patient being Japanese. Among the Chinese 736 notifications were received altogether, and of these 239 referred to cases from within the Settlement. Cholera was declared to be "epidemic" in the Port of Shanghai on 27th August.

Epidemicity is conventionally defined in the Sanitary Regulations of the Port of Shanghai as the occurrence of an average daily number of three new cases for one week.

The task of safeguarding the purity of the food and milk supply in Shanghai is always a most important and a difficult one, in view of the great prevalence of sources of infection. More and more premises are being licensed, and increased control over them being obtained by the Public Health Department. There are now 56 licensed bakeries. Two prosecutions were undertaken among these, and three licenses withdrawn for breach of licence conditions.

There are 33 licensed dairies, 6 of which are Grade A and 27 Grade B. Two unlicensed sellers of milk were prosecuted and heavily fined in the Provisional Court. Altogether

181 samples of milk were taken for chemical analysis, and 18 for bacteriological tests. Of the former 15 were found to be of poor quality and of the latter only half reached the required standard.

Twenty eight samples of ice-cream were also examined bacteriologically, and of these only half also reached a satisfactory standard. No licence for the production and sale of ice-cream is issued until the applicant has been able to furnish an article of the required standard of purity.

Over 500 prosecutions were undertaken for breaches of conditions essential to the Public Health, and fines varying from 30 cents to 60 dollars were inflicted.

Over 50,000 lbs. of dangerous and unsound foods were confiscated and destroyed.

The supply of meat for the markets was ample, though the quality was below normal. Although the wholesale price fell from 17 to 15 cents a pound, there was no reduction in the retail price.

Two owners of stagnant pools were prosecuted and fined twenty dollars each for allowing the breeding of mosquitoes.

Ready co-operation and assistance was given by local architects, in preventing the breeding of mosquitoes in the foundations of large buildings under construction in the Central District.

Miss Summerskill, who has been Matron of the Victoria Nursing Home for the last 15 years, retired during the month, after twenty years service.

The present fine reputation and standard of efficiency of the Municipal Nursing Service, are largely due to the high ideals of the profession of nursing that Miss Summerskill always cherished and practised, and to her administrative gifts. She has left the Municipal Nursing Service and the Victoria Nursing Home at the high-water mark of their reputation, and her services have been greatly appreciated by the people of Shanghai.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

C. NOEL DAVIS,
Commissioner of Public Health.

Fire Bell in Jessfield Park.

Particulars regarding the fire bell now in Jessfield Park and formerly in the Shantung Road Bell Tower are contained in the appended correspondence:—

Shanghai, September 12, 1927.

DEAR SIR,—May I have some information in regard to the history of the large bell in Jessfield Park? It was apparently made in the U. S. A. as it has West Troy, New York, on it and the date 1865.

Many persons have asked me in regard to it. I wonder if you would be willing to make a public announcement in the Press which would be a benefit to all readers. I am sure it will be very much appreciated.

Yours sincerely,
IVA M. MILLER,
Director, School Hygiene Department, Council on Health Education.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, September 20, 1927.

MADAM,—I am directed to acknowledge receipt of your letter of September 12, requesting information regarding the Bell in Jessfield Park.

In reply, I am directed to inform you that this Bell, which was cast in 1865 by E. A. and G. R. Meneely, West Troy, New York, was imported from America in 1881, at a cost of $1,500, and was hung in the Central Police Station Fire Tower. It was removed from the Shantung Road Bell Tower and placed in Jessfield Park in 1922. The dimensions of the Bell are:—

Diameter at bottom	6-ft. 3-in.
Height	4-ft.
Approximate weight	2¼ tons.

In accordance with your suggestion, it is proposed to publish this correspondence in the "Municipal Gazette," for the information of the public.

I am, Madam,
Your obedient servant,
S. M. EDWARDS,
Secretary.

Municipal Gaol Accommodation.

Measures for the relief of overcrowding in the Municipal Gaol, Ward Road, will be taken on the lines indicated in the appended correspondence between the Council and the President of the Provisional Court:—

Council Chamber,
Shanghai, September 12, 1927.

SIR,—I have the honour to bring to your notice the dangerously overcrowded state of the Municipal Gaol in Ward Road. Recent statistics show a total of 2,602 convicts in the gaol for whom there are only 1,542 cells, or 1,060, cells short of the required number. No less than 530 cells are occupied by three convicts each, a state of things injurious to both health and morality. The medical officer in charge points out that, unless something is done at once to relieve these conditions, he anticipates an outbreak of relapsing and typhus fevers during the coming autumn and winter.

This overcrowding is due to several causes, among which may be mentioned in particular the unprecedented large number of prisoners on remand. At the present time this number is no less than 251, and I am directed to express to you the Council's earnest hope that you will do your utmost to get this figure reduced as soon as possible.

I am further directed by the Council to bring to your attention the fact that there are a considerable number of sick prisoners now in the Ward Road Gaol whose presence is a danger to the health of the Gaol, who are unfit for work, whose maintenance and medical treatment are a continuous source of expense, and who on these grounds might properly be released. With this end in view, it is suggested that the medical officer in charge should be given increased powers to bring the cases of such prisoners to the notice of the Court.

I have the honour to be,
Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

JUDGE LOO HING-YUN,
President,
The Shanghai Provisional Court.

Shanghai, September 15, 1927.

DEAR SIR,—I have the honour to inform you that the points raised in your letter of September 12, 1927, regarding the congestion prevailing in criminal cases has been engaging my attention for some time past and every effort will be made in the near future to eliminate the conditions of which you complain.

Beginning from Monday next, there will be a reorganization of the Criminal Courts which will, I trust, not only enable us to dispose of the outstanding remanded cases but will also cope satisfactorily with all new cases brought up daily by the Police.

To remedy the overcrowding of the prison, I authorise you to inform the Commissioner of Police that in all cases where a prisoner is serving a sentence of *not more than one year* he may be released on paying a fine of one dollar per day for the portion of his sentence remaining unserved. In all such cases the charge sheet must be brought to Court for endorsement at the earliest date possible following the release of the prisoner, and the fine must be paid into Court in the usual way.

With reference to the last paragraph of your letter, I suggest that in all cases where, in the opinion of the medical officers of the Municipal Gaol, a person undergoing sentence of imprisonment ought to be released on account of illness, a certificate to that effect signed by two medical officers, shall be submitted, together with the original charge sheet, to the Court. If the Court approves of the release, the charge sheet will then be endorsed accordingly.

I have the honour to be,
Sir,
Your obedient servant,
HING YUN LOO,
President,
The Shanghai Provisional Court.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, September 22, 1927.

SIR,—I am directed to acknowledge receipt of your letter of September 15, and to convey to you the Council's thanks for your compliance with its request and your approval of measures for the relief of overcrowding in the Ward Road Gaol.

I have the honour to be,
Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

JUDGE LOO HING-YUN,
President,
The Shanghai Provisional Court.

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

"That the dog when in the streets or other place of public resort be effectively muzzled, but in such a manner as will admit of its breathing and drinking."

Dogs found without muzzles, whether led or at large, within the limits of the Settlement or on outlying roads, will be seized by the Police and detained at the Kennels for a period of one week or longer as circumstances may direct; their owners, when identified, will be prosecuted. Dogs wearing ineffective muzzles will be regarded as unmuzzled.

Proceedings before, and Awards of, the Land Commissioners in Cases Nos. 172 and 173, heard on September 22, 1927:—

CASE No. 172.

Chinhai Road.—Cadastral Lot 2019, Western District, heard in the Council Chamber on Thursday, September 22, 1927, at 4 p.m.

PROCEEDINGS.

The beneficial owner is represented by Mr. R. M. Saker, of Messrs. Atkinson & Dallas, the registered owners; Mr. S. M. Edwards, Secretary, supported by Mr. J. E. Needham, Deputy Commissioner of Public Works, appearing for the Council.

Mr. Saker states that the Chinhai Road was originally scheduled in 1921 and was to be a 50-ft. thoroughfare; the scheduling was withdrawn in 1922 but again renewed in 1923. On March 2, 1926, the Council reduced the width of the Road to 40 feet, but the owner still insisted that the Road was detrimental to the property. He hands to the Commissioners a plan showing how the property could have been developed, also one showing the present completed scheme. The revised development of the property was proceeded with under the impression that the Council would pay for the area excised, namely, Mow 1.000 at the same price as was paid by the owners, namely, Tls 23,000 per mow, and this is what is now claimed, plus 10 per cent. for compulsory surrender. Mr. Saker contends that the present development means a loss of income of Tls. 2,000 per annum, seeing that access to the terraces in the rear could have been by means of a passage down the centre of the property and that the new road did not constitute a betterment.

In reply, Mr. Edwards contends that the providing of a public thoroughfare on the Western boundary confers such betterment to the property as to justify a deduction, such amount to be subtracted from the 1927 assessment of this lot, namely, Tls. 19,000 per mow; in effect the Council's offer of compensation is an amount of Tls. 16,720 for the area involved, being Mow 1.000 at Tls. 19,000 per mow, less a deduction of one-fifth for betterment, plus 10 per cent. for compulsory surrender.

He also contends that the owners gain considerably by the fact that the Council has only deducted one-fifth for betterment since the width of the area given up on their Western boundary is 22½ feet, of which they are only asked to surrender without compensation one-fifth, *i.e.*, slightly over 4 feet in width; whereas if Chinhai Road had not been scheduled, they would have been compelled to have a 10-ft. passage way through the Lot to comply with the building regulations governing Chinese buildings. The owners could not have used Love Lane as access except by arrangement with the owners of Love Lane, since the latter is a private road included in the Title Deed of Cad. Lot 2068. In view of this, it is also conceivable that the Council might have claimed one-third or even one-half for betterment, for the breaking up of a big block of land, by the building of a Municipal Road, would tend to bring relief to owners in respect of access for Police and Fire Brigade protection.

Mr. Edwards also refers to the price paid for the land in question, and, in reply, Mr. Saker states that the actual price paid was Tls. 23,000 per mow less the value of the buildings thereon valued at Tls. 4,000 for demolition purposes.

In reply to the Commissioners, the Secretary states that, although it is not definitely decided to extend the Chinhai Road to Wei-hai-wei Road, yet there is no serious obstacle to prevent this work being carried out.

Both parties having retired, the Commissioners decide as follows:—

AWARD.

	Tls.
That the owners be paid for the area excised—Mow 1.000	20,000
Less betterment	4,000
	Tls. 16,000
Plus 10 per cent. for compulsory surrender	1,600

CASE No. 173.

Hart Road Extension.—Cadastral Lot 6165, Western District, heard in the Council Chamber on Thursday, September 22, 1927, at 4.30 p.m.

PROCEEDINGS.

Mr. E. Luthy, the registered and beneficial owner, appears in person, and the Council is represented by Mr. S. M. Edwards, Secretary, supported by Mr. J. E. Needham, Deputy Commissioner of Public Works.

Mr. Luthy states that, although the present market value of the land now required for the extension of Hart Road at this point, is Tls. 7,000 per mow, he is only claiming at the rate of Tls. 5,000 per mow, being, in effect, the assessed value of Tls. 4,300 per mow plus what he had paid in making a cinder road to his property. He places before the Commissioners statistics in support of his claim emphasizing the loss he has sustained in respect of certain land purchased subsequent to the scheduling of this road.

On behalf of the Council, Mr. Edwards points out that the sole point at issue is the compensation to be paid in regard to an area of Mow 0.186, and contends that the construction of a public road requires the excision, free of charge, of half the width of the proposed road, or Mow 0.129. The Council is accordingly willing to pay the present assessed value for an additional area of Mow 0.057, i.e., Tls. 4,300 plus 10 per cent. for compulsory surrender, or a sum of Tls. 270.

In support of his contention, Mr. Edwards refers the Commissioners to parallel cases, the latest decision being one rendered this year in Case No. 170, where the Commissioners upheld the Council's point of view. He also quotes Cases Nos. 158, 157, 124, 106, 73 and 52, adding that in the Council's opinion the acquisition, by giving Mr. Luthy access on to a 50-ft. metalled road in lieu of a narrow Chinese path, affords betterment to the property so marked as to be incontestable; he further points out that, prior to the development of the Road, the assessed value of the land in question was only Tls. 2,000, whereas following the construction of the road, it has now been enhanced and the 1927 assessment is Tls. 4,300. In view of the foregoing facts, the Council considers its offer fair and just.

The Commissioners ask Mr. Luthy whether certain road improvements made by him were effected after the extension of the Road had been scheduled, to which the reply is in the affirmative, and the proceedings close with Mr. Edwards drawing the Commissioners' attention to Cad. Lot 6220, the owner of which voluntarily surrendered Mow 0.253 in 1923 without any compensation, provided the Council paid half the cost of, and effected, certain necessary drainage and constructed an ash road.

Both parties having retired, the Commissioners decide as follows:—

AWARD.

That the benefit accruing to the property owing to the construction of the Hart Road extension, justifies the free surrender of Mow 0.129 but award the owner the sum of Tls. 270 in respect of Mow 0.057.

MUNICIPAL SCHOOLS FOR FOREIGN CHILDREN. Collection of School Fees.

TUITION Fees in the Schools for Foreign Children administered by the Council will in future be collected on the first four school days of each month. Parents are accordingly requested to pay their children's fees for the month of November, and each succeeding month, on the days noted below, when the division of each school for purposes of fees collection will be as follows:—

Public School for Boys:—

1st School day in the month 8.30 a.m. Forms VI, V, IV.
2nd School day in the month 8.30 a.m. Forms III, II.
3rd School day in the month 8.30 a.m. Forms I and Preparatory.

Western Junior School for Boys:—

4th School day in the month 9 a.m.

Public School for Girls, Yuyuen Road:—

1st School day in each month 9 a.m. Kindergarten and Transition.
2nd School day in each month 9 a.m. Forms I and II.
3rd School day in each month 9 a.m. Forms III, IV.
4th School day in each month 9 a.m. Forms V and VI.

Boone Road School:—

1st School day in the month 9 a.m. Kindergarten and Transition.
2nd School day in the month 9 a.m. Forms I and II.
3rd School day in the month 9 a.m. Forms III, IV and V.

Yulin Road School:—

1st School day in each month 9 a.m. Kindergarten and Transition.
2nd School day in each month 9 a.m. Forms I and II.

Thomas Hanbury School for Boys:—

1st School day in the month 1.30 p.m., Forms VI, V.
2nd School day in the month 1.30 p.m., Forms IV, III.
3rd School day in the month 9 a.m. Forms II and I.

Thomas Hanbury School for Girls:—

1st School day in the month 1.30 p.m., Forms VI and V.
2nd School day in the month 1.30 p.m., Forms IV and III.
3rd School day in the month 1.30 p.m., Forms II and I.
4th School day in the month 9 a.m., Kindergarten and Transition.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(*a*) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(*b*) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(*c*) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

Burlington Hotel Licence.

The following correspondence between the Council and the licensees of the Burlington Hotel, relative to the renewal of the licence for this building, is published for general information. It may be noted that the original licence was

issued at a time when the building rules were less strict than at present, and in consideration of this circumstance the Council has limited its requirements to such alterations as are considered essential to the safety of the occupants.

Council Chamber,
Shanghai, March 2, 1927.

GENTLEMEN,—With reference to your letter of November 2, 1926, applying for the transfer of the Burlington Hotel licence from Mr. R. W. MacCabe to Mr. E. H. Baker, I am directed to inform you that the premises have been found, on inspection, to constitute a dangerous fire hazard, and to be unsafe from a sanitary point of view. I am also directed to state that, before the licence can be transferred or renewed, the following minimum requirements must be complied with:—

FIRE.

(1) The staircase at the South-west end of the building to be enclosed by a fire-resisting wall and partition where necessary, and swing doors installed.

(2) A proper enclosed staircase to be built where the fire escape now exists.

(3) An enclosed staircase to be constructed to lead from all floors to a point near the main entrance.

(4) The existing main staircase to be removed, or, if retained, to undergo considerable modification, as in its present condition it would act as a flue, enabling fire to spread to all floors.

(5) The fire appliances to be rearranged and, where necessary, replaced by up-to-date equipment.

HEALTH.

(1) Bar. The ice chest to be cleansed, repaired and rendered sanitary, or replaced by a new ice chest of approved type.

(2) Serving Room. Washing up sinks to be repaired and made sanitary, with waste pipes discharging outside the building, or the sinks to be replaced by new sanitary fixtures similarly fitted with waste pipes. The inspection chamber into which the present sinks discharge their waste matter to be removed to a suitable point outside the room, by shortening the line of drains which now terminates in the serving room. Tables, cupboards, etc., to be cleansed and repaired, or replaced by new, sanitary fittings. Rainwater downpipes to be removed from the serving room and made to discharge in the open air. Serving room to be made flyproof. The woodwork, walls and ceilings of the serving room to be cleansed and limewashed and/or enamelled in white. Skylight to be cleansed and repaired, and the woodwork painted.

(3) Kitchen. To be rendered flyproof. Tables, cupboards, etc., to be cleansed and repaired, or replaced by new, sanitary fittings.

(4) Scullery. To be made flyproof. Table to be replaced or rendered sanitary. Sink to be provided with proper waste pipe discharging outside the building.

(5) Bake Room. To be made flyproof. Interior surface of walls to be finished to a height of five feet with a hard, smooth, impervious material such as cement or white porcelain tiles.

(6) Cold Storage. To be flyproofed. Food cupboards to be made sanitary or replaced. Ice chests to be cleansed, repaired and rendered sanitary.

(7) Servants' Sleeping Quarters. Windows to be glazed where now boarded over. The whole building to be cleansed and limewashed and the walls repaired where defective.

(8) Latrine Accommodation. The present insanitary one to be replaced by a water-flushed urinal and latrine of approved design.

(9) Drainage System. Paving and surface channels outside the buildings to be repaired where defective, and blocked drains to be cleared. Waste pipes of approved type to be provided for the various sanitary fixtures.

The above alterations should be commenced at an early date, as a necessary condition for the renewal of the licence, and should be completed to the satisfaction of the Chief Officer of the Fire Brigade and the Commissioner of Public Health, from whom any technical information required may be obtained.

In this connection, I am directed to inform you that the Council's requirements have been made as lenient as possible in view of the long period for which the Burlington Hotel has been licensed, and to state that consideration of the occupants' safety alone makes the indicated alterations imperative. In particular, the Council is informed that, on completion of the structural changes indicated, residents will have a reasonable chance, in case of fire, of escaping from the building, which, in its present condition, is described as a death trap; though, even after reconstruction of staircases, etc., it would probably be gutted if a fire of any size broke out.

I am, Gentlemen,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

MESSRS. SETH, MANCELL & MCLURE,
Secretaries & General Managers
of the Burlington Hotel.

Shanghai, June 10, 1927.

SIR,—With reference to your letter of 2nd March, 1927, addressed to Messrs. Seth, Mancell & McLure, relative to the transfer of the licence of the Burlington Hotel to my name, I have noted that the Council's requirements must be completed to their entire satisfaction before a full licence can be issued.

I now beg to inform you that the requirements of the Health Department have been fully complied with and that the Health Inspector was satisfied with the new arrangements when he last inspected the hotel.

As regards the requirements of the Fire Brigade and the Public Works Department, which seem to be coincident, I have been instructed by the proprietor of the hotel to request the Council not to enforce these alterations for the time being in view of the fact that it is proposed to pull down the existing hotel building and build a complete new one in the very near future. Expert advice is now being sought to carry out the scheme, and, under the circumstances, I should be greatly obliged if the Council would grant me permission to carry on the hotel business in the meantime with as few necessary alterations to the existing structure as possible.

Yours faithfully,
E. H. BAKER,
Manager, Burlington Hotel.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, July 22, 1927.

SIR,—I am directed to refer to your letter of June 10, relative to the alterations, etc., to the Burlington Hotel which the Council requires to be carried out before transfer of the licence from Mr. R. W. MacCabe to yourself can be sanctioned, and, in reply, to inform you that further consideration has been given to the minimum improvements which are considered necessary to obviate the risks to which the occupants of this hotel are at present exposed.

Subject to the following alterations and improvements being effected, and to a written undertaking being given that these premises will be rebuilt within a period of two and a half years, I am directed to state that a full licence in your name will be issued:—

(1) Staircase at South-west end of building to be enclosed by a fire resisting wall and partition where necessary, and swing doors installed.
(2) Construction of an enclosed staircase to lead from all floors to a point near the main entrance.
(3) Swing doors to be placed on each floor opposite the main staircase so as to obviate draught.
(4) Fire appliances to be rearranged and brought up to date.

In conclusion, I am directed to inform you that the licence for one year to be issued at the Annual Licensing Session of 1929 will not be renewed.

I am, Sir,
Your obedient servant,

Deputy Secretary.

E. H. BAKER, Esq.,
Manager,
Burlington Hotel.

Council Chamber,
Shanghai, October 17, 1927.

SIR,—I am directed to advert to my letter of July 22, setting forth the minimum alterations and improvements which the Council requires to be effected in the

Burlington Hotel premises as a condition for the issue of a full licence. The Council is informed that the necessary work has not yet been commenced, and so far no undertaking has been received from you, as requested, that the Hotel would be rebuilt within a period of two and a half years.

I am, accordingly, directed to inform you that, to meet the necessities of the case, and to afford an opportunity to such occupants of the building as may be affected thereby to find other accommodation, the Council has decided that the required work must be put in hand not later than November 30, next; and to state that, failing compliance with this condition, the present provisional licence will be withdrawn, and effective measures will be taken to prevent the building being used as a hotel.

I am also directed to add that the Council requires to be satisfied that the premises will be rebuilt within two and a half years from the date of my previous letter, *i.e.*, July 22, 1927, as a condition for the issue of a full licence; and to request you to furnish a written undertaking to this effect.

I am, Sir,
Your obedient servant,
J. M. McKee,
Deputy Secretary.

Whistles and Smoke Nuisance.

Letter from Messrs. Beck & Swann, Secretaries to the Shanghai General Chamber of Commerce, regarding the annoyance caused in the Bund area by the blowing of launch whistles and the emission of smoke, to which the Council's reply is appended:—

Shanghai, September 22, 1927.

Dear Sir,—We have been directed by our Committee to draw attention to the constant and unnecessary blowing of Launch and Tender Whistles whilst moored to the various Municipal Jetties—it is no uncommon thing to hear on numerous occasions throughout each working day as many as five or six launches at the "Customs" (Kiukiang Road) Jetty sounding their whistles together or in succession to each other for prolonged periods before departure, thus creating a nuisance and interfering seriously with the business of firms and other establishments having their offices or premises on the Bund. This nuisance is by no means confined to the Jetty referred to above.

Another serious cause for complaint is the dense volumes of smoke which flood the Bund frontage on occasions when the wind is blowing from any of the Eastern quarters, at times filling buildings in the vicinity to such an extent that same constitutes not only a nuisance, but a menace to health.

It would appear to our Committee that there is urgent need of regulations controlling the sounding of whistle signals and the "firing up" of launches and tenders moored to the Public Pontoons, and they will be glad if you will bring the matter to the attention of the Council with a view to some immediate remedial action being taken.

We are, Dear Sir,
Yours faithfully,
Beck & Swann,
Secretaries,
Shanghai General Chamber of Commerce.

S. M. Edwards, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, October 7, 1927.

Gentlemen,—I am directed to acknowledge receipt of your letter of September 22, on the subject of the nuisance caused by the unnecessary blowing of whistles and discharge of smoke by launches berthed at the Municipal Jetties.

In reply, I am directed to inform you that the Police on duty at the jetties have been instructed to report any offenders, and launchas have been warned against the unnecessary discharge of smoke while the launches are lying idle. As the Council can take action in this matter under the provisions of Clause 7 of the licence conditions for launches, which reads:—

"That there be no unnecessary blowing of the whistle or discharge of smoke while at or near the jetties to the annoyance of those living in the neighbourhood,"

I have to inform you that breaches of this condition will be dealt with by summons.

Regarding the nuisance caused by launches plying in the river, I am directed to suggest that the Harbour Master be approached on the subject, since the matter is one with which he only is empowered to deal.

I am, Gentlemen,
Your obedient servant,
J. M. McKee,
Deputy Secretary.

Messrs. Beck & Swann,
Secretaries,
Shanghai General Chamber of Commerce.

Excerpts from Minutes.

At the meeting of the Watch Committee held on Monday, September 26, 1927, at 4.30 p.m., there are present: Brigadier-General E. B. Macnaghten, *Acting Chairman*, and Mr. K. Fukushima.

The Minutes of the last meeting are confirmed and signed.

At the meeting of the Orchestra and Band Committee held on Tuesday, September 27, 1927, at 4.30 p.m., there are present: Mr. V. Meyer, *Chairman*, and Dr. W. J. Isenman.

The Minutes of the last meeting are confirmed and signed.

Locomotion.—At the suggestion of the Chairman, consideration is given to the question as to whether or not the retention of the Band Truck is necessary, having regard to the possibility of utilising one of the trucks belonging to the Public Works Department. The Conductor states that the Band truck is specially designed for the transportation of instruments, and upon examination of a statement prepared by him, giving details of the journeys made by this vehicle during 1926, from which it is shown that the approximate cost per service is Tls. 5, members record the view that the present arrangement is satisfactory and accordingly no change therein is recommended.

Winter Concert Season and Admission Fees.—In accordance with the Committee's decision of last year, consideration is given to the question of admission fees, and any means whereby the concerts can be made more attractive and thus result in increased receipts being obtained from this source. Following examination of a statement of receipts from the concerts given last season, members unanimously agree that the amount shown is totally incommensurate with the value of the performances given, and they are of the view that the fee charged for admission to the various concerts should be increased for the forthcoming winter season. In this connexion they are unable to endorse the Conductor's contention that increased admission fees will result in considerable adverse public criticism, members taking the view that owing to the annual budget charge for the maintenance of the Orchestra, ratepayers will welcome any proposals whereunder increased receipts therefrom can be obtained.

The number of free tickets issued for orchestral performances is regarded as unnecessarily high, and at the Committee's direction the Conductor will suppiy a complete list of persons to whom free tickets are sent, whereafter further consideration will be given to this question.

With regard to the Conductor's observations in a memorandum submitted as to the unsatisfactory heating and ventilation system of the Town Hall, the uncomfortable type of seat provided and the absence of amenities which are to be found in other concert rooms, members unanimously agree that the lack of customary facilities in the Town Hall is to a large extent responsible for the small income derived from orchestral concerts. Whilst at the present time, on account of financial stringency, the Committee hesitates to recommend that more comfortable seats be provided or that other major improvements be carried out, it is considered that the system of issuing tickets at present in force should be revised forthwith. It is accordingly recommended that, in order to avoid the inconvenience and confusion experienced under the present system, arrangements should be made by the Public Works Department for the sale of tickets on the ground floor, preferably by two attendants, instead of by one only on the first floor as at present.

After full consideration of other questions in connexion with the forthcoming winter concert season, such as the engagement of soloists and the adequate advertising of the various concerts, the Committee records the following recommendations for the Council's approval:—

(1) That Sunday concerts be continued in the evening during October and November and April and May, and in the afternoon during the period of December to March.

(2) That for Sunday concerts an admission fee be charged of $1 for the main hall (soldiers and sailors in uniform half price); Gallery 60 cents small money (or $1 for two tickets) for all persons.

(3) That the Committee be authorised to engage soloists and pay certain fees to be decided in each instance by the Committee in conference with the Conductor. Whenever professional soloists are engaged either for Sunday or Special concerts, these concerts will be advertised as extra symphony concerts at which the admission charge will be $3, $2, $1, and Gallery 60 cents. The booking arrangements for such concerts to be placed in the hands of Messrs. Moutrie & Co., Ld. The Committee to be given discretion in the matter of advertising such concerts.

(4) That the Committee be authorised to arrange for extra symphony concerts on days other than Sunday, when in their judgment such concerts can be arranged on a basis to provide a reasonable return.

At the meeting of the Staff Committee held on Friday, September 30, 1927, at 4.30 p.m., there are present: Messrs. H. B. Roe, *Acting Chairman*, and A. D. Bell, and Brigadier-General E. B. Macnaghten.

The Minutes of the last meeting are confirmed and signed.

At the meeting of the Foreign Education Committee held on Thursday, October 6, 1927, at 4.30 p.m., there are present: Mr. J. S. S. Cooper, *Chairman*, Mrs. A. D. Bowman and Mr. V. G. Lyman.

MUNICIPAL NOTIFICATION

No. 3649.

MUNICIPAL SCHOOLS FOR FOREIGN CHILDREN.

Collection of School Fees.

TUITION Fees in the Schools for Foreign Children administered by the Council will in future be collected on the first four school days of each month. Parents are accordingly requested to pay their children's fees for the month of November, and each succeeding month, on the days noted below, when the division of each school for purposes of fees collection will be as follows:—

1st School day in the month 8.30 a.m. Forms VI, V, IV.
2nd School day in the month 8.30 a.m. Forms III, II.

Thomas Hanbury School for Boys:—

2nd School day in the month 1.30 p.m., Forms IV, III.

Thomas Hanbury School for Girls:—

1st School day in the month 1.30 p.m., Forms VI and V.

2nd School day in the month 1.30 p.m., Forms IV and III.

3rd School day in the month 1.30 p.m., Forms II and I.

4th School day in the month 9 a.m., Kindergarten and Transition.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(a) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(b) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(c) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

Secretary.

C. HARPUR, Esq.,
Commissioner of Public Works.

Council Chamber,
Shanghai, August 15, 1927.

SIR,—I am directed to acknowledge receipt of your letter of August 2, wherein you offer to surrender an area of Mow 0.471 of land from Cadastral Lots 558 and 559, required in connexion with the scheduled widenings of Hoopeh, Hoihow and Pakhoi Roads, at the assessed value of the lots, plus 10 per cent. for compulsory surrender.

In reply thereto, I am directed to state that the Council is willing to offer compensation therefor in the sum of Tls. 22,111, calculated as follows:—

	Tls.	Tls.
Cadastral Lot 558		
Mow 0.374 at assessed value of the lot, *i.e.*, Tls. 48,000 per mow	17,952

THE MANAGING DIRECTOR,
MESSRS. PROBST, HANBURY & CO., LD.

Shanghai, August 18, 1927.

DEAR SIR,—We beg to acknowledge receipt of your letter dated 15th instant, offering us the sum of Tls. 22,111 in settlement of our claim of Tls. 25,402 for the surrender of the land required for widening the Hoopeh, Hoihow and Pakhoi Roads, which we regret we are unable to accept as we cannot understand why one-sixth has been deducted for betterment on Cadastral Lot No. 558 and we will thank you for an explanation.

We are, Dear Sir,
Yours faithfully,
For and on behalf of:—
PROBST, HANBURY & CO., LTD.
W. A. WHITE,
Director.

S. M. EDWARDS, Esq.,
Secretary,
Muncipal Council.

Council Chamber,
Shanghai, August 26, 1927.

SIR,—I am directed to acknowledge receipt of your letter of August 18, wherein you request to be informed as to the Council's reason for making a deduction of one-sixth for betterment in respect of the area of Mow 0.374 scheduled from Cadastral Lot 558 for the widening of Hoopeh Road.

In reply thereto, I am directed to state that, in the Council's opinion, the widening of this road from 26 feet to 40 feet will confer such betterment on the lot as to warrant this deduction. Furthermore, the land in question cannot be handed over to the Council free of encumbrances, as there are footings in the soil and verandahs, etc., projecting over a portion of the land to the extent of approximately 3 feet 9 inches. Moreover, as road widenings of this nature, which are frequently being carried out by the Council, have the general effect of increasing the value of the land, it is considered equitable that landowners should make some direct contribution towards the cost.

In view of the foregoing, I shall be obliged if you will kindly inform me whether the offer contained in the Council's letter of August 15, is acceptable.

I am, Sir,
Your obedient Servant,
J. M. McKEE,
Deputy Secretary.

THE MANAGING DIRECTOR,
MESSRS. PROBST, HANBURY & CO., LD.

Shanghai, September 27, 1927.

DEAR SIR,—We beg to acknowledge receipt of your letter of 26th ultimo, explaining the Council's reasons for wishing to make a deduction of one-sixth for betterment in respect of the area of Mow 0.374 surrendered from Cadastral Lot 558 for the widening of Hoopeh Road.

In reply we regret to say that we are unable to agree to this deduction of one-sixth, as it has always been the custom to allow footings in the soil and verandahs to project over the roadway and we fail to see why these questions should be raised now.

As to the widening of a road having the effect of increasing the value of the land we cannot agree that it applies in every case, certainly not in this where the Hoopeh Road, at this point, is of no great length.

We trust you will reconsider your views and allow our claim in full.

Yours faithfully,
For and on behalf of
PROBST, HANBURY & CO., LTD.
W. A. WHITE,
Director.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, October 5, 1927.

SIR,—I am directed to acknowledge receipt of your letter of September 27, intimating that the Council's offer of Tls. 22,111 as compensation for the area of Mow 0.471 required from Cadastral Lots 558 and 559 for the scheduled widening of Hoopeh, Hoihow and Pakhoi Roads is unacceptable.

In the circumstances, I am directed to inform you that, as the Council is unwilling to increase the offer contained in its letter of August 15, the case will be referred for settlement to the Land Commission. Plans of the lots will, accordingly, be prepared and forwarded for signature at an early date, and notice of the hearing of the case by the Land Commission will be communicated to you in due course.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Rabies or Hydrophobia.

The following notice issued by the Public Health Department is republished for general information.

The Disease.—Rabies or hydrophobia is an acute fatal disease, generally communicated to man through a wound made by the teeth of some infected animal, the saliva being the infective medium. Dogs, cats, goats, cows, horses, and other animals are susceptible to the disease and their bites are very dangerous. Hydrophobia may also be contracted by allowing the saliva (froth) of an infected animal to come in contact with a cut or scratch. This sometimes happens in adjusting muzzles, in trying to remove what seems to be a bone in the throat, or in giving medicines. The saliva may be virulent (poisonous) for one or two weeks before a dog shows any signs of being sick.

Symptoms.—The disease in the dog appears in two forms. In the furious type, he may suddenly leave home, wandering off for many miles, perhaps, to return in a day or two emaciated, wounded, and utterly changed. During the time of "running mad" he may have bitten many persons and other animals. He seems impelled to bite anything that comes in his way. He cannot be said, as a rule, to fight with other dogs. He bites them and passes on, but does not go out of his way very much to attack them. His main object seems to be to keep moving, as if to escape something. The dumb variety is characterized by progressive paralysis of the lower jaw, change in character of bark, and marked nervousness. The animal may appear very affectionate, but may bite without warning. Death usually results in from three to six days from the onset of sickness.

What to Do with a Suspected Animal.—When an animal is suspected of having this disease it should be captured at once, if possible, and securely confined. A veterinary surgeon should be called to see the dog, or the circumstance should be reported to the nearest Police Station where they will arrange without payment for the transfer of the dog to the Observation Kennel under the care of the Commissioner of Public Health.

Dogs, suspected of rabies, should, if possible, be captured alive; but they may be killed, if danger of any person being bitten can thereby be avoided. If preserved alive it can be ascertained in a day or two whether the animal has rabies, while if killed it usually takes fourteen days to find out.

When other dogs have been bitten by a rabid dog they should either be killed immediately or handed over to the charge of a veterinary surgeon.

What to Do when Bitten.—The bite of any animal should be cleaned throughout its depth and cauterized as soon as possible by a doctor.

The person bitten should go to the Commissioner of Public Health to see if Pasteur Treatment is necessary.

It is absolutely necessary for persons bitten by rabid animals or animals suspected of rabies to have the Pasteur Treatment. This is given at the Municipal Health Office and takes about three weeks. The fee for Pasteur Treatment is Tls. 50 reducible in cases of necessity.

Serious Crime.—This includes the murder of a Chinese who was attacked by an armed gang with axes in West Hongkew District on September 12; the murder of a Chinese youth whose dead body was found in a trunk in Hongkew District on September 12, death being due to strangulation; the murder of a Chinese carpenter employed in a cotton mill who was shot dead in Yangtzepoo District on September 14; the murder of an unemployed brass-smith who was shot dead in Wayside District on September 19; the murder of two Chinese, husband and wife, who were shot dead by two armed men at a house in Sinza District on September 23; the murder of a Chinese female and the wounding of a Chinese Constable who were fired at by an armed man in Sinza District on September 25; the murder of a Chinese watchman and the wounding of two other Chinese who were shot at by armed robbers in Louza District on September 26; the murder of a Chinese who was shot by armed robbers in Pootoo Road District on September 25 and died the following day; the murder of a Chinese female and the wounding of another female who were fired at by armed robbers on September 27 at a house in Yangtszepoo District and the murder of a Chinese mill foreman who was shot dead at his home in Pootoo Road District on September 27.

One arrest was made in the second mentioned case and four men were apprehended in connection with the murder of a Chinese watchman and the wounding by shooting of two other Chinese on September 26.

Three men were taken into custody during the month for participation in two murders which occurred in January and June, 1927. Sixteen persons on remand charged with being concerned in eleven murders which were committed in 1924, 1926 and 1927 were dealt with. Ten were sentenced to terms of imprisonment ranging from life imprisonment to two and a half years. The remaining six were found not guilty.

Armed Abduction.—Three cases of armed abduction were reported during the month. In two of these the victims were removed in their own motor cars, the chauffeur in one instance being forced to drive the car, whilst on another occasion one of the abductors took the driving seat after the chauffeur had been forcibly removed. One of the persons abducted eventually returned to his home, it being alleged that he escaped from a house in the Chapei District.

In connection with a case of armed abduction which occurred in the French Concession on September 13, the victim, whilst passing through the Settlement, raised an alarm which brought assistance from police in the vicinity. In effecting the rescue of the abducted man one of the gang of kidnappers was shot dead and another was arrested and handed over to the French Police. A Sikh Constable was slightly wounded during the exchange of shots.

Robbery.—One hundred and twenty reports of armed robbery were received during the month, ninety-three occurring at dwelling houses, shops, etc., and twenty-seven on the highway.

During the nine months ended September 30, eight hundred and ten reports of armed robbery from dwelling houses, shops, etc., and 234 reports of armed highway robbery were received, a total of 1,044 cases of robbery and an increase of over 223 per cent. over the figures for the first three-quarters of 1926. During the same period no less than 541 persons were arrested on charges of armed robbery. Of these one only was sentenced to death, 222 have been sentenced to imprisonment, 11 died of wounds received at the time of arrest, 122 were acquitted and 170 were still on remand at the end of September.

Increase in Crime.—There is little doubt that the abnormal increase in serious crime, revealed in the foregoing statistics, is largely due to the military and political situation. One of the factors which has contributed to this situation is the instability of the government in Chinese territory, which has been changed as a result of revolutionary or other violent occurrences on more than a dozen occasions since the Autumn of 1924. Besides affording unprecedented opportunities to the criminal fraternity to secure revolvers and pistols, each of these changes has resulted in additions to the ranks of the unemployed of large bands of men trained in the use of arms and inured to risking their lives. As a result of the dissolution last April of the Shanghai Labour Protection Corps, some five thousand persons of this class were turned loose upon the community, and it is worthy of note that the corps in question was largely composed of ex-burglars and thieves. The crime situation has been further aggravated during the present year because the criminals and potential criminals of the various categories mentioned have come under the influence of Bolshevik propaganda, which has been systematically conducted with a view to effecting, by arousing the greed and covetousness of the proletarian classes, the destruction of all respect for property and the rights of others. Unlike the Authorities charged with restoring normal conditions after revolutions in other countries, who were usually given almost unlimited power, the Police of the Settlement have been endeavouring to meet the abnormal conditions with no other authority than that accorded by the Chinese Provisional Criminal Code which is clearly intended for times of peace. While the observance of the letter of this Code in the Settlement places the Police at a great disadvantage, the Authorities in Chinese territory never allow themselves to be hampered by it when dealing with dangerous criminals or political and subversive agitators. In view of this circumstance and the fact that a large portion of the wealth of this part of the country is concentrated in the Settlement, it would not be a matter for surprise if the large majority of the criminals of southern Kiangsu came here to pursue their depredations. It is nevertheless true that Chinese territory is suffering more than the Foreign Concessions from the present epidemic of crime. In the country between Woosung and the Taihu Lake, villages and even towns have been attacked recently by armed marauders who took away everything portable of value, and in many cases either murdered or kidnapped numbers of the inhabitants. Until this banditry in territory surrounding the Settlement is suppressed and until such time as machinery is created which will enable the authorities responsible for law and order within its limits to deal with the criminals in a manner befitting the times, there is reason to fear that conditions will remain unsatisfactory.

Exceptional circumstances, such as crime waves like that which is passing over the Settlement now, demand exceptional counter measures, but the police are severely handicapped by the fact that the law does not provide adequate punishment for such offences. Nothing short of capital punishment will deter the armed robber gangs from their activities, and capital punishment is to all intents and purposes a dead letter in the Provisional Court. It is further open to doubt whether the present Nanking Government (the legislative authority) is in any way interested in or sympathetically inclined towards peace and good order in the Settlement. Until, however, the criminal classes learn to fear the law as administered by the Provisional Court, I do not see how a return to the calmer atmosphere of a few years back can be expected.

Civil War.—Naval and aerial attacks upon the local garrison and engagements resulting from the execution of plans for the disarming of the 31st Army were the outstanding features of the military situation in Shanghai during the month. In consequence of suspicions entertained by the Nationalist Authorities regarding the loyalty of the 31st Army, arrangements were made by General Ho Ying-ching's 1st Army to disarm that corps on September 20. An engagement resulted, but the latter troops were defeated and compelled to surrender their arms after suffering about 100 casualties. Further fighting between the same armies occurred the same day under similar circumstances at other points on the Shanghai-Hangchow and Shanghai-Nanking Railways and in every instance the 1st Army was victorious.

Communism. — Notwithstanding the severe measures adopted by the Chinese Authorities since April 12, 1927, against the members of the Chinese Communist Party, these extremists have succeeded in resuming their old activities, and are now endeavouring by means of terrorism and propaganda to bring the workers in Shanghai completely under their domination. The terrorism was manifested during the period under review in a campaign of assassination against employees of industrial establishments, of whom no less than four were shot dead and two wounded, while the propaganda consisted of appeals to the workers which were disseminated through the medium of handbills. In one instance the handbills advocated the overthrow of the Unification Committee of Shanghai Labour Unions and the removal of Generals Pai Chung-hsi and Ho Ying-ching on the ground that they have degenerated into reactionary militarists. In another a demand was made for the confiscation of foreign factories and an appeal to labourers to secure arms and set up a proletarian government in co-operation with the Russian Soviet Republic. These handbills purported to have been issued by branches of the Chinese Communist Party known as the General Labour Union, the Chinese Communistic League and the Executive Committee of the Chinese Communist Party.

Strikes.—There were 16 strikes during the month of September as compared with eight in August, 1927. These disputes affected a total of 17,227 employees and resulted in a loss of 184,329 working days, against 9,039 workers affected and 46,168 working days lost during the previous month. In the course of a disturbance among the workers in a dock in Pootung on September 19, the labourers assaulted and wounded a foreign employee who probably would have lost his life were it not for the intervention of the Chinese Police.

Catching of Stray Dogs.—In view of criticism, mostly ill-informed, of the methods adopted by the Police to capture stray dogs, which has recently appeared in the Press, it is interesting to observe the results of the new system introduced in August last whereby stray dogs are collected in two motor vehicles operating North and South of the Soochow Creek respectively. The two Ford trucks are allotted to two or more police districts daily and are under the direction of foreign sergeants or constables.

During September 544 dogs were seized as compared with 140 and 174 during the corresponding month in 1925 and 1926, and apart from the much improved results, due no doubt to a great extent to foreign supervision, there is a considerable saving in man power, only 4 coolies being employed compared with 24 under

the old system and one foreigner against 12 Chinese Constables.

It may be as well to point out that no rewards are paid to dog coolies or others engaged in this work.

Rice.—The average price of Chinese rice for the month of September was $16.98 per picul as compared with $17.91 per picul in August, 1927.

Traffic.—Court proceedings were instituted in 427 (54 foreigners and 373 Chinese) of 1,142 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

The following is a summary of work performed by the Police during September in connection with the issue of motor vehicle driving licences:—

Public Health Report for September.

The health of the community continued to be satisfactory, the death-rates among both Foreigners and Chinese being about normal.

The outbreak of Cholera, which appeared in the middle of June, and became epidemic at the end of August, reached its peak early in September, and was rapidly declining at the end of the month. Among the Chinese within the Settlement, altogether 183 cases were notified and 53 deaths reported during the month. The only cases occurring among Foreigners were 6 among the Japanese with 4 deaths.

The number of persons undergoing anti-rabic treatment in the Pasteur Institute was 37, making altogether 264 so far this year, compared with 154 cases during the whole of last year.

Special attention is again drawn to the Rabies Notice, and owners of dogs are requested for the sake of the public, themselves and their dogs, to control carefully the activities of their dogs, not allowing them to roam the streets unaccompanied or unmuzzled.

The saliva of animals infected with rabies has been proved to be infective for at least 10 days before outward or evident signs or symptoms of the disease appear, and an animal may be infective for a considerably longer period than that, so that even in cases of bites from apparently healthy dogs it is advisable to treat wounds on the assumption that they are infected, and if wounds are severe or multiple, or on head, face or neck, hands or wrists, to commence Pasteur treatment pending investigation of the condition of the dog during a period of at least 10 days observation. Careful and skilled cauterisation of the wound with nitric acid should be done without delay.

Rabies was referred to by Aristotle in the IVth Century, B. C., but it was not until the immortal work of Pasteur in 1885—only forty two years ago—that any prophylactic was found against this terrible and deadly disease.

During April of this year an International Conference on Rabies was held in Paris, when important discussions took place on the nature of the rabies virus, and on several aspects of the prevention and prophylactic treatment of the disease. With reference to the prevention of rabies in animals, the Conference, while considering it desirable for dogs to be given, each year, a prophylactic inoculation against rabies by experts, did not consider itself in a position to propose important changes in sanitary legislation. It was of opinion that the only measures that will completely eradicate rabies are the restriction of the liberty of the dog, unless muzzled, to the premises of the owner, and the destruction of the ownerless dog, and it recommended that these measures be embodied in the legislation of the various countries.

With the approach of Winter, it becomes necessary to urge the vital importance of vaccination and re-vaccination as an almost absolute preventive measure against Smallpox.

In China the infection of Smallpox is always present, and the Asiatic type of the disease is often so virulent that efficient vaccination is advisable every 3 years in order to maintain a high standard of immunity.

Full particulars concerning free vaccination for indigent Foreigners and Chinese at the Branch Health Offices, are given in the Press and in the "Municipal Gazette."

The Municipal Swimming Bath, N. Szechuen Road, and the Municipal Open-Air Swimming Pool, on the Kiangwan Road, adjoining the Hongkew Park, were closed at the end of the month.

The Swimming Bath had been put at the disposal of the Military and Naval Authorities for the season, and had been greatly appreciated by the soldiers and sailors.

The Open-Air Swimming Pool was well patronised though not so well as last year, probably on account of disturbed conditions in the neighbourhood.

Here follow tables of Vital Statistics Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

Commissioner of Public Health.

MUNICIPAL SCHOOLS FOR FOREIGN CHILDREN.

Collection of School Fees.

TUITION Fees in the Schools for Foreign Children administered by the Council will in future be collected on the first four school days of each month. Parents are accordingly requested to pay their children's fees for the month of November, and each succeeding month, on the days noted below, when the division of each school for purposes of fees collection will be as follows:—

Public School for Boys:—

1st School day in the month 8.30 a.m. Forms VI, V, IV.

2nd School day in the month 8.30 a.m. Forms III, II.

3rd School day in the month 8.30 a.m. Forms I and Preparatory.

2nd School day in each month 9 a.m. Forms I and II.

Thomas Hanbury School for Boys:—

1st School day in the month 1.30 p.m., Forms VI, V.

2nd School day in the month 1.30 p.m.. Forms IV, III.

3rd School day in the month 9 a.m. Forms II and I.

Thomas Hanbury School for Girls:—

1st School day in the month 1.30 p.m., Forms VI and V.

2nd School day in the month 1.30 p.m., Forms IV and III.

3rd School day in the month 1.30 p.m., Forms II and I.

4th School day in the month 9 a.m., Kindergarten and Transition.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(*a*) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(*b*) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(c) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

Secretary.

Extensions and Improvements.—Correspondence has recently taken place between the Council and the Shanghai Electric Construction Co., Ltd., relative to Clause 3 of the Tramway Extension Agreement of 1924 under which certain extensions and improvements in the Tramway Service were to be completed within a period of three years. The correspondence is published hereunder for general information:—

Council Chamber,
Shanghai, July 22, 1927.

SIR,—With reference to Clause 3 of the Tramway Extension Agreement signed on May 17, 1924, under which the Company was given a period of three years in which to complete and put into operation certain extensions and improvements of the Service, I am directed to inform you that the Council has observed that this time limit has expired, and to request that you will kindly favour me with an expression of the Company's views on the subject, in order that the matter may receive the Council's consideration at an early date.

I am, Sir,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

C. BURGESS, Esq.,
General Manager,
Shanghai Electric Construction Co., Ltd.

Shanghai, August 9, 1927.

SIR,—I beg to acknowledge receipt of your letter No. 4686/1 of July 22, with reference to the Agreement dated May 17, 1924, between the Municipal Council and this Company covering the extension of our Tramway and Trolley Bus services.

The strikes and disturbances which have taken place here since 1924 seriously affected the business of this and other undertakings in Shanghai and delayed and interfered with the construction of the works specified in the first and second schedules of the agreement but in spite of such happenings we have completed the major portion of such works within the time limit mentioned in clause 3 of the agreement.

My Board is of opinion:—

1. That the delay in completing the agreement has been due to causes beyond our control.
2. That some of the extensions scheduled in the agreement are not now desirable.
3. That the present local outlook is not favourable to the expenditure of large sums on extensions of plant.

We, therefore, beg to suggest without prejudice to the rights of either party that the uncompleted portion of the scheme covered by the agreement should be reviewed with the object of deciding whether the works as detailed are now desirable or not.

I am, Sir,
Your obedient servant,
C. BURGESS,
General Manager,
Shanghai Electric Construction Co., Ltd.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, September 29, 1927.

SIR,—I am directed to acknowledge receipt of your letter of August 9, stating the circumstances under which the extension of tramway and trolley bus services has been delayed, and suggesting that the uncompleted portion of the scheme covered by the agreement between the Council and the Shanghai Electric Construction Co., Ltd., should be the subject of further consideration.

In reply thereto, I am directed to state that, in the Council's opinion, the following three exten-

sions should now be proceeded with:—

(1) Rail route on Yangtszepoo Road from the present terminus to the Point. This involves about 1,200 yards of double track work.

(2) Rail route on North Szechuen Road. Part of this work has been carried out, but there remains about 700 yards of single line with loops to be converted into double track, and it is considered that traffic conditions would be greatly improved thereby.

(3) Railless route on Yuyuen Road, from Bubbling Well Tram Terminus to Jessfield Park. The necessary road construction work has been completed for some time, and the poles for carrying the overhead wires are already in position.

In this connexion, I am directed to request that you will kindly furnish the Council with an undertaking to complete the above work before the end of 1928; and to inform you that the Council does not, at present, desire to press for the completion of the remaining routes.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

C. BURGESS, Esq.,
General Manager,
Shanghai Electric Construction Co., Ltd.

Shanghai, October 6, 1927.

SIR,—I beg to acknowledge receipt of your letter No. 4686 of September 29, suggesting that we should proceed with the following part of the uncompleted portion of the work scheduled in the agreement between the Council and ourselves dated May, 1924:—

1. Extend the Tramway Track from the present Yangtszepoo Terminus to the Point.
2. Double a section of the present single line track in North Szechuen Road.
3. Complete the overhead construction of the Trolley Bus Route in Yuyuen Road.

While my Local Directors are of opinion that the works mentioned above are desirable and should be carried out in the near future they feel that under present conditions in Shanghai they cannot bind the Company and give the undertaking which you ask for, i.e., to complete the works before the end of the year 1928.

I am, Sir,
Your obedient servant,
C. BURGESS,
General Manager,
Shanghai Electric Construction Co., Ltd.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, October 27, 1927.

SIR,—I am directed to acknowledge receipt of your letter of October 6, stating that the Local Directors of your Company are desirous of carrying out the tramway extensions referred to in my letter of September 29, but that they are unable to furnish an undertaking that the work will be completed before the end of 1928. The Council is further informed that you have advised the Company's Board that, provided reasonable conditions prevail, two of the three items should be proceeded with early next year.

In view of the uncertainty arising from adverse local conditions, I am directed to inform you that the Council is willing to extend its agreement with the Company till May, 1928, in the hope that a definite decision may be reached and the work commenced by that month, when the position can again be reviewed if necessary.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

General Manager,

Rabies or Hydrophobia.

The following notice issued by the Public Health Department is republished for general information.

The Disease.—Rabies or hydrophobia is an acute fatal disease, generally communicated to man through a wound made by the teeth of some infected animal, the saliva being the infective medium. Dogs, cats, goats, cows, horses, and other animals are susceptible to the disease and their bites are very dangerous. Hydrophobia may also be contracted by allowing the saliva (froth) of an infected animal to come in contact with a cut or scratch. This sometimes happens in adjusting muzzles in trying to remove what seems to be a bone in the throat, or in giving medicines. The saliva may be virulent (poisonous) for one or two weeks before a dog shows any signs of being sick.

Symptoms.—The disease in the dog appears in two forms. In the furious type, he may suddenly leave home, wandering off for many miles, perhaps, to return in a day or two emaciated, wounded, and utterly changed. During the time of "running mad" he may have bitten many persons and other animals. He seems impelled to bite anything that comes in his way. He cannot be said, as a rule, to fight with other dogs. He bites them and passes on, but does not go out of his way very much to attack them. His main object seems to be to keep moving, as if to escape something. The dumb variety is characterized by progressive paralysis of the lower jaw, change in character of bark, and marked nervousness. The animal may appear very affectionate, but may bite without warning. Death usually results in from three to six days from the onset of sickness.

What to Do with a Suspected Animal.—When an animal is suspected of having this disease it should be captured at once, if possible, and securely confined. A veterinary surgeon should be called to see the dog, or the circumstance should be reported to the nearest Police Station where they will arrange without payment for the transfer of the dog to the Observation Kennel under the care of the Commissioner of Public Health.

Dogs, suspected of rabies, should, if possible, be captured alive; but they may be killed, if danger of any person being bitten can thereby be avoided. If preserved alive it can be ascertained in a day or two whether the animal has rabies, while if killed it usually takes fourteen days to find out.

When other dogs have been bitten by a rabid dog they should either be killed immediately or handed over to the charge of a veterinary surgeon.

What to Do when Bitten.—The bite of any animal should be cleaned throughout its depth and cauterized as soon as possible by a doctor.

The person bitten should go to the Commissioner of Public Health to see if Pasteur Treatment is necessary.

It is absolutely necessary for persons bitten by rabid animals or animals suspected of rabies to have the Pasteur Treatment. This is given at the Municipal Health Office and takes about three weeks. The fee for Pasteur Treatment is Tls. 50 reducible in cases of necessity.

Pahsienjao Cemetery.

Use of Chapel by Danish Church Community.—In terms of the following correspondence, permission has been granted to the Danish Church Community to make use of the Pahsienjao Cemetery Chapel for Divine Services from 10.30 a.m. to noon on Sundays:—

Shanghai, September 30, 1927.

SIR,—Referring to our conversation this afternoon, I hereby have the honour, on behalf of the Danish Church Community at Shanghai, to apply for permission for the Community to make use of the Chapel situated at the Pahsienjao Cemetery for Divine Services every Sunday from 10.30 a.m. to about 12 o'clock.

The Danish Community in Shanghai, numbering between 4-500 people, have recently formed a Church Community with their own Danish Clergyman and are now greatly in need of a suitable place where they can hold their Divine Services regularly at convenient hours. The Pahsienjao Chapel would in all respects be quite convenient for this purpose, and the Community would greatly appreciate if the desired permission might be granted.

I have the honour to be, Sir,
Your obedient servant,
S. LANGKJAER,
Consul-General,
Royal Danish Consulate-General.

DR. C. NOEL DAVIS, M.D.
Commissioner of Public Health,
Municipal Council.

Council Chamber,
Shanghai, October 18, 1927.

SIR,—I have the honour to acknowledge receipt of your letter of September 30, addressed to the Commissioner of Public Health, on the subject of the use by the Danish Church Community of the Chapel at the Pahsienjao Cemetery between 10.30 a.m. and noon on Sundays.

In reply thereto, I have the honour to inform you that the Council will be pleased to grant the facilities asked, under certain conditions enumerated hereunder.

In this connection, as this cemetery is situated in the French Concession, it is suggested that you should notify the Secretary of the French Council of your intention to make use of this building on Sundays.

I have further to point out that there are no arrangements for heating this building and that any system required for the purpose must be installed at the expense of the users and in accordance with the requirements of the Public Works Department, and that storage of fuel must also be at the risk of the users.

If electric lighting should be required, the cost of installation and use would be a charge on the Danish Church Community, who would also have to arrange for any attendance and gatekeeping, subject to the exigencies of the Municipal Service.

I shall be obliged if you will be so good as to inform me whether these conditions are acceptable to you.

I have the honour to be, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

S. LANGKJAER, Esq.,
Consul-General for Denmark.

Shanghai, October 21, 1927.

SIR,—I have the honour to acknowledge receipt of your letter of the 18th instant, informing me that the Council is willing to grant permission to the Danish Church Community in Shanghai to make use of the Chapel at the Pahsienjao Cemetery for Services on Sundays between 10.30 p.m. and noon on certain conditions enumerated in the letter.

In reply, I beg to inform you that the Danish Church Community is fully prepared to comply with the said conditions. I furthermore beg to advise you that, in accordance with your suggestion, I have to-day notified the Secretary of the French Municipal Council of the permission granted to the Danish Community to make use of the Chapel for Divine Services.

I may add that, provided the Council has no objections, it is intended to hold the first Service at the Chapel on the first or second Sunday in November.

Requesting you to be kind enough to convey my sincere thanks to the Council for the facilities granted, which will be greatly appreciated by the Danish residents as well as by other members of the Scandinavian Communities in Shanghai, who as a rule are admitted to our Services.

I have the honour to be, Sir,
Your obedient servant,

Consul-General,
Royal Danish Consulate-General.

I have the honour to be, Sir,

In particular, it has been observed that brokers' traps frequently disregard the regulation as to one-way traffic on the eastern section of Kiukiang Road, and also cause obstructions by double ranking outside the banks situated on this road. In requesting your kind co-operation in this matter, I am directed to add that, in the event of continued non-compliance with the regulations, it will become necessary, in the interest of the safety and convenience of other users of the road, to institute proceedings against the owners of the offending vehicles.

I am, Sir,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Wharfage Dues.

The return of Wharfage Dues for the quarter ending September 30, 1927, has been received from the Chinese Maritime Customs, showing a total sum accruing to the Council of Tls. 127,019.25.

Excerpts from Minutes.

At the inaugural meeting of the Traffic Committee held on Friday, October 7, 1927, at 4.30 p.m., there are present: Messrs. S. Fessenden, *Chairman of Council*, J. S. S. Cooper, A. J. Hughes, W. R. B. McBain, Brigadier General E. B. Macnaghten and Mr. G. Okada.

The Summons calling the meeting is taken as read.

Orders of Reference.—Mr. Fessenden, Chairman of Council, attends, and, on behalf of the Council, welcomes members and expresses his appreciation of the public spirit shown by them in consenting to serve on the Committee, which has been appointed by the Council in accordance with the recommendation of the Traffic Commission (1924-1926).

He states that the constitution of the Committee consists of three members of the Traffic Commission, together with a member of the Watch and Works Committees, respectively. With respect to the Orders of Reference as laid down by the Council, he observes that they have been drawn up with particular care, with a view to placing the Committee on a sound and solid basis from its inception; and, after informing the Committee that the procedure therein laid down is common to the procedure observed by all advisory Committees of the Council, he requests members to elect a Chairman.

Upon the proposal of Mr. McBain, seconded by Mr. Hughes, Mr. J. S. S. Cooper is elected Chairman of the Committee.

Mr. Fessenden then withdraws.

Brokers' Traps—Breaches of Regulations.—Arising out of a letter published in the correspondence columns of the Press, General Macnaghten suggests that consideration should be given to any means whereby a stricter police control might be exercised over Brokers' Traps. In a report submitted, the Commissioner of Police states that as a whole the drivers of these vehicles are more expert than those of any other horse-drawn vehicle and that the very few accidents in which they are involved are in most cases due to a slippery polished road surface, not to want of ability. The only two serious charges which can be brought against these vehicles are (1) "cutting across traffic to set down," which is only a contravention of existing traffic regulations on Nanking Road and the Easterly Section of Bubbling Well Road, and (2) obstruction in the vicinity of Banks at certain intervals during the day.

Members endorse the Chairman's view that, whilst the drivers of these vehicles may be expert, they entirely disregard the safety and convenience of other users of the road. Reference is made to the non-compliance on the part of these vehicles with the traffic regulation as to one-way traffic on the Eastern section of Kiukiang Road, as also the double ranking outside the Banks situated on this road. Upon General Macnaghten stating that he has observed that these vehicles cut across traffic in order to set down their occupants at the entrance of the Shanghai Club, the Assistant Commissioner of Police states that he will take immediate steps to prevent this practice.

After discussion, members recommend that in order to ensure strict compliance with the Traffic Regulations, the Police Department be instructed to exercise greater vigilance in the matter of the control of these vehicles, and with regard to the non-observance of the Traffic regulation affecting the Eastern end of Kiukiang Road, it is recommended that a letter be addressed to the Exchange Brokers Association by the Secretary, requesting their co-operation in this matter and stating that unless these breaches are discontinued, prosecution against offending vehicles will be taken by the Council.

Parking Facilities—Bubbling Well Road—Proposed Culverting of Race Course Creek.—A letter from Mr. A. J. Hughes suggesting that, with a view to providing improved parking facilities on this road, the Race Course Creek be culverted, is submitted. In comment on this proposal, the Commissioner of Police agrees that parking facilities on the lines suggested would materially assist the police in the control of traffic in connection with the Carlton Theatre, Carlton Cafe and the Little Club. The Commissioner of Public Works reports that the area covered by the Race Course Creek is not scheduled for acquisition as a road widening and even if the road could be acquired at assessed value this would involve an expenditure of Tls. 56,000, and in addition the cost of culverting the creek and making up the road surface would amount to Tls. 8,000. By this expenditure sufficient additional space would be provided to park approximately 190 cars. He informs members that the creek serves as a natural barrier against crowding of the Race track, and if removed would have to be replaced by a high wall. In order to preserve the amenities of the road at this point and at the same time to meet the requirements of the Stewards, he considers it would be more desirable to set back the creek rather than to erect an unsightly wall.

Mr. Hughes then reads a memorandum giving his reasons for advocating additional parking space in this vicinity and on the ground that the recent and potential development of this locality warrants increased parking facilities, members unanimously agree as to the necessity thereof.

Since the Committee is convinced as to the necessity of the provision of additional space for stationary vehicles, the Commissioner of Public Works submits that it would be well to consider as to what form such provision should take. Whilst the proposal put forward involves heavy expenditure, which the Council during the present financial stringency might be unwilling to sanction, it might be possible, by utilisation of the pavement contiguous to the creek and a small portion of the roadway, to provide ranking space for some sixty-five motor cars. The pavement is little used by pedestrians and its conversion to ranking space would be of little inconvenience to the public. If the Council approved this proposal it would be necessary ultimately to consider removal of the trees planted on the pavement. He therefore suggests that, as an experimental measure, a section of this portion of the road should be marked out by the P.W.D. in order to ascertain the amount of encroachment which would take place on the roadway itself. Members endorse his view that sufficient space should be provided to allow occupants of cars to alight alongside the creek rather than on the roadway which provides for the main traffic stream.

After considerable discussion, and in order at the present time not to commit the Council to heavy expenditure, it is recommended that the Commissioner of Public Works

be authorised to mark out a section of this portion of the road and remove the existing kerb line for the purpose of ranking cars in order to ascertain whether its extension along the entire boundary of the Race Course for this purpose is feasible. If this experiment is satisfactory, it is further recommended that this facility be extended along the whole length of the Race Course and that, if necessary, the trees planted alongside be removed.

In the event of the space provided under the above proposal proving insufficient or if it should be found that the encroachment upon the main road renders adoption of the proposal impracticable, further consideration will be given to the question of providing parking space either by scheduling additional road land or possibly by reaching an agreement with the Race Club Stewards under which the necessary additional area could be acquired. In the event of the additional road land having to be purchased by the Council, Mr. Hughes states that his Society would be willing to contribute the whole of the cost in respect of the portion fronting the China United Building and members take the view that contributions from other property owners on the North side of the road, should be similarly solicited.

China United Assurance Society Building—Ranking on Bubbling Well Road.—An application by Mr. A. J. Hughes on behalf of the China United Assurance Society Ld. that this Society be granted ranking privileges on this road, is submitted. Upon the Assistant Commissioner of Police (T) stating the Police Department's objections to this application, and in view of the relief which will be afforded by adoption of the recommendation recorded in the preceding minute, Mr. Hughes states that he is willing to leave this application in abeyance.

At the meeting of the Works Committee held on Tuesday, October 25, 1927, at 2 p.m., there are present: Messrs. A. D. Bell, *Chairman*, and W. R. B. McBain.

The Minutes of the last meeting are confirmed and signed.

At the meeting of the Council held on Wednesday, October 26, 1927, at 4.30 p.m., there are present: Messrs. S. Fessenden, *Chairman*, A. D. Bell, V. G. Lyman, W. R. B. McBain, Brigadier-General E. B. Macnaghten and Mr. H. B. Roe.

The Minutes of the last meeting are confirmed and signed.

The Minutes of the meeting of the *Traffic Committee* of October 7 are submitted and confirmed.

Membership.—Brigadier General Macnaghten informs members that owing to his impending departure from Shanghai he regretfully tenders his resignation from the Council. On behalf of the Council, the Chairman expresses regret at General Macnaghten's departure and thanks him for the assistance he has rendered during the time he has served on the Council.

Smuggling of Copper Coins.

The appended letter on the subject of the smuggling into Shanghai of copper coins has been addressed by the Chairman of Council to the Senior Consul:—

Council Chamber,
Shanghai, November 4, 1927.

SIR,—I have the honour to bring to the attention of the Consular Body the continued smuggling into Shanghai of copper coins, with consequent flooding of the local market and depreciation of values.

The effect of the unrestricted importation of these coins on the economic livelihood of the residents of Shanghai, particularly upon the preponderating Chinese section, is considerable, and the consequent dislocation of standards of living is a factor not to be ignored in the causes contributing to dissatisfaction and unrest in this area.

I have the honour, therefore, to request that this matter may receive the serious attention of the Consular Body and that, in endorsing the Council's opinion as to the importance of this matter in its relation to the peace and welfare of Shanghai, they may be pleased to make strong representations on the subject to the Chinese Authorities, with a view to their enforcement of restrictions on the importation of copper coins into Shanghai.

I have the honour to be,
Sir,
Your obedient servant,
STIRLING FESSENDEN.
Chairman.

E. S. CUNNINGHAM, Esq.,
Consul-General for the United States of American and Senior Consul.

Council and Gas Co.

Installation of Electric Cookers.—The appended correspondence between the Council and the Shanghai Gas Company, Ld., relative to the installation of electric cookers, is published for general information:—

Shanghai, October 7, 1927.

SIR,—I am requested to draw the Council's attention to the enclosed leaflet issued by the Municipal Electricity Department.

The leaflet sets forth that the Department is prepared to meet those people who decide to modernize their method of cooking by installing a Cooker with full wiring to the meter entirely free of cost to the consumer, regarding which I wish to point out that the Department has no authority to install wiring free or otherwise.

In support of my contention I beg to refer you to the resolutions and statements made at ratepayers meetings in 1905 and subsequent years, which fully explain the limitations of the Department in the matter of Municipal trading.

Your earnest consideration of the irregularity above referred to will be appreciated.

Yours faithfully,
W. GATER,
Secretary.
The Shanghai Gas Company, Limited.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, October 19, 1927.

SIR,—I am directed to acknowledge receipt of your letter of October 7, on the subject of a leaflet issued by the Electricity Department, relative to the installation of electric cookers.

In reply, I am directed to inform you that the matter is receiving attention and that a further communication will be addressed to you in due course.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

W. GATER, Esq.,
Secretary,
The Shanghai Gas Co., Ld.

Council Chamber,
Shanghai, November 10, 1927.

SIR,—I am directed to reply to your letter of October 7, 1927, relative to the installation of electric cookers by the Electricity Department.

It is noted that you consider the Department's actions are irregular and a contravention of previous legislation limiting the Department in the matter of municipal trading.

It is necessary to point out that the Electricity Department has adopted the same procedure in the matter of electric cookers as has applied relative to electric motors for a period of over 20 years, and that the legislation referred to was concerned with the sale and installation of electric apparatus in direct competition with contracting firms.

Your letter under reply having suggested concern on your part as to the effect of the Electricity Department's policy on those trading in electrical apparatus and installations, an expression of opinion has been obtained from the leading firms so engaged, and is unanimous to the effect that the policy in question is favoured and is considered to react to the benefit of all concerned, including both the trading firms and the community at large.

In these circumstances I am instructed to advise you that the Council does not see its way clear to make any amendments in the present procedure adopted by the Electricity Department and referred to by your goodselves in the letter under reply.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

W. GATER, Esq.,
Secretary,
The Shanghai Gas Co., Ld.

Burlington Hotel Licence.

The following interchange of letters between Messrs. Teesdale, Newman & McDonald, and the Council, relative to the Burlington Hotel licence and in continuance of the correspondence published in the "Gazette" of October 21 last, is published for general information:—

Shanghai, November 7, 1927.

DEAR SIR,—We have been consulted by our client, the Proprietor of the Burlington Hotel, on the subject of certain alterations and improvements which the Council requires to be effected in the Burlington Hotel premises as a condition for the issue of a full license. We have also perused the correspondence which has been exchanged between yourself and the Manager of the Hotel in connection therewith.

In a letter addressed to you by the Manager on the 10th June last in reply to yours of the 2nd March, he suggested to you that as it was proposed to pull down the existing building and build a new one in the near future the Council should in the meantime be satisfied with as few necessary alterations to the existing structure as possible. We are, however, now instructed to inform you that in view of the present unstable and uncertain political conditions, the Proprietor has no immediate intention of carrying out the rebuilding scheme.

With regard to the requirements enumerated in your letter of March 2nd, 1927, we understand that all the requirements of the Health Department have been complied with and our client is fully prepared to comply with the fire requirements, but requests you to reconsider items (3) and (4).

As regards these items we are informed that if the construction were to be carried out, it would not only involve a heavy financial expenditure, but would also disturb the business of our client. We are, therefore, instructed to inquire whether in view of the fact that there are already four stair-cases leading in different directions, which would enable the guests, in case of fire, to leave the premises rapidly, the Council would permit some less expensive alternative than that now required.

In conclusion, we are also instructed to point out that the building itself was only erected in the year 1911 under the supervision of the well known architects, Messrs. Moorhead and Halse, that the Council's requirements were all complied with at the time when the premises were built, that the hotel is being used and occupied mostly by foreign guests of good standing, that no public dancing or cabaret shows are conducted in the premises and that no fires have happened in the premises since the hotel was established.

We shall, therefore, be obliged if the Council will re-consider its decision and let us have an early reply in order that the work of renovation can be commenced at once.

Yours faithfully,
TEESDALE, NEWMAN & MCDONALD.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, November 17, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of November 7, stating that the proprietor of the Burlington Hotel is unwilling to rebuild, and requesting the Council to reconsider certain of the requirements upon which the continuance of the licence has been made conditional.

In reply thereto, I am directed to inform you that, in the opinion of the Council, ample time has been given to the management to have the necessary alterations put in hand, and to furnish the required guarantee, by which the safety of

the occupants of the building might be reasonably secured; and to state that no further extension beyond November 30, next, can be granted. Moreover, in view of the decision not to rebuild the Hotel, the Council is not prepared to depart from the original requirements set forth in its letter of March 2, and I am directed to inform you that, unless the necessary work is commenced before November 30, and satisfactory progress therein maintained, the present provisional licence will be withdrawn and effective measures will be taken to prevent the building from being used as a hotel.

I am, Gentlemen,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Messrs. TEESDALE, NEWMAN & McDONALD.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

Traffic.

Disregard of Regulations by Brokers' Traps.—On November 4, there was published in the "Gazette" a letter addressed by the Council to the Chairmen of the Shanghai Stock Exchange and the Shanghai Sharebrokers' Association, and also to the President of the Shanghai Exchange Brokers' Association, relative to disregard of traffic regulations by brokers' traps. The following reply to the Council's letter has been received from the Hon. Secretary of the Exchange Brokers' Association:

Shanghai, November 3, 1927.

DEAR SIR,—I am in receipt of your letter of October 27, on the subject of breaches of the traffic regulations by drivers of brokers' traps, which will be brought to the notice of our members, who I am sure will do their best to see that the regulations are observed. I beg to point out, however, that on Kiukiang Road, Eastern Section, obstructions are largely due to the lack of proper enforcement of their regulations by the Police. During recent months the north side of the road has often been used as a parking place for vehicles, usually by half a dozen or more motor cars at a time, and many private ricshas. Ricshas also tout for hire on the road, with only occasional interference by the Police.

I beg to assure you that we are in full sympathy with the Police in the enforcement of the traffic regulations.

Yours faithfully,
H. S. LINDSAY,
Hon. Secretary,
Exchange Brokers' Association.

J. M. MCKEE, Esq.,
Deputy Secretary,
Municipal Council.

Serious Crime.—This includes the death in hospital on October 2 of a Chinese who was wounded during a shooting affray at a teashop in Sinza District on August 24; the murder of a Chinese with a criminal record whose dead body bearing wounds inflicted by a blunt instrument was found in the Yangtszepoo District on October 11; the murder of a Chinese amah who was shot by armed robbers in West Hongkew District on October 12; the murder of a Chinese who was shot on October 15 by an armed man at a house in Sinza District; the death in hospital of a coolie who was shot and wounded by a gang of loafers in Wayside District on June 16; the murder of a Sikh Constable who was shot by escaping robbers in the Sinza District on October 21; the murder of a Chinese brass-smith who was shot at a house in West Hongkew District by an armed man on October 25; the murder of a Chinese who was shot by armed robbers at a house in Wayside District on October 24; the murder of a Chinese shopkeeper who was shot dead by three armed men who entered his shop in the Wayside District on October 27, and the murder of a Chinese female who was shot at her home in Wayside District by an armed gang on October 29.

Two men were arrested on October 7 for being concerned in the murder of a Chinese who was attacked by a gang armed with axes at a house in West Hongkew District on September 12. In connection with the murder of a Chinese female who was shot at a house in Yangtszepoo District by armed robbers on September 27, two men were apprehended on October 15. Three men were taken into custody for participation in the murder of a Chinese in Louza District on September 28. Fourteen persons on remand charged in connection with six murders, five of which occurred in 1927 and one in 1926, were dealt with. Seven were sentenced to imprisonment and seven were acquitted.

Armed Abduction.—Five Chinese were abducted by armed gangs in the Settlement and on outlying roads during the month. In all cases the victims were removed in motor cars. One of the persons abducted was able to make his escape whilst being taken into a house in Chapei, but a raid on the house later by the Chapei Police led to the discovery that the abductors had left. In another case the victim returned to his home after eight days. Three men who were about to abduct a Chinese in the Louza District were arrested on October 25 and are at present on remand.

In investigating cases of this nature, the police are greatly handicapped by the families of victims refusing to give assistance or information and preferring to deal with the kidnappers secretly and to pay ransoms demanded.

Robbery.—95 reports of armed robbery from premises and 19 on the highway were received during the month. Six cases of attempted armed robbery were also recorded. Shots were fired by the robbers in thirteen instances, resulting in two Chinese being killed and one wounded.

In connection with the foregoing and reports of armed robberies occurring prior to October 1, 57 persons, 17 of whom were in possession of loaded firearms, were arrested. Eight were sentenced to imprisonment and the remainder are under remand. Of 175 persons on remand at the end of September charged with armed robbery, 66 were dealt with. 38 were sentenced to imprisonment, one died in police custody, the charge against two was withdrawn and 15 were acquitted.

Six men, two of whom were in possession of loaded firearms, were arrested for being members of armed robber gangs. One from wounds received at the time of his arrest and the remaining five are under remand. Eight men, one of whom was in possession of a loaded pistol, were arrested in connection with armed robberies committed in the French Concession. One died from wounds, six were handed over to the French Police and one is on remand. Of 11 persons arrested for being concerned in armed robberies occurring in territory under Chinese jurisdiction, 6 were handed over to the authorities concerned and 5 were acquitted.

Seven robberies, in which no arms were used, were also reported. In connection with these and reports received prior to October 1, 4 persons were arrested. Two were sentenced to imprisonment and 2 are on remand. Of six persons on remand at the end of September for this class of offence, 5 were sentenced to imprisonment and one was acquitted.

Trafficking in Firearms, etc.—Two foreigners were arrested during the month for trafficking in firearms and ammunition when two pistols and 200 rounds of ammunition were seized. They were each sentenced to 20 days' imprisonment.

Twenty Chinese were apprehended for being in possession of firearms for an unlawful purpose. Three were sentenced to imprisonment, one was acquitted and the remainder are under remand. Three men on remand at the end of September charged with this class of offence were dealt with. Two were sentenced to imprisonment and one was acquitted.

Forgery of Revenue Stamps.—As a result of a complaint by the Nationalist Cigarette Tax Bureau that its revenue stamps were being forged in Shanghai, the Municipal Police arrested on October 3 one foreigner and one Chinese and seized 14,800 sheets of stamps of a total face value of $44,400. The foreign accused was handed over to his Consular Authorities and the case against the Chinese is being dealt with by the Chinese Authorities.

Property Stolen.—581 reports made under this heading during the month represent an estimated loss of $238,293 and include 25 cases of burglary, 9 of house-breaking, 4 of godown-breaking and 26 of shop and office-breaking. Successful investigation was made in 94 cases, resulting in the recovery of property valued at $91,738, in addition to which recoveries to the extent of $19,216 were made in connection with reports received prior to October 1. Successful results were also obtained in eight cases reported as having occurred out of limits and in two instances where the property was reported as lost.

Crime beyond Settlement limits.—There are no official records, but according to the Chinese press 17 cases of armed robbery and piracy were reported during the month as having occurred in territory under Chinese jurisdiction. Four cases of murder and two of armed abduction were also recorded. The district between Quinsan and Wei-ting on the Shanghai-Nanking Railway was raided by a large number of bandits who plundered the villages and carried off persons for ransom.

Finger Print Bureau.—During the month of October this Bureau received from all sources 1,502 sets of finger prints for identification, about 100 above the average for the preceding nine months. Identifications of prisoners still maintain the level of one in three. 203 Chinese prisoners from district police stations were identified, of whom no less than 104 were found to have been previously released on remission of sentence.

Investigation of crimes with the object of securing finger prints of the persons responsible resulted in the identification of two burglars. One, who specializes in foreign houses, left his finger prints on a pane of glass he removed from the scullery window at a house on Avenue Haig on October 21 and the other, a burglar of Chinese houses, left his on the broken window of a house in Burkill Road on the same date. The former is wanted for two similar cases which occurred earlier in the year and in which he also left his finger impressions on the glass, and the latter was arrested a few days later after committing another burglary. He is at present under remand. Eight cases of shop-breaking by smashing plate glass windows were also enquired into and in five instances finger prints were secured but it is a peculiarity that none of the prints corresponds with each other, leading to the belief that they were made by onlookers attracted to the scene by the breaking glass.

On October 15 a Chinese was sentenced to 2 years' and 2 months' imprisonment for breaking into the S.V.C. Club, 17 Foochow Road, on September 23. He had been arrested as a result of leaving his finger prints on the broken glass of a window there. He made a confession of his guilt to the Court.

Fourteen unidentified dead bodies were finger-printed at the Mortuary. They ranged from robbers shot by the police down to persons who had dropped dead on the street. Three were identified by their finger prints, one being a man found murdered off Chemulpo Road and the other two persons found dead on the roads of the Settlement.

Political Communism.—After a lull following the anti-communistic operations in April last, labour troubles revived and the situation again became serious. Communist and other subversive elements responsible for this change, besides urging the labourers to rebel against the local Chinese Authorities, advocated the seizure of political power, confiscation of factories, banks and other institutions and the restoration of the Shanghai Labour Union, an extremist organization. Their campaign was furthered by means of secret meetings, some of which were attended by men armed with pistols, and the dissemination of subversive propaganda containing attacks upon foreigners, the Unification Committee of Shanghai Labour Unions and, contrary to the policy pursued in the past, all sections of the Nationalist Government. This propaganda was reinforced by assassinations, for the perpetration of which special measures were devised and adopted. Although the Nationalist Government is one of the targets in this propaganda, there is reason to believe that the efforts of the agitators were and still are facilitated by parties having influence with its local administration, and this belief is strengthened by the success attending one strike which lasted throughout the month due to assistance of a material nature received from the Kuomintang. Further, organizations such as the Unification Committee of Labour Unions established under the aegis of the Nationalist Government fertilized the ground for doctrines preached by the Communists and containing such slogans as "Down with Imperialists," "Down with Capitalists" and "Down with crafty gentry." As far as can be gathered, the aims of the Chinese Communist Party appear to include:—

1.—The arming of all workers.

2.—The overthrow of the Nanking, Peking, Wuhan and Canton Governments.

3.—The dissolution of all labour unions and peasants' organizations formed under the auspices of the Kuomintang.

4.—The incitement of people not to pay rents or taxes.

One of the booklets issued during the month by this party urged the proletariat to revolt against capitalists and imperialists with a view to establishing, on an economic basis, a Communist government independent of political considerations. To attain this ideal the booklet urged that land, banks, mines, factories, railways, etc. should be confiscated. Another document charged the Kuomintang with oppressing, massacring and robbing the people, and revolutionary elements were advised to take advantage of the present rivalries of the militarists to effect their own salvation.

Strikes.—There were 26 strikes during the month as compared with 16 in September. These strikes affected a total of 26,737 workers and resulted in a loss of 421,201 working days, against 17,227 employes affected and 184,329 working days lost during the previous month. One of the strikes affects about 8,000 employes of the B.A.T. Factories in Pootung and has not yet been settled. Workers of these factories were arrested in Pootung from time to time by strike pickets who accused them of plotting to resume work in defiance of orders of the labour union that the strike should continue. The means employed to further this strike are reminiscent of the methods employed during the general strike in 1925.

Rice Market.—The average price of Chinese rice for the month of October was $14.75 per picul as compared with $16.98 in September, 1927.

Traffic.—Court proceedings were instituted in 294 (39 foreigners and 255 Chinese) of 1,382 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

The following is a summary of work performed by the Police during October in connection with the issue of motor vehicle driving licences.

The new mechanical traffic signal installed at Avenue Edward VII-Thibet Road-Boulevard de Montigny intersection was taken into use on October 5 and has proved of great assistance in the control of traffic at this important point.

Rabies or Hydrophobia.

The following notice issued by the Public Health Department is republished for general information.

The Disease.—Rabies or hydrophobia is an acute fatal disease, generally communicated to man through a wound made by the teeth of some infected animal, the saliva being the infective medium. Dogs, cats, goats, cows, horses, and other animals are susceptible to the disease and their bites are very dangerous. Hydrophobia may also be contracted by allowing the saliva (froth) of an infected animal to come in contact with a cut or scratch. This sometimes happens in adjusting muzzles, in trying to remove what seems to be a bone in the throat, or in giving medicines. The saliva may be virulent (poisonous) for one or two weeks before a dog shows any signs of being sick.

Symptoms.—The disease in the dog appears in two forms. In the furious type, he may suddenly leave home, wandering off for many miles, perhaps to return in a day or two emaciated, wounded, and utterly changed. During the time of "running mad" he may have bitten many persons and other animals. He seems impelled to bite anything that comes in his way. He cannot be said, as a rule, to fight with other dogs. He bites them and passes on, but does not go out of his way very much to attack them. His main object seems to be to keep moving, as if to escape something. The dumb variety is characterized by progressive paralysis of the lower jaw, change in character of bark, and marked nervousness. The animal may appear very affectionate, but may bite without warning. Death usually results in from three to six days from the onset of sickness.

What to Do with a Suspected Animal.—When an animal is suspected of having this disease it should be captured at once, if possible, and securely confined. A veterinary surgeon should be called to see the dog, or the circumstance should be reported to the nearest Police Station where they will arrange without payment for the transfer of the dog to the Observation Kennel under the care of the Commissioner of Public Health.

Dogs, suspected of rabies, should, if possible, be captured alive; but they may be killed, if danger of any person being bitten can thereby be avoided. If preserved alive it can be ascertained in a day or two whether the animal has rabies, while if killed it usually takes fourteen days to find out.

When other dogs have been bitten by a rabid dog they should either be killed immediately or handed over to the charge of a veterinary surgeon.

What to Do when Bitten.—The bite of any animal should be cleaned throughout its depth and cauterized as soon as possible by a doctor.

The person bitten should go to the Commissioner of Public Health to see if Pasteur Treatment is necessary.

It is absolutely necessary for persons bitten by rabid animals or animals suspected of rabies to have the Pasteur Treatment. This is given at the Municipal Health Office, and takes about three weeks. The fee for Pasteur Treatment is Tls. 50 reducible in cases of necessity.

Public Health Report for October.

The health of the community continued to be satisfactory, the death rates among both Foreigners and Chinese being normal.

No case of Cholera occurred among Foreigners and only six deaths were reported among the Chinese.

The outbreak of Cholera this year has been far less severe than last year, an important contributory factor being the special measures adopted by the Chinese Public Health Authorities for safeguarding the Chapei water supply.

No case of Smallpox occurred among Foreigners or Chinese, and the campaign of vaccination was begun vigorously at the various Branch Health Offices, altogether 4,508 vaccinations being done, the majority of which were among infants and children.

Smallpox is often intensely virulent in China, and all who have not been efficiently vaccinated within the last 3 years are strongly urged to be done now, in order to give themselves the highest possible protection against the disease.

Sir George Newman, the Chief Medical Officer of the Ministry of Health in England, has summarised the evidence relating to Smallpox and Vaccination as follows:—

(*a*)—that beyond all question, the mortality from Smallpox is much less now than in pre-vaccination times:

(*b*)—that the greatest diminution in the Smallpox mortality is found in the early years of life in which there is most vaccination:

(*c*)—that in countries where there is adequate vaccination and revaccination relatively to the population, there is little Smallpox:

(*d*)—that in houses invaded by Smallpox in the course of an outbreak, not nearly so many of the vaccinated inmates are attacked, as of the unvaccinated in proportion to their numbers.

(*e*)—That the fatality rate among persons attacked by Smallpox is much greater, age for age, among the unvaccinated than among the vaccinated.

(*f*)—that the degree of protection conferred by vaccination corresponds to the quality of the vaccine, and to the thoroughness with which the operation of vaccination has been performed:

(*g*)—that the protection afforded by vaccination wanes with lapse of time:

(*h*)—that improved sanitation, however beneficial in itself, cannot account for these facts: and

(*i*)—that though early diagnosis, prompt isolation of Smallpox patients in suitable hospitals, effective disinfection, supervision of "contacts," and other such public health methods are invaluable, they are no substitute for vaccination.

The new public health license conditions for Foreign Lodging Houses, ordinarily spoken of as "boarding houses," have been published in the Municipal Gazette and will come into force on January 1, next year.

These have been urgently needed for a long time, and should prove a great boon and blessing to a large number of residents whose health frequently suffers because they are unable to supervise their own kitchen arrangements and to safeguard the cleanliness and purity of their food.

At the present time 140 of these establishments are licensed.

Close and continuous attention is being given to dairies and the standard of cleanliness and efficiency is steadily improving: of 163 samples of milk from licensed dairies, analysed in the Municipal Laboratory, 6 were found to be of poor quality.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

The remaining 6 samples contained organisms of the B. Coli group. Of these 2 showed the presence of B. Aerogenes, 25 per litre, 2 others, unspecified B. DOGS.

DOG owners who have not yet taken out licences for the current year are requested to make application at the Revenue Office, *accompanied by the fee of $5 for each dog.*

Attention is directed to Condition No. 4 imposed in the licence, as follows:—

"That the dog when in the streets or other place of public resort be effectively muzzled, but in such a manner as will admit of its breathing and drinking."

Dogs found without muzzles, whether led or at large, within the limits of the Settlement or on outlying roads, will be seized by the Police and detained at the Kennels for a period of one week or longer as circumstances may direct; their owners, when identified, will be prosecuted. Dogs wearing ineffective muzzles will be regarded as unmuzzled.

Unmuzzled dogs found at large within the limits of the Settlement, or on Municipal roads outside the limits of the Settlement, which cannot be seized, are liable to be shot.

This measure has become necessary owing to the incidence of rabies, and all dog owners are hereby warned accordingly.

Enquiries on the subject of lost or strayed dogs should be made at the Gordon Road Police Station (Telephone No. West 348) and Yangtzepoo Police Station (Telephone No. East 743).

Death of Mr. P. Legendre.

It is with deep regret that the Council has learnt of the death on November 24, of Mr. P. Legendre, Secretary to the French Provisional Municipal Commission since its institution at the beginning of this year, and previously Secretary to the French Municipal Council for seven years. Prior to his appointment to the position of Secretary, the late Mr. Legendre was Acting Secretary from 1917 to 1919. He came to Shanghai originally in 1908 but returned to France on the outbreak of war. He was decorated with the Croix de Guerre by the French Government for his services during the war and, on being invalided from the French Army owing to his wounds, he returned to Shanghai.

Mr. Legendre, by his ability and tact, was in no small measure responsible for the happy relations which have for so long existed between the Municipal Authorities of both Administrations. Members of Council and Council officials gave testimony of their respect for the deceased by attending his funeral and the Council flags were half-masted on Friday, November 25, and on the day of the funeral.

The following correspondence passed between the French Municipal Provisional Commission and the Council:—

Translation of letter from the French Municipal Provisional Commission dated November 25, 1927.

SIR,—I regret to inform you of the death of Mr. P. Legendre, Secretary of the Provisional Municipal Commission, which took place at the Sainte-Marie Hospital on the 24th instant.

The funeral service will be held to-morrow, Saturday, at 3 p.m. at St. Joseph's Church.

At the conclusion of the service, the funeral cortege will proceed to Lokawei Cemetery where the burial will take place.

I am, etc.,
P. E. NAGGIAR,
Consul-General for France, Chairman, French Municipal Provisional Commission.

The CHAIRMAN,
Shanghai Municipal Council.

Council Chamber,
Shanghai, November 25, 1927.

SIR,—I have the honour to convey to you for transmission to the Provisional Commission for the Municipal Administration of the French Concession, an expression of the Council's very deepest sympathy and condolence in the loss it has

sustained in the death of its Secretary, Monsieur P. Legendre.

During his term of office, the conduct of affairs in which the two Administrations have been mutually interested has invariably been characterized by those attributes which tend and have tended still further to cement the very cordial relations which so happily exist between them; to which Mr. Legendre by his invariable courtesy, tact and ability greatly contributed. His loss is one of which the Council and the Municipal Service of the Foreign Settlement are deeply sensible.

The Council specially desires to extend to his wife and children its deepest sympathy in their sad bereavement.

I have the honour to be,
Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

MONSIEUR E. FAURAZ.
Acting Secretary,
Provisional Commission for the Municipal Administration of the French Concession.

Court of Consuls.

China Publishing Co., Inc, v. Municipal Council.—Judgment in the case of the China Publishing Co., Inc., *versus* the Council for the Foreign Community of Shanghai was issued by the Court of Consuls on November 24. The Statement of Claim, Statement of Defence, and Judgment of the Court are appended:—

PETITION.

The plaintiff in the above entitled action complaining against the defendant above-named, alleges the following facts constituting its cause of action:

1. That plaintiff is a corporation duly organized and doing business under and by virtue of the laws of the State of Delaware, United States of America, and resides within the International Settlement of Shanghai.

2. That at the times hereinafter mentioned, the defendant is a public service corporation and has the full and sole control of the supply of electric power within the territory of said International Settlement of Shanghai.

3. That by virtue of its public character, the defendant is obligated to furnish and supply electric power to the public without discrimination upon payment for the use thereof.

4. That by certain letter dated the 25th day of July, 1927, a copy of which marked Exhibit A is hereto attached and made a part hereof, the said defendant threatens to discontinue the supply of electric power to the plaintiff's use.

5. That the plaintiff is not indebted to the defendant for the use of electric power supplied by the defendant up to the time of the filing of this petition.

6. That the plaintiff consumes the electric power supplied by the defendant for the use of operating its printing press and linotype machines in the publication of its daily newspaper, the "China Courier," and its weekly publication, the "China Tribune."

7. That said publications, the "China Courier" and the "China Tribune" have a wide circulation within the territory of Shanghai and elsewhere.

8. That the threatened discontinuance of the supply of electric power by the defendant to the plaintiff will cause irreparable injury and financial loss to the plaintiff and the plaintiff has no remedy in law in the premises, but only by writ of injunction in equity.

WHEREFORE the plaintiff prays that a temporary injunction be allowed, restraining said defendant and its servants in office from the threatened discontinuance of the supply of electric power to the plaintiff; and that upon a final hearing hereof the said defendant and its servants in office be perpetually restrained from its threatened discontinuance of the supply of electric power to said plaintiff; and for costs of this action; and for such other and further relief as may be equitable and proper.

SUPPLEMENTAL PETITION.

Comes now the plaintiff above named, by this supplemental complaint, and alleges:

1. That on the 26th day of July, 1927, the plaintiff commenced its action in this court against the defendant by filing with the Clerk of this Court a copy of the original petition to which original petition the plaintiff refers as if the same were herein repeated, and as part of this supplemental petition.

2. That on the above-mentioned date, the defendant carried out its threat to discontinue the supply of electric power to the plaintiff's use by cutting off its electric wires to the plaintiff's premises on 6-A Hongkong Road, city of Shanghai, and furthermore, the defendant cut off the supply of electric current for the lighting of the plaintiff's electric lights and fans without any previous notice to the plaintiff.

3. That in consequence of the defendant's wrongful and unlawful action, the plaintiff was unable to operate its printing, press and linotype machines in the publication of its daily newspaper, the "China Courier," and its weekly publication, the "China Tribune," and the plaintiff thereby suffers irreparable damages.

WHEREFORE: the plaintiff demands judgment as in the original petition demanded, and further for damages in the sum of $50,000. Mexican Currency.

ANSWER.

1. The Defendants admit that the Plaintiff is an American corporation carrying on business within the Foreign Settlement of Shanghai.

2. Paragraphs 2 and 3 of the Petition are denied.

3. Paragraphs 4, 5 and 6 are admitted. The Defendants have no knowledge as to the contents of paragraph 7.

4. Paragraph 8 of the Petition is denied. The Defendants do not understand the allegation that the Plaintiffs have no remedy in law, but the Defendants admit that they are subject to the jurisdiction of the Court, and that this is the only Court in which they can be sued.

5. The Defendants say that they are an elected Body, in whom is vested, by virtue of the Land Regulations, the control of the municipal administration of the Foreign Settlement within the limits therein specified, including police, public works, public health, education, electric lighting of a public and private nature, and all other matters connected with the municipal or public welfare.

6. As stated in paragraph 5, amongst other activities the Defendants administer public and private electric lighting and power within the said Foreign Settlement. The whole of the plant and organization in connection therewith is municipal property and is financed by the ratepayers. Private users of electric light and power pay certain scheduled charges therefor. Any profit received from the supply thereof is credited to the general municipal funds and likewise any loss has to be made good from the said municipal funds.

7. It is provided by Land Regulation 9 that the foreign ratepayers shall, at the annual general meeting, pass resolutions providing for the levying of a general municipal rate to be paid by the occupiers of all rateable premises within the said Foreign Settlement in order to meet the expenses of the administration of all municipal and essential services and activities of the Defendants within the limits of the said Foreign Settlement.

8. The Defendants say that no person or corporation is entitled to demand or enjoy the benefit of municipal or public services provided by the Defendants and financed by the general body of ratepayers, including that of electric lighting and power, except in the capacity of a law-abiding citizen or ratepayer.

9. In the alternative, the Defendants say that it is an implied term of any contract between the Plaintiffs and the Defendants for the supply of electric lighting or power, supply the Plaintiffs with such and/or the consideration upon which the Defendants agreed to electric lighting or power, that the Plaintiffs should pay all rates for which they were or might be lawfully liable.

10. At the annual general meeting of foreign ratepayers held in accordance with the provisions of the Land Regulations on the 18th April, 1927, a resolution was lawfully passed that for the year commencing the 1st July, 1927, a General Municipal Rate should be levied at the rate of 16 per cent. per annum upon the rateable value of all occupied premises within the limits of the said Foreign Settlement.

11. In accordance with the said resolution, lawful demand was made by the Defendants through their servants upon the Plaintiffs for the payment of the sum of Tls. 59.60 being the said general municipal rate lawfully due upon the premises occupied by the Plaintiffs within the said Foreign Settlement for the period from the 1st July, 1927, to the 30th September, 1927. The Plaintiffs nevertheless refused to pay the said general municipal rate or any of it.

12. The Defendants say that the Plaintiffs, having refused to pay the said municipal rate legally demanded of them, were no longer entitled to the benefit of the supply of municipal electric lighting or power, and the Defendants accordingly, as they were lawfully entitled to do, informed the Plaintiffs that unless they paid the said lawful municipal rate, the supply of electric power to them would be discontinued.

Wherefore the Defendants pray that the Petition be dismissed with costs.

ANSWER TO SUPPLEMENTAL PETITION.

1. Paragraphs 1 and 2 of the Petition are admitted.

2. Paragraph 3 of the Petition is denied.

3. The Defendants refer to the Answer to the original Petition filed by the Plaintiffs and say that the Plaintiffs refused to pay the Municipal rates legally demanded of them and that, for the reasons set out in the said Answer, the Defendants were justified in discontinuing the supply of electric lighting and power to the Plaintiffs.

WHEREFORE the Defendants pray that the Supplemental Petition may be dismissed with costs.

REPLY.

Now comes the plaintiff, and replying to the new matter alleged in the answer of the defendant herein, respectfully represents:

1. Paragraphs 1, 2, 3 and 4 of the Answer to the original petition and paragraphs 1, 2 and 3 of the answer to the supplemental petition are not new matter for they relate to allegations in the original and supplemental petitions of the plaintiff.

2. Paragraphs 5, 6 and 7 are admitted.

3. Paragraph 8 is denied. The plaintiff says that every person or corporation in the International Settlement whether he be a person with a past criminal record or a law-abiding person is entitled under the law to demand and enjoy the benefit of municipal or public services without unlawful discrimination. Yet, the law-abiding Chinese ratepayers are excluded from enjoying the benefit of such municipal or public services as the municipal parks and swimming pools. The plaintiff further says that it was and still is a law-abiding citizen of the United States of America.

4. Paragraph 9 is denied. Heretofore, the plaintiff did enter into certain contracts with the common conditions attached governing the supply of electricity as applied to private consumers with the defendant and did pay therefor as deposits the sum of Tls. 55 for electric power and the sum of Tls. 180 for lighting. That, in nowhere in said contracts, there is an expressed or implied term, requiring as a condition precedent that the plaintiff shall pay all rates assessed by the defendant, and on failure to do so, the defendant shall have the right to cut off the supply of electric power and/or lighting to the plaintiff. Conditions 6 and 20 of said contracts clearly state the events when the defendant can discontinue the supply of electric power and/or lighting to the plaintiff, and none of which warrants the defendant's unlawful action in this case.

5. Paragraph 10 is admitted, except that said resolution was illegal in that the Chinese ratepayers, who paid the majority of the taxes, were not consulted nor were they represented in the Council or the annual general meeting of the ratepayers; and that the defendant did not have the official sanction of the Chinese Government or its official local representatives in levying said increased rate on the Chinese ratepayers in the Settlement.

6. Paragraph 11 is denied. The plaintiff says that it was ready and willing to pay the 14% general municipal rate, but the defendant refused to accept same.

7. Paragraph 12 is denied. The plaintiff says that by virtue of the conditions of said contracts, and in law and in justice, the defendant should not discontinue the supply of its electric power and lighting to the plaintiff when the plaintiff refused to pay the 2% increase of the general municipal rate was the subject of a *bona fide* dispute. The plaintiff further says that the defendant should have followed the process of the law, as the defendant did in the cases of Wing On & Co. and Sincere & Co., by suing the plaintiff in the United States Court for China instead of taking the law into its own hands.

WHEREFORE the plaintiff demands judgment as in the original and supplemental petitions demanded.

TEMPORARY INJUNCTION.

To the Council for the Foreign Community of Shanghai.

Take notice that the Court having duly considered the Petition of the Plaintiff in the above entitled cause has ordered that an Injunction shall be granted as prayed for in that Petition upon payment by the Plaintiff into the Court of the sum of One Thousand Dollars as security for the Rate due and the costs and that the said sum of One Thousand dollars having been paid by the said Plaintiff into the Court, it is hereby ordered that the temporary Injunction as prayed for is granted.

By the Court,
C. E. WHITAMORE,
Secretary to the Court of Consuls.

JUDGMENT.

In this action the Plaintiffs claim an injunction to restrain the Defendants from discontinuing the supply of electric power to the Plaintiffs and also claim damages for the losses occasioned by such discontinuance.

The parties have filed an agreed statement of the facts connected with the discontinuance of the electric power, so that the only issue which the Court has to decide is whether the defendants were within their rights and reasonable in acting as they did.

The rights of the Shanghai Municipal Council are those of a voluntary association composed of the citizens of many different states who have combined together for the enjoyment in common in an orderly manner of certain privileges which were accorded to them by agreements made between their respective Governments and the Government of China. Amongst these privileges is the right of municipal control over a certain portion of the Treaty Port of Shanghai and for the purpose of exercising this control the Council was empowered to levy taxes on a scale to be fixed by the foreign ratepayers and with the revenue so obtained to provide certain public utilities such as electric power.

Since the association for these purposes is voluntary, just as residence within the area so controlled is voluntary, and since there is no common body of law which can be applied to all the members of the association, it follows that the association cannot maintain its existence unless it appeals to the inherent right of self-preservation to enforce the recognition by all participants in its benefits of the obligation to abide by the reasonable regulations under which it is conducted.

In this case the Plaintiffs claim the right to continued enjoyment of the electric power supplied by the Defendants while refusing to recognize their obligation to pay on the scale laid down by the regulations of the Association the taxes necessary to provide its revenue.

This Court derives its powers from Land Regulation 27 and it consequently cannot admit argument tending to show that Land Regulation 9—the regulation under which the amount of the rate is fixed—is other than reasonable.

The claim of the Plaintiffs that the Defendants were not acting within their rights in discontinuing the supply of electric power must therefore fail.

It remains to consider whether such right was exercised by the Defendants in a reasonable manner.

The notice of discontinuance served by the Defendants on the Plaintiffs was limited to the supply of electric power to the printing press, whereas in fact the defendants discontinued, in addition, the supply of power to the plaintiffs' lights and fans.

Now it is obvious that the exercise of the right of self-preservation

must be strictly confined within the minimum limits necessary, and it is easy to conceive of cases in which the discontinuance of public utilities necessary to health and security might entail consequences detrimental to the community. In this case the Court finds that the additional discontinuance of the supply of power to the plaintiffs' lights and fans constituted action in excess of the minimum limits necessary, and that, in respect of such additional discontinuance, the action of the Defendants was not reasonable.

The Court therefore makes the following order:—

(*i*) The Petition of the Plaintiffs for a perpetual injunction restraining the Defendants from discontinuing the supply of electric power to the Plaintiffs is dismissed, and the temporary injunction granted pending the hearing of this case is dissolved.

(*ii*) The sum of Tls. 139.20, being the amount of the General Municipal Rate lawfully due upon the premises, occupied by the Plaintiffs, to be paid to the Defendants out of the monies deposited by the Plaintiffs with the Court.

(*iii*) The balance of the monies deposited by the Plaintiffs with the Court after deducting (a) the sum of Tls. 139.20, and (b) the amount of the Plaintiffs' Court fees, to be paid out to the Plaintiffs.

(*iv*) The sum of One Dollar to be paid by the Defendants to the Plaintiffs as nominal damages in respect of the discontinuance of the supply of electric power to the Plaintiffs lights and fans.

(*v*) Each of the Parties to pay their own costs and one half of the Court fees, fixed in the sum of $50.

Burlington Hotel Licence.

The following further interchange of letters between Messrs. Teesdale, Newman and McDonald and the Council, relative to the Burlington Hotel licence and in continuance of the correspondence published in the "Gazette" of October 21 and November 18 last, is published for general information:—

Shanghai, November 22, 1927.

SIR,—We acknowledge receipt of your letter of the 17th inst., upon which our client's instructions have been taken.

In view of the fact that the Council is not prepared to depart from the original requirements set forth in your letter of March 2, 1927, our client instructs us to inform you that all the minor alterations have now been put in hand, and with regard to the others he has already given instructions for the preparation of plans which he hopes to submit very shortly for the Council's approval, but he requests the Council to give him up to December 15 next within which to commence work on the necessary alterations as his contractor, owing to other work and the necessity of considering the whole situation in detail, is not able to submit plans forthwith.

We are, however, instructed to refer you to requirement No. 2 set out in your letter of March 2, which states that a proper enclosed staircase be built where the fire escape now exists. We are informed that at the time when the members of the Watch Committee visited the scene, an opinion was expressed that the required enclosure appeared to be unnecessary and we shall be obliged if you will refer the matter to the Watch Committee again and let us know whether the Council will agree to permit the existing fire escape to stand as it is.

We are, Sir,
Your obedient servants,
TEESDALE, NEWMAN & MCDONALD.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, November 29, 1927.

GENTLEMEN—I am directed to acknowledge receipt of your letter of November 22 requesting an extension until December 15 of the time allowed to the management of the Burlington Hotel to put in hand the necessary alterations to the premises, as stated in the Council's letter of March 2; and, further, requesting that the present fire escape be allowed to remain as it is, without reconstruction.

In reply thereto, I am directed to inform you that, notwithstanding the long delay on the part of the management in complying with the Council's requirements, it has been decided to grant the extension requested, on the distinct understanding that, unless the work is put in hand before December 15, effective steps will be taken to prevent the building from being used as a hotel after that date.

As regards the existing fire escape, which is considered to be of a very old design and entirely unsuitable for use by any but active people, its removal must be made obligatory. At the time of the inspection of the Hotel, it was thought that the service staircase could be adapted so as to serve as an alternative exit, but, to do this, considerable alterations are requisite, particularly to the ground floor, as at present the staircase leads down to a pantry or servery, which is in direct communication with the kitchen. Subject, however, to all the necessary structural alterations being made, I am directed to state that the management will, if so desired, be permitted to adapt this staircase, as indicated, instead of building an enclosed staircase where the fire escape now stands; but that no deferment of the essential work will on any account be permitted.

I am, Gentlemen,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

MESSRS. TEESDALE, NEWMAN & MCDONALD.

Bars and Cabarets in Eastern District.—The following correspondence between the King's Daughters' Society and the Council, relative to the number of bars and cabarets in the Eastern District, is published for general information:—

Shanghai, November 3, 1927.

SIR,—The King's Daughters' Society has asked me to write to you *re* the increasing number of Bars and Cabarets being opened in the Eastern District.

They would like to add their support to the two letters which have appeared in the Press on this subject, as from their experience they are convinced that these resorts bring increased poverty and destitution and attract undesirable characters to Shanghai.

I am, Sir,
Your obedient servant,
GRACE KALE,
Acting Secretary,
Charity Organization Committee of The King's Daughters' Society.

The CHAIRMAN,
Watch Committee,
Shanghai.

Council Chamber,
Shanghai, November 23, 1927.

MADAM,—I am directed to acknowledge receipt of your letter of November 3, on the subject of bars and cabarets in the Eastern District of the Settlement.

In reply thereto, I am directed to state that the recent press correspondence on this subject would appear to have been inspired by the temporary licensing of the Minerva Cafe, No. 508/10 Broadway East. This cafe had moved from its former location at No. 116/17 Yangtszepoo Road owing to demolition of the premises, and it is understood that it will move back to a location in Yangtszepoo Road upon completion of building operations. Apart from this temporary transfer of a licence already held, the increase in tavern licences in this District during the current year totals two only, *viz:* Nos. 647 and 662 Broadway East; which increase, in view of the number of troops quartered therein, is not considered excessive. Other than this, a dancing licence was granted to the already existing tavern at No. 656/9 Broadway.

In conclusion, I am directed to add that, during the year, the Council has refused no less than ten

applications for licences for taverns and other public establishments.

I am, Madam,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

Mrs. GRACE KALE,
Acting Secretary,
Charity Organization Committee of The King's Daughters' Society.

Advertising Clocks.

For the reasons given in the appended correspondence, an application to erect advertising clocks at busy cross-road sections of the Settlement has been refused by the Council:—

Shanghai, November 2, 1927.

DEAR SIR,—With reference to my recent interview with you on the subject of the installation of Advertising Clocks at the principal cross-roads in Shanghai, I beg to append below full particulars of the scheme of which I would respectfully request the Council's approval.

The scheme in view has many advantages for the general public; not only is it unique and capable of great results from an advertising point of view, but also will be a great benefit in having the correct time continually in the public eye, and what is more advantageous, will greatly assist the Municipal Police authorities in the regulation of traffic, as it is proposed to embrace such traffic signals as are at present in, or may come into, force at the different cross-roads.

To give a general idea of this form of advertising I enclose a rough sketch of the clock with the hour and minute marked thereon, advertising spaces and traffic hint included.

As already explained, the clock is divided into four separate squares, the left hand lower square represents the hour of the day and the right hand lower one the minutes. The two top squares are to be utilised for advertising purposes, together with the side borders. The whole apparatus works on a revolving system, a new or different flap drops down at every change of hour and minute. The size of the clock is approximately three feet in width, two feet high and one foot six inches in depth—the inside measurements of the separated squares measuring approximately 12 inches by 9 inches. The outside border is about 6 inches in width, the top and lower borders being primarily used for traffic signals wherever necessary. These spaces will be offered gratis to the police Authorities, but where not required the spaces will be utilized for commercial advertisements. All clocks will be illuminated at night by electric lights placed at each corner, and they will also be synchronized.

Application will be made to the different Companies concerned for permission to erect the clocks on existing telephone, telegraph or electric light standards situated in the most prominent positions at the various cross-roads. The clocks will be erected at such a distance from the ground as will not interfere with traffic, but at the same time easily readable at a distance.

It is proposed, as an experiment, to erect clocks at the junctions of The Bund and Nanking Road, and Nanking Road and Szechuen Road, but before so doing a private demonstration will be given, if this is considered necessary.

If the movement is successful, similar clocks will be erected from time to time at the undermentioned cross-roads, and I would request the Council's permission for their erection at these points:—

The Bund and Nanking Road.
Nanking and Szechuen Road.
Nanking and Chekiang Road.
Nanking and Thibet Road.
Outside Shanghai Race Club's Main Entrance.
Bubbling Well Road and Avenue Haig.
The Bund and Avenue Edward VII.
Avenue Edward VII and Thibet Road.
Broadway and Whangpoo Road.
N. Szechuen and N. Soochow Roads.
N. Szechuen and Range Road.

and such other points as may be considered desirable.

At the present time I am not in a position to say when they are likely to be erected, but it is hoped that this will be done in the early part of next year.

I trust I have presented the scheme as plainly as possible, but if the Council require to be enlightened on any points which I have failed to bring out I shall be only too glad to answer any questions they may ask.

I am, dear Sir,
Your obedient servant,
T. A. COOPER.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, November 23, 1927.

SIR,—I am directed to acknowledge receipt of your letter of November 2, requesting permission to install advertising clocks in the Settlement streets, utilizing for this purpose the poles and standards of the several Public Utility Companies.

In reply thereto, I am directed to state that, as it is considered that the inclusion of "traffic warnings" intermingled with advertising matter would not assist traffic control in crowded districts, the Council is unwilling to sanction the installation of advertising clocks as traffic direction signs; moreover, since these clocks as an advertising medium would hinder traffic by causing Chinese pedestrians to loiter, the Council is unwilling to accord its permission for the use of the poles and standards of the Public Utility Companies for this purpose.

I am, Sir,
Your obedient servant,
J. M. McKEE,
Deputy Secretary.

T. A. COOPER, Esq.

3 ,,	33⅓
4 ,,	40
5 ,, or more	45

Deductions hold good in respect of children of the same family attending any of the Council's schools for foreign children.

Children of non-resident parents, unless already in attendance at the schools, will not be admitted. Non-residence implies residence in Shanghai of less than six months. Special consideration will, however, be given to applications of new comers who can furnish proof of their intention to reside in Shanghai.

Forms of admission for new pupils may be obtained on written application to the Heads of the respective schools and should be presented by the new pupils when attending at the Schools for examination and classification on Wednesday, January 4, between the hours of 9.30 a.m. and 11.30 a.m.

Heads of Schools will be pleased to interview parents on Wednesdays between the hours of 2 and 3 p.m. on matters affecting the welfare of their children.

The Cinema at the Public School for Boys will be in operation during the Spring and Summer Terms and the Headmaster takes this opportunity of inviting parents to see for themselves the value of the Cinema as an aid to education.

Payment of Dues.

Attention is directed to the ruling of the Council that all school fees are payable in advance. Parents are accordingly requested to pay their children's fees for the month of January, and each succeeding month, on the days noted below, when the division of each school for purposes of fees collection will be as follows:—

Public School for Boys:—

1st School day in the month 8.30 a.m. Forms VI, V, IV.

2nd School day in the month 8.30 a.m. Forms III, II.

3rd School day in the month 8.30 a.m. Forms I, Preparatory and new pupils

Western Junior School for Boys:—

4th School day in the month 9 a.m.

Public School for Girls, Yuyuen Road:—

1st School day in each month 9 a.m. Kindergarten and Transition

2nd School day in each month 9 a.m. Forms I and II.

3rd School day in each month 9 a.m. Forms III, IV.

2nd School day in each month 9 a.m. Forms I, II, and new pupils

Thomas Hanbury School for Boys:—

1st School day in the month 1.30 p.m., Forms VI, V.

2nd School day in the month 1.30 p.m , Forms IV, III.

3rd School day in the month 9 a.m. Forms II, I, and new pupils.

Thomas Hanbury School for Girls:—

1st School day in the month 1.30 p.m., Forms VI and V.

2nd School day in the month 1.30 p m., Forms IV and III.

3rd School day in the month 1.30 p.m., Forms II and I.

4th School day in the month 9 a.m., Kindergarten, Transition, and new pupils.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(*a*) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(*b*) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(*c*) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

SIR,—I have the honour to acknowledge receipt of your letter of November 25, in which you convey to the Municipal Provisional Commission the condolence of the Shanghai Municipal Council for the cruel loss it has sustained in the death of its Secretary, Mr. P. Legendre.

The Municipal Commission highly appreciates the sentiments expressed by you on this unhappy event. The death of Mr. Legendre will be felt all the more inasmuch as, during the eight years of his Secretaryship, he has contributed in no small measure to the cordial relations existing between the Administrations of the two Settlements.

I am directed to request you to be so kind as to express to the members of the Shanghai Municipal Council the deep gratitude of the Municipal Commission for their participation in the funeral obsequies.

I am, etc.,

Chinese Appreciation of work of Police Force.—The following letter of appreciation of the work done by the Police Force in the matter of the suppression of armed robbers signed by a number of prominent members of the Chinese community has been sent to the Chairman of Council and is published for general information. The names of the signatories are omitted so that the unwelcome attentions of kidnappers may not be focussed upon them:—

Shanghai, November 29, 1927.

DEAR SIR,—We the undersigned wish to express our fullest appreciation of the heroic and effective work of the Shanghai Municipal Police officers and constables in connection with the suppression of crime and the arrest of some and the killing of other armed criminals who have resisted arrest.

In this connection we express deep regret that a number of the Police Force have been not only severely wounded but in instances have met death at the hands of desperate criminals. Our sympathy goes out to them and their families and to their comrades in the service.

This letter serves to place on record our sympathy and we should be pleased if you, in addition to taking cognizance of this, will inform us as to whether or not there is any means by which we can express our appreciation in a more substantial way.

In sincere appreciation,

Private Fire Hydrants.

The following correspondence between the China Motors, Inc., and the Council, relative to the annual charge for the use of private fire hydrants, is published for general information:—

Shanghai, November 7, 1927.

DEAR SIR,—We have received a letter from the Shanghai Waterworks Co., stating that the Municipal Council have approved an annual charge of $5 for each private fire hydrant in our premises. We have four of these hydrants at our Star Garage which are our own property and were installed by ourselves, and we see no reason why we should be called upon to pay $20 a year to the Waterworks Co., for them. During the ten years they have been here we have never used them once. We shall be obliged if you will inform us upon what grounds the Council has decided that this tribute should be paid to the Waterworks Co.

Yours faithfully,
CHINA MOTORS,
LEON FRIEDMAN,
General Manager.

Shanghai, November 26, 1927.

SIR,—I am directed to acknowledge receipt of your letter of November 7, on the subject of the Waterworks Company's charges for private fire hydrants installed in your premises.

In reply, I am directed to inform you that the Council considers that these charges are equitable, representing as they do payment for the amenity of an immediately available supply of water, furnished through the medium of charged hydrants, for the purposes of fire extinction; special protection thereby being afforded which is not enjoyed by premises lacking such hydrants.

I have to add that no charge would be made by the Waterworks Company for the water used from the hydrants in the extinction of any fire occurring within your premises, or for testing the hydrants.

I am, Sir,
Your obedient servant,
S. M. EDWARDS,
Secretary.

Excerpts from Minutes.

At the meeting of the Foreign Education Committee held on Thursday, November 17, 1927, at 4.30 p.m., there are present: Mr. J. S. S. Cooper, *Chairman*, Mrs. A. D. Bowman, Mr. V. G. Lyman, and Mrs. F. M. Neild.

The Minutes of the last meeting are confirmed and signed.

At the meeting of the Public Utilities Committee held on Friday, November 18, 1927, at 4.30 p.m., there are present: Messrs. A. D. Bell, *Chairman*, W. R. B. McBain and H. B. Roe.

The Minutes of the last meeting are confirmed and signed.

At the meeting of the Works Committee held on Thursday, November 24, 1927, at 4.30 p.m., there are present: Messrs. A. D. Bell, *Chairman*, W. R. B. McBain and T. H. R. Shaw.

The Minutes of the last meeting are confirmed and signed.

At the meeting of the Watch Committee held on Wednesday, November 23, 1927, at 4.30 p.m., there are present:—Messrs. S. Fessenden, *Chairman of Council*, V. G. Lyman, *Chairman*, and K. Fukushima.

The Minutes of the last meeting are confirmed and signed.

Pay of Indian Watchmen.—The Commissioner of Police reports that a petition has been received from the Indian Watchmen for an increase of pay in view of the increased cost of living. The employers of Indian Watchmen under Police supervision have been circularised and approximately 90% are in favour of their pay being increased. He, therefore, recommends that the pay of those for whom quarters are provided be increased from $23 to $28 per mensem and that the pay of those for whom no quarters are provided be increased from $26 to $33 per mensem. In endorsing this recommendation, the Treasurer and Comptroller reports that there are 25 Indian Watchmen employed in the various departments of the Council and that adoption of the increase proposed would involve additional expenditure of $1,900 per annum.

After brief discussion members record the view that the ground upon which the petition is based merits favourable consideration and it is accordingly recommended that the increase proposed by the Commissioner of Police be given effect as from December 1 next.

At the meeting of the Traffic Committee held on Friday, November 25, 1927, at 4.30 p.m., there are present:

Messrs. J. S. S. Cooper, *Chairman*, A. J. Hughes, W. R. B. McBain and G. Okada.

The Minutes of the last meeting are confirmed and signed.

Traffic Control.—Arising out of recent criticism in the correspondence columns of the local press on the working of the lamp signals installed in open thoroughfares, the Chairman states that he regards the views contained therein as overstated; at the same time, he is of opinion that the Police in charge of these signals concentrate on the control of the motor traffic to the exclusion of other vehicles. In this connection, he has observed that, whereas motor traffic invariably obeys these traffic signals, other forms of traffic, particularly rickshas and bicycles, show a complete disregard of these signals. In Nanking Road, it is noticeable that all vehicles conform to the traffic signals owing to the increased vigilance exercised by the Police on that thoroughfare; and since, on this road, it has been proved that all vehicles can be compelled to obey the traffic signals, he sees no reason why in due course this same condition could not be obtained in respect of other road crossings. He realises that to effect this a considerable number of police, in addition to the pointsmen on duty, would be required, and he suggests that in the first place the police might concentrate on a few crossings in the Central District other than those situated in Nanking Road.

The Assistant Commissioner of Police explains that a squad of 13 men is available for this purpose and that during the past month they have been employed at various crossings in other parts of the Central District where traffic is heavy. During that time action has been taken against several hundred bicycles and rickshas for contravention of the Traffic Regulations. There has not, however, sufficient men available at the present time to extend these activities to the outlying roads. An order has been issued to all branches of the Force on patrol duty instructing them to assist the pointsmen on duty (who of necessity are unable to leave their posts) when obvious breaches of traffic regulations are observed. Members express the hope that, with the measures now adopted and the possibility later of additional personnel becoming available to ensure a more strict observance of traffic signals, the conditions complained of in the letters to the Press will be remedied.

Upon enquiry being made as to whether, in the opinion of the Police Department, the present system of synchronised signalling adopted in Nanking Road has proved satisfactory, the Assistant Commissioner of Police states that, in his view, with the abolition of certain stops in this road and the introduction of the no-right-hand-turn system, the East to West traffic is speeded up. On the other hand, the system has proved wasteful as regards North to South traffic. Owing to the narrow stretches in the lower end of Nanking Road, which preclude fast motor traffic from passing slower moving vehicles, this road cannot be regarded as an ideal thoroughfare for the effective operation of this system. Since, however, the synchronised signalling system is still in its experimental stages, continuance thereof is necessary in order to enable the Police to advise as to its merits or otherwise.

Motor Cars.—Left Hand Drive.—To conform with the Council's decision the Commissioner of Police has submitted a draft licence condition requiring the provision of a rear stop light or a mechanical arm on all cars fitted with a left hand drive. He points out, however, that he does not consider the installation of these safeguards, involving extra cost to vehicle owners, is warranted. In his view, if vehicles fitted with left-hand drives are provided with this stop light, it will be equally necessary for vehicles fitted with right-hand drives to be so provided in order that the driver of a vehicle with a left-hand drive can see what the car in front of him is about to do. The Chairman is of the opinion that, as all vehicles are required to keep to the left of the road, motor vehicles fitted with left-hand drives should be discouraged by requiring that all such vehicles be equipped with a rear stop light for the benefit of following vehicles. The Assistant Commissioner of Police points out that a large proportion of motor vehicles operating in Shanghai, mainly of American manufacture, are fitted with left-hand drives, and he doubts whether the Council could justify its action in penalising the owners of such vehicles as proposed. Before recording a definite recommendation, the Assistant Commissioner of Police is requested to furnish a list showing the various makes of motor cars licensed by the Council, and also, if possible, to ascertain what number of cars licensed are fitted with the left-hand drive.

Honghew Market. — Parking Facilities.—In a memorandum submitted, Mr. Hughes draws attention to the difficulty encountered by early morning shoppers at this market who desire to park their cars in the neighbourhood. In comment thereon, the Commissioner of Police reports that there is ample accommodation for the parking of motor cars in Miller Road, section Boone Road to Hanbury Road, sufficient space being available for the parking of over 40 cars. White lines have been painted on the road surface to regulate the spacing of these vehicles and notice boards will be erected indicating the motor vehicle stand. Owing to the amount of through traffic using Boone Road, members endorse the Police view that the prohibition against motor vehicles parking in this road should be continued, and it is considered that the above arrangements for the parking of motor cars in Miller Road will ameliorate the conditions referred to by Mr. Hughes.

Advertising on Omnibuses.—An application from the China General Omnibus Co., Ld., that the Council should reconsider its decision regarding outside advertisements on motor buses is considered. In reply to a memorandum from the Secretary, the Commissioner of Police states that, on further consideration, he is prepared to withdraw the objections previously raised by the Police Department against advertisements on licensed vehicles, provided the posters take the form of genuine advertisements, as to which the Police Department should exercise its discretion. After discussion (in which Mr. McBain, being a Director of the Company, takes no part) members recommend that, since the Police Department have withdrawn their objections to this form of advertising, the application of the Company, that it be allowed to exhibit advertisements on its vehicles be approved, provided that the posters displayed are approved by the Police Department.

Special consideration will, however, be given to applications of new comers who can furnish proof of their intention to reside in Shanghai.

Forms of admission for new pupils may be obtained on written application to the Heads of the respective schools and should be presented by the new pupils when attending at the Schools for examination and classification on Wednesday, January 4, between the hours of 9.30 a.m. and 11.30 a.m.

Attention is directed to the ruling of the Council that all school fees are payable in advance. Parents are accordingly requested to pay their children's fees for the month of January, and each succeeding month, on the days noted below, when the division of each school for purposes of fees collection will be as follows:—

1st School day in the month 8.30 a.m. Forms VI, V, IV.

3rd School day in the month 1.30 p.m., Forms II and I.

4th School day in the month 9 a.m., Kindergarten, Transition, and new pupils.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(*a*) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(*b*) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(*c*) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

Secretary.

Armed Robbers.

Chinese Appreciation of Work of Police.—Another letter of appreciation, from Chinese sources, of the work done by the Police Force in the matter of the suppression of armed robbers has been received by the Chairman of Council as follows:—

Shanghai, December 5, 1927.

SIR,—On behalf of the members of this Association, I desire to express the appreciation of the heroism and efficiency displayed by the members of the Shanghai Municipal Police Force in the recent encounters with armed robbers. I would refer more particularly to the conspicuous gallantry shown by the late P. C. Thomas Robert Francis and P.C. Alfred Reed in the course of their pursuit of certain kidnappers who were attempting to perpetrate a crime of kidnapping in Kuling Road on the 26th day of last month. I am sure that the whole community is unanimous in the expression of profound regret at the

injuries received by these two constables and, in consequence of these injuries, Constable Francis died almost instantly. I hope that the courage thus shown by the members of the Police Force would have exercised a discouraging effect upon the undesirables in the Settlement as well as in its vicinity and that the example set by them in attaching more value and importance to the performance of duty than to their very lives may well be emulated by all others whose duty it is to preserve law and order amongst us.

I shall be obliged if you will transmit the contents of this letter to the Commissioner of Police Force requesting him to convey the appreciative thanks of the members of this Association to the members of the Police Force for the brave and efficient manner in which they have carried out their duties, upon which rest, in a large measure, the prosperity and welfare of the Settlement.

I have the honour to be,
etc.
S. FESSENDEN, Esq.,
Chairman,
Municipal Council.

Easements.

Canopy.—Subject to the usual conditions, a permit has been issued to Mr. Zee Mang Yuen to construct a canopy over the Municipal footpath fronting his premises, 184 Hoopeh Road, Cadastral Lot 530, Central District.

Lay, Pingliang, Tsitsihar and Yulin Roads.—Negotiations have been concluded with Messrs. Palmer & Turner for the surrender of an area of Mow 7.186 required from Cadastral Lot 5371 for the scheduled widening of Lay, Pingliang and Tsitsihar Roads and the extension of Yulin Road. Of this area, Mow 3.282 is subject to compulsory free surrender, and for the remaining area, measuring Mow 3.904, the Council has agreed to release the surplus land ex Cadastral Lot 5363 and Cadastral Lot 5375, measuring Mow 0.026 and Mow 0.045, respectively, and to pay Tls. 20,000 as equity of exchange.

Muirhead and Point Roads.—Negotiations have been concluded with the Chinese owner for the surrender of the areas required from his property, situate East of Cadastral Lot 915, for the scheduled extension of Muirhead Road and the widening of Point Road, at the rate of Tls. 4,000 per mow, plus 10 per cent. for compulsory surrender, or a sum of Tls. 2,037, for the total area of Mow 0.463 involved.

Excerpts from Minutes.

At the meeting of the Council held on Wednesday, November 30, 1927, at 4.30 p.m. there are present: Messrs. S. Fessenden, *Chairman*, A. D. Bell, *Vice-Chairman*, K. Fukushima, T. Funatsu, V. G. Lyman, W.R.B. McBain, H. B. Roe and T.H.R. Shaw.

Billings, Headmaster of the Public School for Boys, the Council desires to place on record an expression of its appreciation of the loyal and devoted service which for close upon a quarter of a century he has rendered to the community of Shanghai. His high character and personal qualities have imparted a lasting impression upon the students of the Public School and the fine spirit prevailing in the School is a permanent record of the excellent work and example of Mr. Billings. In bidding him farewell, the Council extends to him its most cordial wishes for his future health and happiness.

Municipal Coat of Arms.—A memorandum by the Commissioner-General in which, for the reasons advanced, he suggests that the Council should consider authorising a new design for the Municipal Coat of Arms, or Seal, is considered. Members are unanimous in the view that it would be impracticable to include therein the flags of all the nations having consular representation in Shanghai and whilst appreciating the traditional value of the present design they consider in view of the changes which have occurred since this was adopted that a new design is called for. It is recalled that the present Coat of Arms was designed by a local resident and it is accordingly decided, in the first instance, to put this out for public competition locally, upon the understanding that the Council does not bind itself to adopt any design submitted.

Membership.—In connection with the vacancy caused by the resignation of Brigadier General Macnaghten, the Secretary is directed to enquire of Mr. J. J. Paterson as to the date of his return to Shanghai and whether he is willing to again serve on the Council.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(*a*) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(*b*) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(*c*) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

Traffic Regulations.

Correspondence between the Automobile Club of China and the Council, relative to a standard of fines in the various Consular Traffic Courts and the Provisional Court for breaches of traffic regulations, is published for general information:—

Shanghai, November 21, 1927.

DEAR SIR,—At a Meeting of the Committee of the Automobile Club of China, held on the 17th instant, we were directed to submit to the Council the following suggestions:—

1. Perusal of the reports of Cases which are tried in the various Consular Traffic Courts and the Provisional Court indicates the necessity for the introduction of local legislation providing a standard of fines for breaches of traffic regulations. At present, fines vary considerably, and some offenders are treated too lightly whilst others appear to be dealt with too harshly; and it is entirely wrong that there should be any disparity in penalties for any particular offence.

2. Frequently complaints regarding the breaches of traffic regulations are recorded by persons who are unable for business or other reasons to attend Court for the purpose of assisting in the prosecution of offenders. This difficulty is in many instances unavoidable, but in the case of persons guilty of persistent breaches, our Committee suggest that at such time as a prosecution is made possible all complaints previously registered against a person should be brought up as evidence.

We are, dear Sir,
Yours faithfully,
BECK & SWANN,
Secretaries,
The Automobile Club of China.

S. M. EDWARDS, Esq.,
Secretary,
Municipal Council.

Council Chamber,
Shanghai, December 12, 1927.

GENTLEMEN,—I am directed to acknowledge receipt of your letter of November 21, communicating two suggestions relative to breaches of the Traffic Regulations.

In reply thereto, and with reference to your first suggestion, I am directed to state that, whilst the Council concurs as to the desirability of a system of standard fines for breaches of the Traffic Regulations, to apply to all nationals alike, the introduction of such a system is not within the Council's competency; moreover, it is considered impolitic at the present time to recommend such a course to the respective National Courts, having regard to the question of national status involved.

With respect to your second suggestion, I have to inform you that it is not permissible in most Courts to submit evidence of previous complaints, in the case of a charge for breach of the Traffic Regulations. The record of previous convictions, however, is always laid before the Court after proof of guilt, and this usually affects the severity of the fine or sentence.

I am, Gentlemen,
Your obedient servant,
J. M. MCKEE,
Deputy Secretary.

Messrs. BECK & SWANN,
Secretaries,
The Automobile Club of China.

Serious Crime.—This includes the murder of a foreign lady who was found in her home in the Bubbling Well District on November 2 suffering from stab wounds on various parts of the body and who died in hospital on November 6; the murder of a Chinese teacher who was shot dead in the Wayside district on November 4; the murder of an unemployed brass-smith who was stabbed in the Louza district on November 6; the murder of a Sikh Police Naik who was shot dead in the Harbin Road district on November 16 by armed Chinese; the murder of a Chinese shop assistant who was attacked with iron bars in the Louza district on November 18 and succumbed several hours later; the murder of a Chinese who was shot at his home in the West Hongkew district on November 18; the murder of a Chinese shop master who was shot dead in the Wayside district on November 18; the murder of a Chinese Constable who was shot in the West Hongkew district on November 21 by escaping armed robbers whom he attempted to arrest; the murder of two informers who were shot in the Wayside district on November 22 by an armed gang; the murder of a foreign Constable and the wounding of another on November 26 and the murder of a Special Constable who died on December 1 as a result of a wound received when he attempted to arrest an armed Chinese in the Hongkew district on the previous night.

In connection with the above reports twelve persons were arrested. Four died of wounds received at the time of their arrest, one was sentenced to imprisonment, the charge against three was withdrawn and four are under remand.

Two men were arrested on November 5 for being concerned in the murder of an amah who was shot in the West Hongkew district on October 12. One was sentenced to death and the other to 18 years' imprisonment. Eight men on remand at the end of October charged with four murders during the present year were dealt with. One was sentenced to death, six were sentenced to imprisonment and one was acquitted.

The week ending November 26 was a record one in respect of the number of encounters between the Police and armed criminals. On the morning of November 21 a Chinese Constable was shot dead in the West Hongkew district by armed robbers whom he attempted to arrest following an armed robbery from a dwelling house. The following morning the same gang entered another house in the West Hongkew district, but fortunately an amah was able to escape and inform the Police Station. The call was responded to by foreign members of the Force who at great personal risk attacked the robbers, one officer shooting three robbers dead while another officer accounted for the remaining one. The robbers were found to be in possession of two loaded pistols and two imitation pistols. On the night of November 21 a telephone message was received at the Sinza Police Station reporting that an armed robbery was in progress at a house in Taku Road. Two foreign officers and a Chinese Constable reached the scene in a short time and found that two of the robbers were still on the premises. The two miscreants were shot dead and found to be in possession of loaded firearms. Shortly after noon on November 26 an attempt was made to abduct a Chinese outside his house on Burkill Road by four men, three of whom were armed. An alarm was raised by a chauffeur blowing a whistle and the abductors dispersed. One, who was in possession of a loaded pistol, was shot and fatally wounded by a Chinese Constable. One of the other abductors was fired at by the police and finally traced by blood stains to some empty houses at the corner of Kuling and Peiho Roads. Whilst searching these premises a foreign Constable was shot dead by the hunted man who was hiding on an old motor lorry. Another foreign Constable was also wounded but pluckily returned the fire and was successful in killing his assailant whose pistol with the magazine empty was found beside him. In addition to the above happenings another robber was shot and wounded on November 23 following an attempted armed robbery at a house in the Hongkew district. When arrested he was in possession of a loaded pistol. He died on November 26.

Armed Abduction.—Three Chinese were abducted by armed gangs from the Settlement during the month, whilst an attempt was made to abduct another. In two cases the persons abducted regained their freedom as a result of police action, whilst in the remaining instance the victim escaped when the car in which he was being carried off was chased and collided with a tree. Arrests were made in each case and totalled 22 persons, five of whom were in possession of firearms. Two of the accused died from wounds received in a duel with the Police.

Sixteen persons on remand at the end of October charged with two cases of armed abduction and one of intent to commit a felony (abduction) were dealt with. Twelve were sentenced to imprisonment and four were acquitted. Two persons were arrested for the armed abduction of a Chinese merchant in territory under Chinese jurisdiction and handed over to the authorities concerned. Five persons, one of whom was in possession of loaded firearms, were arrested and handed over to the French Police on a charge of armed abduction in the French Concession on June 24 last.

Robbery.—119 reports of armed robbery from premises and 18 on the highway were received during the month. 10 cases of attempted armed robbery were also recorded. Shots were fired by the robbers in eighteen instances, resulting in the death of a Chinese Constable and the wounding of four Chinese civilians. Eight robbers died from wounds received at the time of their arrest.

In connection with the foregoing and reports of armed robberies occurring prior to November 1, 36 persons, 11 of whom were in possession of firearms, were arrested. Eight died of wounds received at the time of their arrest, one was sentenced to death, nine were sentenced to imprisonment, five were acquitted and thirteen are on remand.

Of 168 persons on remand at the end of October charged with armed robbery, 85 were dealt with. One was sentenced to death, 65 were sentenced to imprisonment, 3 were bound over, the charge against one was withdrawn, 15 were acquitted and the remainder are under remand. Thirteen persons on remand charged with being members of armed gangs were further charged with armed robbery. Five were sentenced to imprisonment and the remainder are under remand. Three men charged with being in possession of firearms for an unlawful purpose were further charged with armed robbery. They were sentenced to imprisonment. In connection with armed holdups in the French Concession, 13 persons were apprehended and handed over to the French Police. One man arrested for armed robbery in Chinese territory was handed over to the authorities concerned.

Reports of robberies in which no arms were used totalled 11. Five persons arrested in connection with these holdups were sentenced to imprisonment. Three persons on remand at the end of October charged with this class of offence were sentenced to imprisonment.

Trafficking in Firearms, etc.—Six Chinese were arrested for being in possession of firearms for an unlawful purpose. Three were sentenced to imprisonment, one was fined, one was acquitted and one is on remand. Seven persons on remand at the end of October on this charge were dealt with. Six were sentenced to imprisonment and one was acquitted.

Property Stolen.—555 reports made under this heading during the month represent an estimated loss of $207,962 and include 43 cases of burglary, 9 of house-breaking, 16 of godown-breaking and 26 of shop and office-breaking. Successful investigation was made in 97 cases resulting in the recovery of property valued at $35,378, in addition to which recoveries to the extent of $9,144 were made in connection with reports received prior to November 1. Successful results were also obtained in nine cases reported as having occurred out of limits and in five cases where the property was reported as lost.

Finger Print Bureau.—During the month the Finger Print Bureau

received for identification from all sources 1,356 sets of finger prints, of which 908 were those of Chinese prisoners. Of the latter, 310 were found to have police records. Ninety-five convicts, who had been released under the mark system of remission of sentence, were re-arrested, and each of these men has now to complete the remitted portion of his last sentence in addition to the imprisonment imposed upon him for the offence for which he was re-arrested.

Investigations made into seven cases of burglary, housebreaking, etc. with the object of securing finger prints of the persons responsible were without success. Reports of shopbreaking by smashing the plate glass window in order to steal goods on display still continue to be received, but up to the present no finger impressions have been secured which can definitely be considered as those of the thieves. Finger-printing unidentified bodies has during the month led to results never before equalled. Of 24 unknown dead Chinese so dealt with, no less than seven were identified in the files of the Finger Print Bureau. These identifications are enumerated below.

On October 31 a Chinese was knocked down and killed by a motor car. Upon the dead body being finger-printed identity was established and it was found that he had served a sentence of three weeks in 1921.

On November 4 a Chinese was shot dead on Tongshan Road, the suspected cause being rivalry between different political factions. This was confirmed when the body was finger-printed, it being established that deceased had been charged in August 1926 for distributing communist pamphlets.

On November 6 a Chinese was found stabbed to death in an alleyway in the Louza district. The deceased was identified as having been through the hands of the police on three occasions, he being last released from Gaol in September this year.

On November 18 a Chinese Constable was patrolling in the Louza District when he came into contact with three suspects. He gave chase to one and in a struggle which ensued the man endeavoured to take away the Constable's pistol as a result of which a bullet was fired and killed the suspect. It was afterwards found that these three men had broken into a godown on Ningpo Road. Finger-printing the deceased established the fact that he was an old offender with eight previous convictions registered against him.

The last two identifications during the month were of the two armed kidnappers shot by the police of Sinza district in an affray in which Constable Francis lost his life. One had in 1925 been charged before the former Mixed Court with being a member of an organized gang of armed robbers and kidnappers, the decision being that he be handed over to the Chinese Authorities for investigation and if not dealt with by them to be handed back to the Mixed Court. He was duly handed over to the Chinese Authorities and tried before the District Court in November 1925, since when nothing further was heard of him by the Municipal Police until the tragic affair of November 26. At the time of his arrest in 1925 he was a member of a gang of fourteen armed robbers and kidnappers all of whom were taken into custody. The other dead kidnapper had been charged in the French Mixed Court with being an undesirable and ordered to be expelled in September 1924. He was one of a gang of sixteen Shaoshing bandits arrested by the French Police.

The four armed robbers shot dead by the West Hongkew police, the two shot dead by the Sinza police and the one shot dead by the Hongkew police were finger-printed but found to have no records of previous convictions.

Crime beyond Settlement Limits.—According to the Chinese press, 22 cases of armed robbery and piracy, 3 of murder and one of armed abduction were reported during the month as having occurred in territory under Chinese jurisdiction. One soldier was executed for the theft of army funds whilst four robbers were similarly dealt with for crimes committed outside Settlement limits.

Attack on Soviet Consulate.—The tenth anniversary of the inauguration of the U.S.S.R., which fell on November 7, was observed in the Settlement by both the "white" and "red" members of the Russian community. The "white" colony commemorated the day by wearing black arm bands, displaying flags of the old regime at their homes and attending special religious services in their churches, whilst Russians belonging to the "red" brand of politics celebrated the occasion by closing their business establishments and making arrangements for receptions in the Soviet Consulate. The premises of the latter were decorated and illuminated with imitation stars, flags and bunting, all in red, and electric lights. Apart from a few isolated instances of rowdyism in the vicinity of the Consulate, the morning and afternoon of the day passed quietly. The prospects that the evening would end in the same way seemed good at 7.20 p.m. when apart from the presence of a group of people who had congregated at the corner of Astor and Whangpoo Roads, nothing unusual was happening. A change, however, took place at about 7.35 p.m. when further groups arrived on the scene and joined forces with those already there. The crowd formed in this way, although composed seemingly of persons who had come to the scene with peaceful intentions, suddenly moved towards the Soviet Consulate and tried to force their way into the building. They were resisted by the inmates by the use of firearms which resulted in the wounding of seven of the crowd, four seriously and three slightly. One man succumbed to his injuries in the General Hospital a few days later. Shortly after the attack, police on duty in the vicinity, with the assistance of reinforcements from Hongkew Station, brought the crowd under control. On November 8, large crowds again collected in the vicinity of the Consulate, apparently with the intention of renewing the attack. Their designs, however, were frustrated by the police. Twelve Russians arrested on suspicion on that date and detained for some days were released. From this date up to the end of the month special precautions in the vicinity of the Consulate were continued without incident.

Strikes.—Labour disputes continued to affect industrial establishments in Shanghai. During the month there were 23 strikes as compared with 9 for the same period of 1926. These strikes affected a total of 33,294 workers and resulted in a loss of 570,193 working hours, against 5,068 employes affected and 27,115 working days lost during the corresponding period of 1926. The districts mostly affected were Pootung and Yangtszepoo. Means used to further the strikes included bribery, propaganda, intimidation and violence. Bribery took the form of doles distributed among the parties on strike. Propaganda, disseminated through the medium of leaflets, consisted of appeals to workers to down tools in order to secure an improvement in the living conditions of the people of their class, to frustrate imperialist designs and prepare the way for a proletarian dictatorship. Intimidation included the discharging of firearms into factories which were operating with the aid of non-union labour and the waylaying and threatening of workers while *en route* to or from their employment. Violence included the assassination of one loyal worker, the wounding of a number of others and the illegal arrest and detention of a still larger number in labour unions and elsewhere. These lawless activities continued throughout the month in territory under Chinese jurisdiction on the borders of Yangtszepoo district and in Pootung. Special measures were taken by the Municipal Police to prevent the extension of the campaign to the Settlement and included the closing of an agitation base at No. 338 Yulin Road.

Communism.—Changes in the political and military situation of the Nationalist Party, involving the withdrawal of large numbers of troops from the Shanghai area, seem to have revived the Chinese Communist Party in Kiangsu and its outward manifestations during the month including uprisings in Jahing, Wusieh and Haimeng, and acts of violence and other measures taken by the local subversive elements for the purpose of making strikes effective. There appears to be no doubt that the policy of the Chinese Communist Party by organizing strikes, riots and sabotage in Shanghai and Kiangsu aims at creating anarchy. To prevent the execution of this policy would under the most favourable conditions be a stupendous task for the Police, but the difficulty is increased enormously by

reason of the fact that the dangerous activities are in some cases countenanced and in others actively supported by persons with considerable political influence.

From a criminal point of view the month of November has been the most serious in police records. Labour troubles, strikes, intimidation, murder, armed robbery and armed kidnapping have increased to an alarming degree, and if this state of affairs is allowed to continue it will not be long before the impression is created that a state of anarchy exists in Shanghai with which the police are unable to cope. An increase of crime is usually to be expected at the approach of Chinese New Year, but that does not in any way account for the present state of affairs which is due to a number of reasons among which may be mentioned the fact that the Chinese Authorities are either unwilling or unable to deal with unauthorized labour unions, intimidators, and agitators who have their bases in territory outside the Settlement. The work of the Police Force in disposing of a number of criminals in armed encounters cannot fail to have its effect, and the unstinted praise of various sections of the community which has been bestowed on the Police Force for the bravery and determination displayed in these encounters will do much to assist every member of the Force in his determination to deal with the criminal elements which now exist in Shanghai.

Traffic.—Court proceedings were instituted in 407 (47 foreigners and 360 Chinese) of 1,295 reports of traffic offences received during the month against the owners and/or drivers of vehicles. The remainder were dealt with by letter of warning or entry of caution on their records.

The following is a summary of work performed by the Police during November in connection with the issue of motor vehicle driving licences.

Bicycles were involved in 79 accidents during the month and in 17 cases the cyclists were known to have been at fault.

During the month the professional story-teller visited various districts and gave 78 addresses in teashops, etc., on "Safety First" themes. His audiences totalled some 2,600 persons.

On November 5 the tramway island serving westbound passengers at Bubbling Well-Mohawk Roads was moved from its position east of Mohawk Road to a point just west of this road. This change was considered necessary owing to the obstruction caused by the island to north and south bound traffic and also for the reason that stationary tramcars obscured the signal lights from the view of the pointsman controlling traffic at Bubbling Well-Myburgh Roads junction. This alteration further necessitated changing the west bound bus stop from its position west of Mohawk Road to a point near the Race Club west entrance on Bubbling Well Road.

Temporary traffic guides have now been placed in position on Szechuen, Kiangse and Honan Roads up to the point of their junction with Nanking Road. This has been particularly helpful in keeping traffic on its proper side of these roads and has prevented obstruction to other traffic turning north or south from Nanking Road.

Identification Office.—During the month 910 prisoners' records passed through this office for identification prior to the prisoners going to Court for trial, out of which number 330 were identified as having a previous conviction or convictions. In addition to the above 278 records were received from the French Police out of which number 88 were identified in the records of this office, making the total for the month :—

E. FAUNAZ,
Acting Secretary,
French Municipal Provisional Commission.
Shanghai, December 10, 1927.

Public Health Report for November.

The health of the community was satisfactory, the death rates among Foreigners and Chinese being well below normal.

The campaign of vaccination against Smallpox was carried on vigorously at the Branch Health Offices, altogether 4,082 vaccinations being done, of which 90 per cent. were among infants and children. All persons who have not been recently protected against Smallpox by efficient vaccination are urged to be vaccinated now without delay.

Not only is this of vital importance for residents and recent arrivals, but also for transient visitors who not infrequently become infected as they go shopping and sightseeing round the Foreign and Chinese cities of Shanghai.

In order to maintain a high state of immunity, vaccination should be repeated in China at least every three years.

As usually happens at this time of the year, colds and catarrhs were prevalent. Common colds are really a group of acute infections of the nose, throat and the rest of the respiratory tract, the infecting agents being microbes of many varieties including staphylococci, streptococci, pneumococci, catarrhal micrococci and influenzal bacilli.

The popular fallacy still persists that colds are due to exposure to draughts, sudden changes of temperature, and chilling of the body, but these, combined with the increased amount of indoor life, are only predisposing causes. They lead to diminished resistance and increase the susceptibility to infection. Bad ventilation is the commonest predisposing cause of "colds." The atmosphere in many rooms and most crowded halls and theatres, is stuffy, warm, stagnant, moist and germ laden, and the result is congested, swollen, respiratory mucous membranes covered with thick secretion and highiy susceptible to infection. In such places, the head is hot and the feet cold, whereas the head should be cool and the feet comfortably warm.

The temperature of the air at which the human body functions best is about 68° F (20° C) with humidity of about 50 per cent. and the air should be kept fresh and moving by a continuous gentle stream from outside. Prevention of colds consists, first, in avoiding infection, and second, in guarding against the predisposing causes. The way of prevention is by avoiding close contact with those who are sneezing and coughing in the acute stage of infection; by healthy exercise in the sun and open air; by sleeping well covered up, but with open windows; by avoiding ill-ventilated, overheated and germ-laden rooms and public places; by keeping the body and feet warm during sedentary occupations; by wearing warm but light and loose clothing, by an ample but simple diet with plenty of fresh fruit and vegetables.

Such practices will improve nutrition, stimulate vital activity, increase control over the nervous system, improve the tone of the circulation, strengthen the muscles, enrich the blood and create a healthy, vigorous body with a high resistance to infection.

Here follow Tables of Vital Statistics, Communicable Diseases and of the work of the Food, Dairies and Markets Division, Sanitation Division, Tuberculosis and Venereal Diseases Clinics and Municipal Laboratories, Hospitals and Slaughterhouse.

C. NOEL DAVIS,
Commissioner of Public Health.

Chlorine in chlorides has varied from 1.6 to 2.3 parts per 100,000 and free chlorine from 0.03 to 0.08 parts per million. Nitrites have been absent and saline ammonia figures have been normal.

Bacteriological Examination.—20 samples of Shanghai Waterworks Water were examined, each sample consisting of 120 cc.

Of these 15 contained no coliform organisms. 4 specimens contained non-lactose-fermenting coliform organisms in numbers varying from 10 to 615 per litre.

One case of tap water contained 40 organisms per litre of the B. Coli group, which could not be differentiated further.

Of the series examined, 4 were taken from the mains; one of these showed the presence of 45 non-lactose-fermenting coliform organisms per litre.

The results obtained show that the standard of bacteriological purity of the water is consistently high.

Report on Analysis.—Results of analyses show satisfactory purification.

Parks Report for November.

At Jessfield Park, the effect produced by dahlias was exceptionally good, and, as they included some of the finest varieties obtainable in Europe and America, they were specially interesting to those who specialise in their culture, whilst their brilliant colours appealed to all visitors. The mild and dry weather prolonged their period of growth and, consequently, Chrysanthemums to replace them were unnecessary. An effective exhibit of a new, small flowered type of Chrysanthemum was shown at the Autumn flower show where, owing to their distinctive appearance, they attracted much attention.

Building Rules.

Enforcement against Chinese cigarette factories.—Correspondence has recently taken place between the Consular Body and the Council relative to the enforcement of Land Regulation XXX against certain Chinese cigarette factories. In the Council's reply it is requested that the Senior Consul notify the Commissioner for Foreign Affairs (who transmitted the complaint of the factory owners) that the Council will permit no interference in its duty of administering the Building Rules, "as it is only by constant vigilance and direct action, when necessary, that calamities attended by serious loss of life, such as have occurred in Chapei and other districts under Chinese control can be prevented." The correspondence is appended:—

Senior Consulate,
Shanghai, November 28, 1927.

SIR,—I have the honour to transmit herewith a translation of a communication which I have received from the Commissioner for Foreign Affairs regarding the detailing of foreign inspectors by the Municipal Council to Chinese Cigarette factories.

I should be grateful if you would be good enough to let me have such comments as you may desire to make on the subject matter of this communication in order that I may reply to the Commissioner.

I have the honour to be,
Sir,
Your obedient servant,
EDWIN S. CUNNINGHAM,
American Consul-General and Senior Consul.

S. FESSENDEN, Esq.,
Chairman, Municipal Council.

A letter from Quo Tai-chi, Special Envoy for Foreign Affairs, to Senior Consul, Shanghai.

November 17, 1927.

SIR,—I have the honour to acquaint you with the fact that a letter was received sometime ago from the Chinese Cigarette Manufacturers' Association of Shanghai stating that the Municipal Council has detailed its foreign inspectors to regulate the installation of machinery and stoves in Chinese cigarette mills. According to the report received later from my deputy who was detailed to the Municipal Council to take up the matter orally with those concerned, Commissioner-General Johnson and Deputy Commissioner Martin both claimed to have no knowledge of any such step having been taken by the Municipal Council to regulate Chinese merchants. The information was communicated to the Chinese Cigarette Manufacturers' Association with the request that a report be made after inquiries. In reply, the Association submitted the following statement:—

"On the 10th instant, some foreigners connected with the Fire Brigade and the Health Department of the Municipal Council brought with them 40 or 50 coolies again to the Hua Te and Chung Ho Cigarette Mills and, without asking or waiting for explanations, wilfully removed and destroyed the raw material, stoves, tool sharpeners, glass-houses, shelvings, partitions, wood-work *et cetera* in their premises with the result that they were compelled to suspend work and business and bear heavy losses. Detailed claims will be presented later."

Three photographs showing the destruction of the property of the Hua Te Company were transmitted and a representative was sent to this office to complain verbally of the heavy losses incurred. In the meantime, identic letters were received from the General Chamber of Commerce, Shanghai, and the Shanghai Branch of the Kuomintang in connection with this subject.

I would observe that Chinese cigarette mills, being engaged in perfectly legitimate business, should be equally well treated and furnished with adequate protection by the Settlement authorities. The machinery installed in these mills has all been inspected by the Municipal Council; why does the Council generally fail to give detailed instructions in regard to its installation, if the machinery is not properly installed? Granting that it was accidentally found that the plans of construction must be altered for the sake of public safety and health, the Council should have observed suitable procedure in each case and allowed a reasonable length of time for the necessary changes instead of recklessly adopting free and high-handed measures toward all of the Chinese cigarette mills as if none of them could be allowed to exist at the present time. It is difficult to understand the motive underlying the action which has been taken.

The Municipal police authorities seem to be indifferent since they deny having any knowledge of the present case and it is difficult to tell whether or not the arbitrary action of the Health Department was taken by order and in conformity with the resolution of the Councillors. In short, no matter what argument may be advanced, it is a salient and accomplished fact that the Chinese cigarette mills have been almost completely destroyed by this stroke of policy which came to them as suddenly as a thunder clap comes to one before he has time to stop his ears. As it is always my principle to enable Chinese and foreign traders to develop with equal opportunities, I have to protest emphatically against such a singular move with which I feel unable to remain patient and to demand that the premises of the Hua Te Company and other concerns be immediately restored to their former condition. It is further requested that stringent measures be adopted to prevent a repetition of such act in future. In the event that these cigarette mills are required to make any improvement, it would be incumbent upon the Municipal Council to cause its engineers to give them individually detailed instructions and allow reasonable length of time for gradual alterations in the interest of justice.

Besides sending a deputy to make further representations to the Municipal Council, I have the honour to bring the matter to the Senior Consul's notice and to request that the Council be instructed to take action along the indicated line.

A reply is requested.

With my compliments,

(Signed) QUO TAI-CHI.

Council Chamber,
Shanghai, December 15, 1927.

SIR,—I have the honour to refer to your letter of November 28, on the subject of Chinese cigarette factories, and to inform you that the action alluded to by the Commissioner for Foreign Affairs was taken by the Public Works Department under Land Regulation XXX, which provides, *inter alia*, that the Council may from time to time make Rules with respect to new buildings for securing stability, the prevention of fires, etc., and may remove, alter or pull down any work begun or done in contravention of such Rules or of any Bye-law of the Council.

In this connection, I have the honour to inform you that in no case has any work been demolished without previous notice in writing and opportunity being given to the occupier or owner to amend the unsatisfactory conditions himself. The complainants do not appear to have submitted to the Commissioner for Foreign Affairs the written notices handed to them by the Public Works Department, which has taken no subsequent action in the matter except such as forms part of its authorized routine duties. In no case has any raw material or machinery been misplaced or left unprotected. Work of the nature referred to is carried out from time to time, and is not directed against the members of the Chinese Cigarette Manufacturers' Association or any other section of the community. Many cigarette manufacturers have, however, attempted to create factories by adapting simple Chinese houses for the purpose, in total disregard of the Building Rules and of the safety of their own employes and of the adjoining buildings.

I have the honour to add that the Fire Brigade has taken no part in enforcing the Council's requirements, and has not removed raw materials from any premises except occasionally at a fire.

In view of the foregoing facts, I have the honour to state that the Council will permit no interference in its duty of administering the Building Rules, as it is only by constant vigilance and direct action, when necessary, that calamities attended by serious loss of life, such as have occurred in Chapei and other districts under Chinese control, can be prevented.

In conclusion, I have the honour to request that you will submit these considerations to the attention of the Commissioner for Foreign Affairs.

I have the honour to be,
Sir,
Your obedient servant,
STIRLING FESSENDEN,
Chairman.

EDWIN S. CUNNINGHAM, ESQ.,
American Consul-General and
Senior Consul, Shanghai.

Deductions hold good in respect of children of the same family attending any of the Council's schools for foreign children.

Children of non-resident parents, unless already in attendance at the schools, will not be admitted. Non-residence implies residence in Shanghai of less than six months. Special consideration will, however, be given to applications of new comers who can furnish proof of their intention to reside in Shanghai.

Forms of admission for new pupils may be obtained on written application to the Heads of the respective schools and should be presented by the new pupils when attending at the Schools for examination and classification on Wednesday, January 4, between the hours of 9.30 a.m. and 11.30 a.m.

Heads of Schools will be pleased to interview parents on Wednesdays between the hours of 2 and 3 p.m. on matters affecting the welfare of their children.

The Cinema at the Public School for Boys will be in operation during the Spring and Summer Terms and the Headmaster takes this opportunity of inviting parents to see for themselves the value of the Cinema as an aid to education.

Payment of Dues.

Attention is directed to the ruling of the Council that all school fees are payable in advance. Parents are accordingly requested to pay their children's fees for the month of January, and each succeeding month, on the days noted below, when the division of each school for purposes of fees collection will be as follows:—

Public School for Boys:—

1st School day in the month 8.30 a.m. Forms VI, V, IV.
2nd School day in the month 8.30 a.m. Forms III, II.
3rd School day in the month 8.30 a.m. Forms I, Preparatory and new pupils

Western Junior School for Boys:—

4th School day in the month 9 a.m.

Public School for Girls, Yuyuen Road:—

1st School day in each month 9 a.m. Kindergarten and Transition
2nd School day in each month 9 a.m. Forms I and II.
3rd School day in each month 9 a.m. Forms III, IV.
4th School day in each month 9 a.m. Forms V, VI, and new pupils.

Boone Road School:—

1st School day in the month 9 a.m. Kindergarten and Transition.
2nd School day in the month 9 a.m. Forms I and II.
3rd School day in the month 9 a.m. Forms III, IV, V, and new pupils.

Yulin Road School:—

1st School day in each month 9 a.m. Kindergarten and Transition.
2nd School day in each month 9 a.m. Forms I, II, and new pupils

Thomas Hanbury School for Boys:—

1st School day in the month 1.30 p.m., Forms VI, V.
2nd School day in the month 1.30 p.m., Forms IV, III.
3rd School day in the month 9 a.m. Forms II, I, and new pupils.

Thomas Hanbury School for Girls:—

1st School day in the month 1.30 p.m., Forms VI and V.
2nd School day in the month 1.30 p.m., Forms IV and III.
3rd School day in the month 1.30 p.m., Forms II and I.
4th School day in the month 9 a.m., Kindergarten, Transition, and new pupils.

Parents are specially requested to ensure prompt payment of fees on the first 4 days of each month in accordance with the scheme outlined above, as the payment of fees by children at unauthorised times throughout the month seriously embarrasses class work in the Schools. Accordingly, pupils whose fees remain unpaid after the period of fees collection outlined above are liable to be debarred from further attendance.

The attention of parents is drawn to the following:—

(a) In the case of two or more children of one family attending separate Council Schools the fees for each child should be paid to the school at which the child attends.

(b) The Council disapproves the practice of young children personally conveying money for fees to school, and would prefer that fees be paid by cheque, chit book, or registered post. However, it would appear that this matter is one for the parents' own decision and responsibility, and is accordingly beyond the Council's control.

(c) Parents are reminded that on all occasions before a child is withdrawn from a Council School a month's notice must be given in writing to the Headmaster or the Headmistress. Non-compliance with this rule renders parents liable to a charge of a month's fee in default. The withdrawal of a child from school at the end of a term does not negative this Rule.

By order,
S. M. EDWARDS,
Secretary.

Council Chamber,
Shanghai, December 8, 1927.
